Accordingly, to what extent, the financial statements included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should accordingly be limited. Any percentage amounts, as set forth in "Risk Factors", "Our Business", "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this Prospectus unless otherwise indicated, have been calculated on the basis of the Company's restated financial statements prepared in accordance with the applicable provisions of the Companies Act and Ind AS and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditors, set out in the section titled "Restated Financial Statements" beginning on page 257 of this Prospectus.

Currency and units of presentation

In this Prospectus, All references to:

- 'Rupees' or 'Rs.' are to Indian Rupees, the official currency of the Republic of India.
- 'U.S.$', 'U.S. Dollar', 'USD' or 'U.S. Dollars' are to United States Dollars, the official currency of the United States of America.

In this Prospectus, our Company has presented certain numerical information. All figures have been expressed in "lakhs" of units or in whole numbers where the numbers have been too small to be represented in lakhs. One lakh represents 1,00,000 and ten lakhs represents 10,00,000 and one crore represents 1,00,00,000 and ten crores represents 10,00,00,000. However, where any figures that may have been sourced from third-party industry sources may be expressed in denominations other than lakhs, such figures have been expressed in this Prospectus in such denominations as provided in their respective sources.

Exchange Rates

This Prospectus may contain conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate, or at all.

Unless otherwise particularly stated in the prospectus, the following table set forth, for period indicated, information with respect to the exchange rate between the Rupee and other foreign currencies:

Industry and Market Data

Unless stated otherwise, industry data used throughout the Prospectus has been obtained or derived from the report of Infomerics Analytics &Research Private Limited ("**Infomerics**") and/or government publications, publicly available information and sources.

"**Infomerics**" is an independent agency which has no relationship with our Company, our Promoters, any of our directors or Key Managerial Personnel or the Book Running Lead Managers. The Infomerics Report has been exclusively commissioned pursuant to an engagement letter with Infomerics, for the purpose of confirming our understanding of the industry in which the Company operates, in connection with the Offer. The Infomerics Report will be made available on the website of our Company at www.aegeustechnologies.com from the date of the Prospectus till the Bid/ Offer Closing Date. Excerpts of the Infomerics Report are disclosed in this Prospectus and there are no parts, information or data from the Infomerics Report which would be relevant for the Offer that have been left out or changed in any manner by our Company for the purposes of this Prospectus. The data used in these sources may have been re-classified by us for the purposes of presentation. Data from these sources may also not be comparable, on account of there being no standard data gathering methodologies in the industry in which the business of our Company is conducted, and methodologies and assumptions may vary widely among different industry sources. Accordingly, the extent to which the market and industry data used in this Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in "Risk Factors – This Prospectus contains information from third parties, including an industry report prepared by an independent third-party research agency, Infomerics Analytics &Research Private Limited, which we have commissioned and paid for purposes of confirming our understanding of the industry exclusively in connection with the Offer.", on page 128. Accordingly, investment decisions should not be based solely on such information.

FORWARD LOOKING STATEMENTS

All statements contained in the Prospectus that are not statements of historical facts constitute forward-looking statements. All statements regarding our expected financial condition and results ofoperations, business, objectives, strategies, plans, goals and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, our revenue and profitability, planned projects and other matters discussed in the Prospectus regarding matters that are not historicalfacts. These forward-looking statements and any other projections contained in the Prospectus (whether made by us or any third party) are predictions and involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or other projections.

These forward-looking statements can generally be identified by words or phrases such as "will", "aim", "will likely result", "believe", "expect", "will continue", "anticipate", "estimate", "intend", "plan", "contemplate", "seek to", "future", "objective", "goal", "project", "should", "will pursue" and similar expressions or variations of such expressions.

Important factors that could cause actual results to differ materially from our expectations include but are not limited to:

- our ability to adapt to technological updation;
- our ability to successfully identify customer requirements and preferences and gain customer acceptance for our services;
- our ability to manage our working capital cycles and generate sufficient cash flow to satisfy any additional working capital requirements.
- our ability to maintain quality standards;
- changes in the competition landscape;
- our ability to successfully implement strategy, growth and expansion plans;
- our ability to respond to new innovations in our industry;
- our ability to attract and retain qualified personnel;
- our ability to finance our business growth and obtain financing on favorable terms;
- conflict of Interest with affiliated companies, the promoter group and other related parties;
- general social and political conditions in India which have an impact on our business activities or investments;
- impact of Covid 19 pandemic or any future pandemic;
- market fluctuations and industry dynamics beyond our control;
- developments affecting the Indian economy;

For a further discussion of factors that could cause our current plans and expectations and actual results to differ, please refer to the chapters titled "*Risk Factors*", "*Our Business*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations"* beginning on page 22, 183 and 259, respectively of this Prospectus.

Forward-looking statements reflect views as of the date of the Prospectus and not a guarantee of future performance. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Neither our Company / our Directors nor the BRLM, nor any of its affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the BRLM will ensure that investors in India are informed of material developments until such time as the listing and trading permission is granted by the Stock Exchange(s).

SECTION II- RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Prospectus, including the risks and uncertainties summarized below, before making an investment in our Equity Shares. The risks described below are relevant to the industries our Company is engaged in, our Company and our Equity Shares. To obtain a complete understanding of our Company, you should read this section in conjunction with the chapters titled "Our Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" beginning on page numbers 183 and 259, respectively, of this Prospectus as well as the other financial and statistical information contained in this Prospectus. Prior to making an investment decision, prospective investors should carefully consider all of the information contained in the section titled "Financial Information, as Restated" beginning on page number 257 of this Prospectus.

If any one or more of the following risks as well as other risks and uncertainties discussed in the Prospectus were to occur, our business, financial condition and results of our operation could suffer material adverse effects, and could cause the trading price of our Equity Shares and the value of investment in the Equity Shares to materially decline which could result in the loss of all or part of investment. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is therefore subject to a legal and regulatory environment that may differ in certain respects from that of other countries.

This Prospectus also contains forward looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors, including the considerations described below and elsewhere in the Prospectus. These risks are not the only ones that our Company face. Our business operations could also be affected by additional factors that are not presently known to us or that we currently consider to be immaterial to our operations. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify financial or other implication of any risks mentioned herein.

The financial information in this section is, unless otherwise stated, derived from our Restated Financial Statements prepared in accordance with Indian GAAP, as per the requirements of the Companies Act, 2013, and SEBI (ICDR) Regulations.

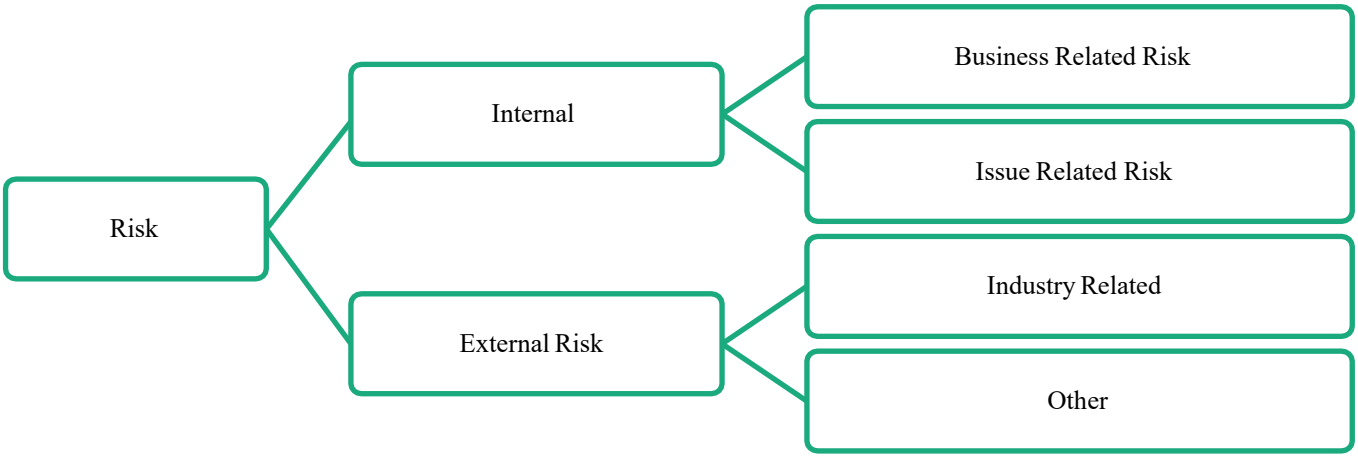
Materiality

The Risk factors have been determined based on their materiality, which has been decided based on following factors:

1. Some events may not be material individually but may be material when considered collectively.
2. Some events may have an impact which is qualitative though not quantitative.
3. Some events may not be material at present but may have a material impact in the future.

This space has been left blank intentionally.

Classification of Risk Factors



Internal Risk Factors

1. ***We depend on a limited number of customers for a significant portion of our revenues. The loss of a major customer or significant reduction in demand from any of our major customers may adversely affect our business, financial condition, results of operations and profitability.***

A significant portion of our revenue is derived from a limited number of customers, primarily large solar developers, EPC contractors and O&M service providers. Our dependence on a concentrated customer base exposes us to revenue volatility and business uncertainty. If any of our major customers reduces their procurement of our robotic cleaning systems, delays ongoing projects, negotiates lower prices, or terminates contracts, our business and financial performance may be adversely affected.

The contribution of our Top One, Top Five, and Top Ten customers with the Revenue from operations for the last three financial years is set out below:

(Amount in Lakhs, except %)

Particulars	For the period ended March 31, 2026	For the Financial Year ended 31st March 2025	For the Financial Year ended 31st March 2024
Revenue from Operations	4093.69	2,189.01	1,527.39
Top One (1) Customer	1,611.74	637.32	459.00
% of Top One (1) Customers to Revenue from Operations*	***39.37%***	***29.11%***	***30.05%***
Top Five (5) Customer	3,413.94	1511.25	1136.98
% of Top Five (5) Customers to Revenue from Operations*	***83.40%***	***69.04%***	***74.43%***
Top Ten (10) Customer	3,735.84	1,911.78	1,276.08
% of Top Ten (10) Customers to Revenue from Operations*	***91.26%***	***87.34%***	***83.55%***

**The % has been derived by dividing the total amount received from Top One, Top Five, and Top Ten customers with the Revenue from operations of the company in the relevant year as mentioned in the Profit and Loss Statement as given in restated consolidated financials of the company.*

Further, due to the niche nature of the solar robotics industry, large customers often have higher bargaining power. As a result, we may be required to agree to stringent or unfavorable contractual terms, including extended payment

cycles, performance guarantees, liquidated damages, and stringent service-level commitments, which may impact our profitability.

However, we confirm that during the last three financial years, we have not experienced any disruption, material dispute, cancellation, or adverse impact on our business arising from customer concentration or loss of a major customer. Despite this, there can be no assurance that such risks will not arise in the future.

2. ***Unpredictable Soiling Patterns, Seasonal Variations and Extreme Weather Events Could Materially and Adversely Affect Our Business, Financial Condition, Results of Operations and Cash Flows***

The demand for our robotic cleaning systems, Annual Maintenance Contracts (AMC), and Module Cleaning as a Service (MCaaS) is significantly influenced by the soiling intensity on solar modules, which varies across regions and seasons. Soiling patterns depend on multiple external factors such as dust levels, humidity, rainfall, agricultural activity, industrial emissions, and climatic conditions. Periods of high rainfall or lower dust accumulation typically reduce the frequency of panel cleaning, which may temporarily decrease demand for cleaning services or delay deployment schedules by customers.

Conversely, during high-soiling seasons, customers may increase cleaning frequency, which can lead to short-term surges in demand. This seasonal variability may impact the predictability of our order inflow, utilisation of deployed robots, and revenue from MCaaS and AMC contracts. Such fluctuations may also affect our inventory planning, service scheduling, and capacity utilisation.

Further, in certain regions, extreme weather events—such as heavy rains, storms, or low-visibility dust events—can disrupt field operations, delay installations, restrict site access, or impact cleaning cycles. These factors may adversely affect service delivery timelines and revenue recognition.

While we have not experienced any material adverse impact due to seasonal or soiling-related demand variations in the past three financial years, there can be no assurance that future climatic trends, regional weather anomalies, or changes in soiling behaviour will not materially affect our business, operating performance, or financial condition.

3. ***Manufacturing or Quality Control Issues in Our Products Could Adversely Affect Our Business and Reputation.***

Our Company's business is dependent on the performance, reliability, and quality of its products, including Unicorn Smart, Unicorn R2R, Shreem, and other technology-driven solutions, as well as related services. Any manufacturing defects, design flaws, component failures, software malfunctions, or quality control lapses in these products could result in operational failures at customer sites, product rejections, warranty claims, customer dissatisfaction, or loss of confidence in our products and brand.

Our products involve integrated hardware, electronics, software, and mechanical components, and the manufacturing of such products entails inherent risks, including process deviations, supplier quality issues, assembly errors, testing failures, or non-compliance with prescribed specifications and standards. Any failure to maintain consistent quality standards could adversely affect customer acceptance and our competitive position.

Any occurrence of manufacturing or quality-related issues may expose our Company to warranty obligations, replacement costs, contractual claims, regulatory scrutiny, or litigation, and could have a material adverse effect on our business, financial condition, results of operations, cash flows, and prospects.

While our Company has not experienced any material manufacturing defects, quality control failures, product recalls, or related litigation during its start-up period or during the last three financial years, there can be no assurance that such issues will not arise in the future, particularly as we scale up manufacturing operations, expand capacity, and introduce new product lines.

4. ***Limited Market Adoption of Robotic Solar Panel Cleaning Solutions and Uncertainty Regarding Industry***

Maturity

Our Company is engaged in the design, manufacturing, and deployment of solar panel cleaning robots, which represent an emerging and evolving technology in India. The market for robotic solar panel cleaning solutions is currently at a nascent stage, with a significant number of solar power plant operators continuing to rely on manual or semi-automated cleaning methods due to factors such as perceived lower upfront costs, operational familiarity, or limited awareness of the long-term efficiency and cost benefits associated with automated solutions.

The pace at which the industry transitions towards robotic cleaning solutions remains uncertain and is influenced by multiple factors, including technological acceptance, customer readiness, budgetary constraints, and the development of regulatory, environmental, or efficiency-related standards. There can be no assurance that such a transition will occur within the timelines anticipated by our Company or at all.

Any delay in the adoption of robotic cleaning solutions, resistance from potential customers, or slower-than-expected industry maturity could adversely affect our market penetration, revenue growth, predictability of cash flows, and long-term scalability. In addition, extended sales cycles and increased customer education and demonstration requirements may result in higher sales and marketing costs, which could have a material adverse effect on our business, financial condition, results of operations, and future prospects.

5. Rapid Technological Change and Risk of Obsolescence in Robotic Cleaning Solutions

Our business is significantly dependent on our ability to design, manufacture, and offer technologically advanced, reliable, and cost-effective robotic cleaning solutions. The fields of robotics, automation, artificial intelligence, materials science, and sensor technologies are characterized by rapid technological change and frequent innovation, which may result in our existing products becoming less competitive or technologically obsolete over time.

If we are unable to continuously innovate, invest in research and development, upgrade our existing product portfolio, or adapt our solutions to evolving industry standards, regulatory requirements, or customer expectations, our competitive position, market acceptance, and revenue growth could be adversely affected. Further, the introduction of more advanced, efficient, or economically viable products by competitors could lead to pricing pressures, loss of market share, or reduced demand for our products.

While our Company is actively engaged in ongoing research and development initiatives, product enhancements, and the introduction of new models and features to remain competitive and aligned with evolving customer requirements, there can be no assurance that such efforts will be successful, timely, or sufficient to prevent technological obsolescence.

Any failure to anticipate or respond effectively to technological changes may have a material adverse effect on our business, financial condition, results of operations, cash flows, and future prospects.

6. There are outstanding legal proceedings involving our Company as well as our promoter/promoter group, Key Managerial personel (KMPs) and Senior Manager Personel . Any adverse outcome on such proceedings may affect our business, financial condition and reputation.

There are outstanding legal proceedings involving our Company. Additionally, certain members of our Promoter/Promoter Group and Key Managerial Personnel are also involved in legal proceedings before various authorities. Any adverse outcome in these matters may materially and adversely affect our business operations, financial condition, results of operations, cash flows, or reputation. We cannot assure you that these proceedings will be decided in favour of our Company or the concerned individuals. Further, we cannot rule out the possibility of additional claims, notices, or legal proceedings being initiated against us or our Promoter/Promoter Group and KMPs in the future, which may result in unforeseen liabilities, increased compliance costs, or reputational challenges.

The details of the outstanding legal proceedings are as follows:

(Amount in Lakhs)

Name	By/Against	Civil Proceeding	Criminal Proceeding	Tax Proceeding	Actions by regulatory authorities	Amount Involved
Company	By	-	-	-	-	-
	Against	-	-	2	-	49.46
Promoters/ Directors	By	-	-	-	-	-
	Against	-	-	-	-	-
KMPs and SMPs	By	-	-	-	-	-
	Against	-	-	-	-	-
Subsidiary	By	-	-	-	-	-
	Against	-	-	-	-	-

For further details of legal proceedings involving the Company, please see section titled "Outstanding Litigations and Material Developments" beginning on page 275, of this Prospectus.

7. Dependence on Timely Completion of Land Acquisition and Construction for Capacity Expansion.

Our Company proposes to utilise a portion of the Net Proceeds, aggregating to approximately ₹574.00 lakhs, towards the expansion of our manufacturing facility, of which approximately ₹361.60 lakhs is proposed for the purchase of land and approximately ₹212.40 lakhs is proposed for civil construction and related works. The Company has executed an agreement to sell with the landowner for the acquisition of the said land.

The Company has executed an agreement to sell with the landowner for the acquisition of the said land.

Details of the land seller are as follows:

Particulars	Details
Name of the Seller:	Mr. Rajesh K
Nature of Ownership:	Individual
Property Address:	Survey No. 100/1, Harapanahalli Village, Anekal, Bengaluru – 560076
Area Proposed to be Acquired:	Approximately 10,000 square feet
Relationship with the Company / Promoters / Directors:	No
Date of Agreement to sell	December 15, 2025

The successful implementation of the proposed manufacturing capacity expansion is subject to various risks, including timely completion of construction, cost overruns, obtaining necessary approvals, contractor performance, supply chain disruptions, and unforeseen delays. Any delay or failure in completing the expansion as planned may affect our ability to scale operations, meet production targets, or generate the anticipated operational and financial benefits.

Consequently, any adverse events or delays in implementing the manufacturing capacity expansion may have a material adverse effect on our business, financial condition, results of operations, and growth prospects.

8. Our Top 10 Suppliers contribute a significant portion of our raw material Any dispute with one or more of them may adversely affect our business operations.

Our company depends upon a limited number of suppliers for procuring raw materials used in the manufacturing process. However, As of March 31, 2026, our company has experienced a reduction in reliance on the top 10 suppliers, despite previously depending on a limited number of suppliers for these needs.

The contribution of our Top One, Top Five, and Top Ten Supplier for the financial year ended March 31, 2026, 2025, 2024 is mentioned as follows:

On the basis of Restated Consolidated Financial statement of the Company:

(Amount in lakhs, except %)

Particulars	For the period ended March 31, 2026	For the Financial Year ended 31st March 2025	For the Financial Year ended 31st March 2024
Top 1 Supplier	341.08	177.71	150.35
% of Purchases	***19.12%***	***13.94%***	***13.48%***
Top 5 Suppliers	945.36	633.66	513.89
% of Purchases	***52.99%***	***49.71%***	***46.09%***
Top 10 Suppliers	1,198.56	923.39	712.87
% of Purchases	***67.19%***	***72.45%***	***63.93%***

Note: The percentages listed above are calculated as a percentage of purchases without netting off amount capitalized towards development of intangible assets based on restated consolidated financial statement.

Though we have not faced any difficulties or loss of any material supplier in the last three preceding financial years. However, we cannot assure you that we will not face any such situations in the future, or the procurement of services and ad space will be on commercially viable terms. Furthermore, any dispute with any of the suppliers may damage our relationship with existing and potential suppliers, and in any such event our operations will be adversely affected. Further it will also affect our profitability and reputation in the market. However, there were no past instances where we have experienced any losses due to the loss of any supplier.

9. Under-utilization of our current manufacturing facility and any inability to effectively utilize our manufacturing capacity could have an adverse effect on our business, future prospects and financial performance.

Our ability to maintain profitability and achieve sustainable growth is significantly dependent on the efficient utilization of our manufacturing facilities. As of the date of this Prospectus, our manufacturing facilities are not operating at full capacity. The current installed capacity, actual production and capacity utilization for our key products are set out below:

1. For Unicorn R2R

(in Nos)

Financial Year/Period	Period of Utilization in Months	Installed Capacity for 12 Months	Installed Capacity Pro Rata Basis	Production	Utilization (%)

2023-24*	12	78.00	78.00	22.00	28.21

*Refer Table 1

* **As certified by a M/s Garg & Associates Chartered engineer vide their certificate dated July 14, 2026.*

Note: 1. Table 1: Installed Capacity Calculations

S. No	Product Range	Total Available Assembly Lines (in NOS)	Designated Average Assembly Lines per Product	Estimated Average Production Capacity per Assembly Line per Day	Estimated Average Production Capacity per Day	Estimated Average Production Capacity per Month	Estimated Average Production Capacity per Year
1	Unicorn- R2R	04.00	1.00	2.50	2.50	65.00	780.00
2	Unicorn-Smart		2.50	5.50	13.75	357.50	4,290.00
3	Shreem		0.50	0.50	0.25	6.50	78.00

Our capacity utilization levels are dependent on several factors, including, but not limited to, the volume and timing of customer orders, availability and timely procurement of raw materials and components, prevailing industry and market conditions, order mix, and specific technical or delivery requirements of customers.

Any under-utilization of our manufacturing capacity may lead to higher fixed costs per unit, operational inefficiencies and lower margins. Further, any disruption to our manufacturing operations due to unforeseen events, routine or unscheduled maintenance, labour issues, or supply chain constraints affecting the availability of raw materials may adversely impact our production schedules. Such disruptions could result in delays in execution of orders, reduced production output and lower revenues, which may have an adverse effect on our results of operations, cash flows and financial condition.

While we continue to take steps to improve capacity utilization through increased order inflows, operational efficiencies and process optimisation, there can be no assurance that we will be able to achieve or sustain optimal utilization levels in the future. Failure to do so could materially and adversely affect our business, financial condition, results of operations and future prospects.

10. Risks Related to Allocation of Net Proceeds Towards Product Development

Our Company proposes to utilise a portion of the Net Proceeds, aggregating to approximately ₹286.14 lakhs, towards the research, design, development, and commercialization of new products, including Aegeus Optima, Aegeus Mini Shreem, Aegeus GreenSweep, and Aegeus Asset Guard.

The success of these products depends on several factors, including technological feasibility, timely completion of development activities, market acceptance, competition, and regulatory compliance. There can be no assurance that the product development efforts will be successful, that these products will achieve market acceptance, or that they will generate the expected revenues.

Any delay, failure, or cost overrun in the development, launch, or commercialization of these products may adversely affect our business, financial condition, results of operations, and growth prospects.

11. A Significant Portion of Our Revenue is Derived from the Unicorn Smart Product

A significant portion of the Company's revenue is derived from the Unicorn Smart product, and any adverse impact on the demand, pricing, performance, or acceptance of this product could materially and adversely affect our

business, financial condition, results of operations, and cash flows.

The details of Segment wise Revenue Bifurcation are as follows:

**The % has been derived by dividing the total amount received from the Revenue from operations of the company in the relevant year as mentioned in the Profit and Loss Statement as given in restated consolidated financials of the company.*

Our reliance on a single product for a majority of our revenue exposes us to risks including, but not limited to, changes in customer preferences, technological obsolescence, increased competition, pricing pressures, supply chain disruptions, regulatory changes, or failure to successfully upgrade or innovate the product. Any decline in sales or market acceptance of the Unicorn Smart product, or the inability to sustain its competitive positioning, could result in a disproportionate impact on our overall revenue and profitability.

While the Company has taken steps to diversify its product portfolio and expand into other products and services, including Unicorn R2R, Shreem, and O&M services, there can be no assurance that such diversification efforts will be successful or that revenues from such products and services will offset any decline in revenues from the Unicorn Smart product.

Accordingly, any adverse developments affecting the Unicorn Smart product could have a material adverse effect on the Company's business, financial condition, results of operations, and prospects.

12. Our Company requires significant amount of working capital for a continuing growth. Our inability to meet our working capital requirements may adversely affect our results of operations.

Our Company requires a significant amount of working capital to support and sustain its operations and growth. Given the nature of our business—which includes the design, manufacturing, and deployment of robotic solar panel cleaning systems, as well as execution of Annual Maintenance Contracts (AMC) and Module-Cleaning-as-a-Service (MCaaS)—we are required to maintain adequate levels of inventory, procure specialised components, support ongoing project execution cycles, and fund receivables arising from credit terms extended to customers.

In the event we are unable to source the required working capital in a timely and cost-effective manner, our ability to efficiently meet customer demand, execute ongoing projects, or scale our operations may be adversely affected. Even where funds are accessible, we cannot assure that such funds will always be sufficient to meet our cost estimates, or that increases in component prices, labour charges, or operating costs will not adversely impact our financial performance.

The details of our working capital for the projected, estimated and audited periods are as follows:

In our business, working capital is generally required to finance employee wages and salaries, procurement of components, execution of on-site operations, and deployment of our robotic cleaning systems and O&M services across various project locations. In the event we are unable to source the required amount of working capital, we may not be able to efficiently meet the operational timelines or service requirements of our clients, which may adversely impact our client relationships and, consequently, our business, results of operations, and financial performance.

Further, in the event of a liquidity constraint, we may be required to increase our working capital borrowings, which would result in higher finance costs and could adversely impact our profitability. Any inability to maintain adequate cash flows, access necessary credit facilities, or secure additional funding sources on a timely basis may negatively affect our financial condition and overall operational performance.

However, during the last three financial years, we have not experienced any material shortfall in working capital availability that has adversely affected our operations.

13. Our company's property used as its Registered offices and factory for the purpose of its operations is not owned by us. Any termination of the relevant lease agreements could adversely affect our operations.

The registered offices and manufacturing facility used by the company are not owned by the company, the same has been taken on lease. Any termination of the relevant lease agreements in connection with such properties or our failure to pay annual lease rental, could adversely affect our operations. Periodic renewals of such lease may increase our costs, since it is subject to rent escalation.

In the event we are required to vacate the current premises, we would be required to make alternative arrangements for new premises and other infrastructure and facilities. We cannot assure that the new arrangements will be on terms that are commercially favourable to us. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition. However, during the last three financial years, our Company has not experienced any termination, dispute, or non-renewal of its lease arrangements.

The Property that are on lease are as follows:

S. N.	Address	Owned / Leased	Lessor/Sub-Lessor	Tenure	Area	Rent	Related Party Transaction or NOT	Usage

14. *We had negative cash flows from operating, investing and financing activities as per the restated financial statements in the past and may continue to have negative cash flows in the future.*

Our company has experienced negative cash flow from "Operating Activities" during the Financial Year, primarily due to an increase in Trade Receivables as our revenue increase over the years and increase in an inventory. Additionally, we recorded negative cash flow from "Investing Activities" in the stub period and last three financial year, mainly due to purchases & CWIP in the acquisition of tangible assets and intangible assets. A continuation of negative cash flow in the future may have an adverse impact on our business, financial condition, and operational results. For further details, please refer to the section titled "Financial Information as Restated" on page 257 of this Prospectus.

The table given below set forth our cash flows for the Financial year ended 2026, 2025 and 2024 on the basis of its restated consolidated financial statements.

(Amount in lakhs)

Particulars	For the period ended March 31, 2026	For the Year ended March 31, 2025	For the Year ended March 31, 2024
Cash flow from Operating activities	(151.13)	104.84	(70.16)
Cash flow from Investing activities	(619.15)	(277.50)	(206.44)
Cash flow from Financing activities	639.90	313.04	298.50

15. ***Our recent revenue and profitability growth may not be sustainable, and any adverse changes in market conditions, supplier arrangements or costs could adversely affect our financial performance.***

Our Company has witnessed growth in revenue and profitability in recent periods. However, there is no assurance that we will be able to sustain the same pace of growth or profitability levels in the future. Our recent financial performance has benefited from factors such as expansion of trading activities, improved operational efficiencies, and favourable business conditions. Any adverse change in supplier arrangements, input costs, competitive landscape, demand patterns, or operational challenges may impact our future financial performance.

The details of our revenues and profit after tax ("PAT") for the financial year ended 2026, 2025 and 2024 are as follows:

(Amount in Lakhs, except %)

Particulars	March 31, 2026	March 31, 2025	March 31, 2024
Revenues	4,093.69	2,189.01	1,527.39
Growth %	***87.01%***	***43.32%***	***172.18%***
PAT	401.77	139.18	92.87
PAT Margin	***9.81%***	***6.36%***	***6.08%***

Our Company has experienced consistent revenue growth over the last three financial years, with revenues increasing from ₹1527.39 lakhs in the financial year ended March 31, 2024 to ₹2189.01 lakhs in the financial year ended March 31, 2025, representing a year-on-year growth of approximately 43.32%, and further to ₹ 4093.69 lakhs in the financial year ended March 31, 2026, representing a year-on-year growth of approximately 87.01%.

Further, our Profit After Tax increased from a profit of ₹ 92.87 lakhs in the financial year ended March 31, 2024, to a profit of ₹139.18 lakhs in the financial year ended March 31, 2025, and further to ₹401.77 lakhs in the financial year ended March 31, 2026. Correspondingly, PAT margins improved from 6.08% % in FY24 to 6.36% in FY25 and 9.81% in FY26.

While this performance reflects improved operational efficiency and scaling of our business operations, such growth rates and margin expansion may not be sustainable. Any slowdown in demand, increase in costs, intensification of competition, changes in supplier or customer dynamics, or regulatory developments may adversely affect our revenues, profitability, and overall financial condition.

For further details, please refer to the section titled "Financial Information as Restated" on page 257 of this Prospectus.

16. ***Our Company is dependent on third parties for the supply of raw materials required for our products and is exposed to risks relating to fluctuations in prices and shortage of raw materials. Further, we do not have any long-term supply agreements with the raw material providers.***

Our operations rely heavily on third-party suppliers for procuring various raw materials, electronic components, metals, and assemblies required for the manufacturing of our robotic solar panel cleaning systems and other automation products. The availability, quality, and pricing of these materials are subject to fluctuations due to market demand, supply chain constraints, sector-specific shortages, and global disruptions affecting the electronics and engineering supply ecosystem.

We do not have long-term supply agreements with our raw material or component suppliers, and procurements are largely based on purchase orders. As a result, we cannot assure that our existing suppliers will continue to supply materials to us in the required quantities, quality, or timelines in the future. Any disruption in supply—whether due to high demand, production bottlenecks, import delays, geopolitical uncertainties, or price volatility—may

adversely impact our ability to manufacture and timely deliver our robotic systems and fulfil AMC/MCaaS obligations.

In the event of a significant or prolonged shortage of key materials or components, or in case of substantial increase in prices, we may face challenges in securing alternative suppliers on commercially viable terms. Such disruptions could delay project execution, increase production costs, reduce margins, and adversely affect customer satisfaction and long-term business relationships. Consequently, our business, financial performance, and operational scalability may be materially impacted.

However, during the past three financial years, we have not experienced any material disruption in the availability of raw materials or components that has adversely affected our operations.

17. ***Reliance on Key Promoters, Senior Management, and Technical Personnel for Business Continuity.***

Our Company's success depends significantly on the experience and expertise of our Promoters, senior management, and technical team. We maintain group health insurance for all personnel, including key personnel; however, the loss of services of any member of our leadership or technical team could disrupt operations, delay R&D, and affect our long-term prospects.

Our Promoter and Managing Director, Mr. Suraj Vernekar'D, has over 24 years of experience in marketing, business development, product development, channel management, strategic sales, business planning, P&L management, and manufacturing strategy. Mr. Nishith Rameshchandra Shah has over 32 years of experience in the electrical wholesale business, with expertise in procurement, supply chain management, and customer relations.

Failure to retain or attract qualified personnel, particularly those with specialized technical or managerial expertise, may adversely impact our operations, product development, growth strategies, and competitive position, which could have a material adverse effect on our business and financial condition.

However, during the past three financial years, we have not experienced any such instance that could have adversely affected our operations.

18. ***The Pre-IPO shareholding of our promoters and promoter group is 64.75% and the post-IPO shareholding will remain 47.29%. The market's perception of their reduced shareholding may impact the valuation and liquidity of their shares***.

As on the date of this Prospectus, the pre-issue shareholding of our promoters is 64.75% and after IPO, their post-issue shareholding will be 47.29%. When the promoters' ownership stake is reduced to a minority position, they may no longer have the ability to make key strategic decisions or influence the direction of the company. This can result in a loss of control over the business. In addition to this, a low promoter shareholding can create a misalignment of interests between the promoters and other shareholders which can lead to conflicts and disagreements over the company's strategy and priorities.

For more details regarding the shareholding of our company, please refer to the chapter "Capital Structure" beginning on page no. 76 of the Prospectus.

19. ***We do not have long-term arrangements with online platforms, event organizers, or other marketing partners, which may affect the continuity and effectiveness of our marketing initiatives.***

Our marketing strategy is a combination of online and offline initiatives designed to strengthen brand visibility within the global solar ecosystem. Our online marketing efforts primarily rely on digital platforms such as professional networking sites, social media channels, industry portals, and other third-party digital spaces to publish content, product updates, and thought-leadership material. However, we do not enter into long-term contracts with these platform owners or digital service providers. Our engagement with such platforms is generally on a campaign-wise or need-based basis, which exposes us to potential risks of unavailability, increased pricing, or changes in platform policies.

Any inability to access required digital spaces in a timely and cost-effective manner could affect our ability to run targeted campaigns, maintain consistent visibility, or communicate with industry stakeholders. Such disruptions may impact our brand positioning, outreach efficiency, and marketing effectiveness.

Further, our offline marketing efforts—such as participation in exhibitions, conferences, and global clean-energy events—are dependent on third-party event organizers. Since these engagements are also not covered by long-term agreements, any change in event schedules, increased participation costs, cancellation of key industry forums, or non-availability of suitable exhibition opportunities may affect our ability to showcase our products, generate leads, and build strategic relationships.

Significant increases in costs associated with digital campaigns or industry events, or the unavailability of suitable platforms or physical venues, may adversely affect our marketing plans, industry visibility, customer engagement, and overall business development efforts.

However, in the last three financial years, we have not experienced any significant disruptions or unavailability of digital platforms or industry events that have materially affected our marketing activities.

20. Our Company have made delays/Non-Compliance with certain statutory provisions of the Companies Act, 2013 and Foreign Exchange Management Act, 1999. Such delayed filings/Non-Compliance may attract penalties and prosecution against the Company and its directors, which could impact the financial position of the Company to that extent.

Our Company has, in the past, experienced delays and non-compliances with certain statutory provisions under the Companies Act, 2013 and the Foreign Exchange Management Act, 1999 ("FEMA"). Such delayed filings or non-compliances may attract penalties or prosecution under applicable laws, which could have an adverse impact on the financial position of the Company and its directors to the extent of any penalties imposed.

The details of the delayed filings and non-compliances under the Companies Act, 2013 are set out below:

S.No.	Forms	Description of forms	Due Date	Filing Date	Delayed Days

Additionally, certain non-compliances under FEMA pertaining to the delayed filing of Form FC-GPR were identified. The compounding process in respect of the same has already been completed. The details are as under:

S.NO.	Forms	Description of forms	Due Date	Filing Date	Delayed Days	Remarks
1.	FCGPR	FEMA compliance	18/03/2021 26/03/2021	17/10/2025 17/10/2025	1674 days 1667 days	The Company did not file Form FC-GPR within the prescribed period of 30 days from the date of allotment. Subsequently, the Company filed a compounding application bearing Application No. PRV.BLR.FED.2025-2026.P60 dated 17/10/2025. The Reserve Bank of India (RBI), vide its Order No. C.A. BGL 1128/2025 dated 13/01/2026, compounded the said contravention and imposed a penalty of ₹87,708 on the Company. The Company duly remitted the compounding amount on 19/01/2026 in compliance with the aforesaid order..
2.	FCGPR	FEMA compliance	26/05/2022 07/06/2022	17/10/2025 17/10/2025	1241 days 1228 days	The Company did not file Form FC-GPR within the prescribed period of 30 days from the date of allotment. BGL 1128/2025 dated 13/01/2026, compounded the said contravention and imposed a penalty of ₹87,708 on the Company. The Company duly remitted the compounding amount on 19/01/2026 in compliance with the aforesaid order.

**As certified by M/s Jaspreet Dhawan & Associates, Practicing Company Secretaries. dated June 05, 2026*

Further the Company has made some non-compliance related to Companies Act, 2013 related to filing of CHG-1 details are as follows:

Form	Nature of Charge	Lender	Date of Creation of Charge	Statutory Due Date for Filing	Status of Filing	Remarks
CHG-1	Creation of charge on	ICICI Bank	July 07, 2023	August 06, 2023	Not filed within the	The charge was not filed within the timelines prescribed under Section

	secured loan	Limited			prescribed timeline	77(1) of the Companies Act, 2013. Filing of charge beyond the maximum period prescribed under the Companies (Amendment) Act, 2019 is not permitted.

**As per the opinion letter dated December 30, 2025, issued by CS Surbhi Bansal, Practicing Company Secretary, the non-filing of Form CHG-1 does not affect the legality or enforceability of the charge as between the Company and the lender bank, and the unregistered charge remains valid and enforceable between the parties.*

The Companies (Amendment) Act, 2019 has prescribed strict timelines for filing of charges, permitting filing within an initial period of 30 days from the date of creation of charge, with a further extension of 30 days on payment of additional fees, and an additional period of up to 60 days (aggregating to a maximum of 120 days) on payment of ad valorem fees. Filing of Form CHG-1 beyond the maximum period of 120 days is not permitted and no condonation of delay is available thereafter.

There may be recurrences of similar discrepancies in the future, which could expose the Company to penalties or prosecution under applicable laws, potentially affecting its business, reputation, and financial results.

It is clarified that, as of the date of this Prospectus, the above delays do not require any adjudication, compounding, or regularization under the Companies Act, 2013, and no such proceedings are pending or contemplated against the Company.

Further, the Company confirms that any amounts payable, if any, on account of adjudication or penalties arising from such past non-compliances will not be funded from the proceeds of this Issue.

The delays primarily arose due to:

1. Absence of a dedicated compliance officer at the relevant time.
2. Small size of the Company and limited availability of resources, which resulted in inadvertent oversight.
3. Certain weaknesses in internal controls, contributing to delays in execution.

To address these issues, the Company has appointed Ms. Surbhi Sharma as Company Secretary and Compliance Officer on July 1, 2025, and has taken proactive measures to improve compliance processes, including:

1. Conducting training and development sessions for staff.
2. Collaborating with consultants and legal advisors wherever required.
3. Establishing a compliance calendar for prior planning and preparation of statutory filings.

21. Our Company may incur penalties or liabilities for non-compliance with certain provisions of the GST Act, Income Tax and other applicable laws in the last 5 years.

Our Company may have incurred penalties or liabilities for non-compliance with certain provisions including lapsed/ made delay in certain filings and/or erroneous filing/ non-filing of e-forms under applicable acts to it in the last 5 years. Such non-compliances/delay Compliances/ erroneous filing/ Non-Filing/ Non-Registration may incur penalties or liabilities which may affect the results of operations and financial conditions of the company in near future. As of May 31, 2026, the details of the number of employees registered and the corresponding contributions made under the Employees' Provident Fund and Employees State Insurance Corporation are as follows:

Particular	Number of Employees registered	Month and year	Total amount paid (in Rupees)
Employees' Provident Fund	55	May 31, 2026	98,723
*Employees State Insurance Corporation	-	May 31, 2026	-

** None of the Company's 55 employees are covered under the Employees' State Insurance Act, 1948 ("ESI Act") as on May 31, 2026.*

Reason: *The gross salaries of all employees exceed the prescribed threshold limits under the ESI Act. Accordingly, the provisions of the ESI Act are presently not applicable to the Company's employees.*

It is clarified that, except for routine late fees and interest, which have been duly paid, the aforesaid delays do not require any adjudication, compounding, or regularization under the GST Act, the Income Tax Act, the Employees' State Insurance Act, the Employees' Provident Fund Act, or any other applicable laws. Further, no notices, adjudication proceedings, or prosecutions are pending or have been initiated against the Company as on the date of this Prospectus.

The Company further confirms that any amounts payable, if any, in relation to such routine late fees, interest, or any past non-compliances shall not be paid or funded from the proceeds of this Issue.

Reason for Delays: The delays were primarily attributable to the absence of a dedicated officer in the company. Additionally, there were certain weaknesses and lags in our internal controls, which further contributed to inefficiencies and delays in execution and filings of returns. Our company acknowledge these shortcomings and are actively addressing them to ensure that such delays do not occur in the future.

We regret the delay and assure you of our continued efforts to maintain full compliance in the future by mitigating and taking steps to address and reduce these delays such as:

1. Training and development sessions for the staff.
2. Collaboration with tax consultants and legal advisors, wherever required
3. Prior planning and preparation of compliance calendar.

Although the company has implemented such measures, we cannot assure you that we will not face any such similar situations in near future. Further, there can be situations where such delays are beyond the control of the company. In that case, even the mitigation steps mentioned above may not be effective and company might have to face any

notice or legal action and leading to fine and penalties.

22. ***Our Company has entered into certain related party transactions in the past and may continue to do so in the future.***

Our Company has entered into several related party transactions with our Promoters, individuals and entities forming part of our promoter group in relation to our operations. In addition, we have in the past also entered into transactions with other related parties. However, the related party transactions entered into with the Promoters/Directors/Promoter Group have been carried out in compliance with Section 188 of the Companies Act, 2013 and other applicable laws.

Further, we confirm that all future related party transactions shall be undertaken in compliance with the provisions of the Companies Act, 2013, SEBI regulations and other applicable laws.

In this regard, we further confirm that the Company has obtained a certificate in respect of related party transactions from M/s A G R A and Co., Chartered Accountants, dated July 14, 2026, certifying that all such related party transactions were carried out on an arm's length basis and in compliance with applicable laws.

The details of Related Party Transactions on the basis of Restated Consolidated Financial Statements are as Follows:

For further details, please refer to the chapter titled "Financial Information – Restated Financial Information "**Annexure J**" Restated Statement of Related Party Transactions". While we believe that all our related party transactions have been conducted on an arm's length basis as per the Companies Act, 2013, we cannot assure you that we may not have achieved more favourable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future.

23. Our Company has obtained unsecured loans amounting to Rs. 531.33 Lakhs on the basis of restated consolidated financial statements that may be recalled by the lenders at any time.

We have outstanding unsecured loans on the basis of restated consolidated financial statements amounting to Rs. 531.33 Lakhs as at March 31, 2026, which may be recalled by the lenders at any time. In the event that the lenders seek a repayment of any such loans, Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all, which may affect the result of operation and financial conditions of our business. However, there were no instances where the lenders have recalled any loans to date. For further details, please refer to the chapter titled "Financial Indebtedness" beginning on page 272 of this Prospectus.

24. We may not be able to prevent infringement or unauthorized use of our trademarks and patents, which could dilute our competitive advantage and adversely affect our business, results of operations, and financial condition.

As on the date of this Prospectus, our Company has obtained trademark registration for its logo under the Trademarks Act, 1999 and currently holds five patents related to its products. However, there can be no assurance that we will be able to effectively prevent unauthorised use, infringement, or imitation of our trademarks or patents by third parties, including those who have obtained or may apply for similar or identical intellectual property.

Any unauthorised use or infringement of our trademarks or patents may result in dilution of our brand's distinctiveness, goodwill, and reputation. Such misuse may also create confusion among customers, leading them to associate inferior or unrelated products or services with our brand, which could adversely affect customer trust, loyalty, and our market positioning.

Enforcement of intellectual property rights, particularly in India, can be difficult, time-consuming, and costly. The measures undertaken by us to protect our trademarks and patents may not be sufficient to prevent infringement or misuse by third parties. Any failure to adequately protect our intellectual property rights may adversely impact our business operations, financial condition, results of operations, and future prospects.

The details of trademarks and patents registered or applied for by the Company are as follows:

25. Our insurance coverage in connection with our business may not be adequate and may adversely affect our operations and profitability.

Our Company has obtained insurance coverage in respect of its employees. For further details in relation to our Insurance, please refer to the section titled - Insurance in the chapter titled "Our Business" beginning on page 183 of this Prospectus. The insurance policies are renewed periodically to ensure that the coverage is adequate, however, our insurance policies do not cover all risks. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely.

Here are the details of the insurance policies held by the Company:

26. Our Company's operation and growth is dependent upon successful implementation of our business strategies.

The success of our business depends substantially on our ability to implement our business strategies effectively, within the budgeted framework and in a timely manner. We have successfully executed our business strategies in the past but there can be no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and the results of operations.

27. Cybersecurity threats continue to increase in frequency and sophistication. A successful cybersecurity attack could interrupt or disrupt our information technology systems, softwares, websites, applications or cause the loss of confidential or protected data, which could disrupt our business, force us to incur excessive costs or cause reputational harm.

Our Business is run on the back of information technology systems, softwares, websites, applications and programmatic tools. Cybersecurity threats are becoming increasingly frequent and sophisticated, posing significant risks to our information technology systems, software, websites, and applications. As these threats evolve, they can potentially compromise the security and integrity of our digital infrastructure, leading to various adverse

consequences for our business.

A successful cybersecurity attack could disrupt or interrupt our IT systems, leading to operational downtime. This disruption can prevent us from conducting normal business activities, processing transactions, or delivering services, which can have a cascading effect on our overall operations and customer satisfaction.

Additionally, such attacks may result in the loss or exposure of confidential or protected data. This could include sensitive customer information, proprietary business data, or critical operational details. The loss or breach of this information not only jeopardizes the security of our data but also exposes us to legal and regulatory repercussions. We might be required to notify affected parties, undertake extensive investigations, and implement remedial measures, all of which can incur significant costs.

We may also incur significant costs and loss of operational resources in connection with remediating, investigating, mitigating, or eliminating the causes of security breaches, cyberattacks, or similar disruptions after they have occurred, and particularly given the evolving nature of these risks, our incident response, disaster recovery, and business continuity planning may not sufficiently address all of these eventualities.

28. ***In addition to normal remuneration, other benefits and reimbursement of expenses, some of our directors (including our Promoters) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.***

Some of our Directors (including our Promoters) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. As a result, our directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. We cannot assure you that our directors or our Key Management Personnel would always exercise their rights as shareholders to the benefit and best interest of our Company, thereby adversely affecting our business and results of operations and prospects.

For further details on the shareholding of our directors who are also the Promoters of our Company, please refer to the Chapter titled "Our Management" beginning on page 225 of this Prospectus.

29. ***If we fail to maintain an effective system of internal controls, we may not be able to successfully manage or accurately report our financial risk.***

Effective internal controls are necessary for us to prepare reliable financial reports and effectively prevent and detect any frauds or misuse of funds. Moreover, any internal controls that we may implement, or our level of compliance with such controls, may decline over time. There can be no assurance that additional deficiencies or lacks in our internal controls will not arise in the future, or that we will be able to implement and continue to maintain adequate measures to rectify or mitigate any such deficiencies of lacks in our internal controls. If internal control weaknesses are identified in a delayed manner, our actions may not be sufficient to correct such internal control weakness. Such instances may also adversely affect our reputation, thereby adversely impacting our business, results of operations and financial condition.

30. ***None of our company's Board of Directors does not have experience of listed companies.***

Our company's Board of Directors consists of both executive and non-executive directors. None of our directors have any experience of listed companies. Their inexperience gives rise to risks including but not limited to compliance risk making us more prone to fines and penalties or notices from regulatory authorities which in turn give rise to reputational risk and governance risk. Furthermore, directors may not provide effective guidance or

give erroneous disclosures or intimation as required.

31. Expansion into new market segments and diversification of our products and services may expose us to operational challenges and may adversely affect our growth and profitability.

Our Company may seek to expand its operations and diversify its product and service offerings by entering new market segments, product categories, or customer applications related to automated cleaning, robotics, and allied solutions. However, our experience in certain new segments or applications may be limited, and such expansion or diversification may expose us to entry barriers, including intense competition, evolving customer preferences, regulatory requirements, and changing market dynamics.

As we venture into new product lines or market segments, there can be no assurance that such initiatives will be successful or achieve the expected commercial acceptance. The development and launch of new products or solutions may require significant investments in research and development, testing, manufacturing processes, marketing, and after-sales support. We may face challenges such as longer product development cycles, unproven technologies, delays in commercialization, higher costs, or lower-than-expected demand.

Further, diversification initiatives may require changes to our existing operational processes, supply chain arrangements, and manufacturing infrastructure. Any inability to effectively integrate new products, technologies, or operational models with our existing business could result in inefficiencies, disruption of ongoing operations, or increased costs. Additionally, competition from established players in new segments may limit our ability to price our products competitively or achieve targeted margins.

Any failure to successfully execute our expansion or diversification strategies may adversely affect our business, financial condition, results of operations, cash flows, and future prospects.

32. Fluctuation of Interest rate may adversely affect the Company's business.

For meeting our working capital requirement in ordinary course of our business, we have or may enter into certain borrowing agreements to meet those requirements. In the event interest rates increase, the cost of borrowing will also be increased, and any fluctuation in the interest rate may have the adverse effect on cash flow and profitability.

For the Financial Year ended March 31, 2026, our Company has total outstanding unsecured borrowings from banks and financial institutions aggregating to Rs. 531.33 Lakhs as per the certificate issued by M/s A G R A and Co., Chartered Accountants, dated, July 14, 2026.

For Further Information, please refer to the chapter titled "Financial Indebtedness" on page 272 of this Prospectus.

33. Significant differences exist between Indian GAAP and other accounting principles, such as Ind AS, IFRS and U.S. GAAP, which may be material to investors' assessments of our financial condition, result of operations and cash flows.

Our restated summary statements of assets and liabilities, restated summary statements of profit and loss (including other comprehensive income), cash flows and changes in equity for the Fiscals 2026, 2025 and 2024 have been prepared in accordance with the Ind AS.

We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. Ind AS, US GAAP and IFRS differ in significant respects from Indian GAAP. Accordingly, the degree to which the Restated Financial Information included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should accordingly be limited.

34. Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders' approval.

We propose to utilise the Net Proceeds towards the objects of the Company as mentioned in chapter titled "*Objects of the Issue*" beginning on page 95. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Sections 13(8) and 27 of the Companies Act, 2013, we cannot undertake any variation in the utilisation of the Net Proceeds without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders' approval may adversely affect our business or operations.

Further, our Promoters would be liable to provide an exit opportunity to shareholders who do not agree with our proposal to change the objects of the Issue or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement of our Promoters to provide an exit opportunity to such dissenting shareholders may deter the Promoters from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI.

35. Our Company is subject to foreign exchange control regulations which can pose a risk of currency fluctuations.

Our Company is involved in business transactions with international clients located globally and has to conduct the transactions in accordance with the rules and regulations prescribed under FEMA. Our international operations make us susceptible to the risk of currency fluctuations, which may directly affect our operating results. In case we are unable to adhere to the timelines prescribed under the applicable laws or are unable to mitigate the risk of currency fluctuation, it may adversely affect our business, results of operations, financial conditions and cash flows.

36. Our Company's operation and growth is dependent upon successful implementation of our business strategies.

The success of our business depends, inter alia, on our ability to effectively implement our business and growth strategies, including capacity expansion, product development, market penetration, and operational efficiency improvements. While we have generally been successful in executing our business plans in the past, there can be no assurance that we will be able to implement our strategies effectively, within the estimated timelines or budgets, or achieve the intended outcomes in the future.

Our ability to successfully implement our business strategy may be affected by several factors, including but not limited to:

1. Our ability to maintain adequate working capital to execute customer orders and support business expansion.
2. Our dependence on timely and consistent supply of raw materials and components from third-party suppliers.
3. Our ability to maintain product quality and performance standards across existing and new product lines.
4. Our ability to upgrade, adopt, and efficiently utilize new technologies, plant, and machinery.
5. Our effectiveness in managing inventory levels and supply chain logistics.

Any failure to address or manage these factors could result in delays, cost overruns, reduced operational efficiency, or loss of customer confidence. Such events could have a material adverse effect on our business, financial condition, results of operations, and future prospects.

37. ***Our Company has not paid any dividends in the past 3 financials years and our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.***

Our ability to pay dividends in future will depend on our earnings, financial condition, and capital requirements. Our business is working capital intensive, and declaration of dividend will depend upon the financial performance of our Company at the time of declaration. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements (if any) in respect of our operations, financial condition, and results of operations. Our Company has not declared dividends in the past and there can be no assurance that our Company will declare dividends in the future. For further details, please refer to the chapter titled "*Dividend Policy*" on page 256 of this Prospectus.

38. ***Our business operations are significantly dependent on the continued involvement of our Promoters, senior management, and other key personnel. The loss of any of these individuals, or our inability to attract and retain qualified and experienced professionals, could adversely impact our business performance, results of operations, financial condition, and cash flows.***

Our performance is largely dependent on the efforts, experience, and expertise of our Promoters, senior management, and other key personnel. These individuals have developed significant industry knowledge and have cultivated strong relationships with our customers and other stakeholders over the years. They play a critical role in the day-to-day operations, project development, procurement activities, and in shaping the strategic direction of our Company. For further details on the experience of our key management personnel, please refer to the section titled "Our Management" on page 225 of this Prospectus.

We cannot guarantee that these individuals or other members of our senior management team will continue their association with us, or that they will not be recruited by competitors. Our ability to retain such talent or secure suitable replacements in a timely manner may be limited. Additionally, we may be required to significantly increase compensation levels to remain competitive in attracting and retaining the skilled personnel necessary for our business.

The departure of any of these key individuals could adversely affect our business operations, strategic initiatives, financial condition, and cash flows.

39. ***This Prospectus contains information from third parties, including an industry report prepared by an independent third-party research agency, Infomerics Analytics and Research Private Limited, which we have commissioned and paid for purposes of confirming our understanding of the industry exclusively in connection with the Offer***

The industry and market information contained in this Prospectus includes information derived from an industry report prepared by Infomerics Analytics and Research Private Limited (the "Infomerics Report") titled "Industry Report on Robotic Solar Panel Cleaning and Operations & Maintenance (O&M) Industry" and dated July 16, 2026 The Infomerics Report has been commissioned and paid for by us for the purpose of confirming our understanding of the industry exclusively in connection with the Offer. We officially engaged Infomerics in connection with the preparation of the Infomerics Report pursuant to an engagement letter. The Infomerics Report uses certain methodologies for market sizing and forecasting and may include numbers relating to our Company that differ from those we record internally. Given the scope and extent of the Infomerics Report, disclosures herein are limited to certain excerpts, and the Infomerics Report has not been reproduced in its entirety in this Prospectus. Accordingly, investors should read the industry-related disclosure in this Prospectus in this context. Neither our Company, the BRLMs are related to Infomerics. For details, see "Our industry" on page 128 of this Prospectus.

Industry sources and publications are also prepared based on information as of specific dates. Industry sources and publications may also base their information on estimates, projections, forecasts, and assumptions that may prove to be incorrect. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Prospectus. Accordingly, investors should not place undue reliance on or base their investment decision solely on this information.

40. We could be harmed by employee misconduct, errors, fraud, theft, misbehaviour, negligence, or data theft, which are difficult to detect, and any such incidents could adversely affect our financial condition, results of operations, and reputation.

Employee misconduct, errors, fraud, theft, misbehavior, employee negligence, data theft or similar incidents could expose us to significant business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct or errors. Moreover, the precautions we take to prevent and detect such activities may not be effective in all cases. Our employees and agents may also commit errors or engage in activities that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions. Any such incidents, including fraud, theft, misbehavior, employee negligence, or data breaches, could adversely affect our business, financial condition, results of operations, and goodwill.

However, the Company confirms that, during the last three financial years, it has not experienced any material instances of employee misconduct, fraud, theft, misbehaviour, negligence, or data theft.

41. Absence of directly comparable listed peers may limit the relevance of industry comparisons used for valuation and investor analysis.

Our Company operates in a niche segment involving the design, manufacturing, and deployment of solar panel cleaning robotic solutions. As of the date of this Prospectus, there are no listed companies in India that are directly comparable to our business in terms of product offerings, scale of operations, or technology focus. Accordingly, there are no directly comparable listed peers for our Company.

In compliance with the SEBI ICDR Regulations, where industry comparisons are required or referred to in the "Basis for Issue Price" section of this Prospectus, such references are based on companies operating in broadly similar or related segments, using publicly available information sourced from stock exchange filings, annual reports, and other publicly disclosed data. However, such companies may differ significantly from our Company in terms of business model, product mix, scale, cost structure, growth trajectory, and risk profile.

As a result, comparisons drawn using such information may not be indicative of our Company's performance, valuation, or prospects. Investors should not place undue reliance on such comparisons while evaluating our Company or the Issue, and should consider our business, financial performance, and risk factors independently.

42. Changes in privacy and data protection laws could result in claims and may adversely affect our business, financial condition, and growth prospects

Our Company is subject to a wide range of laws, regulations, and contractual obligations related to data privacy and the protection of personal information, including laws governing the collection, storage, use, disclosure, and transfer of sensitive data. This includes compliance with the Information Technology Act, 2000, and various rules

under it, which impose civil and criminal liabilities, penalties, and imprisonment for offenses such as unauthorized disclosure of confidential information and failure to protect personal data.

Additionally, with the enactment of the Digital Personal Data Protection Act, 2023 (DPDP Act), our Company is required to comply with new, stringent privacy regulations aimed at safeguarding personal data while enabling lawful processing. This regulatory change presents operational challenges as it mandates adherence to new privacy protocols and requires investments in compliance infrastructure.

Non-compliance with these privacy and data protection laws, or failure to implement required processes effectively, could expose us to legal claims, regulatory penalties, and reputational damage. It may lead to significant operational disruptions and increased costs, particularly in relation to compliance, technology upgrades, and security measures. Furthermore, changes in regulations may limit our ability to share data with third parties or store personal information, which could adversely affect our ability to provide certain services and products, impacting our revenue streams.

Although we have not faced any major privacy-related complaints or legal proceedings to date, we cannot guarantee that we will be able to meet evolving regulatory requirements in the future. Non-compliance or difficulties in meeting new privacy laws could harm our business, reduce customer confidence, and lead to legal or financial liabilities. The risk of non-compliance or the need to adapt to future changes in privacy regulations may impact our ability to attract or retain customers, ultimately affecting our financial position and market performance.

43. The Equity Shares May Be Delayed in Listing or May Not Be Listed on the SME Platform of BSE Limited, Which Could Adversely Affect the Liquidity of the Equity Shares

There can be no assurance that the Equity Shares offered pursuant to this Issue will be listed on the SME Platform of BSE Limited within the prescribed timelines or at all. The listing and trading approvals are subject to our Company fulfilling all applicable eligibility requirements, completing all regulatory formalities and obtaining the necessary approvals from BSE Limited and other regulatory authorities.

Any delay in obtaining such approvals or failure to comply with the applicable requirements may result in a delay in listing or the Equity Shares not being listed on the SME Platform of BSE Limited. Such delay or non-listing may adversely affect the commencement of trading and the liquidity of the Equity Shares.

In the event that the Equity Shares are not listed, investors may not have access to a public market for trading their securities, which could materially and adversely affect their ability to realise returns on, or exit from, their investment.

44. Our Company's future funding requirements, in the form of further issue of capital or other securities and/or loans that might be availed by us, may turn out to be prejudicial to the interest of the shareholders depending upon the terms and conditions on which they are raised.

We may require additional capital from time to time depending on our business needs. Any further issue of Equity Shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt or preference shares, then it may substantially increase our fixed interest/dividend burden and decrease our cash flows, thus adversely affecting our business, results of operations and financial condition.

45. The average cost of acquisition of Equity Shares by our Promoters is lower than the issue price.

Our Promoters' average cost of acquisition of Equity Shares in our Company is lower than the Issue Price of the shares proposed to be offered though this Prospectus. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company, please refer to page no. 76 of this Prospectus.

46. We are subject to certain covenants under our borrowing arrangements, and any breach of these covenants may adversely affect our business, financial condition, and operations.

We have availed various credit facilities from banks and financial institutions, which are subject to customary operational and financial covenants, including restrictions relating to additional borrowings, maintenance of financial ratios, creation of further encumbrances, timely submission of financial information, utilisation of funds, and compliance with other lender-imposed conditions.

Any breach, default, or non-compliance with these conditions—whether technical or otherwise—may result in lenders enforcing their rights under the respective facility agreements, including demanding immediate repayment of outstanding amounts, imposing additional charges or penal interest, withholding further disbursements, or enforcing security.

We confirm that the Company has obtained no-objection certificates from all its lenders, including both secured and unsecured lenders, in respect of the proposed issue. While we have complied with the terms of our borrowing arrangements in the last three financial years and have not faced any adverse action from lenders, there can be no assurance that we will continue to remain in compliance with all such covenants in the future. Any such non-compliance may materially and adversely affect our cash flows, business operations, and overall financial condition.

47. Our Present Promoters Are First-Generation Entrepreneurs and Their Limited Experience in Managing a Listed Company May Adversely Affect Our Business and Growth Prospects.

Our present Promoters are first-generation entrepreneurs and have been instrumental in the growth of our Company to date. However, they have limited experience in managing a listed company and in complying with the regulatory, governance and reporting requirements applicable to a publicly listed entity.

Their limited experience in operating a listed company may pose challenges in ensuring effective corporate governance, regulatory compliance, stakeholder management and strategic decision-making in a more regulated environment. There can be no assurance that such inexperience will not adversely affect our business operations, growth prospects, financial performance or overall success in the future.

48. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the issue proceeds may delay the implementation schedule.

Our requirement for proposed funds is working capital as well as Capital expenditure as described in the section titled "Objects of the Issue" is to be funded from the proceeds of this IPO. Other than this offering, we have not identified any alternate source of funding and any delay or failure to mobilize the required funding or any shortfall in the issue proceeds may delay the implementation schedule. Further, we cannot provide any assurance that we will be able to execute our plans/strategy within the given timeframe. For details, kindly refer to the chapter titled "Object of the Issue" on page 95.

49. Compliance with public listing requirements and increased regulatory scrutiny may strain our resources and adversely affect our business operations.

Upon becoming a publicly listed company, we will be subject to increased scrutiny by shareholders, regulators, and the public, which will require us to incur significant additional legal, accounting, corporate governance, and compliance expenses that we did not face previously. We will be required to adhere to the provisions of the listing agreements with the stock exchanges, which entail stringent financial controls, timely disclosures, and ongoing compliance obligations.

Meeting these regulatory and reporting requirements will necessitate substantial allocation of management time, resources, and supervision, potentially diverting management's focus from other core business activities. Additionally, we may need to expand our management team and hire personnel with expertise in public company governance, accounting, and legal compliance. There can be no assurance that we will be able to recruit or retain such personnel in a timely manner. Failure to comply with applicable listing requirements or regulatory obligations could result in penalties, including fines and suspension of trading on the stock exchanges, which may adversely impact our business reputation, financial condition, and results of operations.

50. Our Independent Directors do not possess educational qualifications relevant to our business operations, which may affect their ability to provide effective oversight.

Our Company operates in the field of technology-driven solutions, including the design, development, and deployment of automation and robotic systems for the solar and renewable energy sector. Our business involves technological innovation, product development, regulatory compliance, and execution of complex projects across diverse geographies. However, our Independent Directors do not possess specific educational qualifications or direct industry experience relating to robotics, automation, solar technology, or allied domains in which the Company operates.

While our Independent Directors bring with them experience in governance, compliance, finance, and general management, the absence of specialised technical or sector-specific educational background may limit their ability to independently assess certain technical, operational, or industry-specific risks associated with our business. This may impact the effectiveness of oversight, strategic guidance, and decision-making in relation to matters requiring in-depth domain knowledge.

We cannot assure investors that this lack of specialised educational qualifications or industry-specific experience will not adversely affect the quality of corporate governance, risk management, or strategic decisions of the Company. Any such limitations could have an adverse effect on our business operations, financial condition, results of operations, and prospects.

EXTERNAL RISK FACTORS:

51. Equity Shares of our Company have never been publicly traded, and after the Issue, the Equity Shares may be subject to price and volume fluctuations, and an active trading market for the Equity Shares may or may not develop. Further, the Issue Price may not be indicative of the market price of the Equity Shares after the Issue.

Prior to this Issue of our Company, no public market existed for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation of Equity Shares does not guarantee that a market for the same will develop, or if developed, the liquidity of such market for the Equity Shares cannot be guaranteed. The Issue Price of the Equity Shares is proposed to be determined through a book building process in compliance with Schedule XIII of the SEBI ICDR and the same may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The Issue Price will be based on numerous factors, as described in the section "*Basis for Issue Price*" beginning on page 117 of this Prospectus. This price may not necessarily be indicative of the market price of our Equity Shares after the Issue is completed. The market price of the Equity Shares may be subject to significant

fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in.

Our Equity Shares are expected to trade on BSE after the Issue, but there can be no assurance that active trading in our Equity Shares will develop after the Issue, or if such trading develops, that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading in our Equity Shares.

52. QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after the submission of their Bid, and Retail Individual Investors are not permitted to withdraw their Bids after closure of the Bid/ Issue Closing Date.

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Bid Amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/ Issue Period and withdraw their Bids until the Bid/ Issue Closing Date. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment, within six Working Days from the Bid/ Issue Closing Date or such other period as may be prescribed by the SEBI, events affecting the investors' decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or financial condition may arise between the date of submission of the Bid and Allotment. We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Investors' ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

53. Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Issue.

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. Investors' book entry, or 'demat' accounts with depository participants in India, are expected to be credited within one working day of the date on which the Basis of Allotment is approved by the Stock Exchanges. The Allotment of Equity Shares in the Issue and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately five Working Days from the Bid/ Issue Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within six Working Days of the Bid/ Issue Closing Date. There could be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

54. Pursuant to listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measure ("ASM") and Graded Surveillance Measures ("GSM") by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors

SEBI and the Stock Exchanges have introduced various pre-emptive surveillance measures in order to enhance market integrity and safeguard the interests of investors, including ASM and GSM. ASM and GSM are imposed on securities of companies based on various objective criteria such as significant variations in price and volume, enhance the integrity of the market and safeguard the interest of the investors, concentration of certain client

accounts as a percentage of combined trading volume, average delivery, securities which witness abnormal price rise not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net worth, price / earnings multiple, market capitalization, etc. Upon listing, the trading of our Equity Shares would be subject to differing market conditions as well as other factors which may result in high volatility in price, low trading volumes, and a large concentration of client accounts as a percentage of combined trading volume of our Equity Shares. The occurrence of any of the abovementioned factors or other circumstances may trigger any of the parameters prescribed by SEBI and the Stock Exchanges for placing our securities under the GSM and/or ASM framework or any other surveillance measures, which could result in significant restrictions on trading of our Equity Shares being imposed by SEBI and the Stock Exchanges. These restrictions may include requiring higher margin requirements, requirement of settlement on a trade for trade basis without netting off, limiting trading frequency, reduction of applicable price band, requirement of settlement on gross basis or freezing of price on upper side of trading, as well as mentioning of our Equity Shares on the surveillance dashboards of the Stock Exchanges. In the event our Equity Shares are subject to such surveillance measures implemented by the Stock Exchanges, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares. The imposition of these restrictions and curbs on trading may have an adverse effect on market price, trading and liquidity of our Equity Shares and on the reputation and conditions of our Company.

55. Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution. However, if the laws of the jurisdiction the investors are located in does not permit them to exercise their pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value the custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emption rights granted in respect of the Equity Shares held by them, their proportional interest in us would be reduced.

56. A third-party could be prevented from acquiring control of us post this Issue, because of anti-takeover provisions under Indian law.

As a listed Indian company, there are provisions in Indian legal regime that may delay, deter or prevent a future takeover or change in control of our Company. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Issue. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of Takeover Regulations.

57. Changing laws, rules and regulations and legal uncertainties in India and other countries may adversely affect our business and financial performance.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax ("GST") regime with effect from July 1, 2017, that combined multiple taxes and levies by the Central and State Governments into a unified tax structure. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. The Government has enacted the GAAR which have come into effect from April 1, 2017.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

58. A slowdown in economic growth in India may adversely affect our business, financial condition, cash flows, results of operations and prospects.

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by Centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. Further, there have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

59. Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in affect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

60. ***Investors outside India subscribing to this Issue may not be able to enforce any judgment of a foreign court against us, except by way of a suit in India.***

Our Company is a limited liability company incorporated under the laws of India. Our Company's assets are located in India. As a result, it may be difficult for investors to effect service of process upon us or such persons in India or to enforce judgments obtained against our Company or such parties outside India. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. India has reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions, including the United Kingdom, Singapore, UAE, and Hong Kong. A judgment from certain specified courts located in a jurisdiction with reciprocity must meet certain requirements of the Code of Civil Procedure, 1908, as amended ("Civil Procedure Code"). The United States has not been notified as a reciprocating territory.

In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI to repatriate any amount recovered, and we cannot assure that such approval will be forthcoming within a reasonable period of time, or at all, or that conditions of such approvals would be acceptable. Such amount may also be subject to income tax in accordance with applicable law. Consequently, it may not be possible to enforce in an Indian court any judgment obtained in a foreign court, or effect service of process outside of India, against Indian companies, entities, their directors and executive officers and any other parties resident in India. Additionally, there is no assurance that a suit brought in an Indian court in relation to a foreign judgment will be disposed of in a timely manner.

61. ***Any adverse change or downgrading in ratings of India may adversely affect our business, results of operations and cash flows.***

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

62. ***Our performance is linked to the stability of policies and the political situation in India.***

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the construction sector foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

63. ***Natural disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business***

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19, man-made disasters, including acts of war, terrorist attacks, environmental issues and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition, cash flows and results of operations.

Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

64. If certain labour laws become applicable, our profitability may be adversely affected.

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Any change or modification in the existing labour laws may affect our flexibility in formulating labour-related policies.

65. Financial instability in other countries may cause increased volatility in Indian and other financial markets.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

66. Under Indian legal regime, foreign investors are subject to investment restrictions that limit our Company's ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.

Accordingly, our ability to raise foreign capital may be constrained.

As a company incorporated in India, we are subject to exchange controls that govern the borrowings in foreign currencies. Further, under applicable foreign exchange regulations in India, transfer of shares between non-residents and residents are freely permitted (subject to compliance with sectoral norms and certain other restrictions), if they comply with the pricing guidelines and reporting requirements specified under applicable laws. If share transfer is not in compliance with such requirements and does not fall under any of the permissible exceptions, then prior approval of the relevant regulatory authority is required. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness.

67. Terrorist attacks or war or conflicts involving India or other countries could adversely affect consumer and business sentiment and the financial markets and adversely affect our business.

Terrorist attacks and other acts of violence or war may adversely affect global equity markets and economic growth as well as the Indian economy and stock markets. Such acts negatively impact business and economic sentiment, which could adversely affect our business and profitability. Also, India has from time to time experienced, and continues to experience, social and civil unrest and hostilities with neighbouring countries. Armed conflicts could disrupt communications and adversely affect the Indian economy. Such events could also create a perception that investments in Indian companies involve a high degree of risk. This, in turn, could have a material adverse effect on the market for securities of Indian companies, including our Equity Shares. The consequences of any armed conflicts are unpredictable, and we therefore may not be able to foresee events that could have an adverse effect on our business.

68. Global economic, political, and social conditions may harm our ability to do business, increase our costs, and negatively affect our stock price.

Our Company is subject to external risks arising from global economic, political, structural, and social conditions that are beyond our control. These factors heavily influence macro liquidity, investor sentiment, and the broader economic environment, all of which have the potential to adversely affect our business operations, financial performance, and the market price of our Equity Shares. The global economy is highly interconnected; consequently, economic instability, tightening monetary policies, or structural slowdowns in major advanced economies and emerging markets can have a direct, adverse impact on the Indian economy and domestic financial markets. Recent and ongoing macroeconomic and geopolitical developments—including prolonged conflicts in West Asia and Eastern Europe, disruptions along critical maritime trade routes such as the Red Sea, and a global transition toward protectionist trade policies—have significantly heightened volatility across international commodity and financial markets.

Any further escalation in global geopolitical tensions, or the perception of such systemic risks, could result in elevated energy and freight costs, domestic market volatility, and disruptions in international credit networks leading to a higher cost of borrowing. Such disruptions may severely restrict the availability of capital, leading to reduced liquidity for domestic corporate issuers, including our Company. If these global inflationary pressures or market disruptions persist or worsen, our business, financial condition, prospects, and the trading price of our Equity Shares may be materially and adversely affected.

69. The ability of Indian companies to raise foreign capital may be constrained by Indian law.

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous

conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

In terms of Press Note 3 of 2020, dated April 17, 2020, issued by the Department for Promotion of Industry and Internal Trade ("DPIIT"), the foreign direct investment policy has been recently amended to state that all investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India ('GoI'). Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the GoI. Furthermore, on 22 April 2020, the Ministry of Finance, GoI has also made similar amendment to the FEMA Rules. While the term "beneficial owner" is defined under the Prevention of Money-Laundering (Maintenance of Records) Rules, 2005 and the General Financial Rules, 2017, neither the foreign direct investment policy nor the FEMA Rules provide a definition of the term "beneficial owner". The interpretation of "beneficial owner" and enforcement of this regulatory change involves certain uncertainties, which may have an adverse effect on our ability to raise foreign capital. Further, there is uncertainty regarding the timeline within which the said approval from the GoI may be obtained, if at all.

70. Exchange rate fluctuations with our foreign subsidiaries, could adversely impact our company's revenue, costs, and profitability.

Our Company's financial statements are presented in Indian Rupees (INR); however, some portion of our revenue and expenditure is in foreign currencies, especially through our foreign subsidiaries. These subsidiaries, based in jurisdictions such as United Kingdom, United States, Singapore and South Africa conduct operations in foreign currencies, and their revenues and costs are subject to fluctuations in exchange rates between the Indian Rupee and other currencies.

As we source recyclable paper globally and trade with customers and suppliers in multiple countries, changes in exchange rates between the Indian Rupee and these foreign currencies can significantly affect our business. The appreciation or depreciation of the Indian Rupee against foreign currencies may increase the cost of goods sold or reduce the profitability of transactions, as the value of revenues earned by our foreign subsidiaries may fluctuate when converted into Indian Rupees. Given the increasing contribution of our international subsidiaries to overall revenue and profitability, exchange rate volatility poses a material risk to our financial results, potentially affecting our operational costs, profit margins, and overall growth prospects.

71. Risk of Non-Compliance with Environmental, Social, and Governance (ESG) Standards and Its Impact on the Company's Reputation and Operations.

As our company operates within the recycling and logistics sectors, it is subject to growing pressure from stakeholders, including investors, customers, regulators, and the public, to align its operations with Environmental, Social, and Governance (ESG) standards. Failing to adequately address ESG concerns could pose significant reputational and financial risks for the company.

Given our core business in sourcing and trading recyclable paper, we are exposed to risks arising from potential non-compliance with environmental laws, including waste management. Such non-compliance may result in penalties, operational restrictions, or delays, which could disrupt our supply chain and adversely affect our financial performance. Additionally, as global awareness of climate change increases, regulatory requirements related to waste management and sustainability practices are becoming more stringent. Our company is obligated to ensure that its operations, particularly in sourcing recyclable materials and logistics, comply with international environmental standards. Non-compliance with these regulations, such as improper waste disposal or the failure to

meet sustainability targets, could lead to legal penalties, disruptions in business operations, and a loss of customer trust, especially given the increasing demand for eco-conscious businesses.

72. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

**Subject to Finalization of Basis of Allotment.*

***As per the Regulation 253 of the SEBI (ICDR) Regulations, 2018, as amended, as present issue is a Book Building issue the allocation is the net offer to the public category shall be made as follows:*

a) Not less than Thirty five percent to individual investor who applies for minimum application size;
b) Not less than Fifteen percent to non-institutional investor
c) Not more than fifty percent to qualified institutional buyers, five percent of which shall be allocated to mutual funds.

Provided that the unsubscribed portion in either of the categories specified in clauses (a) or (b) may be allocated to applicants in the other category.

Provided further that in addition to five percent allocation available in terms of clause (C), mutual funds shall be eligible for allocation under the balance available for qualified institutional buyers.

Furthermore, as per the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) (Amendment) Regulations, 2025, the allocation in the non-institutional investors' category shall be as follows:

(a) one third of the portion available to non-institutional investors shall be reserved for applicants with application size of more than two lots and up to such lots equivalent to not more than ₹10 lakhs;

(b) two thirds of the portion available to non-institutional investors shall be reserved for applicants with application size of more than ₹10 lakhs:

Provided that the unsubscribed portion in either of the sub-categories specified in clauses (a) or (b), may be allocated to applicants in the other sub-category of non-institutional investors.

Our Company, in consultation with the BRLM, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. The QIB Portion will accordingly be reduced for the Equity Shares allocated to Anchor Investors. 33.33% of the Anchor Investor Portion shall be reserved for domestic Mutual Funds and 6.67% for Life Insurance Companies and Pensions funds, as applicable subject to valid Bids being received from them at or above the Anchor Investor Allocation Price.

In the event of under-subscription in the Anchor Investor Portion, the remaining Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portions shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. In the event the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion will be added to the Net QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For details, see "Issue Procedure" on page 308.

Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in any category except the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories, as applicable, at the discretion of our Company in consultation with the BRLM and the Designated Stock Exchange, subject to applicable law.

DETAILS OF THE MARKET MAKING ARRANGEMENT FOR THIS OFFER

Our Company and the Book Running Lead Manager have entered into a tripartite agreement dated July 16, 2026, with Prabhat Financial Services Limited, the Market Maker registered with BSE SME, for fulfilling the market-making obligations for this Issue. In accordance with Regulation 261(4) of the SEBI (ICDR) Regulations, our Company, in consultation with the Book Running Lead Manager, shall allocate at least 5% of the Issue to the Market Maker under the Market Maker Reservation Portion.

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the BSE and SEBI regarding this matter from time to time. Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.
2. The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of BSE Limited and SEBI from time to time.
3. The minimum depth of the quote shall be Rs.1,00,000. However, the investors with holdings of value less than Rs.1,00,000 shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
4. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
5. There would not be more than five Market Makers for a script at any point of time and the Market Makersmay compete with other Market Makers for better quotes to the investors.
6. On the first day of the listing, there will be pre-opening session (call auction) and thereafter the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
7. The Marker maker may also be present in the opening call auction, but there is no obligation on him to do so.
8. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.

The Market Maker(s) shall have the right to terminate said arrangement by giving a one month notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above-mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the BRLM to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations, 2018. Further, our Company and the BRLM reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particulars point of time. The Market Making Agreement is available for inspection at our registered office from 11.00 a.m. to 5.00 p.m. on working days.

9. **Risk containment measures and monitoring for Market Makers:** SME Platform of BSE will have all margins which are applicable on the BSE Main Board viz., Mark-to-Market, Value- At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE can impose any other margins as deemed necessary from time-to-time.

10. **Punitive Action in case of default by Market Maker:** SME Platform of BSE will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non- compliances. Penalties / fines may be imposed by the Exchange on the Market Makers, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties/ fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker(s) in case he is not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

    The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines/ suspension for any type of misconduct/ manipulation/ other irregularities by the Market Makers from time to time.

    Price Band and Spreads: Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27,2012, limits on the upper side for Markets Makers during market making process has been made applicable, based on the issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% ofthe Issue Size)
Up to Rs. 20 Crore	25%	24%
Rs.20 Crore to Rs.50 Crore	20%	19%
Rs.50 Crore to Rs.80 Crore	15%	14%
Above Rs.80 Crore	12%	11%

The Marketing Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and/or norms issued by SEBI/BSE from time to time.

The trading shall take place in TFT segment for first 10 days from commencement of trading. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

This space has been left blank intentionally.

We confirm that the minimum Promoters contribution of 20.00% which is subject to lock-in for 3 years does not consist of:

a) Equity Shares acquired during the preceding three years for consideration other than cash and revaluation of assets or capitalization of intangible assets;
b) Equity Shares acquired during the preceding three years resulting from a bonus issue by utilization of revaluation reserves or Unrealised profits of the issuer or from bonus issue against equity shares which are ineligible for minimum Promoters contribution;
c) Equity Shares acquired by Promoters during the preceding one year at a price lower than the Issue Price;
d) The Equity Shares held by the Promoters and offered for minimum 20% Promoters Contribution are not subject to any pledge.
e) Equity Shares for which specific written consent has not been obtained from the shareholders for inclusion of their subscription in the minimum Promoters Contribution subject to lock-in.

Reg No.	Promoters' Minimum Contribution Conditions	Eligibility Status of Equity Shares forming part of Promoters Contribution
237 (1) (a) (i)	Specified securities acquired during the preceding three years, if they are acquired for consideration other than cash and revaluation of assets or capitalisation of intangible assets is involved in such transaction	The Minimum Promoter's contribution does not consist of such Equity shares which have been acquired for consideration other than cash and revaluation of assets or capitalisation of intangible assets. **Hence Eligible**
237 (1) (a) (ii)	Specified securities acquired during the preceding three years, resulting from a bonus issue by utilisation of revaluation reserves or unrealised profits of the issuer or from bonus issue against equity shares which are ineligible for minimum promoters' contribution.	The Minimum Promoter's contribution does not consist of such Equity shares. **Hence Eligible.**
237 (1) (b)	Specified securities acquired by the promoters and alternative investment funds or foreign venture capital investors or scheduled commercial banks or public financial institutions or insurance companies registered with Insurance Regulatory and Development	The Minimum Promoter's contribution does not consist of such Equity shares. **Hence Eligible.**

	Authority of India [or any non-individual public shareholder holding at least five per cent. of the post-issue capital or any entity (individual or non-individual) forming part of promoter group other than the promoter(s)], during the preceding one year at a price lower than the price at which specified securities are being offered to the public in the initial public offer:	
237 (1) (c)	Specified securities allotted to the promoters and alternative investment funds during the preceding one year at a price less than the issue price, against funds brought in by them during that period, in case of an issuer formed by conversion of one or more partnership firms or limited liability partnerships, where the partners of the erstwhile partnership firms or limited liability partnerships are the promoters of the issuer and there is no change in the management.	The Minimum Promoter's contribution does not consist of such Equity shares. **Hence Eligible**.
237 (1) (d)	Specified securities pledged with any creditor.	Our Promoter's has not Pledged any shares with any creditors. Accordingly, the minimum Promoter's contribution does not consist of such Equity Shares. **Hence Eligible**.

In terms of Regulation 241 of the SEBI (ICDR) Regulations, 2018, our Company confirms that certificates of Equity Shares which are subject to lock in shall contain the inscription "Non-Transferable" and specify the lock-in period and in case such equity shares are dematerialized, the Company shall ensure that the lock in is recorded by the Depository.

Equity Shares locked-in for two years

Further as per SEBI circular dated December 18, 2024, PR No.36/2024, Lock-in on promoters' holding held in excess of minimum promoter contribution (MPC) to be released in phased manner i.e. lock-in for 50% promoters' holding in excess of MPC shall be released after 1 year and lock-in for remaining 50% promoters' holding in excess of MPC shall be released after 2 years.

The details of the Equity Shares held by our Promoters in excess of minimum promoter contribution, which shall be locked in for a period of 2 years from the date of Allotment in the Offer are given below:

Name of Promoter	No. of Equity Shares	Face Value (Rs.)	Percentage of post-Offer paid-up capital (%)	Lock in Period
Mr. Suraj Vernekar'D	7,68,000	10	9.17%	2 Years
Mr. Nishith Ramesh Chandra Shah	3,79,200	10	4.53%	2 years

Total	**11,47,200**			

Equity Shares locked-in for one year

In addition to above Equity Shares that are locked-in for three years as the minimum Promoters' contribution, the promoters and public pre-issue shareholding of Equity Share capital of our Company, i.e. 32,92,593 Equity Shares shall be locked in for a period of one year from the date of Allotment in the Public Issue. Further, such lock-in of the Equity Shares would be created as per the bye laws of the Depositories.

Pledge of Locked in Equity Shares:

In terms of Regulation 242 of the SEBI (ICDR) Regulations, 2018, the locked-in Equity Shares held by our Promoters can be pledged only with any scheduled commercial banks or public financial institutions as collateral security for loans granted by such banks or financial institutions, subject to the following:

- In case of Minimum Promoters' Contribution, the loan has been granted to the issuer company or its subsidiary (ies) for the purpose of financing one or more of the Objects of the Issue and pledge of equity shares is one of the terms of sanction of the loan.
- In case of Equity Shares held by Promoters in excess of Minimum Promoters' contribution, the pledge of equity shares is one of the terms of sanction of the loan.

However, lock in shall continue pursuant to the invocation of the pledge and such transferee shall not be eligible to transfer the equity shares till the lock in period stipulated has expired.

Transferability of Locked in Equity Shares:

In terms of Regulation 243 of the SEBI (ICDR) Regulations, 2018 and subject to provisions of Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 as applicable:

- The Equity Shares held by our Promoters and locked in as per Regulation 238 of the SEBI (ICDR) Regulations, 2018 may be transferred to another Promoters or any person of the Promoter's Group or to a new promoter(s) or persons in control of our Company, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.

- The equity shares held by persons other than promoters and locked in as per Regulation 239 of the SEBI (ICDR) Regulations, 2018 may be transferred to any other person (including Promoter and Promoter's Group) holding the equity shares which are locked-in along with the equity shares proposed to be transferred, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock- in period stipulated has expired.

17. Our Company, our Promoters, our Directors and the BRLM to this Offer have not entered into any buy-back, standby or similar arrangements with any person for purchase of our Equity Shares from any person.

18. Our Company has not issued shares for consideration other than cash or out of revaluation of reserves, including Bonus Shares, at any point of time since Incorporation except the following:

S. No	Name of Allottees	No. of Shares Allotted	Face Value(Rs.)	Reason for allotment	Benefit occurred to Issuer

**The Bonus issue was made out of Free reserves for the financial year ended March 31, 2024. Which show a closing balance of Reserves and Surplus amounting to Rs. 581.70 Lakhs, as per audited financial statement for the period ended March 31, 2024.*

19. Our Company has not allotted any Equity Shares pursuant to any scheme approved under Sections 230 to 234 of the Companies Act, 2013.

20. Our Company has not re-valued its assets. However, the Company has not issued any Equity Shares (including bonus shares) by capitalizing any revaluation reserves. For more details, please refer to the chapter "financial statements as restated" on the page no. 257 of this Prospectus.

21. Our Company does not have any Employee Stock Option Scheme / Employee Stock Purchase Scheme for our employees, and we do not intend to allot any shares to our employees under Employee Stock Option Scheme / Employee Stock Purchase Scheme from the proposed issue. As and when options are granted to our employees under the Employee Stock Option Scheme, our Company shall comply with the SEBI (Share Based Employee Benefits) Regulations, 2014.

22. There are no safety net arrangements for this public Offer.

23. As on the date of filing of this Prospectus, there are no outstanding warrants, options or rights to convert debentures, loans or other financial instruments into our Equity Shares.

24. As per Regulation 268(2) of SEBI (ICDR) Regulations, 2018, an over-subscription to the extent of 10% of the Issue can be retained for the purpose of rounding off while finalizing the basis of allotment to the nearest integer during finalizing the allotment, subject to minimum allotment lot. Consequently, the actual allotment may go up by a maximum of 10% of the Issue, as a result of which, the post issue paid up capital after the

Issue would also increase by the excess amount of allotment so made. In such an event, the Equity Shares held by the Promoters and subject to lock-in shall be suitably increased to ensure that 20% of the post issue paid-up capital is locked-in.

25. All the Equity Shares of our Company are fully paid up as on the date of this Prospectus. Further, since the entire money in respect of the Offer is being called on application, all the successful applicants will be allotted fully paid-up equity shares.

26. As per RBI regulations, OCBs are not allowed to participate in this Issue.

27. There is no Buyback, stand by, or similar arrangement by our Company/Promoters/Directors/BRLM for purchase of Equity Shares issued / offered through this Prospectus.

28. As on the date of this Prospectus, none of the shares held by our Promoters/ Promoter Group are pledged with any financial institutions or banks or any third party as security for repayment of loans.

29. Investors may note that in case of over-subscription, the allocation in the Issue shall be as per the requirements of Regulation 253 of SEBI (ICDR) Regulations, as amended from time to time.

30. Under subscription, if any, in any category, shall be met with spill-over from any other category or combination of categories at the discretion of our Company, in consultation with the BRLM and BSE.

31. The Issue is being made through Book Building Method.

32. BRLM to the Issue viz. Turnaround Corporate Advisors Private Limited and its associates do not hold any Equity Shares of our Company.

33. Our Company has not raised any bridge loan against the proceeds of this Issue.

34. Our Company undertakes that at any given time, there shall be only one denomination for our Equity Shares, unless otherwise permitted by law.

35. Our Company shall comply with such accounting and disclosure norms as specified by SEBI from time to time.

36. An Applicant cannot make an application for more than the number of Equity Shares being Issued/Offered through this Prospectus, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investors.

37. No payment, direct or indirect in the nature of discount, commission, and allowance or otherwise shall be made either by us or our Promoters to the persons who receive allotments, if any, in this Offer.

38. Our Promoters and the members of our Promoter Group will not participate in this Issue.
39. Our Company has not made any public issue since its incorporation.

40. Our Company shall ensure that transactions in the Equity Shares by the Promoters and the Promoter Group between the date of filing the Prospectus and the Offer Closing Date shall be reported to the Stock Exchange within twenty-four hours of such transaction.

41. For the details of transactions by our Company with our Promoter Group during the for the financial years ended on March 31, 2026, March 31, 2025 & March 31, 2024, please refer to paragraph titled ―Related Party Transaction in the chapter titled “Restated Financial Statements” beginning on page number 257 of this

Prospectus.

42. None of our Directors or Key Managerial Personnel holds Equity Shares in our Company, except as stated in the chapter titled "*Our Management"* beginning on page number 225 of this Prospectus.

This space has been left blank intentionally.

OBJECTS OF THE ISSUE

Our Company proposes to utilize the funds which are being raised towards funding the following objects and achieve the benefits of listing on the SME Platform of BSE Limited.

The objects of the Issue are: -

1. Investment in Product Development.
2. Funding capital expenditure towards setting up of a manufacturing facility of the Company by purchase of land and civil work.
3. To meet out the expenses for Working Capital to fund business growth.
4. To meet out the expenses for General Corporate Purposes.

(Collectively referred to as "Objects")

Our Company believes that listing will enhance our Company's corporate image, brand name and create a public market for its Equity Shares in India. The main objects clause of our Memorandum enables our Company to undertake the activities for which funds are being raised in the Issue. The existing activities of our Company are within the objects clause of our Memorandum. The fund requirement and deployment are based on internal management estimates and have not been appraised by any bank or financial institution.

Our Company designs and develops advanced robotic and intelligent automation solutions for the solar energy industry, with a focus on waterless robotic cleaning and O&M automation. Based in Bengaluru, we operate two integrated manufacturing facilities for the design, assembly, and testing of robots. Leveraging robotics, ML, and IoT, we offer a comprehensive suite of for automating the O&M of solar plants. Our flagship cleaning robots—Unicorn and Shreem—serve ground-mounted and rooftop plants. With patented technologies across multiple countries, we maintain strong technological leadership and deliver scalable, efficient, and sustainable solutions to major solar developers and O&M providers.

Net Proceeds

The proceeds of the Fresh Issue, after deducting Issue related expenses, are estimated to be Rs. 2,015.62 lakhs (the "Net Issue Proceeds").

The following table summarizes the requirement of funds:

S. No.	Particulars	Amount in Lakhs
1.	Gross proceeds from the Issue*	2,371.32
2.	Less: Issue related expenses in relation to Issue	355.70
	Net Proceeds	2,015.62

As per the certificate *given by M/s A G R A and Co., Chartered Accountants, dated July 14, 2026, the Company has incurred Rs. 12.91 Lakhs towards issue expenses.*

REQUIREMENT OF FUNDS AND UTILIZATION OF NET PROCEEDS

The Net Proceeds are proposed to be used in accordance with the details as set forth below:

S. N.	Particulars	Amount (In Rs. Lakh)
1.	Investment in Product Development.	286.14
2.	Funding Capital Expenditure towards Setting up of Manufacturing Facility through Purchase of Land and Civil Works.	574.00
3.	To meet out the expenses for Working Capital to fund business growth	800.00
4.	General Corporate Purposes*	355.48
	Net Proceeds	2,015.62

**To be finalised upon determination of the Issue Price and updated in the Prospectus prior to filing with the RoC and the amount to be utilized for general corporate purposes shall not exceed 15% of* the *amount raised by our Company or Rs. 10 Crores, whichever is lower.*

Note: Any Additional cost will be borne by the company through internal accruals.

The requirements of the objects detailed above are intended to be funded from the proceeds of the Issue. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the proposed Issue.

The fund requirement and deployment are based on internal management estimates and have not been appraised by any bank or financial institution. These are based on current conditions and are subject to change in light of changes in external circumstances or costs, other financial conditions, business or strategy, as discussed further below.

In case of variations in the actual utilization of funds allocated for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in this Issue. If surplus funds are unavailable, the required financing will be through our internal accruals and/or debt.

We may have to revise our fund requirements and deployment as a result of changes in commercial and other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling the fund requirements and increasing or decreasing the fund requirements for a particular purpose from the fund requirements mentioned below, at the discretion of our management. In case of any shortfall or cost overruns, we intend to meet our estimated expenditure from internal accruals and/or debt. In case of any such re-scheduling, it shall be made by compliance with the relevant provisions of the Companies Act, 2013.

MEANS OF FINANCE

The fund requirements for the Objects are proposed to be met from the Net Proceeds and any shortfall from our internal accruals. Accordingly, we confirm that there is no requirement to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Fresh Issue as required under Paragraph 9(C)(1) of Part A of Schedule VI and Regulation 230 (1) (e) the SEBI ICDR Regulations and existing identifiable internal accruals.

SCHEDULE OF IMPLEMENTATION

We propose to deploy the Net Proceeds from the issue for the previously mentioned purposes in accordance with the estimated schedule of implementation and deployment of funds set forth in the table below.

(Amount in Lakhs)

Sr. No.	Particulars	Amount to be funded from Net Proceeds	Estimated Utilisation of Net Proceeds (F.Y. 2026-27)	Estimated Utilisation of Net Proceeds (F.Y. 2027-28)
1.	Investment in Product Development.	286.14	243.68	42.46
2.	Funding Capital Expenditure towards Setting up of Manufacturing Facility through Purchase of Land and Civil Works.	574.00	475.00	99.00
3.	To meet out the expenses for Working Capital to fund business growth	800.00	800.00	-
4.	General Corporate Purposes	355.48	355.48	-
	Net Proceeds	2,015.62	1874.16	141.46

To the extent our Company is unable to utilise any portion of the Net Proceeds towards the Objects, as per the estimated schedule of deployment specified above, our Company shall deploy the Net Proceeds in the subsequent Financial Year towards the Objects.

Details of Utilization of Net Issue Proceeds:

1. Investment in Product Development.

We cater to domestic and international customers across multiple segments, including solar developers, EPC contractors and operations and maintenance (O&M) companies. We believe that our growth over the years is attributed to our industry-leading design and technological capabilities, our ability to develop and deliver customer-centric solutions comprising hardware, software and integrated solutions, and our vertically integrated operations. The market is constantly evolving and the requirement for automation is increasing each day and to keep pace with the discerning needs of the customer, there is a constant need for innovation. We aim to be build new products and solution to ensure we continue to be relevant in the market and help address the challenges of our customers.

Our Company intends to utilise Net Proceeds aggregating to ₹286.14 lakhs towards investment in product development opportunities. Continuous product development through focused product and market research is integral to growth in the robotics industry, particularly with emphasis on mechanical and robotic systems, along with the associated software platforms.

Product innovation remains central to our growth strategy. We understand the challenges of operation &

maintenance of solar plants and intend to address the same by developing customised solutions for each of the challenges. In this regard, we propose to launch newer versions of robots: Aegeus Optima, Aegeus Mini Shreem, Aegeus GreenSweep and Aegeus Asset Guard.
Additionally, we aim to further enhance our Aegeus Connect software capabilities to integrate all these robotic solutions on an integrated software platform for seamless communication, automated & remote operation, remote monitoring, data acquisition, analysis and control.

These new solutions are designed to deliver efficient and cost-effective solar panel cleaning for large-scale solar installations, portable solutions for rooftop solar applications, automation of vegetation clearing at solar plants to improve operational efficiency across diverse terrains, and solutions intended to enhance monitoring and inspection of solar facilities through advanced analytics and autonomous operations.

For further details, see "Our Business – Our Strategies – Continue to invest in product innovation, engineering and design" on page 183 of this Prospectus.

Our existing product portfolio consists of:

1. **Unicorn Smart** is a fully autonomous, water-free solar panel cleaning robot engineered for large-scale utility solar installations.
2. **Unicorn R2R** is a semi-autonomous solar panel cleaning robot designed for cost-sensitive or discontinuous table configurations in large- and mid-scale solar installations.
3. **Shreem** is an intelligent, water-less robotic cleaning solution designed specifically for rooftop solar installations.

In addition to its existing product offerings, the Company proposes to develop and enhance the following products, with the objective of addressing specific operational challenges across the solar value chain.

1. **Aegeus Optima**

Aegeus Optima is being developed as a cost-efficient, high-performance solar panel cleaning solution designed primarily for large-scale solar power plants. The product focuses on delivering robust and reliable cleaning capabilities while optimising operational efficiency and reducing overall maintenance costs for utility-scale installations. This is a cost-effective solution designed to complement Unicorn Smart in geographies with higher moisture content and for large scale solar plants where cost is a constraint. This will help addressing some of the cost sensitive markets and also expand into global markets across Europe, MENA etc.

Key Benefits:
• Cost-effective solar panel cleaning solution
• Suited for geographies with higher moisture content
• Designed for large-scale solar installations
• Enables efficient maintenance of high-volume solar plants

2. **Aegeus Mini Shreem**

Aegeus Mini Shreem uses PBT brush and is a very lightweight and compact design intended to address the requirements of rooftop installations. It is being developed as a portable, lightweight and water-free solar panel cleaning solution, enabling ease of deployment and efficient operation in constrained spaces, including commercial

and residential rooftops.

The adoption of rooftop installation is increasing at a rapid pace globally, Shreem our existing solution is mostly suited for arid geographies and commercial installations. To complement Shreem, Mini Shreem has been developed to meet the demands of most installations across the global markets viz Europe, USA, SEA, India etc. This is a light weight, compact machine which can be used for commercial as well as residential applications and can be used in geographies with high moisture content.

Key Benefits:
• Compact and lightweight for easy portability
• Waterless cleaning, ideal for rooftops
• Quick and simple deployment
• Efficient cleaning for small and rooftop solar installations

3. Aegeus GreenSweep

Aegeus GreenSweep aims to automate vegetation management at solar power plants. It eliminates the need for manual grass cutting, ensuring clear module surroundings and maintaining safety around solar arrays. Designed with precision sensors and rugged all-terrain mobility, GreenSweep navigates between panel rows to trim vegetation efficiently and safely without damaging cables or module structures.

The system operates on electric power, minimizing emissions and operational costs while maximizing uptime. By replacing traditional manual or fuel-based cutting methods, GreenSweep contributes to cleaner, faster, and more consistent vegetation control across large-scale solar farms.

Key Benefits:
• Automates vegetation clearing in solar plants
• Significantly improves efficiency over manual methods
• Operates effectively across uneven and diverse terrains
• Reduces labor dependency and operational effort

4. Aegeus Asset Guard

Aegeus Asset Guard is being developed to monitor the assets in the solar plant like the solar modules, electrical connections and other components across the plant to acquire data and help in predictive maintenance. Asset Guard will use advanced thermal imaging and AI-based surveillance system designed to ensure the safety, performance, and reliability of solar assets. The system continuously monitors the plant through high-resolution thermal cameras and smart analytics to detect hotspots, electrical faults, or potential fire hazards before they escalate.

By integrating with SCADA and cloud dashboards, Asset Guard enables remote monitoring, automated fault alerts, and predictive insights — allowing O&M teams to take timely preventive action. The result is enhanced plant uptime, reduced risk, and improved operational efficiency with real-time situational awareness across the solar field.

Key Benefits:
• Autonomous ground-based inspection of solar installations
• AI-powered analytics for accurate fault and anomaly detection
• Early identification of issues such as dirt, damage, hotspots, and vegetation

• Improves monitoring efficiency while reducing manual inspection efforts

Rationale for product development:
The proposed product development is intended to strengthen our Company's position in the solar operations and maintenance value chain. We aim to offer a comprehensive suite of robots addressing various challenges of the solar plant Operation & Maintenance. It will help Enhance Energy Efficiency and Performance, Reduced Labor Costs and Improved Safety, Predictive Maintenance and Faster Issue Resolution, Consistency and Reliability in Operations, Data-Driven Insights and Improved Decision-Making, Environmental Compliance and Sustainability, all of which are critical to maximizing the value and sustainability of solar plants.

Our management believes that the proposed deployment of Net Proceeds towards product development will enable our Company to broaden its product portfolio, address a wider base of utility-scale and rooftop solar customers and support sustainable, long-term revenue growth. However, there can be no assurance that the anticipated benefits will materialise within the expected timelines or to the extent envisaged, and prospective investors are advised to refer to the chapter titled "Risk Factors" for a discussion of related risks.

Scope of Product Development Activities

Once the product concept is finalised and the Product Requirement Document (PRD) is prepared, initial design is developed inhouse by the Aegeus engineering team. However, design validation, 2D/3D modelling, building prototypes of the product, developing visual and functional models for testing, iterative refinement based on tests is assigned to the technology partners under the supervision of the Aegeus engineering team. These partners have the necessary design & validation software, infrastructure, and domain expertise to support the development activities.

For the development of the aforesaid products, the Company proposes to utilise the Net Proceeds towards the following activities:

1. Design, Modelling and Simulation:

Concept to production engineering, design validation, 2D/3D modelling, Finite element analysis, Structural analysis, material optimization, Simulation, DFM & DFA (Design for Manufacturing & Assembly), tool design, support throughout the product development life cycle.

2. Prototype Development and Engineering Support:

Prototyping services to bridge the gap between concept and production, enable rapid design validation, functional testing, development of multiple prototypes for field trials and destructive testing, engagement of third-party testing agencies, where required, and support for manufacturing engineering, including design of jigs and fixtures.

3. Manpower and Technical Resources:

Costs relating to engagement of skilled manpower for product and technology development, including full stack developer to integrate Shreem, Optima, GreenSweep & Assetguard seamlessly on the Aegeus Connect software. Build inhouse capabilities for long term development and product support. Build AI/ML capabilities inhouse to support the AssetGuard development and continuous product enhancement.

The table below summarizes the nature of the product development:

S. N.	Particulars	Amount (In Rs. Lakh)
1.	Design, Modelling and Simulation	55.71
2.	Prototype Development and Engineering Support	136.47
3.	Manpower and Technical Resources	93.96
	TOTAL	**286.14**

**Note: Any expenses over and above the net proceeds embarked to be utilized towards product development expenses shall be utilized through Internal Accruals.*

Scheduled of Implementation of the product development:

(Amount in Lakhs)

S. N.	Particulars	Amount (In Rs. Lakh)	Estimated Utilisation of Net Proceeds (F.Y. 2026-27)	Estimated Utilisation of Net Proceeds (F.Y. 2027-28)

3. Manpower and Technical Resources:

The proposed product development is expected to be completed over a period of approximately 18 months. During this period, the Company intends to augment and strengthen its internal technical resources with the objective of building a fully in-house technology team. This transition is expected to reduce dependence on external vendors and enhance the long-term sustainability, control and resilience of the Company's product development capabilities.

Based on the quotations received and the estimated project requirements, the Company has determined the manpower requirement for the proposed product development as set out below:

(Amount in Lakh)

Position	Total	Cost FY 2026-27	Cost FY 2027-28
Full Stack Developer	1	46.50	19.38
AI/ML Engineer	1	18.72	9.36
Total		**65.22**	**28.74**

For costs relating to the engagement of skilled manpower for product and technology development, including software stack development, AI/ML development and solution architecture required for execution and integration of the proposed solutions, the Company has obtained a quotation for human resources from M/s Vigor Zone Manpower Solutions dated June 06, 2026.

The yearly cost assumptions considered for the above manpower requirements are set out below:

(Amount in Lakhs)

Position	Experience (In years	CTC Range (LPA)
Full Stack Developer	2-3	18-28
AI/ML Engineer	2-3	16-28

Commercial Summary
Service Charges

S.No.	Details	Recruitment Fee
1	Recruitment fee for Annual CTC < 15 LPA	10.00% of Annual Fixed CTC
2	Recruitment fee for Annual CTC >= 15 LPA & CTC < 50 LPA	12.50% of Annual Fixed CTC
3	Recruitment fee for Annual CTC >= 50 LPA & CTC < 80 LPA	15.00% of Annual Fixed CTC
4	Recruitment fee for Annual CTC of 80 LPA and above	16.66% of Annual Fixed CTC

**Services charges to be charged by the vendor is inclusive of its commission/ charges and the same shall be incurred from internal accrual of the company.*

Note 1: The calculation of this quotation is based on the monthly basis salary to be paid.
Note 2: We have considered the above quotations for the budgetary estimate purpose and have not hired actual employees. The actual cost of hiring people may vary.
Note 3: In case of any increase in purchase consideration, the same will be funded by the company through internal accruals.
Note 4: Further, our Promoters, Directors, Key Managerial Personnel and the Group Companies do not have any interest in the received quotation.
Note 5: This quotation is valid for 12 months.

2. Funding Capital Expenditure towards Setting up of Manufacturing Facility through Purchase of Land and Civil Works.

The Company's existing manufacturing operations are presently carried out from two leased premises located at Survey Nos. 105/1 and 100/1, Harapanahalli Village, Anekal, Bengaluru – 560076.

The details of the existing manufacturing facilities are as under:

S. N.	Address	Owned/ Leased	Lessor/Sub-Lessor	Tenure	Area	Rent	Related Party Transaction or NOT	Usage
1.	100/1 Harapanahalli village Anekal Bangalore-560076	Leased	Mr. Rajesh K	5 Years (w.e.f. Septembe	10,000 sq. ft.	Rs. 1,30,000/- per month	No	Factory

2.	105, Harapanahalli Village, Jigani Hobli Anekal Taluk, Bangalore, Karnataka-560105	Leased	Mr. M. Konappa	5 Years (w.e.f. June 05, 2023)	5,000 sq. ft.	Rs. 60,000/- per month	No	Factory
3.	No. 38, Saanvi Arcade ,3rd Floor, 24th Main, JP Nagar, 7th Phase Bengaluru 560 078	Leased	Sri Somashekar. S. J	5 Years (w.e.f. December 01, 2022)	1030 sq. ft	Rs. 25,000/- per month	No	Corporate Office

On 100/1 Harapanahalli village Anekal Bangalore-560076, the total land parcel admeasures 80,056 square feet (approximately 3 acres). Out of the said land parcel, the Company is presently occupying and operating its existing manufacturing facility on a leased area of approximately 10,000 square feet.

With a view to augmenting its manufacturing capacity and ensuring long-term operational stability, the Company proposes to purchase an additional area of approximately 10,000 square feet, forming part of the adjacent vacant portion of the same land parcel, which is contiguous to the Company's existing factory building. The Company has entered into an agreement to sell for the acquisition of the said land.

Upon acquisition of the aforesaid land, the Company proposes to undertake civil construction works thereon for the establishment of a new manufacturing facility, located at Survey No. 100/1, Harapanahalli Village, Anekal, Bengaluru – 560076.

The proposed manufacturing facility will be developed on the said land and is proposed to be a three-storeyed structure, with a built-up area of approximately 9,000 square feet on each floor, aggregating to approximately 27,000 square feet.

Justification for Setting up a Manufacturing Facility through Land Acquisition and Civil Construction:

The Company's existing infrastructure is subject to the following limitations:

a) Manufacturing activities relating to sub-assembly, final assembly, and corporate office functions are carried out from three separate facilities;
b) The Company incurs rental expenses for all three facilities;
c) Logistical challenges are faced in transporting sub-assemblies between facilities for final assembly;
d) Multiple warehouses located at different locations result in inefficient space utilisation, duplication of inventory, and higher handling costs; and
e) A dispersed workforce across multiple locations leads to coordination inefficiencies.

The proposed new manufacturing facility is required for the following purposes:

a) To increase the manufacturing capacity, including the ability to approximately double the existing capacity of the Unicorn product line;
b) To facilitate the introduction of new product lines, namely Optima, GreenSweep, MiniShreem, and AssetGuard;
c) To consolidate all three existing facilities into a single, integrated manufacturing location;
d) To enable a seamless flow of materials, thereby improving overall operational efficiency;
e) To allow for better layout planning and optimal utilisation of available space;
f) To achieve improved inventory management and control;
g) To enhance coordination and productivity across teams; and
h) To strengthen the Company's infrastructure capabilities, thereby improving customer perception and vendor confidence.

The proposed new facility, with a built-up area of approximately 27,000 square feet, will comprise a Ground plus two floors (G+2) and will house incoming stores and warehouse facilities, assembly lines for Unicorn, Shreem, and new product lines, a finished goods warehouse, development and testing facilities, and dedicated office space for employees.

The Company has appointed M/s Garg and Associates, Chartered Engineer, to prepare a Detailed Project Report in respect of the proposed civil works, dated December 27, 2025.

Estimated Cost

The estimated capital expenditure for setting up of the manufacturing facility through purchase of land and civil works is set out below:

(Amount in Lakhs)

S.No.	Particulars	Estimated Cost	Funds Deployed from Internal Accruals	Funds to be Deployed from Internal Accruals	Amount to be utilized from Net Proceeds
1.	Purchase of land	376.60	15.00	-	361.60
2.	Civil Construction Work	315.96	-	103.57	212.40

5	Surcharge on stamp duty @2%	0.35	-	0.35
	Total Cost	**376.60**	**15.00**	**361.60**

Note:

(1) The Company has entered into an agreement dated December 15, 2025, for the purchase of the aforesaid land for a total consideration of ₹361.60 lakhs, out of which an amount of ₹15.00 lakhs has been paid as advance consideration. The balance consideration towards the purchase of the land, along with the expenditure towards civil construction works, is proposed to be funded from the Net Proceeds. The details of the land seller are as follows:

1	Procurement of the land, land development work and obtaining of pre-construction approvals	October 2026	December 2026
2	Civil & Construction Work (including obtaining necessary approvals)	December 2026	December 2027
4	Commercial Operation	December 2027 onwards	

**The above timelines are indicative and subject to receipt of requisite statutory and governmental approvals within the expected time frame.*

3. **To meet out Working Capital expenses to fund business growth**

To meet its incremental working capital requirements for supporting business growth, the Company proposes to utilise Rs. 800.00 lakhs out of the Net Proceeds of the Fresh Issue.

The Company has significant working capital requirements, which are currently funded through a combination of internal accruals and working capital facilities availed from banks and financial institutions in the ordinary course of business. In view of the consistent increase in scale of operations, growth in revenues and expansion of business activities, the Company requires additional working capital to support higher levels of inventory, trade receivables and other operating requirements.
Further, to support ongoing operations, timely procurement of raw materials and components, execution of projects and delivery of products to customers, and to meet trade payables and other operating expenses, the Company would require enhanced working capital on a sustained basis.

Basis of estimation of incremental working capital requirement:

Our Company designs and develops advanced robotic and intelligent automation solutions for the solar energy industry, with a focus on waterless robotic cleaning and O&M optimization. Headquartered in Bengaluru, we operate two integrated manufacturing facilities for the design, assembly, and testing of autonomous systems. Leveraging robotics, AI, ML, and IoT, we offer a comprehensive suite robotic-solutions. Our flagship cleaning robots—Unicorn and Shreem—serve ground-mounted and rooftop plants. With patented technologies across multiple countries, we maintain strong technological leadership and deliver scalable, efficient, and sustainable solutions to major solar developers and O&M providers.

Our existing product portfolio consists of:

1. **Unicorn Smart** is a fully autonomous, water-free solar panel cleaning robot engineered for large-scale utility solar installations.
2. **Unicorn R2R** is a semi-autonomous solar panel cleaning robot designed for cost-sensitive or discontinuous table configurations in large- and mid-scale solar installations.
3. **Shreem** is an intelligent, water-less robotic cleaning solution designed specifically for rooftop solar installations.

Particulars	Justification
Current Assets	
Inventory	The inventory in 2024 was 109 days since we had to buy MOQ from vendors which was more than our consumption. We gradually reduced the inventory during 2025 due to increased sales. During the last three financial years, Amount has increased from Rs. 239.12 Lakhs in FY 2024 to Rs. 316.54 Lakhs in FY 2025, further in FY 2026 it has increase to Rs. 452.89 Lakhs because increase in revenue from operation over the years and need to maintain the stocks. Accordingly, inventory days are targeted to be in the range of 85-90 days in FY 2027, with corresponding amount projected at Rs. 770.52 lakhs respectively.

	The projected improvement in inventory management is supported by several operational initiatives undertaken by the Company, including: • Multiple Vendor Strategy: The Company has developed more than one vendor for critical long-lead components. Purchase orders are strategically split between vendors to ensure supply continuity while optimizing vendor capacity utilization. • Just-in-Time Procurement: The Company provides demand forecasts to its vendors, enabling them to plan their raw material procurement and maintain inventory at their facilities. This allows the Company to pull materials shortly before production, thereby reducing on-site inventory holding. • Standardization and Consolidation of Controller PCB: The Company has standardized a single controller PCB for the entire Unicorn robot family, and these components are sourced from a single vendor in kit form for assembly. This reduces the need to maintain multiple electronic component inventories and enhances procurement efficiency.
Trade Receivables	The Company's trade receivable days increased from 116 days in FY 2024 to 139 days in FY 2026, primarily due to the significant growth in revenue and the increased scale of operations. Correspondingly, trade receivables increased from Rs. 485.23 lakhs in FY 2024 to Rs. 1,577.23 lakhs in FY 2026. The Company generally receives approximately 80% of the invoice value within 60–90 days from the date of supply. The balance 20% typically comprises 5–10% retained and realised after the warranty period of 12–24 months, and 10–15% payable upon commissioning and successful handover, generally within 90–180 days. In certain cases, the realisation of the latter component may extend due to delays in site execution, including adverse weather conditions, which are inherent to the nature of the Company's operations. Based on this collection pattern, the weighted average trade receivable cycle works out to approximately 120–125 days, which is broadly consistent with the Company's historical collection trends. In FY 2026, the Company recorded revenue from operations of Rs. 4,093.69 lakhs, resulting in trade receivables of Rs. 1,577.23 lakhs as at the end of the fiscal year. Accordingly, for the FY-27, trade receivable days are estimated at 130 days, with corresponding trade receivables of Rs. 2,393.48 lakhs, in line with the projected revenue growth and the Company's historical collection cycle. .
Other Current Assets	Other current assets comprise advances to suppliers and employees, loans to employees, loans and advances to related and unrelated parties, prepaid expenses and balances with revenue authorities. The balance increased from Rs. 81.81 lakhs in FY 2024 to Rs. 150.18 lakhs in FY 2025, and further to Rs. 433.39 lakhs in FY 2026, primarily due to an increase in advances paid to suppliers, which rose from Rs. 78.43 lakhs in FY 2025 to Rs. 271.28 lakhs as at FY 2026 Other current assets are projected at Rs. 552.34 lakhs in FY 2027, in line with the increase in scale of operations and revenue growth.
Current Liabilities	
Trade Payables	Trade payables increased from Rs. 231.06 lakhs in FY 2024 to Rs. 431.29 lakhs in FY 2026, primarily due to higher procurement requirements arising from the increased scale of operations. At the same time, trade payable days improved from 74 days in FY 2024 to 55 days

	in FY 2026, reflecting the Company's stronger payment discipline and efficient working capital management despite the growth in business. For the projected years, trade payable days are estimated at 75 days in FY 2027 with corresponding trade payable balances of Rs. 892.49 lakhs, respectively. While the absolute value of trade payables is expected to increase in line with the projected growth in operations, the projected payable days are based on the expected credit terms negotiated with suppliers and the Company's working capital requirements. Further, with the availability of funds from the proposed issue, the Company expects to strengthen its liquidity position, enabling it to negotiate improved commercial terms with key vendors. This is expected to facilitate timely payments, better pricing, and enhanced operational efficiency. .
Other Current Liabilities	Other current liabilities include statutory liabilities payable, employee-related payables and investment payables. These increased from Rs. 108.38 lakhs in FY 2024 to Rs. 266.79 lakhs in FY 2025, and further to Rs. 542.69 lakhs in FY 2026. For the projected periods, other current liabilities are estimated at Rs. 373.98 lakhs in FY 2027, primarily on account of statutory dues, employee-related payables and advances received from customers, reflecting the sustainable growth in business operations.
Short Term Provision	Short-term provisions mainly comprise provisions for gratuity and income tax. These increased from Rs. 1.69 lakhs in FY 2024 to Rs. 53.24 lakhs in FY 2025, and further to Rs. 156.91 lakhs in FY 2026. Short-term provisions are projected to be in a similar line amounting to Rs. 149.59 lakhs in FY 2027, in line with the expected growth in profitability and business scale.

1. Basic & Diluted Earnings Per Share (EPS):

Financial Year	EPS (Basic & Diluted)	Weight
2025-26	6.57	3
2024-23	2.40	2
2023-24	1.68	1
Weighted Average EPS		**4.36**

Note:

a) EPS Calculations have been done in accordance with Accounting Standard 20 - Earning per share issued by the Institute of Chartered Accountants of India.

b) Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting year.

c) Weighted Average number of Equity Shares is the number of Equity Shares outstanding at the beginning of the year/period adjusted by the number of Equity Shares issued during year/period multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year.

d) *For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.*

2. Price to Earnings (P/E) ratio in relation to Issue Price of Rs. 105 per Equity Share of face value Rs.10/- each fully paid up.

Annexure to the statement of possible Tax Benefits

The information provided below are the possible Special tax benefits available to the Company and its shareholders under the Income Tax Act, 1961(read with rules, circulars and notifications issued in connection thereto), as amended by the Finance Act, 2021 presently forced in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have different interpretation on the benefits, which an investor can avail.

YOU SHOULD CONSULT YOUR OWN TAX ADVISORS CONCERNING THE INDIAN TAX IMPLICATIONS AND CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF EQUITY SHARES IN YOUR PARTICULAR SITUATION.

1. Special Tax Benefits available to the Company under the Act:

The Company is not entitled to any Special tax benefits under the Act.

2. Special Tax Benefits available to the shareholders of the Company

The Shareholders of the company are not entitled to any Special tax benefits under the Act.

Notes:

1. All the above benefits are as per the current tax laws and will be available only to the sole / first name holder where the shares are held by joint holders.
2. The above statement covers only certain relevant direct tax law benefits and does not cover any indirect tax law benefits or benefit under any other law.

No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. SECTION IV – ABOUT THE COMPANY

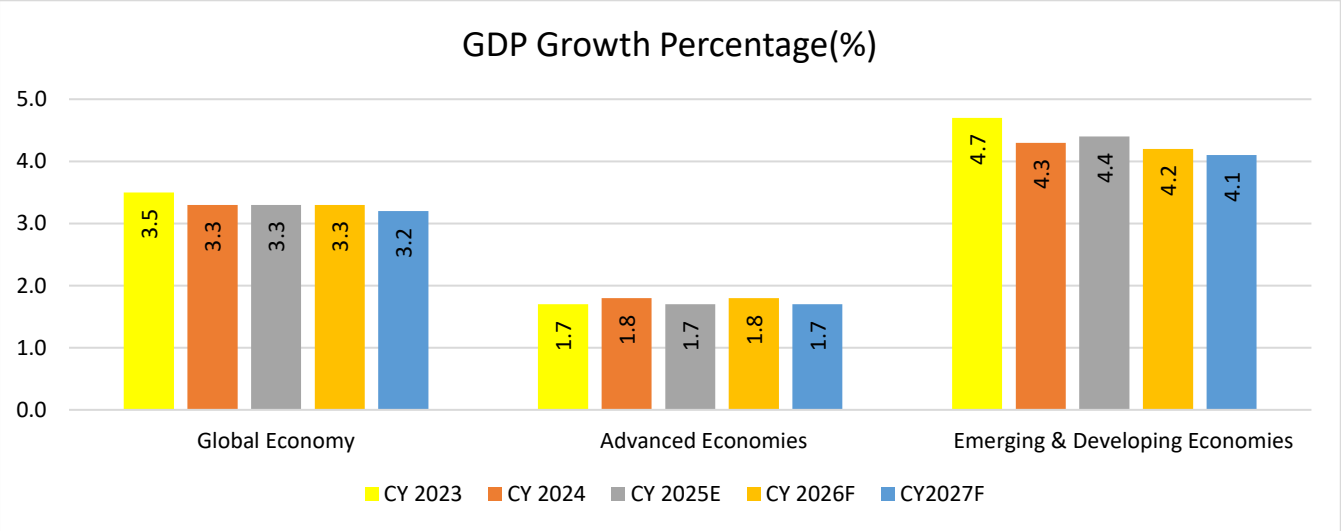
INDUSTRY OVERVIEW

The information in this section has been extracted from various websites and publicly available documents from various industry sources. The data may have been re-classified by us for the purpose of presentation. None of the Company and any other person connected with the Issue have independently verified this information. Industry sources and publications generally state that the information contained therein has been obtained from believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed, and their reliability cannot be assured. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projection forecasts and assumptions that may prove to be incorrect. Accordingly, investors should not place undue reliance on information.

1. Global Economic Outlook

As per the IMF's World Economic Outlook (WEO) published in January 2026, global growth is projected to remain resilient at 3.3 percent in 2026 and at 3.2 percent in 2027.

Global headline inflation is expected to decline from an estimated 4.1 percent in 2025 to 3.8 percent in 2026 and further to 3.4 percent in 2027. The inflation projections are also broadly unchanged from those in October and envisage inflation returning to target more gradually in the United States than in other large economies.



Note: E = Estimates, F = Forecast
Source: IMF World Economic Outlook January 2026

Note: Advanced Economies and Emerging & Developing Economies are as per the classification of the World Economic Outlook (WEO). This classification is not based on strict criteria, economic or otherwise, and it has evolved over time. It comprises of 40 countries under the Advanced Economies including the G7 (the United States, Japan, Germany, France, Italy, the United Kingdom, and Canada) and selected countries from the Euro Zone (Germany, Italy, France etc.). The group of emerging market and developing economies (156) includes all those that are not classified as Advanced Economies (India, China, Brazil, Malaysia etc.)

Growth in advanced economies is projected to be 1.8 percent in 2026 and 1.7 percent in 2027. In the United States, the economy is projected to expand by 2.4 percent in 2026, supported by fiscal policy and a lower policy rate, while the impact of higher trade barriers also gradually wanes. This 0.3 percentage point upward revision from the October

forecast reflects a stronger-than expected GDP outturn in the third quarter of 2025, a rebound in activity in the first quarter of 2026 compared with that in the fourth quarter of 2025 following the end of the federal government shutdown, and the associated carryover.

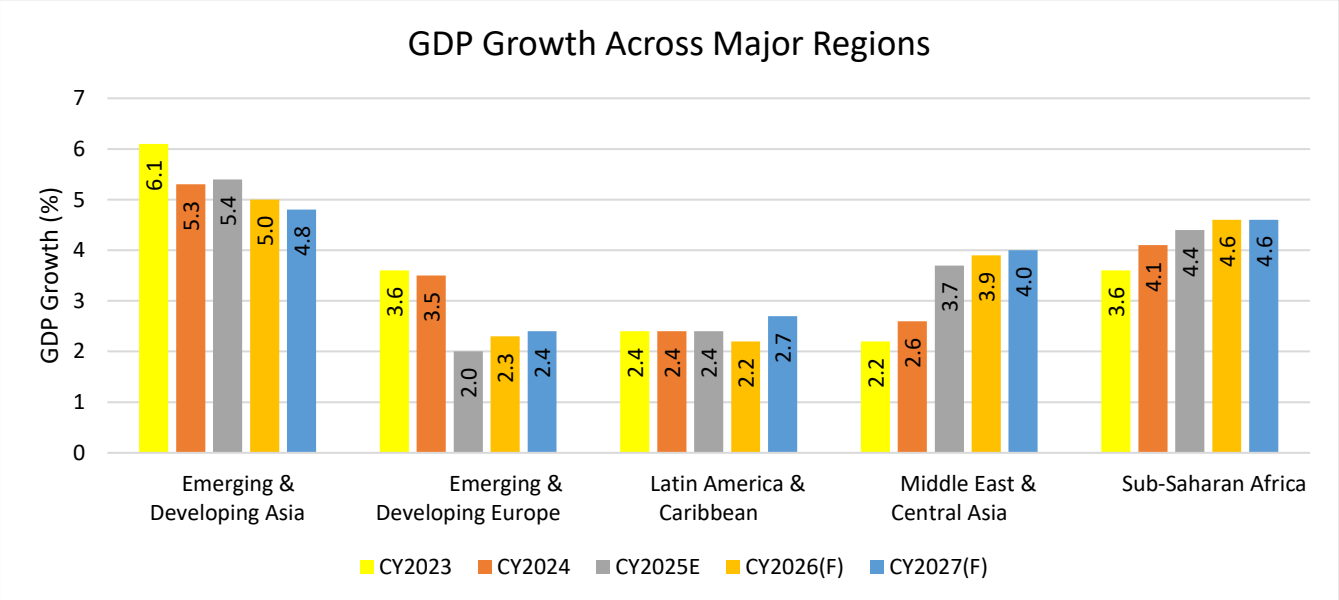
In emerging market and developing economies, growth is expected to continue to hover just above 4.0 percent in 2026 and 2027. Relative to the projection in October, growth in 2025 for China is revised upward by 0.2 percentage point to 5.0 percent. The revision reflects stimulus measures and additional policy bank lending for investment. Growth for 2026 is also revised upward by 0.3 percentage point to 4.5 percent, reflecting the lower US effective tariff rates on Chinese goods due to the yearlong trade truce agreed to in November and stimulus measures that are assumed to be implemented over two years. The economy's growth rate is expected to decelerate to 4.0 percent in 2027 as structural headwinds assert themselves.

In India, growth is revised upward by 0.7 percentage point to 7.3 percent for 2025, reflecting the better-than expected outturn in the third quarter of the year and strong momentum in the fourth quarter. Growth is projected to moderate to 6.4 percent in 2026 and 2027 as cyclical and temporary factors wane.

In the Middle East and Central Asia, growth is projected to accelerate from 3.7 percent in 2025 to 3.9 percent in 2026 and to 4.0 percent in 2027, supported by higher oil output, resilient local demand, and ongoing reforms. Growth is also expected to accelerate in sub-Saharan Africa, from 4.4 percent in 2025 to 4.6 percent in 2026 and 2027, supported by macroeconomic stabilization and reform efforts in key economies. In Latin America and the Caribbean, growth is projected to moderate to 2.2 percent in 2026 and bounce to 2.7 percent in 2027 as countries in the region approach potential from different cyclical positions. In emerging and developing Europe, a sharp slowdown in 2025 to a growth rate of 2.0 percent is expected to reverse, with economies in the region expanding at an average rate of 2.3 percent in 2026 and 2.4 percent in 2027. In most regions, the rebound also reflects the fading effect of shifting trade policies.

1.1 GDP Growth Across Major Regions

GDP growth across major global regions—including Europe, Latin America & the Caribbean, the Middle East & Central Asia, and Sub-Saharan Africa—continues to display varied trajectories. The global outlook remains mixed, with emerging and developing economies expected to continue outperforming advanced economies over the forecast period.



Note: E = Estimates, F = Forecast
Source: IMF World Economic Outlook April 2026 update

In Emerging and Developing Asia, growth is projected at 5.5% in CY 2025, moderating to 4.9% in CY 2026 and 4.8% in CY 2027. India is expected to remain one of the fastest-growing major economies, with GDP growth projected at 7.6% in CY 2025, supported by resilient domestic consumption, infrastructure investment, and economic activity. Growth is forecast at 6.5% in both CY 2026 and CY 2027. In contrast, China's growth is projected at 5.0% in CY 2025, moderating to 4.4% in CY 2026 and 4.0% in CY 2027.

Sub-Saharan Africa is projected to grow by 4.5% in CY 2025, followed by 4.3% in CY 2026 and 4.4% in CY 2027. Growth is expected to be supported by improving domestic demand, infrastructure investments, and gradual economic recovery across several economies in the region.

In the Middle East and Central Asia, economic growth is forecast at 3.6% in CY 2025, moderating to 1.9% in CY 2026 before recovering to 4.6% in CY 2027. Regional growth is expected to be influenced by oil production trends, fiscal reforms, and diversification initiatives across major economies.

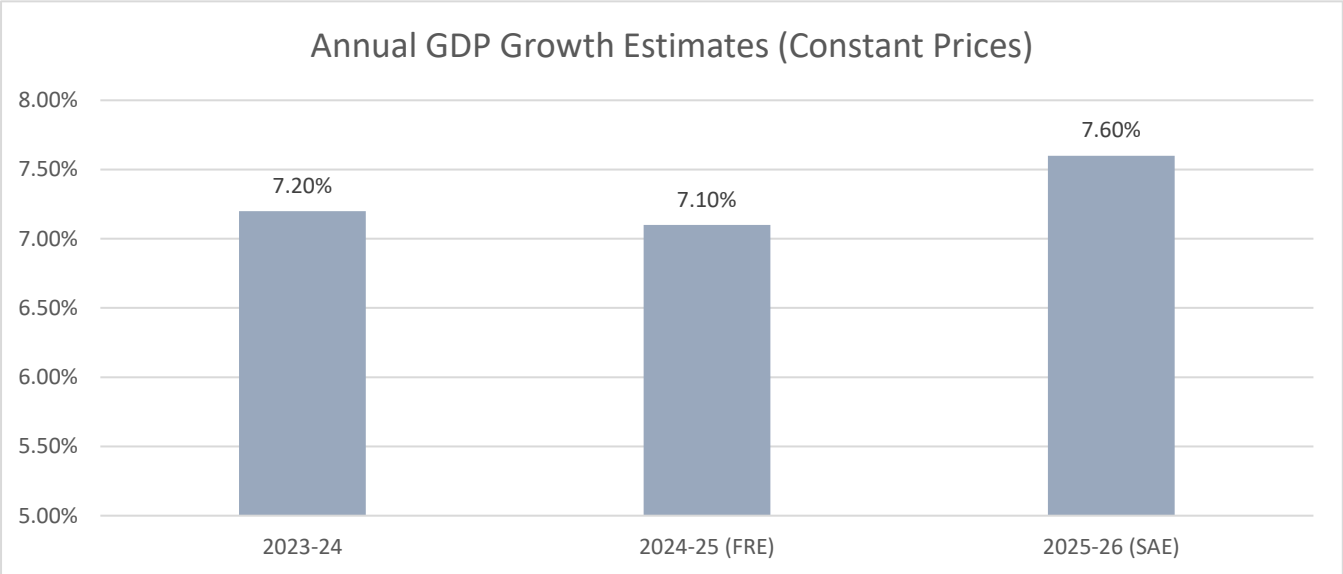
For Latin America and the Caribbean, GDP growth is projected at 2.4% in CY 2025, easing slightly to 2.3% in CY 2026 before improving to 2.7% in CY 2027, reflecting stable but moderate economic expansion across the region.

Emerging and Developing Europe is expected to record growth of 2.0% in CY 2025 and CY 2026, increasing marginally to 2.1% in CY 2027. Economic performance is expected to remain constrained by geopolitical uncertainties, external trade conditions, and structural challenges across several regional economies.

2. India's Macroeconomic Scenario

2.1 Gross Domestic Product (GDP)

According to the latest Second Advance Estimates by MOSPI, GOI (27 Feb26), after replacing old base year 2011-12 by the new base year 2022–23, real GDP has been estimated to grow by 7.6% in FY 2025-26. Nominal GDP has witnessed a growth of 8.6%. These growth rates are revised upward from their respective First Advance Estimates computed using previous Base Year (2011-12).



Note: FRE - First Revised Estimates; SAE - Second Advance Estimate

India's Economic Growth Momentum Remains Strong - Surpassed USD 4 Trillion.

In June 2025, India became the fourth-largest economy in the world and retained its position as the fastest-growing major economy. The country is projected to become the world's third largest economy by 2030, with an estimated GDP of USD 7.3 trillion.

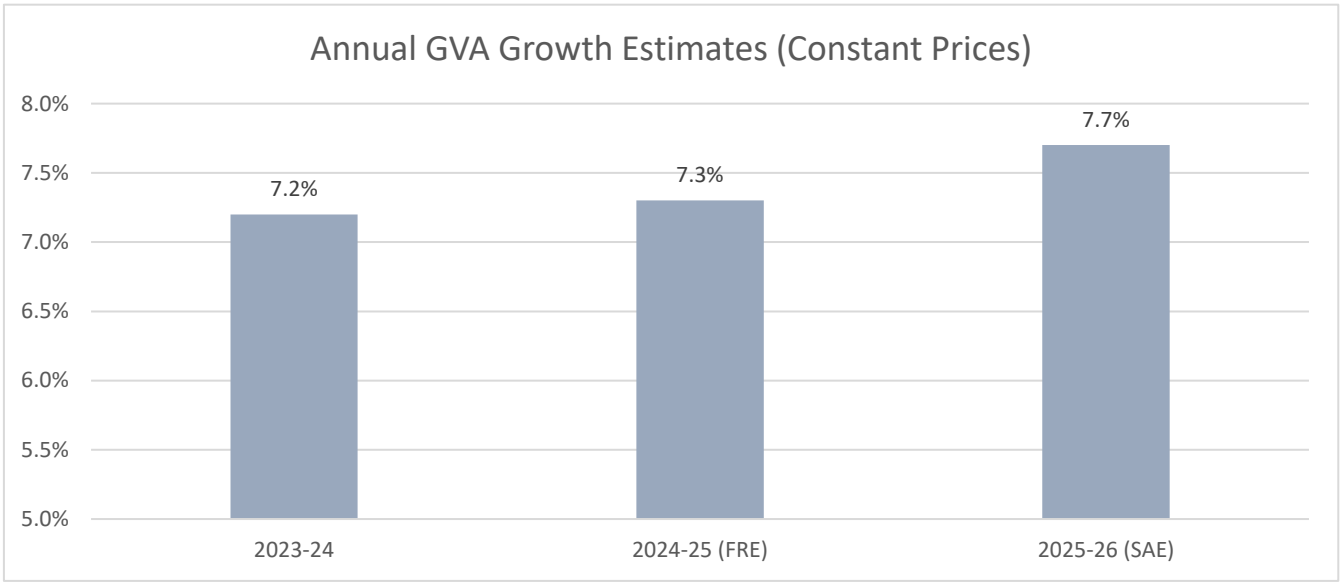
India achieved a significant milestone by overtaking Japan to become the *third most powerful nation in the Asia-Pacific region*, as per the Asia Power Index 2024. India's overall score rose to 39.1, reflecting a 2.8-point increase from the previous year, driven by growing influence across economic, military, and diplomatic dimensions.
Source: PIB, Press Release - India becomes 3rd Most Powerful Nation in Asia, Surpasses Japan in Asia Power Index posted on September 24, 2024

Key factors behind India's rise include its strong economic performance, expanding and youthful workforce, and increasing strategic engagement across the region. India's Economic Capability improved significantly, supported by its position as the world's third-largest economy in terms of purchasing power parity (PPP). Additionally, a notable increase in its Future Resources score highlights the demographic advantage that is expected to sustain its growth trajectory in the coming years.

2.2 Gross Value Added (GVA)

According to the Second Advance Estimate of GDP for 2025-26 by MOSPI, Govt. of India (GoI), Real GVA is estimated at INR 294.40 lakh crore in the year 2025-26, against INR 273.36 lakh crore in FY 2024-25, registering a growth rate of 7.7% as compared to 7.3% growth rate in 2024-25. Nominal GVA is estimated to attain a level of INR 313.61 lakh crore during FY 2025-26, against INR 288.54 lakh crore in 2024-25, showing a growth rate of 8.7%.



Note: FRE - First Revised Estimates; SAE - Second Advance Estimate
Source: New Series of Gross Domestic Product (GDP) Estimates with Base Year 2022-23 by MOSPI, PIB Press Release dated 27 February, 2026)

Major Highlights:

- Real GDP has been estimated to grow by 7.6% in FY 2025-26. Nominal GDP has witnessed a growth of 8.6%. These growth rates are revised upward from their respective First Advance Estimates computed using previous Base Year (2011-12).
- Overall Economic performance in FY 2025-26 is primarily on account of robust Real growth observed in Second Quarter (8.4%) and Third Quarter (7.8%).
- The Economy has exhibited sustained performance, recording Real GDP growth rates of 7.2% and 7.1% respectively during FY 2023–24 and FY 2024–25.
- Nominal GDP has registered 11.0% and 9.7% growth rates during FY 2023–24 and FY 2024–25 respectively.
- Manufacturing sector has been the major driver in contributing to the resilient performance of the economy in consecutive 3 financial years after rebasing. This sector has attained double digit growth rates in FY 2023-24 and FY 2025-26.
- Secondary and Tertiary sectors have boosted the performance of the economy by registering above 9.0% growth rate in FY 2025-26.
- 'Trade, Repair, Hotels, Transport, Communication & Services related to Broadcasting, Storage' sector has attained a growth rate of 10.1% at Constant Prices in FY 2025-26.
- On the Consumption side, both the Private Final Consumption Expenditure (PFCE) and Gross Fixed Capital Formation (GFCF) have exhibited more than 7.0% growth rate in FY 2025-26.

2.3 India Per Capita GDP Forecast

Per capita GDP growth for India is estimated at 9.19 % CAGR between CY2025-CY2030. Increased individual incomes are expected to create additional discretionary spending, which may be beneficial for the sector.

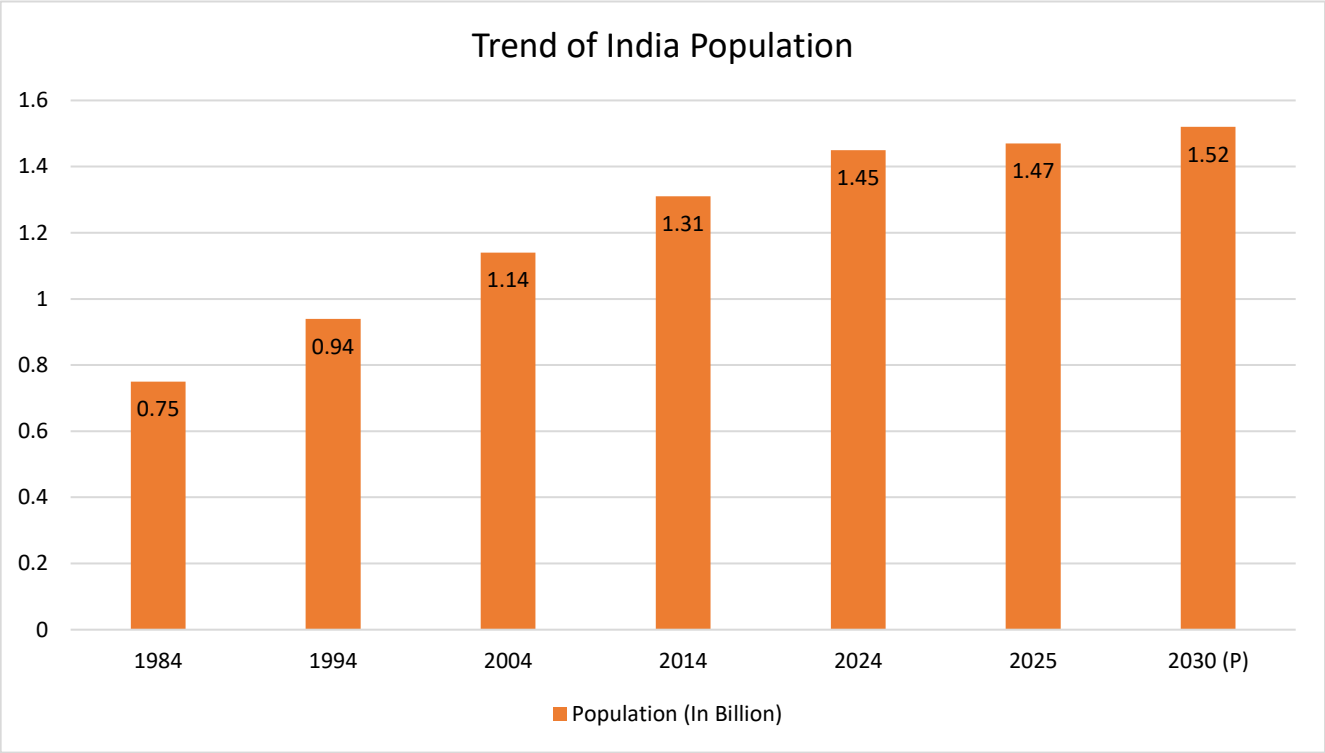
2.4 Overview on Key Demographic Parameters

2.4.1 Population growth



Note: P = Projected
Source: World Bank Database, Infomerics Analytics & Research

India's economic trajectory is closely linked to its demographic expansion, with the population increasing from approximately 0.75 billion in 1984 to 1.45 billion in 2024, and further to around 1.47 billion in 2025, making it the world's most populous nation. This growth supports a large labour force and rising consumption demand, strengthening long-term economic potential.

For the banking sector, this translates into a structural expansion in customer base, driving higher financial inclusion, account penetration, and deposit mobilization. At the same time, a growing and increasingly aspirational population fuels demand for retail credit, including housing, personal, and consumption loans, supporting loan book growth.

Overall, population growth acts as a long-term growth driver for banks, supporting both deposit accretion and credit expansion, while also creating opportunities for cross-selling financial products.

2.5 Union Budget FY26-27 Highlights

The Union Budget FY 2026–27, presented by Finance Minister Nirmala Sitharaman, introduces a comprehensive set of measures aimed at stimulating economic growth, enhancing infrastructure, and fostering inclusive development. With a focus on sectors such as agriculture, MSMEs, infrastructure, innovation, and exports, the budget seeks to create a conducive environment for sustained economic expansion.

- **Capital Expenditure and Infrastructure Development**

  In FY2026-27, the Union Budget has increased the public capex towards to INR 12.2 lakh crore from the previous INR 11.21 lakh crore (3.1% of GDP) which was earmarked in FY 2025–26. To strengthen the confidence of private developers regarding risks during infrastructure development and construction phase, the budget proposed to set up an Infrastructure Risk Guarantee Fund to provide prudently calibrated partial credit guarantees to lenders.

- **Support for MSMEs**

  Recognizing the pivotal role of Micro, Small, and Medium Enterprises (MSMEs) in India's economic landscape, the budget introduced a three-pronged approach to support the sector. The budget introduced a dedicated INR

10,000 crore SME Growth Fund as well as proposed to top up the Self-Reliant India Fund set up in 2021, with INR 2,000 crore to continue support to micro enterprises and maintain their access to risk capital. With TReDS, more than INR 7 lakh crore has been made available to MSMEs. To leverage its full potential, the budget further proposed four measures: (i) mandate TReDS as the transaction settlement platform for all purchases from MSMEs by CPSEs, serving as a benchmark for other corporates; (ii) introduce a credit guarantee support mechanism through CGTMSE for invoice discounting on TReDS platform; (iii) link GeM with TReDS for sharing information with financiers about government purchases from MSMEs, encouraging cheaper and quicker financing; (iv) introduce TReDS receivables as asset-backed securities, helping develop a secondary market, enhancing liquidity and settlement of transactions. Moreover, Government will facilitate Professional Institutions such as ICAI, ICSI, ICMAI to design short-term, modular courses and practical tools to develop a cadre of 'Corporate Mitras', especially in Tier-II and Tier-III towns, which will help MSMEs meet compliance requirements at affordable costs.

- **Establishment of dedicated Rare Earth Corridors**

A Scheme for Rare Earth Permanent Magnets was launched in November 2025. In line with that, the budget proposed to support the mineral-rich States of Odisha, Kerala, Andhra Pradesh and Tamil Nadu to establish dedicated Rare Earth Corridors to promote mining, processing, research and manufacturing.

- **Integrated Programme for the Textile Sector**

The following Schemes have been announced:

(a) The National Fibre Scheme for self-reliance in natural fibres such as silk, wool and jute, man-made fibres, and new-age fibres.
(b) Textile Expansion and Employment Scheme to modernise traditional clusters with capital support for machinery, technology upgradation and common testing and certification centres.
(c) A National Handloom and Handicraft programme to integrate and strengthen existing schemes and ensure targeted support for weavers and artisans.
(d) Tex-Eco Initiative to promote globally competitive and sustainable textiles and apparels.
(e) Samarth 2.0 to modernize and upgrade the textile skilling ecosystem through collaboration with industry and academic institutions.

- **Carbon Capture Utilization and Storage (CCUS)**

Aligning with the roadmap launched in December 2025, CCUS technologies at scale will achieve higher readiness levels in end-use applications across five industrial sectors, including, power, steel, cement, refineries and chemicals. An outlay of INR 20,000 crore is proposed over the next 5 years.

- **Municipal Bonds**

To encourage the issuance of municipal bonds of higher value by large cities, the budget proposed an incentive of INR 100 crore for a single bond issuance 10 of more than INR 1000 crore. The current scheme under AMRUT which incentivises issuances up to INR 200 crore, will also continue to support smaller and medium towns.

- **Ease of Doing Business**

Individual Persons Resident Outside India (PROI) will be permitted to invest in equity instruments of listed Indian companies through the Portfolio Investment Scheme. It is also proposed to increase the investment limit for an individual PROI under this scheme from 5% to 10%, with an overall investment limit for all individual PROIs to 24%, from the current 10%.

- **Hubs for Medical Value Tourism**

To promote India as a hub for medical tourism services, the budget proposed to launch a Scheme to support States in establishing five Regional Medical Hubs, in partnership with the private sector. These Hubs will serve as integrated healthcare complexes that combine medical, educational and research facilities. They will have AYUSH Centres, Medical Value Tourism Facilitation Centres and infrastructure for diagnostics, post-care and

rehabilitation. These Hubs will provide diverse job opportunities for health professionals including doctors and AHPs.

- **Agriculture Related Schemes**

To diversify farm outputs, increase productivity, enhance farmers' incomes, and create new employment opportunities, the budget announced support schemes related to high value crops such as coconut, sandalwood, cocoa and cashew in coastal areas. Agar trees in Northeast and nuts such as, almonds, walnuts and pine nuts in hilly regions will also be supported. India is the world's largest producer of coconuts.

About 30 million people, including nearly 10 million farmers, depend on coconuts for their livelihood. To further enhance competitiveness in coconut production, the Budget proposed a Coconut Promotion Scheme to increase production and enhance productivity through various interventions including replacing old and non-productive trees with new saplings/plants/varieties in major coconut growing States. A dedicated programme is proposed for Indian cashew and cocoa to make India self-reliant in raw cashew and cocoa production and processing, enhance export competitiveness and transform Indian Cashew and Indian Cocoa into premium global brands by 2030.

Further, the Central Government will partner with State Governments to promote focused cultivation and post-harvest processing to restore the glory of the Indian Sandalwood ecosystem. To rejuvenate old, low-yielding orchards and expand high-density cultivation of walnuts, almonds and pine nuts, the budget announced to support a dedicated programme to enhance farmer incomes and in bringing value addition by engaging youth.

The Union Budget FY 2026–27 presents a balanced approach to economic growth by addressing immediate consumption needs and laying the foundation for long-term sustainability. Through targeted investments in infrastructure, support for MSMEs, and sector-specific initiatives, the budget aims to foster an inclusive and resilient economy. These measures are expected to create new opportunities for financial institutions, as the growing demand for investment products will provide avenues for expansion and innovation in the financial services sector.

2.6 Concluding Remarks

The major headwinds to global economic growth remain significant, with escalating geopolitical tensions involving the United States, Israel, and Iran, volatile global commodity prices, disruptions in global trade flows, inflationary pressures, and tightening financial conditions. These geopolitical developments have adversely impacted global supply chains, leading to a decline in import and export activity, particularly across energy-dependent regions. These disruptions have triggered a sharp rise in energy prices, with crude oil prices increasing by approximately 27% between late February and early March 2026, alongside a surge in freight costs, bunker fuel prices, and insurance premiums. The increase in energy and transportation costs has had a cascading effect on global inflation, particularly food prices, as higher fuel and fertilizer costs elevate agricultural production and distribution expenses. Despite these challenges, the global economy remains relatively resilient, with growth projected at 3.3% in 2026 and inflation expected to moderate to 3.8%, as per the International Monetary Fund.

India's economy remains relatively well-positioned amid these global uncertainties, supported by strong macroeconomic fundamentals. As per the Ministry of Statistics and Programme Implementation, India's GDP is estimated to grow at 7.6% in FY 2025–26, maintaining its status as one of the fastest-growing major economies globally. Inflation, as measured by the Consumer Price Index (CPI), remains contained at 2.75% in January 2026 under the revised base year, although rising global oil prices and supply disruptions may pose upside risks going forward. Key growth drivers for the Indian economy include strong domestic demand, rising disposable incomes, and continued government focus on infrastructure development and policy support.

Public investment is expected to play a crucial role in sustaining economic momentum, with the Union Budget FY 2026–27 increasing capital expenditure to INR 12.21 lakh crore from INR 11.21 lakh crore in the previous year. The proposed Infrastructure Risk Guarantee Fund is aimed at enhancing private sector participation by mitigating risks associated with infrastructure development. These measures are likely to crowd in private investment, strengthen infrastructure capacity, and support long-term economic growth.

Overall, while global headwinds such as geopolitical tensions, trade disruptions, and rising energy and food prices present near-term challenges, India's strong domestic growth drivers, proactive policy measures, and continued focus on investment-led growth are expected to support economic resilience. Strengthening supply chains, maintaining inflation stability, and sustaining infrastructure investments will be critical for navigating external uncertainties and ensuring stable long-term growth.

3. Industry Definition and Scope – Robotic Solar Panel Cleaning and O&M Industry

The Robotic Solar Panel Cleaning and Operations & Maintenance (O&M) Industry is rapidly emerging as a mission-critical enabler of renewable energy efficiency. Automated cleaning systems integrated with remote monitoring platforms are transforming asset management by providing real-time performance insights, proactive alerts, and measurable ROI improvements. In markets such as India, rising utility-scale solar capacity, water scarcity, and investor-driven performance guarantees are accelerating adoption of robotic, sensor-driven cleaning solutions. Integrated providers offering end-to-end systems—spanning robotic devices, predictive analytics, and lifecycle service contracts—are well-positioned to capture value. As solar energy transitions into the backbone of global power generation, robotic cleaning and O&M solutions are moving from ancillary support functions to strategic levers for maximizing energy output, reducing costs, and meeting ESG-aligned sustainability goals.

No longer confined to manual, labour-intensive processes, solar panel cleaning and maintenance now underpin asset efficiency, plant-level yield optimization, and sustainable operations. The industry spans a multidimensional spectrum—ranging from autonomous cleaning units and waterless robotic systems to integrated digital monitoring platforms that enhance uptime, pre-empt faults, and extend lifecycle performance. As solar capacity expands across both utility-scale and distributed projects, robotic O&M is evolving from auxiliary support into a core determinant of levelized cost of energy (LCOE) competitiveness.

In India, the O&M ecosystem is undergoing structural transformation. Installed capacity growth, performance-linked investor expectations, and deployment in arid regions facing severe water scarcity are compelling asset owners to adopt fully automated, sensor-driven cleaning systems. These combine robotic performance with predictive analytics, digital dashboards, and uptime assurance mechanisms, offering measurable value far beyond manual cleaning alternatives.

Sitting between fragmented service contractors and advanced global robotics innovators, a new cohort of Indian manufacturers and O&M integrators is filling this strategic market gap. These firms deliver end-to-end platforms that integrate robotic cleaning devices, dust-resilient modular systems, cloud-based monitoring software, and lifecycle analytics, supported through turnkey deployment and long-term service contracts. Their solutions are gaining traction across utility-scale parks, commercial rooftops, and institutional installations, especially in desert clusters and government-backed solar hubs.

Leading players differentiate themselves through the ability to:

- Integrate robotics with remote monitoring for continuous data capture and actionable intelligence.
- Issue proactive alerts to pre-empt underperformance or downtime.
- Deliver quantifiable ROI improvements across large, decentralized solar portfolios.

However, achieving global competitiveness will require deeper investments in:

- AI-driven monitoring ecosystems for predictive asset intelligence.
- Robotic fleet standardization to improve scalability.
- ESG-compliant, waterless cleaning technologies for arid geographies.

- Export-oriented expansion across global sunbelt markets.

In an environment where robotic O&M is no longer optional but a mission-critical enabler of solar asset integrity, companies that operate with integrated, tech-enabled, and compliance-driven models are best positioned to capture disproportionate value from India's renewable energy expansion and the broader global pivot toward automated, sustainability-aligned solar infrastructure.

4. Market Segmentation

The Global Robotic Solar Panel Cleaning and O&M industry is evolving into a multi-layered ecosystem, shaped by technological innovation, end-user requirements, and delivery models. Segmentation reflects the diversity of solutions — from autonomous robotic systems and waterless cleaning technologies to integrated digital O&M platforms and aftermarket support. Demand patterns vary significantly across utility-scale, commercial, institutional, and residential segments, while business models range from OEM-driven manufacturing to turnkey EPC and service-based approaches. Emerging sub-segments such as AI-driven predictive cleaning, ESG-aligned solutions, and Robot Cleaning-as-a-Service (RCaaS) highlight the industry's pivot toward sustainability, cost optimization, and performance assurance.

Category	Sub-Category	Details
By Type of Equipment	**Robotic Cleaning Systems**	• Autonomous, rail-mounted, and mobile robotic cleaning units. • Dry, water-based, and waterless cleaning technologies. • Modular, dust-resilient designs for utility-scale and rooftop PV.
	Integrated O&M Platforms	• Cloud-based dashboards with asset monitoring. • Remote diagnostics, predictive maintenance, and lifecycle analytics. I-driven optimization for panel tilt, cleaning frequency, and yield maximization.
	Components & Spare Parts	lotors, brushes, microfiber rollers, battery packs, solar-powered charging docks. • Aftermarket spare parts ecosystem supported by annual maintenance contracts. •Lifecycle support through predictive replacements and upgrades.
	Waterless & Sustainable Cleaning Solutions	• Electrostatic dust removal and air-jet systems. • Waterless robots for desert/remote solar parks. • ESG-aligned cleaning solutions addressing water scarcity.
By End-Use Sector	**Utility-Scale Solar Parks**	• Large-scale robotic fleets for desert clusters and arid geographies. • Key adoption driver: water scarcity + performance guarantees.
	Commercial & Industrial Rooftops	• Modular, lightweight robots for mid-sized solar rooftops. • High demand from manufacturing plants, warehouses, and malls.

	Institutional & Government Installations	• Smart campuses, airports, and public-sector solar initiatives. • Preference for integrated O&M with uptime assurance contracts.
	Residential/Distributed Solar	• Compact, consumer-grade robotic cleaners for rooftop PV. • Early-stage, cost-sensitive segment; growth expected with falling hardware prices.
By Delivery Model	**In-House Manufacturing & Robotics OEMs**	• Large players design and produce proprietary cleaning systems. • Capital-intensive, with focus on R&D and export competitiveness.
	Turnkey EPC + O&M Providers	• End-to-end service providers offering design, deployment, and lifecycle support. • Preferred for utility-scale projects with performance guarantees.
	Service & Aftermarket Models	• AMC-driven O&M, spare parts replacement, and lifecycle upgrades. • Retrofit cleaning solutions for legacy solar installations.
	Hybrid Models	• In-house robotic design + outsourced EPC execution. • Bundled digital monitoring overlays with fleet management.
Emerging Sub-Segments & Value-Added Services	**Digital Solar O&M**	• IoT-enabled dashboards for remote fleet control. • Real-time alerts, yield tracking, and downtime analytics.
	AI & Predictive Cleaning Systems	• Machine learning algorithms for soiling pattern detection. • Optimized cleaning schedules to balance cost and energy gain.
	ESG & Water-Conservation Solutions	• Waterless robotic systems. • Carbon footprint reduction via reduced manual operations. • ESG-compliant technologies for global investors.
	Robotics-Enabled O&M-as-a-Service (ROaaS)	•Subscription/pay-per-use bundling cleaning, vegetation mgmt., monitoring, and security. • Value-added layer for mid-sized developers and C&I owners, ensuring efficiency, uptime, and ESG compliance without capex. •Delivers recurring revenues, predictable contracts, and lower risk.

5. Global and Indian Industry Outlook

5.1 Global Robotics Industry

The global robotics industry is undergoing accelerated expansion, driven by digitalization, automation imperatives, and labour productivity challenges across both developed and emerging markets. Robotics is now broadly classified into industrial robots and service robots, with each segment demonstrating distinct market dynamics, growth drivers, and commercialization pathways. Together, they form the backbone of the Industry 4.0 transition and the services digitalization wave.

- **Industrial Robots** are defined as automatically controlled, reprogrammable, multipurpose manipulators (ISO 8373:2021) designed for automation in industrial environments. They are deployed in automotive, electronics, metalworking, and logistics, and classified into mechanical structures such as articulated, SCARA, Cartesian, cylindrical, polar, and delta robots. Industrial robots dominate in scale, accounting for millions of installed units globally, with annual installations consistently

  rising on the back of manufacturing re-shoring, collaborative robot adoption, and smart, connected automation systems. Their key investment rationale includes productivity gains, precision, energy efficiency, and resilience against systemic shocks.

- **Service robots** are robots designed to perform useful tasks for humans or equipment in professional and personal environments. Unlike industrial robots, the service robotics market is highly fragmented and application-specific, encompassing sectors such as logistics, healthcare, cleaning, agriculture, construction, hospitality, and defence. According to the International Federation of Robotics (IFR), global sales of new professional service robots exceeded 199,000 units in 2024, representing growth of 9%, supported by a base of 944 manufacturers. Key growth segments included transportation and logistics robots, with sales of 102,925 units (+52%), followed by hospitality robots at 42,030 units (+21%), professional cleaning robots at 25,527 units (+13%), agricultural robots at 19,487 units (+10%), and security robots at 3,128 units (+1%). In addition, the consumer service robotics segment recorded sales of approximately 20.1 million new units in 2024, reflecting year-on-year growth of 11%, highlighting the increasing adoption of robotic solutions across household and personal-use applications.

- **The Medical Robotics** segment recorded strong growth in 2024, with approximately 16,700 new units sold, representing a year-on-year increase of 91%. Growth was particularly driven by advancements in diagnostic and medical laboratory analysis robots, which expanded by 610%, followed by rehabilitation and non-invasive

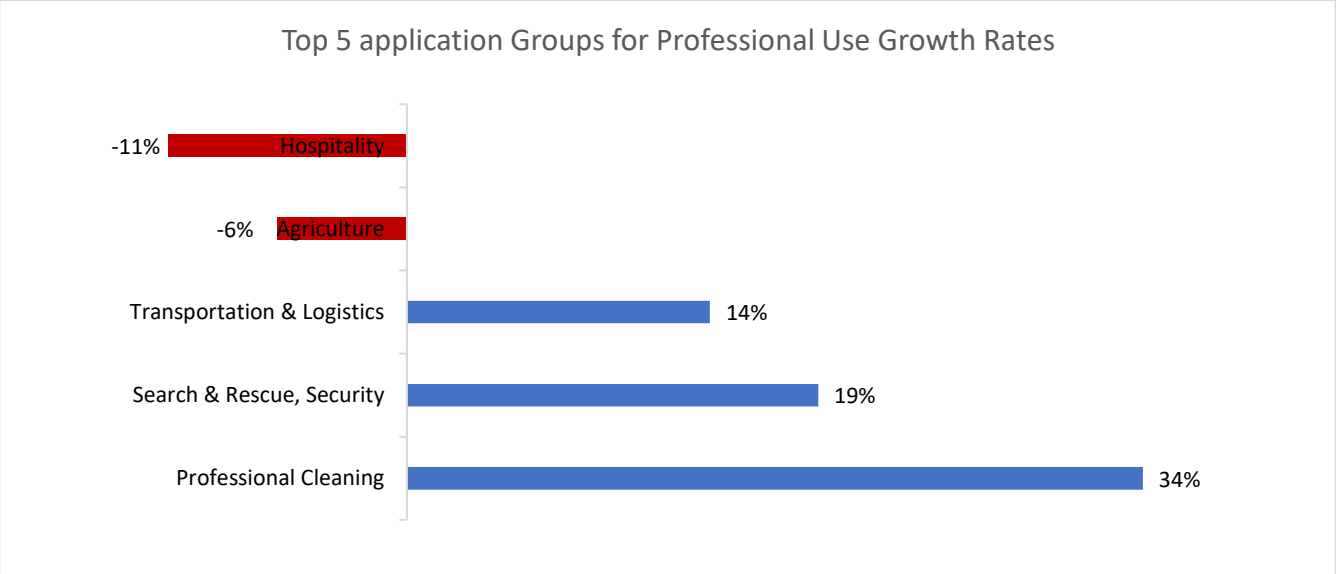
therapy robots (+106%) and surgical robots (+41%), reflecting the increasing adoption of robotic technologies across healthcare applications.

From a geographic perspective, Europe leads in service and medical robot manufacturing, while Asia (China, Japan, South Korea) dominates industrial robot deployment in electronics and automotive sectors. North America remains a hub for deep-tech service robotics and collaborative solutions.

Standardization is central to industry scalability. ISO/TC 299 oversees robotics standards, with dedicated frameworks for safety (ISO 10218 for industrial, ISO 13482 for service), modularity, and interoperability. Increasingly, AI integration, connectivity, and human-robot collaboration are redefining both segments, creating adjacent opportunities in software, sensors, and edge intelligence.

The robotics industry presents a dual-track growth narrative: industrial robots underpin cost efficiency and scalability in global manufacturing supply chains, while service robots unlock new markets in healthcare, logistics, agriculture, and consumer applications. With double-digit growth forecasts, robotics is positioned as a structural enabler of long-term productivity, sustainability, and competitiveness worldwide.

Service Robotics by Application Groups



Source: *IFR.org, World Robotics 2025*

1. **Agriculture**

- **Key Applications:** Autonomous tractors, robotic harvesters, weeding and spraying robots for precision farming.
- **Impact:** Boosts yield through precision agriculture, reduces dependency on seasonal labour, optimizes input costs (water, fertilizers, pesticides).
- **Enhancements:** Wider integration of AI/ML and IoT sensors for soil and crop health monitoring; predictive maintenance of robotic fleets; scalable leasing models for small and mid-sized farms.

2. **Professional Cleaning**

- **Key Applications:** Floor scrubbing, commercial facility cleaning, airport/mall sanitation, industrial plant hygiene.
- **Impact**: Improves hygiene standards, addresses labor shortages in janitorial services, lowers operational costs in large facilities.

- **Enhancements:** Multi-functional units combining cleaning, disinfection, and asset monitoring; adoption of "robots-as-a-service" with predictive maintenance.

3. Medical Robotics

- **Key Applications:** Surgical robots, rehabilitation exoskeletons, robotic-assisted diagnostics, hospital service robots (medication delivery).
- **Impact:** Increases precision in surgery, reduces staff workload, improves rehabilitation outcomes.
- **Enhancements:** AI-driven decision support for predictive diagnostics and maintenance, cost optimization for wider hospital adoption.

4. Transport and Logistics

- **Key Applications:** Warehouse automation (sorting, picking, packing), autonomous guided vehicles (AGVs), robotic last-mile handling.
- **Impact:** Enhances supply chain efficiency, reduces labor costs, accelerates e-commerce fulfillment.
- **Enhancements:** Integration with AI/ML for predictive fleet maintenance, real-time inventory monitoring, and autonomous route optimization.

5. Hospitality

- **Key Applications:** Reception/concierge robots, robotic waiters, room-service delivery, automated bartenders.
- **Impact:** Improves guest experience, reduces operating costs, positions businesses as tech-forward.
- **Enhancements**: AI-driven personalization engines, predictive maintenance of robotic fleets, hybrid human-robot service models.

Others Include:

6. Inspection and Maintenance

- **Key Applications:** Infrastructure inspection (bridges, pipelines, power plants), solar panel and wind turbine O&M, oil & gas facilities.
- **Impact:** Extends asset life, ensures safety in hazardous environments, reduces downtime and maintenance costs.
- **Enhancements:** Standardization across industries, AI/ML-based predictive maintenance, real-time asset monitoring and anomaly detection.

7. Construction and Demolition

- **Key Applications:** Automated bricklaying, 3D-printing construction, autonomous demolition robots, site surveying.
- **Impact:** Reduces labour-intensive risks, accelerates project timelines, improves accuracy and safety compliance.
- **Enhancements:** Integration with BIM, predictive maintenance of robotic equipment, AI-driven workflow optimization.

8. Search, Rescue, and Security

- **Key Applications:** Disaster recovery, bomb disposal, perimeter surveillance, hazardous environment entry.
- **Impact:** Saves lives, minimizes human exposure, strengthens safety infrastructure.
- **Enhancements:** AI/ML-based predictive monitoring, higher autonomy in robotic operations, coordinated fleet management for disaster response.

5.1.1 Factors fuelling growth in Robotics Industry

1. Technological Integration: The robotics industry is undergoing accelerated adoption of advanced technologies to enhance automation, precision, and intelligence across industrial and service domains. Key enablers include AI and machine learning for autonomous decision-making, IoT-enabled robotics for predictive maintenance, cloud-based orchestration platforms for real-time fleet management, and computer vision for dynamic navigation and object recognition. In logistics and manufacturing, integration of robotics with digital twins, 5G connectivity, and edge computing is streamlining operations and enabling hyper-efficient workflows. These innovations are driving higher productivity, reduced downtime, and measurable ROI improvements across industries.

2. Sustainability and ESG Alignment: As automation increasingly intersects with sustainability mandates, robotics is emerging as a critical tool for advancing ESG-aligned operations. Robots help minimize energy waste, reduce hazardous labour exposure, and optimize material utilization, directly contributing to net-zero and circular economy goals. In agriculture, autonomous systems support precision farming with lower input usage; in cleaning, waterless and chemical-efficient robots reduce environmental impact; and in logistics, robotic automation enables optimized energy-efficient routing. Governments and corporates are embedding ESG criteria into automation procurement, accelerating demand for green robotics solutions and low-footprint manufacturing technologies.

3. Expansion of Service Robotics Applications: Rising global demand for automation in healthcare, agriculture, logistics, construction, and hospitality is fuelling investment in service robotics. Factors such as aging populations, labor shortages, rising wage pressures, and post-pandemic hygiene priorities are reshaping demand dynamics. Healthcare robotics (surgery, rehabilitation, hospital delivery), last-mile logistics robots, and agricultural automation are witnessing exponential uptake. Governments, particularly in Asia-Pacific and Europe, are incentivizing robotics adoption through R&D grants, automation subsidies, and smart city initiatives. This structural shift is rapidly expanding the addressable market for both hardware manufacturers and service providers.

4. Outsourcing and Robotics-as-a-Service (RaaS) Models: The industry is shifting from capital-intensive, one-time equipment purchases to subscription-based and performance-linked robotics deployment models. Robotics-as-a-Service (RaaS) is gaining traction across logistics, cleaning, security, and hospitality segments, enabling organizations to adopt automation without upfront capex. Contracts increasingly include uptime guarantees, performance SLAs, and lifecycle maintenance, reflecting demand for total cost of ownership (TCO) optimization. This trend is institutionalizing the robotics ecosystem, with specialized solution providers consolidating their presence as integrated automation partners rather than equipment vendors.

5.1.2 Regional Insights:

- **Asia-Pacific (APAC):**

The world's fastest-growing robotics market, fueled by China, Japan, South Korea, and India. Growth drivers include large-scale manufacturing automation, e-commerce logistics expansion, and strong government-backed robotics R&D initiatives. APAC dominates in industrial robots while also rapidly scaling service robotics across agriculture, healthcare, and smart city deployments.

- **North America:**

A mature robotics market with deep adoption across automotive, aerospace, defense, healthcare, and logistics. The U.S. leads in robotics innovation through advanced startups and university-led R&D ecosystems, supported by venture capital funding. High demand for collaborative robots (cobots), autonomous warehouses, and surgical robotics positions North America as a technology leader.

Europe:

A hub for ESG-aligned robotics adoption, with strong regulatory frameworks emphasizing safety, ethical AI, and green manufacturing. Germany, Italy, and France are leading in industrial automation, while Nordic and Western European economies are scaling service robots for healthcare and aging populations. EU-driven policy frameworks are shaping global robotics compliance and ethical standards.

- **Middle East & Africa (MEA):**

Emerging demand for robotics in construction, infrastructure, and security applications, driven by mega-projects in the Gulf (Saudi Arabia, UAE). Governments are investing in robotics for food security, logistics, and smart city ecosystems. Africa shows nascent but growing adoption in agriculture and healthcare, often supported by international development partnerships.

- **Latin America:**

Fast-growing but infrastructure-constrained robotics market. Adoption is led by automotive manufacturing in Mexico and Brazil, agricultural robotics for export crops, and rising healthcare service robotics. However, high import costs and weak domestic R&D ecosystems are slowing large-scale adoption.

The global robotics industry is transitioning from siloed, equipment-centric deployments to integrated, digitally governed, and sustainability-aligned ecosystems. Clients increasingly prioritize autonomy, lifecycle accountability, AI-driven performance optimization, and ESG compliance. This signals a broader phase of institutionalization, service-model adoption, and cross-industry convergence. Digitally mature robotics firms—those capable of integrating hardware, software, and data intelligence into outcome-based service models—are strategically positioned to capture future-ready opportunities across industrial, commercial, and consumer domains.

5.2. Global Renewable Power Sector

The global power stack is rapidly transitioning from thermal baseload to variable renewables. Utility-scale solar and wind lead new deployments, while grid-scale batteries and flexible gas turbines increasingly balance intermittency.

- **Economics:** Solar's Levelized Cost of Electricity (LCOE) continues to fall due to advances in module efficiency, balance-of-system scale, digital O&M, and lower financing costs in mature markets.
- **Bottlenecks:** Expansion is still constrained by grid congestion, interconnection delays, land-use constraints, and trade measures (tariffs, AD/CVD).
- **Investor insight:** Solar has shifted from a "growth satellite" to a core capacity-addition asset class. Storage attachment rates are rising, expanding value creation across global portfolios.

5.2.1 Global Renewable Power Installed Capacity by Region (CY20–CY25)

Global renewable energy installed capacity (including solar, wind, hydropower, bioenergy, and geothermal energy) increased from 2,810.89 GW in CY 2020 to 5,149.28 GW in CY 2025, registering a CAGR of 12.87%. The growth was primarily driven by large-scale renewable energy deployment across Asia, Europe, and India, supported by decarbonization targets, energy security initiatives, and continued investment in clean energy infrastructure.

Asia (excluding India) remained the largest renewable energy market globally, with installed capacity increasing from 1,166.80 GW in CY 2020 to 2,640.10 GW in CY 2025, representing a CAGR of 17.74% and accounting for 51.27% of global installed renewable energy capacity in CY 2025. The region's growth was largely supported by substantial renewable energy additions across China and other Asian economies.

India's renewable energy installed capacity increased from 134.77 GW in CY 2020 to 250.51 GW in CY 2025, registering a CAGR of 13.20%. India accounted for 4.86% of global renewable energy capacity in CY 2025, reflecting continued expansion in solar, wind, and other renewable energy installations.

Europe remained the second-largest regional market, with renewable energy capacity rising from 606.69 GW in CY 2020 to 934.33 GW in CY 2025, growing at a CAGR of 9.02% and contributing 18.14% of global capacity. North America recorded installed capacity of 613.69 GW in CY 2025, compared with 422.33 GW in CY 2020, reflecting a CAGR of 7.76% and a global share of 11.92%.

Among emerging regions, Africa's renewable energy capacity increased from 51.44 GW in CY 2020 to 82.37 GW in CY 2025, while the Middle East (excluding Saudi Arabia) expanded from 23.21 GW to 44.11 GW during the same period, registering CAGRs of 9.87% and 13.70%, respectively. Saudi Arabia recorded the fastest growth, with installed renewable energy capacity increasing from 0.41 GW in CY 2020 to 12.33 GW in CY 2025, representing a CAGR of 97.53%, albeit from a relatively small base.

The continued expansion of renewable energy capacity across major regions reflects increasing policy support, declining technology costs, growing energy demand, and global decarbonization efforts. As renewable energy penetration increases, grid integration, transmission infrastructure development, energy storage deployment, and asset performance optimization are expected to remain key priorities across renewable energy markets.

5.3. Global Solar Energy

The global solar energy sector has witnessed significant growth over the past five years, supported by declining technology costs, favorable policy measures, increasing investments in renewable energy infrastructure, and rising demand for clean power. Solar energy has emerged as a key contributor to global renewable energy capacity additions and the broader energy transition. Global installed solar energy capacity increased from 721.13 GW in CY 2020 to 2,391.60 GW in CY 2025, registering a CAGR of 27.10%. Growth was primarily driven by the rapid deployment of solar photovoltaic ("PV") systems across utility-scale, commercial, industrial, and residential applications.

On-grid solar PV remained the dominant segment, accounting for approximately 99.6% of total installed solar capacity in CY 2025. Installed on-grid PV capacity increased from 714.72 GW in CY 2020 to 2,383.20 GW in CY 2025, reflecting a CAGR of 27.23%, supported by utility-scale projects and grid-connected distributed solar installations.

Off-grid solar PV capacity increased from 4.09 GW in CY 2020 to 10.34 GW in CY 2025, registering a CAGR of 20.38%. Although representing a small share of global solar capacity, off-grid systems continue to support electrification in remote and underserved regions. Other solar technologies, including concentrated solar power (CSP), solar heating and cooling systems, agrivoltaics, building-integrated solar technologies, solar fuels, and hybrid solar applications, increased from 6.40 GW to 8.42 GW during the same period, registering a CAGR of 5.64%.

The continued expansion of solar capacity underscores the growing role of solar energy in the global power mix and is expected to support further investments in grid infrastructure, energy storage, and solar asset management solutions.

5.3.1. Global Solar Power Installed Capacity by Region (CY19–CY24) – On Grid

Solar power has been the primary driver of renewable energy capacity additions globally, supported by declining technology costs, supportive policy frameworks, energy transition initiatives, and growing investments in clean energy infrastructure. Global installed solar power capacity increased from 721.13 GW in CY 2020 to 2,391.58 GW in CY 2025, registering a CAGR of 27.10%.

Asia remained the largest solar market globally, with installed capacity increasing from 411.55 GW in CY 2020 to 1,528.22 GW in CY 2025, reflecting a CAGR of 30.00% and accounting for 63.90% of global solar capacity in CY 2025. Excluding India, Asia accounted for 1,393.06 GW of installed capacity, representing 58.25% of global capacity, driven primarily by large-scale solar deployment across China and other Asian economies.

India's installed solar capacity increased from 39.36 GW in CY 2020 to 135.16 GW in CY 2025, registering a CAGR of 27.98% and accounting for 5.65% of global installed solar capacity. The growth was supported by utility-scale solar projects, expanding rooftop installations, and government-led renewable energy initiatives.

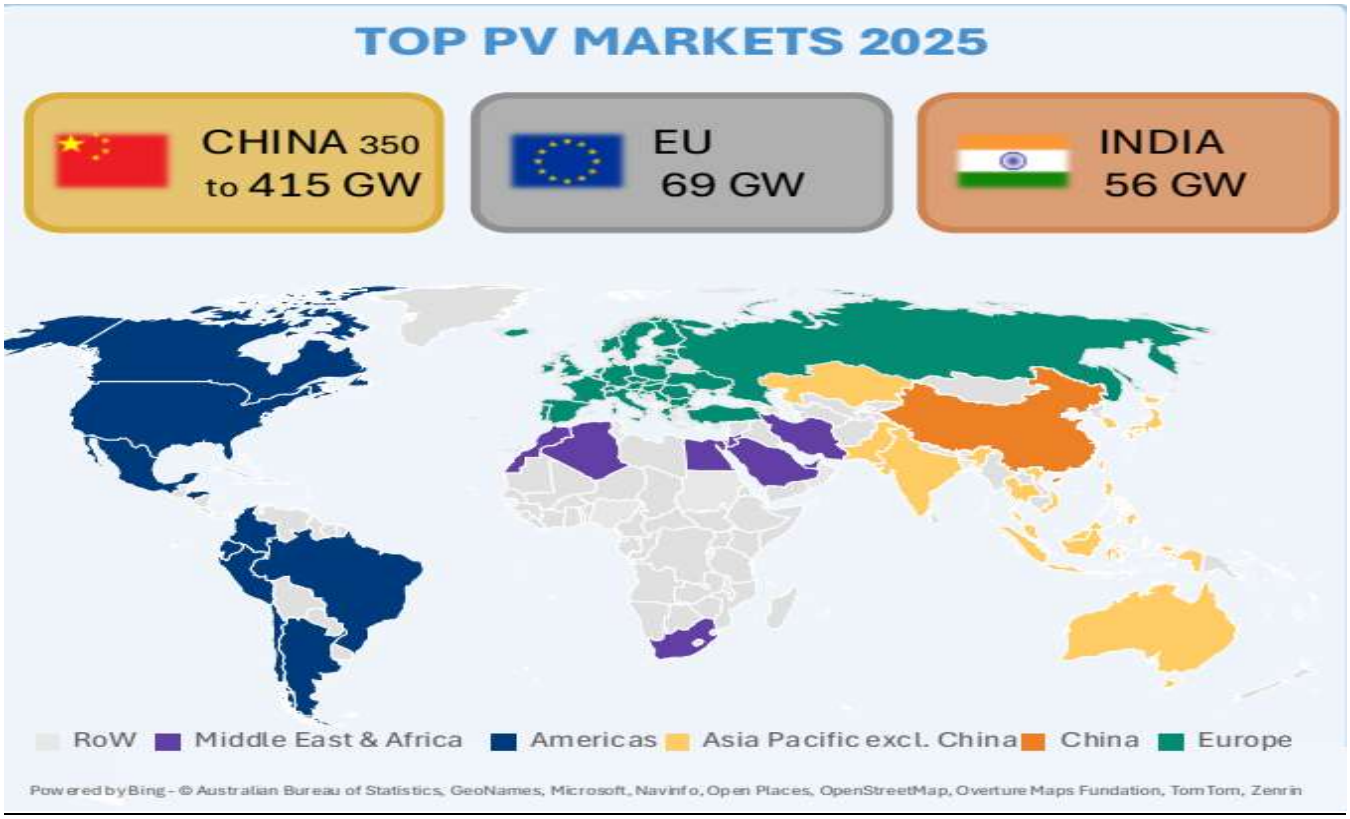
Europe remained the second-largest regional solar market, with installed capacity increasing from 159.07 GW in CY 2020 to 405.42 GW in CY 2025, registering a CAGR of 20.58% and accounting for 16.95% of global capacity. North America recorded installed solar capacity of 228.97 GW in CY 2025, compared with 84.25 GW in CY 2020, reflecting a CAGR of 22.13% and a global share of 9.57%.

Among emerging markets, the Middle East recorded the fastest regional growth, with installed solar capacity increasing from 7.67 GW in CY 2020 to 37.79 GW in CY 2025, representing a CAGR of 37.58%. Within the region, Saudi Arabia expanded from 0.36 GW to 11.88 GW during the same period, registering a CAGR of 101.35%, albeit from a relatively low base. Africa's installed solar capacity increased from 8.39 GW in CY 2020 to 22.19 GW in CY 2025, reflecting a CAGR of 21.48%.

The continued expansion of solar capacity across major regions underscores the increasing role of solar energy in global power generation. While Asia and Europe continue to account for the majority of installed capacity, emerging markets in the Middle East and Africa are witnessing accelerated deployment, supported by energy diversification strategies, improving project economics, and growing renewable energy investments.

5.3.2. Global Solar PV Markets:

The global solar photovoltaic (PV) market continued its rapid expansion in 2025, with annual installations reaching an estimated 698 GW, driven by accelerating investments in renewable energy, declining module costs, and supportive energy transition policies worldwide. Market growth remained heavily concentrated among a few leading regions, with China retaining its position as the largest solar PV market globally, accounting for approximately 415 GW of annual installations. The European Union ranked second with 69 GW of new capacity additions, supported by ongoing decarbonization initiatives and energy security objectives, while India emerged as the third-largest market with 55.9 GW of installations, reflecting strong growth in both utility-scale and distributed solar deployment. Together, these markets continue to play a pivotal role in shaping global solar demand, capacity expansion, and investment trends, underpinning the industry's transition toward becoming a central pillar of the global electricity system.



Source: Snapshot-of-Global-PV-Markets-2026, IEA PVPS, Infomerics Analytics & Research

Annual solar photovoltaic (PV) installations exhibited a mixed growth trajectory between 2006 and 2025. The market expanded rapidly from 0.8 GW in 2006 to 8.2 GW in 2012, driven by supportive policy frameworks and early adoption of solar technologies. Installations subsequently declined to 2.6 GW in 2013 and reached a low of 1.2 GW in 2014, reflecting policy adjustments and market consolidation. From 2015 onwards, the market gradually recovered, with annual additions increasing from 1.3 GW in 2015 to 7.6 GW in 2022. Growth accelerated significantly thereafter, with installations more than doubling to 15.3 GW in 2023 and reaching a record 17.4 GW in 2024, supported by declining module prices, expanding utility-scale projects, and growing renewable energy demand. Although annual additions moderated slightly to 16.9 GW in 2025, installation levels remained substantially higher than historical averages, indicating the continued strength and maturity of the solar PV market.

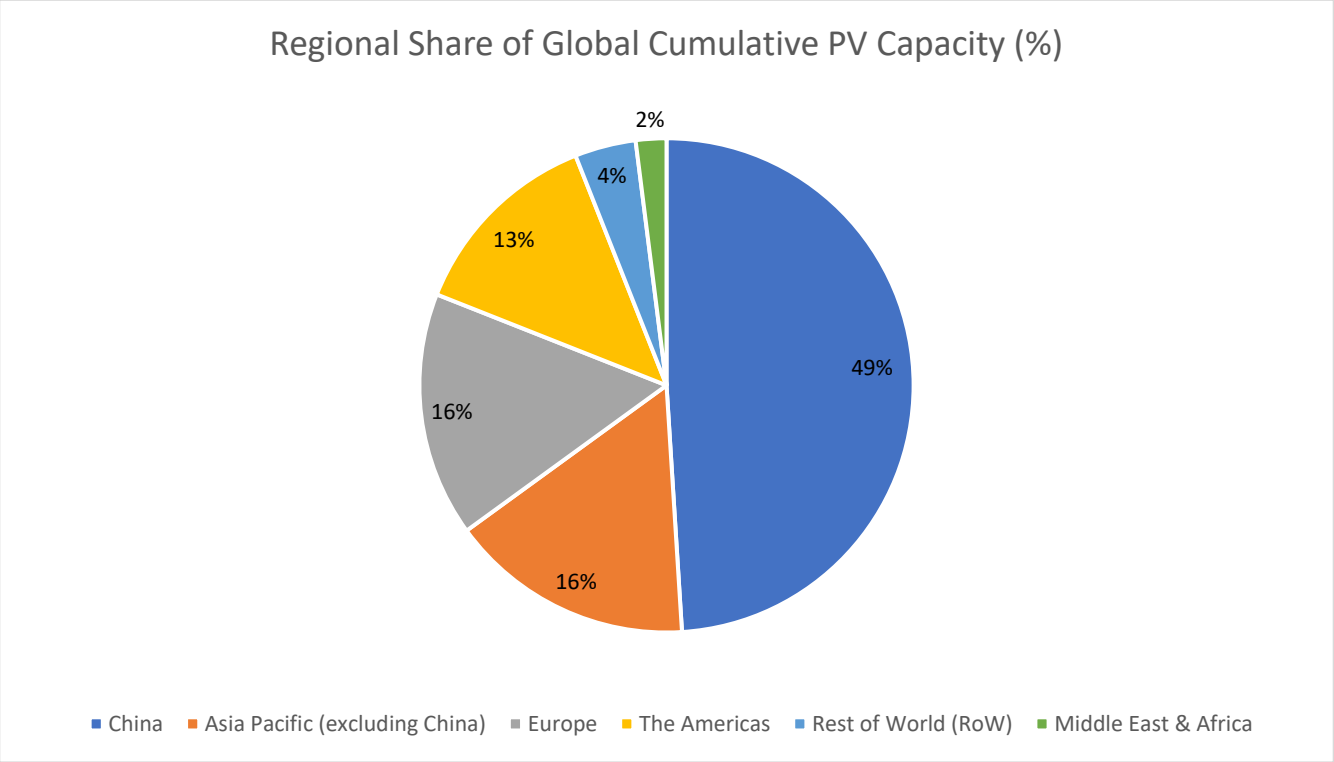
The global cumulative solar PV capacity remains highly concentrated in Asia, led by China, which accounted for 49% of worldwide installed PV capacity in 2025, reflecting its dominant role in solar deployment and renewable energy investments. Excluding China, the broader Asia-Pacific region represented a further 16% of global cumulative capacity, supported by significant contributions from markets such as India, Japan, Australia and South Korea. Europe also accounted for 16% of global installed capacity, underpinned by long-established solar markets and continued investments in energy transition initiatives. The Americas represented 13% of global cumulative PV capacity, driven primarily by the United States and Brazil, while the Rest of the World contributed 4%.

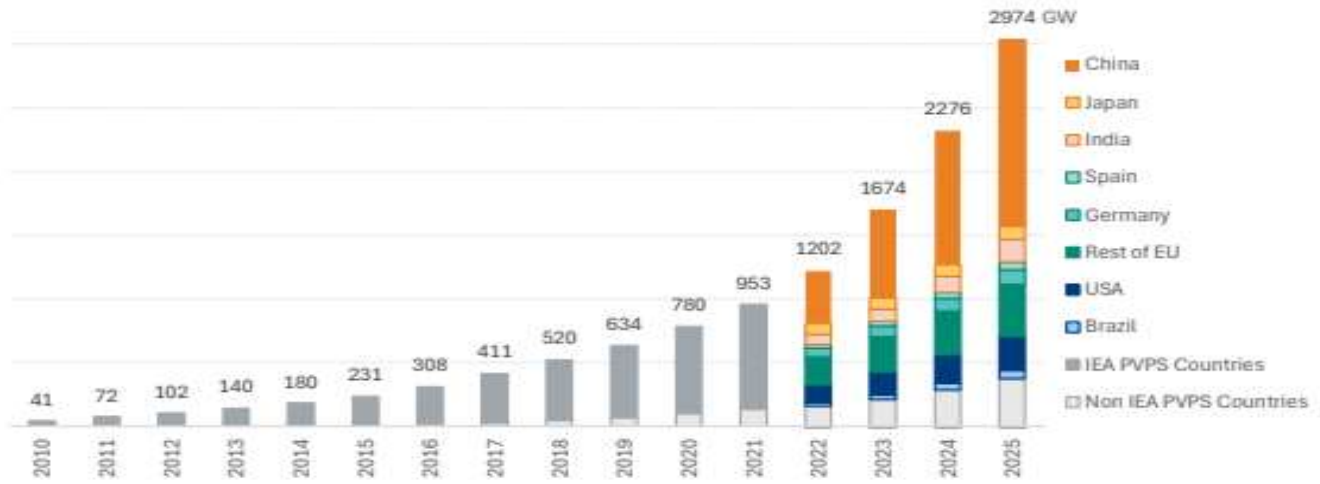


Source: IEA PVPS, Infomerics Analytics & Research

The Middle East and Africa accounted for 2% of global installed capacity, indicating a relatively early stage of solar market development despite increasing project pipelines and substantial long-term growth potential. Overall, the regional distribution highlights China's continued dominance in the global solar industry, while also demonstrating the growing contribution of other major markets toward the expansion of worldwide solar generation capacity.

Evolution Of Cumulative PV Installations in Major Markets:

Global cumulative solar photovoltaic (PV) capacity has expanded significantly over the past decade, increasing from 41 GW in 2010 to approximately 2,974 GW in 2025, reflecting the accelerating adoption of solar energy worldwide. Growth was initially led by established markets such as Europe, Japan and the United States; however, the market landscape has progressively shifted towards Asia, particularly China, which reached approximately 1,464 GW of cumulative installed capacity in 2025 and accounted for nearly half of global installed PV capacity. The European Union remained the second-largest cumulative market with 406 GW, followed by the United States with 268 GW and India with 180 GW.

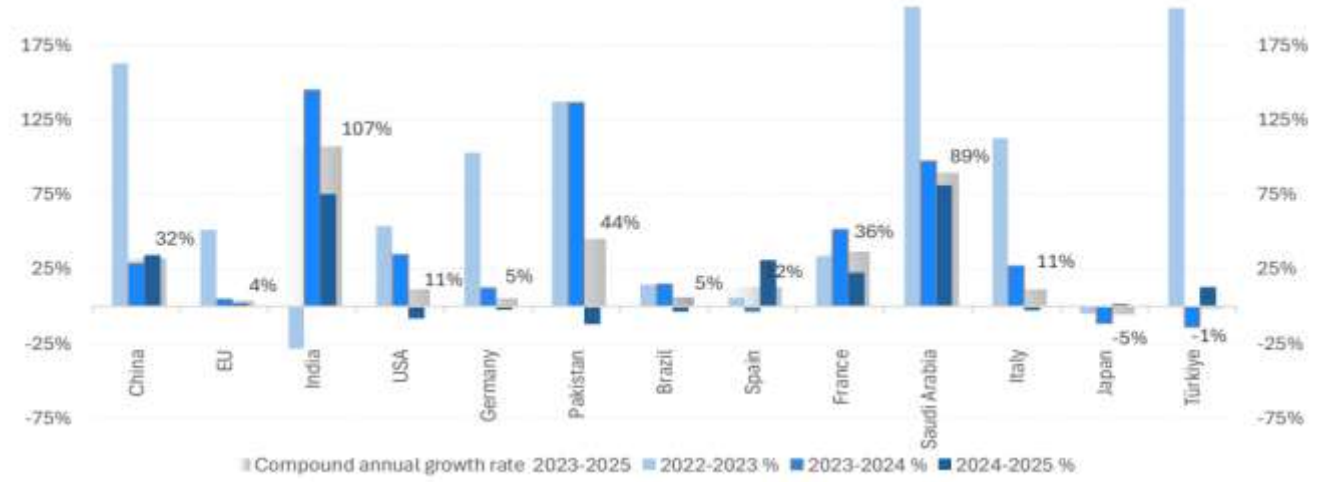


Source: Snapshot-of-Global-PV-Markets-2026, IEA PVPS

Other major markets, including Germany, Japan, Brazil and Spain, also continued to expand their installed base, contributing to the diversification of global solar deployment. The rapid increase in cumulative capacity highlights the transition of solar PV from a niche renewable technology to a mainstream source of electricity generation, supported by declining technology costs, supportive policy frameworks and growing investments in clean energy infrastructure.

EVOLUTION OF NEW ANNUAL CAPACITY IN SOME MAJOR MARKETS - COMPOUND ANNUAL GROWTH RATE 2023 - 2025:

The evolution of new annual solar PV capacity across major markets between 2023 and 2025 highlights significant differences in growth trajectories, reflecting varying levels of market maturity, policy support, grid readiness and investment activity.



Source: IEA PVPS, Infomerics Analytics & Research

Emerging and rapidly expanding markets recorded the strongest compound annual growth rates (CAGR) over the period, led by India (107%), Saudi Arabia (89%) and Türkiye (36%), supported by large-scale utility projects, growing electricity demand and government-led renewable energy initiatives. China, the world's largest solar market, continued to expand at a robust CAGR of 32%, reinforcing its dominant position in global solar deployment. In contrast, more mature markets such as the European Union (4%), the United States (11%), Germany (5%), France (12%) and Italy (11%) experienced relatively moderate growth as higher levels of solar penetration shifted market challenges towards grid integration, permitting and transmission constraints. Meanwhile, Brazil (-5%) and Japan (-1%) recorded marginal declines in annual installations, while Pakistan experienced exceptional

growth during the period despite year-to-year volatility. The data indicates that global solar capacity expansion is increasingly being driven by high-growth emerging markets, while established markets continue to grow at a comparatively measured pace due to infrastructure and market maturity considerations.

Top Solar PV Markets by Annual and Cumulative Capacity in 2025

The ranking of major solar PV markets in 2025 highlights both the scale of annual deployments and the concentration of cumulative installed capacity in a limited number of countries. China remained the dominant global market, accounting for an estimated 415.0 GW of annual installations and approximately 1,463.5 GW of cumulative installed capacity, far exceeding all other markets. The European Union ranked second in annual installations with 65.7 GW and second in cumulative capacity with 406.0 GW, reflecting its long-established solar sector. India emerged as the third-largest market for annual installations, adding 55.9 GW during the year, while also becoming the fourth-largest market globally in cumulative capacity with 180.5 GW.

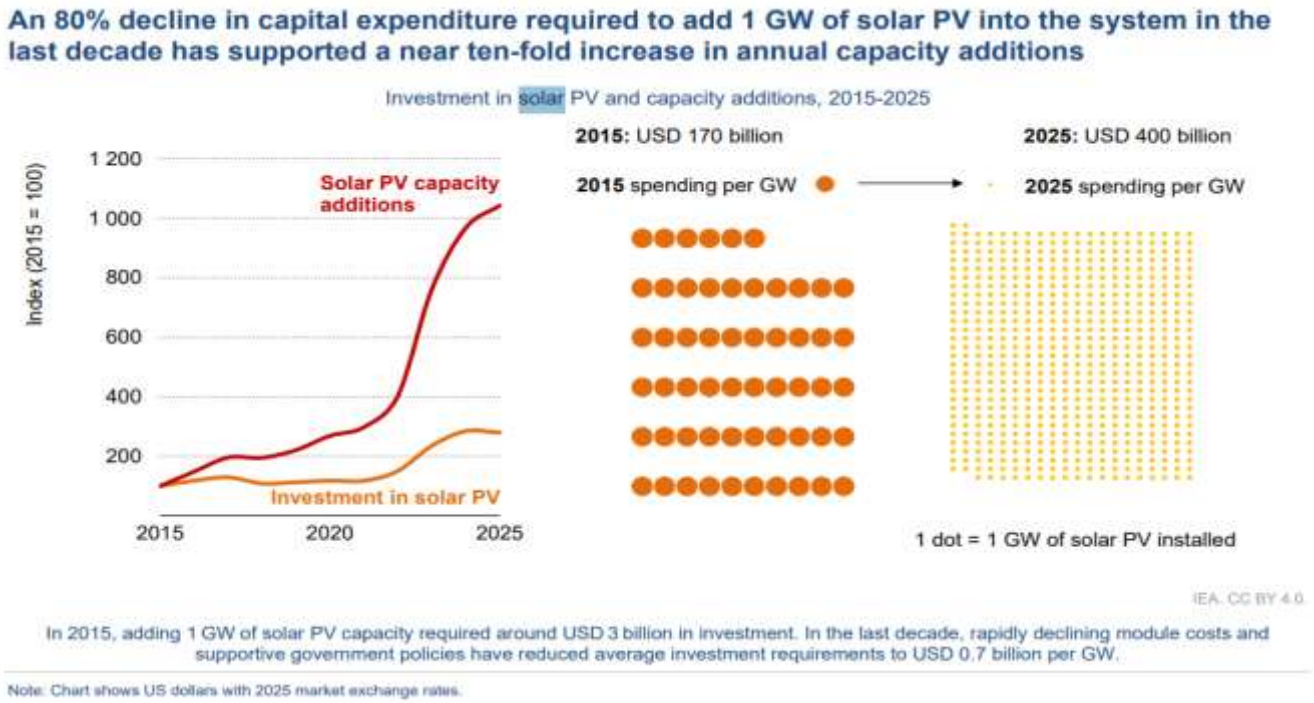
The United States ranked fourth in annual additions at 43.2 GW and third in cumulative installed capacity at 268.2 GW. Among other key markets, Germany, Japan, Brazil, Spain, Pakistan, Australia and Italy continued to strengthen their installed base, reflecting sustained investments in solar energy infrastructure. The rankings demonstrate the growing geographical diversification of solar deployment while underscoring the continued leadership of China, the European Union, the United States and India in shaping global solar PV capacity expansion and long-term market development.

5.3.3. Global Annual Investment in Solar PV (CY21–CY25)

The solar photovoltaic (PV) industry has become significantly more cost-efficient over the last decade, enabling much faster deployment of new solar power capacity worldwide. In 2015, approximately USD 170 billion was invested in solar PV globally, and adding 1 GW of solar capacity required around USD 3 billion of investment, resulting in about 57 GW of new capacity additions during the year.

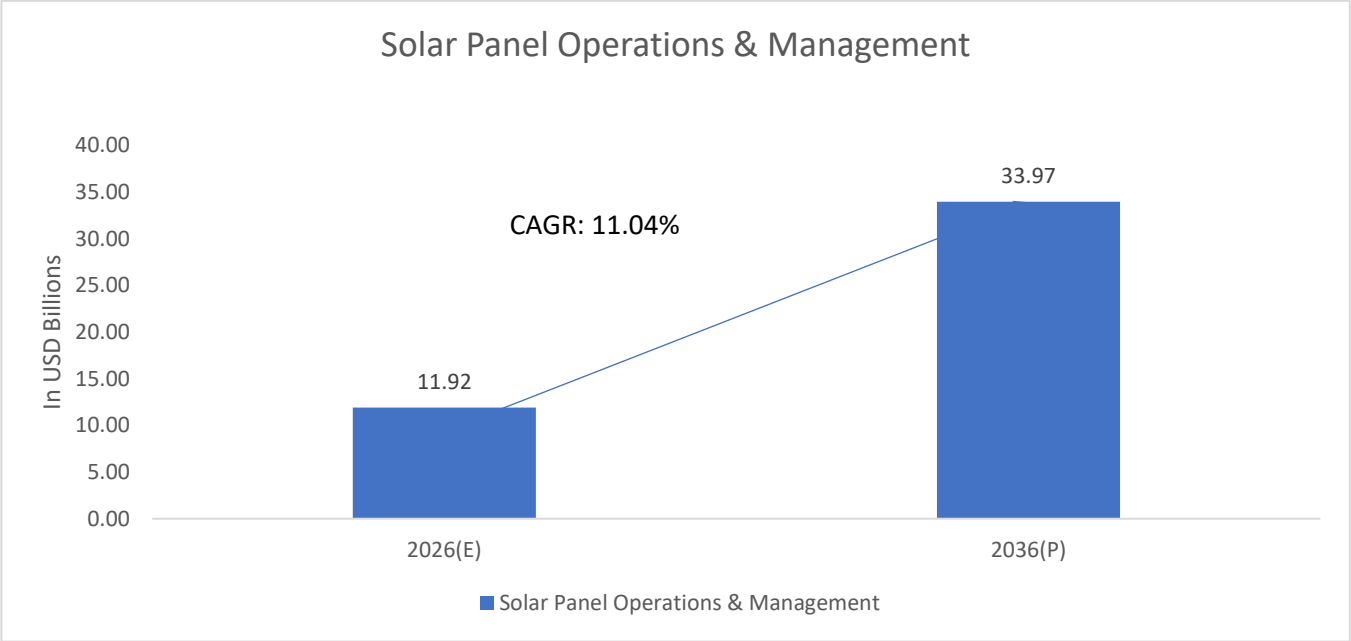


Source:IEA, Infomerics Analytics & Research

By 2025, global solar PV investment is projected to increase to approximately USD 400 billion; however, the average investment required to add 1 GW of capacity is expected to decline sharply to around USD 0.7 billion. As a result, annual solar PV capacity additions are projected to rise to approximately 571 GW, representing more than a ten-fold increase compared with 2015. While total investment in solar PV is expected to increase by about 135% during the period, annual capacity additions are projected to grow by over 900%, highlighting substantial improvements in capital efficiency. The decline of nearly 80% in investment required per GW has been supported by rapidly falling solar module costs, technological advancements, economies of scale, and supportive government policies, making solar energy one of the most cost-effective sources of new power generation globally.

5.4. Global Solar PV Operations and Management Industry

The global solar PV operations and maintenance (O&M) market is becoming increasingly important as the installed base of solar assets expands worldwide. The market is estimated at USD 11.92 billion in 2026 and is projected to reach USD 33.97 billion by 2036, registering a CAGR of 11.04% during the period. This growth reflects the rising need for asset monitoring, preventive and corrective maintenance, performance optimization, and lifecycle management services across utility-scale, commercial, and distributed solar installations.



Source: Infomerics Analytics & Research, E-estimated, P-Projected.

The increasing demand for O&M services is closely linked to the rapid growth in global solar PV capacity. As solar installations continue to expand, operators and asset owners are focusing on maximizing energy generation, improving system reliability, reducing downtime, and optimizing long-term returns on investment. Growing emphasis on operational efficiency, digital monitoring solutions, predictive maintenance, and compliance with evolving regulatory and sustainability requirements is expected to further support the expansion of the solar PV O&M market.

5.4.1. Key forces shaping the Solar PV Operations and Management include:

- **Scale of Installed Assets** – As GW-scale additions persist annually, O&M demand is becoming annuity-like, with revenue models tied to long-term performance contracts.
- **Digitalization and Predictive Analytics** – AI-driven monitoring, robot inspection, and digital twin technologies are shifting O&M from reactive to predictive, reducing downtime and optimizing asset health.
- **EPC-to-O&M Transition** – Engineering, Procurement, and Construction (EPC) firms increasingly bundle O&M services, securing long-term annuity streams post-deployment.
- **Asset Ownership Shifts** – Institutional investors and YieldCos. prioritize professional O&M providers to protect returns, driving consolidation and outsourcing.
- **Regional Momentum** – Markets such as India, the Middle East, and Latin America exhibit heightened demand, where harsh climatic conditions necessitate high-frequency O&M interventions.

5.4.2. Benefits of Solar PV Operations and Management (O&M)

Robust Operations and Management (O&M) is no longer a peripheral service in solar PV deployment but a core enabler of asset longevity, yield optimization, and financial viability. As global capacity scales into multi-terawatt territory, disciplined O&M practices provide tangible benefits across technical, financial, and sustainability dimensions:

- **Performance Optimization:** Regular monitoring, predictive diagnostics, and preventive interventions reduce downtime, ensuring higher capacity utilization and generation yield.

- **Cost Efficiency**: Advanced O&M lowers lifecycle costs by mitigating equipment failures, optimizing spare part logistics, and extending asset lifespan — directly impacting the Levelized Cost of Energy (LCOE).
- **Investor Assurance**: Structured O&M contracts (availability guarantees, performance-linked payments) provide predictable cashflows, bolstering project bankability and attracting institutional capital.
- **Regulatory Compliance**: Standardized O&M frameworks ensure adherence to evolving grid codes, safety standards, and ESG-linked reporting obligations.
- **Technological Advantage:** Integration of robotics, waterless cleaning and AI-driven monitoring allows leaner operations in challenging terrains and resource-constrained geographies.
- **Sustainability Impact:** Efficient O&M reduces resource wastage (water, chemicals, manpower) while sustaining higher renewable generation, reinforcing the environmental credibility of solar portfolios.

In effect, Solar O&M functions as both a technical safeguard and a financial hedge, securing returns for asset owners while supporting the global energy transition.

5.4.3. Key Projects in Solar Operations and Management

The global solar O&M landscape is best understood through flagship projects that illustrate scale, innovation, and geographic adaptation. These projects serve as benchmarks for investors and policymakers, showcasing how predictive analytics, robotics, and digital integration are reshaping lifecycle management.

1. **China – Ultra-Large Utility Parks**

Gonghe Photovoltaic Project, Qinghai (3.18 GW): One of the world's largest contiguous PV plants, Gonghe deploys AI-driven diagnostics, autonomous cleaning systems, and centralized spare-part ecosystems to ensure operational resilience.

Inner Mongolia Bases (>1 GW each): Multiple ultra-large projects integrate advanced SCADA systems and digital twin platforms, optimizing O&M across dispersed assets in challenging terrain.

2. **India – Bhadla & Rewa Ultra Mega Solar Parks**

Rewa Ultra Mega Solar Park (750 MW): India's first ultra-mega park, supported by the World Bank Clean Technology Fund, features robotic cleaning, modular inverter upkeep, and SCADA-based yield optimization. Known for pioneering reverse bidding, it has set benchmarks in tariff reduction and O&M standardization.

Bhadla Solar Park (2.25 GW): The world's largest solar park adopts robotic cleaning systems, advanced grid management for desert variability, and integrated digital O&M platforms. Coordination between state and private developers ensures high availability ratios.

3. **Middle East – Mohammed bin Rashid Al Maktoum Solar Park, Dubai**

Targeting 5 GW by 2030, the project combines autonomous robotic cleaning, drone-based thermal imaging, and advanced control platforms. Integration of 15-hour storage capacity enables dispatchable solar output. The park is a global benchmark for desert solar efficiency and automated O&M execution.

4. **United States – Large-Scale O&M Frameworks**

Topaz Solar Farm (550 MW, California): Operated under a 25-year O&M contract with First Solar, emphasizing predictive maintenance, digital twin modeling, and availability guarantees.

Mount Signal Solar Farm (794 MW, California): Leverages fleet-wide condition monitoring, life-cycle predictive analytics, and advanced diagnostics to reduce downtime and extend asset life.

Solar Star (579 MW, California): Employs remote diagnostics and digital O&M systems to maintain consistent yield across a multi-block farm structure.

5. Europe – Distributed O&M Portfolios

Countries like Spain and Germany have pioneered aggregated O&M frameworks where multiple mid-sized portfolios (10–50 MW) are managed on unified digital platforms. This approach enables cost-per-MW reduction, fleet-wide health monitoring, and improved remote diagnostics across fragmented assets.

6. **Africa – Benban Solar Park, Egypt (1.8 GW)**

Africa's largest solar facility employs centralized O&M with digital task management systems and automation pilots, showcasing how standardized O&M contracts can de-risk large multi-developer projects in emerging markets.

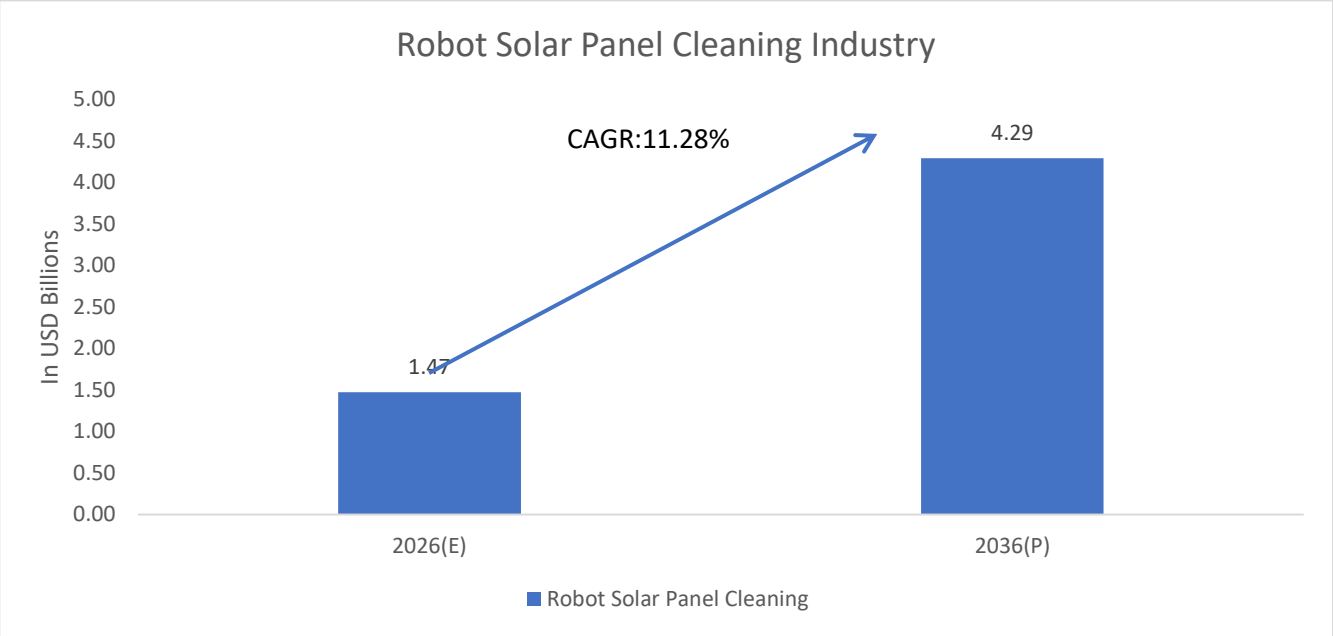
Emerging Trends Across O&M Projects:

1. **Automated robotic inspection systems** – Use drones and robots with thermal cameras and visual sensors to quickly identify faults such as hotspots, cracks, or underperforming panels, reducing downtime.
2. **Robotic cleaning solutions** – Especially important in desert or high-dust regions, these water-efficient or waterless robots' clean panels more effectively than manual labour, keeping efficiency high.
3. **Robotic vegetation management** – Ground mounted Robots and autonomous mowers reduce the need for manual grass cutting and minimize use of water and chemicals, making site upkeep more sustainable.
4. **AI/ML-driven predictive maintenance** – By analyzing electrical data (e.g., IV curve diagnostics), operators can predict equipment failures, optimize panel performance at the module level, and cut repair costs.
5. **Robotics-enabled asset monitoring** – Advanced computer vision helps detect anomalies (like cracks, shading, or dirt) early, enabling preventive action before yield loss.
6. **Cloud-enabled SCADA analytics** – Remote monitoring systems now provide real-time visibility across multiple solar farms, improving decision-making and operational control.
7. **Security AGVs**: Autonomous patrol robots provide rapid, on-ground security response with minimal human risk exposure.

Global Solar O&M (Operations & Maintenance) is shifting from manual, reactive practices to predictive, robotics-led lifecycle management. By integrating AI/ML, automation, and digital analytics, companies are ensuring stable yields, reduced costs, and bankable project cash flows. This makes O&M not just a support function but a strategic enabler of long-term solar investment.

5.5. Global Robotic Solar Cleaning Market

The global robotic solar panel cleaning market is gaining prominence as solar asset owners increasingly adopt automated solutions to improve operational efficiency and maximize energy generation. The market is estimated at USD 1.47 billion in 2026 and is projected to reach USD 4.29 billion by 2036, registering a CAGR of 11.28% during the forecast period. Growth is being driven by the expanding global solar PV installed base, increasing deployment of utility-scale solar projects, and the need to minimize performance losses caused by dust, dirt, and other environmental factors.



Source: Infomerics Analytics & Research, E-estimated, P-Projected.

Core solutions encompass autonomous waterless cleaning robots, semi-autonomous mobile and rope-based systems, and AI-enabled predictive cleaning platforms integrated with cloud-based monitoring and diagnostics. These technologies reduce reliance on manual labour, minimize water consumption in arid geographies, and ensure consistent performance ratios across solar assets.

Adoption is particularly strong in water-scarce, dusty, and utility-dense regions, where traditional manual cleaning remains resource-intensive and operationally inconsistent. Investors and asset owners increasingly favour robotic solutions to safeguard output, lower Levelized Cost of Energy (LCOE), and secure IRR-enhancing performance guarantees.

5.6. India’s Solar Market

India has emerged as the world's third-largest solar power producer, supported by rapid capacity expansion, policy support, and increasing domestic manufacturing capabilities. The country's installed solar power capacity increased from 2.82 GW in March 2014 to 150.26 GW as of March 31, 2026, representing an addition of 147.44 GW and a growth of over 53 times during the period. Simultaneously, domestic solar module manufacturing capacity expanded from 2.3 GW in 2014 to approximately 172 GW as of March 31, 2026.As of July 2025, India’s cumulative solar power capacity stood at 154.24 GW, comprising:

Ground-mounted solar plants

Grid-connected rooftop solar systems

Hybrid projects

Off-grid installations

- **117.36 GW** – Ground-mounted solar plants
- **26.75 GW** – Grid-connected rooftop solar systems
- **3.06 GW** – Hybrid projects
- **6.17 GW** – Off-grid installations

India crossed the milestone of 150 GW of cumulative installed solar capacity on March 31, 2026. The installed base comprised 110.43 GW of utility-scale solar projects, 25.73 GW of rooftop solar installations, and 14.10 GW of KUSUM and other off-grid projects. Earlier, as of July 2025, cumulative installed solar capacity stood at 154.24 GW, including 117.36 GW of ground-mounted solar plants, 26.75 GW of grid-connected rooftop systems, 3.06 GW of hybrid projects, and 6.17 GW of off-grid installations.

The sector recorded its highest-ever annual solar capacity addition during FY 2025-26, with 44.61 GW of new installations against a target of 34 GW. This represented a substantial increase over the previous record of 23.83 GW added in FY 2024-25. The industry also achieved its highest-ever monthly solar capacity addition of 6.66 GW during the year.

Distributed solar installations witnessed significant growth, with a record addition of 16.31 GW during FY 2025-26, comprising 8.71 GW of rooftop solar capacity and 7.67 GW under the KUSUM scheme. Distributed solar accounted for approximately 36% of the total solar capacity added during the year. Cumulative rooftop solar installations have benefited more than 4.2 million households across the country, supported by the PM Surya Ghar initiative, which reached 3.43 million households, including approximately 2.27 million households added during FY 2025-26.

India's solar development remains concentrated in resource-rich states such as Rajasthan, Gujarat, Karnataka, Tamil Nadu, Andhra Pradesh, Maharashtra, Madhya Pradesh, Chhattisgarh, and Odisha, which offer favorable solar irradiation levels and large-scale project opportunities. Additionally, Palli village in Jammu & Kashmir has emerged as India's first carbon-neutral panchayat, operating entirely on solar energy, demonstrating the growing role of solar power in supporting sustainable rural development.

Domestic Manufacturing Growth

India’s solar manufacturing ecosystem has witnessed unprecedented expansion in the last two years, positioning the country as a self-reliant and globally competitive player across the solar value chain.

1. **Solar Module Manufacturing**

- This rapid expansion has been enabled by large-scale investments, government-led tendering, and Production Linked Incentive (PLI) schemes.
- The higher domestic module capacity reduces dependence on imported products, especially from China, and strengthens India’s export competitiveness.

2. **Solar PV Cell Manufacturing**

- This scaling up addresses one of the critical gaps in India's solar supply chain, were domestic PV cell production earlier lagged module assembly.
- Increased cell production ensures greater backward integration and lowers import reliance, particularly for projects supported under government-linked programs.

3. **Ingot-Wafer Manufacturing**

- A major milestone was achieved with the commissioning of India's first ingot-wafer manufacturing facility.
- Ingot-wafer production is a critical upstream process that provides the base material for solar cells. Until now, India depended almost entirely on imports for this stage of the value chain.
- Establishing this facility marks the beginning of India's transition towards a fully integrated solar manufacturing ecosystem, reducing vulnerabilities to global supply chain disruptions.

Policies such as Basic Customs Duty (BCD) on imported modules/cells and mandatory domestic sourcing under government schemes have supported this expansion.

India has emerged as a global leader in advancing solar energy cooperation through multilateral platforms. The International Solar Alliance (ISA), co-founded by India and France in 2015, now brings together over 100 member countries with the objective of mobilising USD 1 trillion in solar investments by 2030, reducing technology costs, and promoting affordable solar deployment, particularly in Least Developed Countries (LDCs) and Small Island Developing States (SIDS). Complementing this, the One Sun, One World, One Grid (OSOWOG) initiative, launched by India in 2018, envisions the creation of a transnational solar grid to enable cross-border electricity trade under the principle that "the sun never sets." By linking solar-rich regions across South Asia, Africa, and Europe, OSOWOG aims to ensure reliable, sustainable, and cost-effective energy access, reinforcing India's leadership in shaping the global clean energy transition.

6. Market Dynamics

6.1 Key Growth Drivers

The Robotic Solar Cleaning market in India is poised for accelerated adoption, driven by converging technology, cost, and policy dynamics. Falling hardware costs, increasing automation, and the imperative of maximizing solar yield in arid and dusty geographies are creating a compelling adoption case. Moreover, integration with SCADA/O&M (Supervisory Control and Data Acquisition/Operations and Maintenance) platforms and the emergence of service-based models (RaaS/SOaaS) are lowering upfront barriers while enhancing portfolio-wide efficiency.

Detailed Driver Commentary — Robotic Solar Panel Cleaning & O&M

1. Hardware Cost Decline (Economies of Scale, Local Manufacturing)

- Cost trajectory: With larger installed fleets and component indigenization, robotics hardware is seeing steady cost compression. Domestic manufacturing under "Make in India" and similar localization policies will reduce dependency on imports and cut FX/tariff exposure.
- Market unlock: Lower upfront capex makes robots competitive with manual cleaning on lifecycle ROI, broadening adoption among mid-sized IPPs and EPCs.
- Impact: Medium in the short term (driven by pilot deployments), but High beyond 3–4 years as scale economics and local supply chains converge.

2. AI & Autonomy (Route Optimization, Predictive Analytics)

- Software-led differentiation: Route optimization, machine vision, and predictive soiling models transform robots from hardware assets into AI-driven O&M platforms.
- Performance assurance: AI-powered diagnostics (e.g., IV curve analysis, anomaly detection) improve cleaning frequency decisions and yield assurance.
- Impact: Starts Medium in 1–2 years due to limited deployment, but becomes High as predictive cleaning and autonomy become core to SLA-based O&M.

3. Service Models (RaaS / Robotics-Enabled O&M-as-a-Service)

- Shift from capex to opex: Robotics-as-a-Service (RaaS) lowers adoption barriers by converting upfront capital costs into subscription-like fees.
- Investor alignment: Long-term service contracts mirror infrastructure annuities, aligning with PE and infra fund preferences.
- Impact: Medium in near term, but High over 3–7 years as developers outsource O&M and favor recurring revenue contracts over ownership models.

4. Waterless & Hybrid Cleaning R&D

- Sustainability driver: ESG pressures and regional water scarcity accelerate R&D into dry brush, electrostatic, and hybrid (low-water + robotic) technologies.
- Adoption curve: Current impact is limited due to early-stage pilots, but waterless cleaning will become critical in desert geographies and ESG-sensitive procurement.
- Impact: Low near term, Medium in 3–4 years, and High over 5–7 years as technologies mature and costs fall.

5. SCADA / O&M Integration (APIs, Digital Reporting)

- Integration imperative: SCADA and API-driven dashboards transform cleaning data into actionable O&M intelligence.
- Investor needs: Enhanced digital reporting strengthens transparency, enabling financiers to verify yield protection and compliance.
- Impact: Medium near term, shifting to High from year 3 as digital integration becomes a requirement in institutional contracts.

6. Cross-Market Expansion (Sunbelt / Global Scale-Up)

- Replication economics: Proven solutions in India, MENA, or the U.S. Sunbelt can be exported to LATAM, Africa, and Australia with minor adaptation.
- Operational challenge: Requires localization to soil types, tilt/track systems, and service infrastructure.
- Impact: Medium in the early horizon, High over 5–7 years as vendors achieve global scale and amortize R&D.

7. Rising Utility-Scale Solar Deployments

- Demand backbone: GW-scale solar parks drive adoption since manual cleaning becomes logistically unviable.
- O&M consistency: Fleet cleaning robots support centralized scheduling and standardized site-wide performance.
- Impact: High across all horizons, remaining the single strongest driver of robotic adoption.

8. ESG & Sustainability Alignment (Water Saving, Energy Yield)

- Investor compliance: ESG mandates push adoption of water-saving robotics to meet sustainability KPIs.
- Reputation risk: Asset owners adopt robotic cleaning not only for efficiency but also to avoid stakeholder scrutiny over water usage.
- Impact: Low in the near term, scaling to High over 5–7 years as ESG-linked capital becomes mainstream.

9. Government Policy Support (Renewable O&M Guidelines, PLI-linked Solar Growth)

- Policy enabler: Renewable energy tenders increasingly embed performance clauses and water-use guidelines, indirectly favouring robotic adoption.
- PLI incentives: Local robotics and component manufacturing benefit from policy-driven ecosystem support.
- Impact: Medium in 1–2 years, High beyond year 3 as national policies institutionalize sustainable O&M practices.

10. Private Equity & Infrastructure Fund Interest in Yield-Enhancing Tech

- Capital attraction: RaaS and long-term O&M contracts are seen as predictable, annuity-like revenue streams.
- Consolidation path: Funds will back roll-ups of smaller vendors, professionalize service delivery, and create pan-regional O&M platforms.
- Impact: Medium in early horizon, scaling to High beyond 5 years as infra capital accelerates market consolidation.

6.2 Challenges and Threats

Despite sustained growth in solar deployments and tightening ESG-linked mandates, the Robotic Solar Panel Cleaning and O&M Industry faces structural and operational bottlenecks that could constrain scalability, efficiency, and profitability. These challenges are particularly acute in emerging markets, where high water stress, uneven automation adoption, rising labour costs, and fragmented service ecosystems limit seamless integration. Tier II/III geographies further amplify constraints through inadequate grid resilience, limited digital infrastructure, and higher operating costs, underscoring the need for innovation-led, cost-efficient, and predictive O&M solutions.

Detailed Commentary

1. High Capital Intensity & Financing Gaps:

- Robotic cleaning systems demand significantly higher upfront investment than manual or semi-mechanized water-based cleaning, creating adoption hesitancy.

- Developers, particularly smaller IPPs and captive solar operators, prioritize keeping O&M costs low at project inception, despite long-term benefits of water savings and improved yield.
- Financing remains a bottleneck: banks and NBFCs are cautious due to the limited collateral value of mobile robots and uncertain secondary markets.
- Without innovative models—such as pay-per-wash, robotics-as-a-service (RaaS), or bundled O&M contracts—penetration beyond large developers remains constrained.

2. Hardware Durability in Harsh Climates:

- Extreme conditions—dust abrasion, desert heat, high humidity, and sandstorms—accelerate wear-and-tear on robotic systems.
- Frequent maintenance, replacement of parts, and higher failure rates undermine the value proposition of "low-maintenance automation."
- Lifecycle costs are elevated, especially in arid regions like Rajasthan or the Middle East, where robots are most needed.
- As hardware reliability improves, durability will remain a medium- to high-risk factor over the next decade.

3.Skilled Workforce Dependence:

- Robotics deployment requires a specialized talent pool familiar with AI/ML algorithms, SCADA integration, and IoT-enabled monitoring systems.
- Scarcity of skilled technicians creates operational bottlenecks in commissioning, predictive maintenance, and troubleshooting.
- This concentration of expertise in a few urban or industrial hubs slows nationwide scaling.
- Talent clustering increases costs for smaller developers, making them dependent on a handful of providers or OEMs.

4. Adoption Barriers & Awareness Gap:

- Many developers undervalue soiling-related energy losses, continuing with manual water-based cleaning due to lower upfront costs.
- Lifecycle ROI—higher plant load factor (PLF), water savings, ESG compliance, and predictable performance—is poorly communicated to SMEs and local operators.
- Entrenched contractor ecosystems reinforce "comfort bias" toward traditional methods, even in water-scarce geographies.
- This cultural inertia slows the adoption of waterless robotics, despite regulatory and ESG-linked momentum to conserve water.

5.Supply Chain & Standardization Risks:

- Critical components—actuators, AI processors, batteries, and sensors—are largely imported, exposing providers to FX volatility, tariffs, and global supply chain disruptions.
- Dependence on overseas hardware undermines cost competitiveness against manual cleaning alternatives.
- Additionally, robotic solutions often lack interoperability across diverse solar park configurations (single-axis trackers, bifacial modules, fixed-tilt designs).
- Site-specific customization raises costs, delays deployment, and prevents scale economies across multi-vendor parks.

6. Policy, Margin, and Market Volatility

- Falling solar tariffs and compressed PPA margins discourage developers from allocating higher budgets toward robotic O&M.
- Policy ambiguity persists despite the water-saving and ESG benefits of robotics, there are no targeted subsidies or policy frameworks promoting adoption in water-stressed states.

- Fragmented vendor ecosystems further limit consistency in service quality, spare parts availability, and AMC compliance.

- Macroeconomic headwinds—including FX volatility, solar capex slowdowns, and liquidity stress—may constrain growth, though subscription-based models (RCaaS/SaaS) can partially mitigate cyclicality by converting capex into predictable opex.

7. Government Initiatives and Policy Support

India's renewable energy policy framework—supported by utility-scale solar deployment programs, rooftop solar expansion initiatives, agriculture-linked solarization schemes, domestic manufacturing incentives, and rural electrification programs—continues to facilitate the growth of solar power capacity across the country. The resulting increase in installed solar assets is expected to expand the requirement for operations and maintenance ("O&M") services, including performance monitoring, inspection, and panel cleaning solutions. The policy environment is also supporting greater adoption of digital monitoring systems, automation technologies, and water-efficient maintenance practices across solar installations.

National Solar Mission and Renewable Energy Targets

Under the Jawaharlal Nehru National Solar Mission ("JNNSM") and subsequent renewable energy policies, India has established a target of achieving 500 GW of non-fossil fuel capacity by 2030. Solar energy is expected to account for a significant share of future renewable energy capacity additions, supported by competitive bidding mechanisms, long-term power procurement arrangements, transmission infrastructure development, and utility-scale project deployment initiatives.

The continued expansion of solar capacity is expected to increase demand for asset management, performance optimization, and maintenance solutions aimed at maximizing energy generation throughout project lifecycles.

PM Surya Ghar: Muft Bijli Yojana and RESCO/Utility-Led Aggregation Framework

The Government of India approved the PM Surya Ghar: Muft Bijli Yojana with a total outlay of ₹75,021 crore to facilitate rooftop solar installations across one crore households by FY 2026-27. The scheme provides Central Financial Assistance ("CFA") for residential rooftop solar systems and seeks to accelerate distributed solar adoption across the country. Under the scheme, households are eligible for CFA support for rooftop solar systems, while financing support mechanisms have been introduced to improve accessibility and adoption. [Ministry of New and Renewable Energy ("MNRE"); Press Information Bureau ("PIB")]

As of March 19-20, 2026, more than 26.2 lakh rooftop solar systems had been installed under the scheme, with cumulative CFA disbursements of approximately ₹17,968 crore. The scheme has emerged as a key driver of residential rooftop solar deployment and continues to expand the installed base of distributed solar assets. [PIB]

The Ministry of New and Renewable Energy has also incorporated Renewable Energy Service Company ("RESCO") and Utility-Led Aggregation models within the PM Surya Ghar framework

to facilitate deployment of residential rooftop solar systems. Under these models, third-party entities may invest in, operate, and maintain solar assets while recovering investments through generation-linked payment structures. Such frameworks are expected to support greater emphasis on system availability, operational performance, and lifecycle maintenance.

PM-KUSUM Scheme

The Pradhan Mantri Kisan Urja Suraksha evam Utthaan Mahabhiyan ("PM-KUSUM") scheme aims to add 34,800 MW of solar capacity by March 2026 with total Central Financial Assistance of approximately ₹34,422 crore. The

scheme comprises decentralized ground-mounted solar power plants, standalone solar agricultural pumps, and solarization of grid-connected agricultural pumps. [MNRE]

Component A of the scheme targets deployment of 10,000 MW of decentralized grid-connected renewable energy power plants ranging from 500 kW to 2 MW capacity. The scheme is facilitating solar deployment across rural and agricultural regions, including semi-arid and dust-prone geographies where regular maintenance is important for sustaining energy generation levels. Continued expansion of decentralized solar assets under PM-KUSUM is expected to create opportunities for O&M, monitoring, and cleaning service providers. [MNRE]

Production Linked Incentive Scheme for High-Efficiency Solar PV Modules

The Ministry of New and Renewable Energy is implementing the Production Linked Incentive ("PLI") Scheme under the National Programme on High Efficiency Solar PV Modules with a cumulative outlay of ₹24,000 crore. The scheme seeks to strengthen domestic manufacturing capabilities, promote integrated solar PV production, reduce import dependence, and encourage adoption of advanced solar technologies. [MNRE]

Across Tranche I and Tranche II, Letters of Award have been issued for approximately 48,337 MW of manufacturing capacity for high-efficiency solar PV modules. The scheme is expected to strengthen India's solar manufacturing ecosystem and support deployment of higher-efficiency solar technologies across utility-scale and distributed installations. [MNRE]

As solar assets become increasingly performance-oriented, maintaining operational efficiency throughout project lifecycles may assume greater importance, supporting demand for advanced monitoring, inspection, and maintenance solutions.

Regulatory and Operational Framework

India's solar sector primarily operates under generation-based revenue models, wherein project revenues are directly linked to electricity generated and supplied. Consequently, developers and asset owners generally seek to maximize plant availability, reduce downtime, and maintain generation efficiency through effective operational practices and lifecycle asset management. The increasing adoption of digital monitoring platforms, supervisory control and data acquisition ("SCADA") systems, remote diagnostics, predictive maintenance tools, and performance analytics reflects the growing emphasis on operational efficiency across solar projects. This trend is expected to support broader adoption of technology-enabled O&M solutions.

Fiscal Support and Solar Competitiveness

Government initiatives supporting renewable energy deployment, including domestic manufacturing incentives, rooftop solar subsidies, financing support mechanisms, and policy measures promoting clean energy adoption, have contributed to improving the competitiveness of solar power generation in India. Continued investment in renewable energy infrastructure is expected to support growth in the installed solar asset base, thereby increasing the requirement for professional O&M services over the long term.

Solar Parks Scheme and Other Flagship Initiatives

Under the Scheme for Development of Solar Parks and Ultra Mega Solar Power Projects, the Government of India continues to support utility-scale solar deployment through the development of common infrastructure, land aggregation, and transmission connectivity. The scheme has facilitated large-scale solar project development by reducing project implementation risks and improving infrastructure availability for developers. [MNRE]

In addition, the Ministry of New and Renewable Energy is implementing the PM JANMAN Solar Power Scheme with an approved outlay of ₹515 crore to provide solar-based electrification solutions to one lakh Particularly Vulnerable Tribal Group ("PVTG") households across 18 states, along with solarization of community infrastructure. [MNRE]

Emerging segments such as floating solar, agrivoltaics, decentralized renewable energy systems, and rural solar applications are further expanding the diversity of solar deployment environments across India. These segments may create additional opportunities for specialized monitoring, maintenance, and cleaning solutions tailored to varied operating conditions.

Government initiatives including the National Solar Mission, PM Surya Ghar: Muft Bijli Yojana, PM-KUSUM, the Production Linked Incentive Scheme for High Efficiency Solar PV Modules, the Solar Parks Scheme, and PM JANMAN continue to support solar capacity expansion across utility-scale, agricultural, commercial, residential, and rural segments. The resulting increase in installed solar assets is expected to expand the requirement for monitoring, maintenance, inspection, and cleaning services. As project developers and asset owners focus on optimizing generation efficiency and lifecycle performance, technology-enabled O&M solutions, including automated and robotic cleaning systems, may witness increased adoption across India's expanding solar energy ecosystem.

8. Technology & Digital Transformation

The Robotic Solar Panel Cleaning & O&M industry is undergoing a rapid technological evolution driven by the increasing scale of utility and distributed solar installations, operational cost pressures, ESG-linked water-use restrictions, and the demand for higher asset uptime. The sector is moving from reactive, manual cleaning toward predictive, AI-driven, IoT-enabled robotic fleets integrated with digital asset management platforms. This digital and automation transformation ensures optimized panel efficiency, reduced O&M costs, and real-time performance monitoring across utility-scale, commercial, and industrial solar installations.

1. Robotic Automation Platforms

Autonomous and semi-autonomous robotic cleaners are replacing manual labor in large and distributed PV assets. Key capabilities include:

- AI-driven path optimization and cleaning schedules.
- Multi-surface adaptability for fixed-tilt and tracking arrays
- Remote diagnostics for fleet utilization and maintenance planning
- Integration with plant SCADA for generation-linked cleaning triggers

Adoption is rising fastest in water-scarce regions, desert installations, and high-capacity utility PV farms.

2. IoT-Enabled Monitoring & Predictive Maintenance

Sensor networks embedded in robotic systems and PV modules enable:

- Real-time soiling, dust, and yield monitoring
- Automated fault detection in panels, inverters, and robotic units
- Predictive alerts for hardware maintenance and lifecycle management
- Energy and water-use tracking for ESG and investor reporting

These systems enhance reliability, minimize downtime, and support performance-linked O&M contracts.

3. AI & Analytics-Driven Operational Insights

Advanced analytics platforms consolidate multi-site cleaning and O&M data to:

- Benchmark cleaning efficiency and panel yield across sites
- Predict maintenance cycles and fleet deployment needs
- Optimize resource allocation and water usage for cost efficiency
- Generate SLA compliance reports for investors and regulators

Analytics-driven visibility ensures performance guarantees and high IRR outcomes.

4. Cloud-Integrated Asset Management Systems

Digital O&M platforms now centralize operations for multi-location solar assets:

- Real-time dashboards for robotic fleet health and utilization
- Remote scheduling and dispatch for site-level cleaning activities
- Historical performance reporting for plant and investor audits
- Integration with energy management systems and weather forecasts

Cloud adoption accelerates scalability and standardizes operational governance.

5. Mobile-First Field Operations

Technicians and supervisors increasingly rely on mobile-enabled tools for on-site operations:

- Geo-tagged maintenance logs and task updates.
- Real-time fault reporting and repair confirmation.
- QR/barcode scanning for spare parts and robotic unit tracking.
- Instant alerts on cleaning completion, water usage, and panel yield.

Mobile-first workflows improve agility and transparency in dispersed solar farms.

6. Cybersecurity & Data Protection

With cloud-linked fleets and investor-facing dashboards, data security is critical:

- Encrypted transmission of panel and cleaning data
- Role-based access for O&M teams and auditors
- Compliance with India's Digital Personal Data Protection (DPDP) Act and corporate data governance standards
- Blockchain-enabled traceability for performance and ESG reporting

Cybersecurity ensures integrity of performance-linked contracts and investor confidence.

7. ESG-Linked Digital Capabilities

Robotic O&M adoption is increasingly influenced by sustainability mandates:

- Water consumption tracking for desert and arid installations
- AI-enabled optimization of cleaning frequency to reduce carbon footprint
- ESG-compliant dashboards for investors and regulators
- Integration with corporate sustainability reporting frameworks

Green-tech adoption is now a differentiator in institutional and utility-scale tenders.

8. Emerging Technologies

The next wave of transformation includes advanced robotics and digital tools:

- Digital Twins for simulating cleaning routes and predicting robotic fleet performance.
- Augmented Reality (AR) for remote operator training and maintenance support
- Edge computing for on-site autonomous decision-making and real-time robotic optimization.

- Robotics-enabled asset management for real-time monitoring of soiling, module degradation, and panel performance

These technologies are accelerating operational efficiency, lowering O&M costs, and enhancing investor transparency.

Digital transformation is no longer optional but central to the growth of robotic solar panel cleaning and O&M. Investors, developers, and regulators now demand SLA-bound, ESG-compliant, and technology-driven performance. Players capable of integrating IoT, AI, cloud management, robotics, and sustainability metrics will dominate utility-scale and commercial solar operations, securing long-term, high-value contracts and strong market positioning.

9. PESTLE Analysis of the Industry

A comprehensive PESTLE (Political, Economic, Social, Technological, Legal and Environmental) analysis helps evaluate the external macro-environmental factors influencing Robotic Solar Panel Cleaning & O&M Industry. These factors significantly shape industry dynamics, demand patterns, business models, and investment opportunities in the medium to long term.

Factor	Description	Impact on the Robotic Solar Panel Cleaning & O&M Industry
Political	• The Government of India continues to promote renewable energy deployment through initiatives such as the National Solar Mission, PM Surya Ghar: Muft Bijli Yojana, PM-KUSUM, the Solar Parks Scheme, and the Production Linked Incentive ("PLI") Scheme for High Efficiency Solar PV Modules. • India has established a target of achieving 500 GW of non-fossil fuel capacity by 2030, with solar power expected to contribute a significant share of future capacity additions. • The Government of India has announced annual renewable energy bidding plans of approximately 50 GW per annum from FY 2023-24 to FY 2027-28, providing long-term visibility for renewable energy project development. • Central and state government agencies continue to facilitate utility-scale, distributed, agricultural, and rooftop solar deployment through financial assistance, infrastructure support, policy incentives, and project development frameworks.	• Supports sustained growth in the installed solar asset base requiring professional O&M and cleaning services. • Enhances demand visibility for organized and technology-enabled service providers. • Encourages adoption of monitoring, automation, and performance-oriented maintenance practices across solar assets.
Economic	• Continued investment in renewable energy infrastructure is driving growth in solar installations across utility-scale, commercial, industrial, agricultural, and residential segments. • Solar project economics are increasingly influenced by generation efficiency, plant availability, operating costs, and lifecycle asset performance.	• Expands the addressable market for outsourced and technology-enabled O&M services. • Supports adoption of performance-linked, subscription-based, and Robotics-as-a-Service ("RaaS") business models.

	• Institutional participation through infrastructure funds, pension funds, renewable energy platforms, and corporate renewable energy portfolios is increasing focus on long-term asset performance and maintenance practices. • Rising deployment of solar assets is creating a larger installed base requiring lifecycle maintenance and performance optimization. • Capital requirements associated with robotic systems, automation technologies, and digital monitoring platforms may influence adoption decisions among asset owners.	• Encourages asset owners to prioritize solutions that improve operational efficiency and optimize lifecycle costs.
Social	• Growing awareness of renewable energy adoption, sustainability objectives, and decarbonization initiatives continues to support solar deployment across multiple consumer segments. • SEBI's Business Responsibility and Sustainability Reporting ("BRSR") framework and BRSR Core assessment framework have strengthened sustainability disclosure, assurance requirements, and value-chain ESG reporting among large, listed entities. • Large solar installations often operate in locations where manual cleaning can be labour-intensive, repetitive, and operationally challenging. • Increasing digitalization of infrastructure assets is supporting adoption of remote monitoring and data-driven maintenance practices.	• Supports demand for structured O&M processes, digital monitoring systems, and auditable maintenance records. • Increases acceptance of automated cleaning technologies that improve operational consistency and workplace safety. • Strengthens the importance of performance reporting and operational transparency in customer decision-making.
Technological	• Advances in robotics, artificial intelligence ("AI"), machine learning, computer vision, Internet of Things ("IoT"), and cloud computing are facilitating automation across solar asset management activities. • SCADA systems, remote monitoring platforms, predictive maintenance tools, digital asset management platforms, and performance analytics are increasingly being deployed across solar projects. • Water-efficient and waterless cleaning technologies, autonomous robotic systems, and condition-based maintenance solutions continue to evolve. • Emerging technologies such as digital twins, advanced diagnostics, and augmented reality-assisted maintenance are being explored to improve asset performance and operational efficiency. • Improvements in connectivity and software integration are enabling centralized monitoring of geographically dispersed solar assets.	• Creates opportunities for integrated robotic cleaning, monitoring, and predictive maintenance platforms. • Supports transition from periodic maintenance toward data-driven and condition-based maintenance practices. • Raises technical differentiation and service quality standards across the industry.

Legal	• Solar projects operate within a regulatory framework governed by electricity laws, renewable energy policies, environmental regulations, labour laws, power purchase agreements, and contractual obligations. • O&M service providers are subject to contractual performance requirements, service-level agreements ("SLAs"), reporting obligations, and workplace safety regulations. • The Digital Personal Data Protection Act, 2023 ("DPDP Act") establishes a framework governing the processing of digital personal data and may influence management of operational data collected through connected monitoring platforms. • SEBI's BRSR and BRSR Core frameworks have strengthened sustainability disclosure and assurance requirements for large, listed entities. • Intellectual property protection remains important for proprietary software, robotics systems, automation technologies, and analytics platforms.	• Favors service providers with established compliance, reporting, and operational governance capabilities. • Increases the importance of cybersecurity, data governance, and contractual risk management practices. • Encourages development of standardized and documented maintenance processes.
Environmental	• A significant portion of India's solar capacity is in high-irradiation regions such as Rajasthan and Gujarat, where dust accumulation, sand deposition, and water scarcity may affect panel performance and maintenance practices. • Water availability is becoming an increasingly important consideration across several solar-rich regions, supporting adoption of water-efficient maintenance solutions. • Climate variability, including heatwaves, storms, and extreme weather events, may influence maintenance requirements, cleaning schedules, and asset performance. • National sustainability objectives and corporate environmental commitments continue to encourage efficient resource utilization and environmentally responsible operating practices.	• Supports adoption of water-efficient and waterless cleaning technologies. • Increases the importance of preventive maintenance and performance optimization practices. • Encourages deployment of durable, resource-efficient, and climate-resilient O&M solutions. • Supports use of predictive maintenance and adaptive cleaning schedules in challenging operating environments.

The convergence of policy support, rapid solar capacity expansion, ESG mandates, and technological advancements positions the robotic solar panel cleaning and O&M industry for structural growth. Vendors that can deliver IoT-enabled, AI-driven, and water-efficient solutions while ensuring contractual uptime and regulatory compliance are best placed to capture long-term, high-value contracts. Structured, performance-based business models, integrated digital monitoring, and ESG-aligned operations will differentiate organized players from manual and unorganized competitors, creating a sustainable competitive moat across utility-scale and commercial solar assets.

10. Competitive Landscape

The Robotic Solar Panel Cleaning & O&M Industry is evolving from fragmented, small-scale operations toward a more structured, service-integrated ecosystem. Competitive dynamics are shaped by technological differentiation (AI, robotics, waterless cleaning), operational reliability, ESG and water-use mandates, and the rising demand for performance-linked contracts. The sector is witnessing a strategic transition from one-off hardware sales to recurring revenue models encompassing installation, predictive maintenance, digital monitoring, and O&M services. This shift is being driven by solar asset owners' emphasis on total cost of ownership, operational efficiency, and guaranteed yield preservation, positioning service-oriented providers as preferred partners for utility-scale and commercial solar projects.

1. **Multinational OEMs:** Global leaders in premium robotic cleaning solutions dominate the market by offering advanced AI-enabled cleaning, predictive maintenance, and waterless technologies. Key advantages in this segment include extensive global R&D, proprietary robotics, cloud-integrated monitoring, and experience across large utility-scale and industrial solar installations. These solutions are primarily deployed in large solar parks, independent power producers (IPPs), and high-investment commercial projects.

2. **Large Indian Manufacturers / Integrators:** Indian manufacturers and regional EPCs offer competitively priced, end-to-end robotics and O&M solutions tailored for domestic solar installations. Solar developers typically engage EPCs, who source robotics and services from providers like Aegeus for cleaning, vegetation management, and asset monitoring, though direct procurement by developers is also feasible. Post-deployment, these integrators ensure ongoing maintenance, performance monitoring, and adherence to service-level commitments, leveraging local manufacturing capabilities, government-linked renewable initiatives, and regional service networks to deliver efficient, value-added solutions.

3. **Mid-Sized Regional Players / Assemblers:** This segment consists of firms assembling or customizing robotic cleaners, track-based systems, and rope-access units for regional or distributed solar installations. They compete on cost, operational flexibility, and localized service delivery. Many are expanding into integrated O&M contracts, combining installation, periodic cleaning, and fleet monitoring under a single engagement.

4. **Specialist / Niche Providers:** These include component suppliers, AI/software developers, IoT platform integrators, and maintenance-focused service providers. They often support larger OEMs or directly offer predictive analytics, cloud-based monitoring, and performance reporting for solar assets. Their role is critical in enabling operational efficiency, SLA compliance, and ESG-aligned waterless cleaning solutions.

10.1 Key factors shaping competition

The competitive dynamics of the Robotic Solar Panel Cleaning & O&M industry are increasingly determined by technological sophistication, operational reliability, integration capabilities, and the ability to offer outcome-based, yield-preserving solutions. Solar asset owners—ranging from utility-scale IPPs to commercial rooftop operators—are demanding consistent panel performance, minimal downtime, ESG-compliant water usage, and digitally monitored maintenance. The following structural and operational factors are shaping market positioning and long-term competitiveness:

1. **Technology & Autonomy:** Providers with AI-enabled robotics, autonomous navigation, predictive maintenance, and waterless cleaning systems gain an edge. Advanced fleets that optimize cleaning schedules and minimize downtime differentiate from manual or semi-automated competitors.

2. **Aftermarket & O&M Service Contracts:** Long-term O&M agreements, remote monitoring, and SLA-backed performance guarantees create recurring revenue and customer retention. Firms offering predictive cleaning analytics, fleet management dashboards, and maintenance scheduling are preferred by institutional solar owners.

3. **Utility-Scale & Distributed Solar Expertise:** The ability to operate efficiently across both GW-scale utility parks and smaller distributed rooftop installations provides a competitive moat. Players capable of handling heterogeneous panel layouts, tracker systems, and site topologies are positioned advantageously.

4. **Digital Integration & IoT:** Cloud-connected monitoring, SCADA interoperability, and AI-powered analytics platforms are becoming standard expectations. Companies integrating data-driven reporting, yield forecasting, and asset performance metrics command premium positioning.

5. **ESG & Water-Use Compliance:** Growing focus on sustainability and regulatory pressure in water-scarce regions elevates providers of waterless or ultra-efficient cleaning solutions. Firms demonstrating compliance with ESG mandates and minimal resource consumption secure procurement preference.

6. **Workforce & Technical Skilling:** Skilled engineers and technicians trained on robotic operations, predictive maintenance, and cloud-based diagnostics are scarce. Companies investing in training programs, AR-assisted maintenance tools, and remote support outperform peers.

7. **Cost vs. Value Positioning:** While cost remains critical for smaller solar installations, utility-scale projects prioritize uptime, yield assurance, and SLA-backed performance. Providers balancing affordability with advanced service offerings can capture both segments effectively.

8. **Strategic Partnerships & Consolidation:** Collaborations with EPCs, asset owners, renewable energy funds, and technology integrators enhance market access. M&A and alliances among robotics providers and O&M specialists are expected to accelerate as the sector scales.

The Robotic Solar Panel Cleaning & O&M industry is transitioning from hardware-focused, cost-driven competition to technology-enabled, service-oriented, and compliance-aligned models. Sustainable competitive advantage increasingly depends on:

- R&D leadership in autonomous robotics and waterless cleaning technologies.
- Comprehensive lifecycle O&M capabilities ensuring predictable yield and SLA adherence.
- Ability to integrate digital monitoring and analytics for asset-wide visibility.
- Alignment with ESG, water-use, and performance-driven mandates.

Firms positioned at the nexus of technology depth, service integration, and regulatory alignment are likely to outperform as the sector matures and large-scale solar deployments accelerate.

10.2 Competitive Strategies

The Robotic Solar Panel Cleaning & O&M industry is evolving rapidly under the dual pressures of utility-scale solar expansion and ESG-linked sustainability mandates. Market leaders are recalibrating competitive strategies to combine advanced technology, service integration, performance guarantees, and vertical specialization. These approaches not only secure recurring revenues but also reinforce client confidence in predictable energy yields and reduced operational risks.

1. Integrated Solutions & Lifecycle Management

Leading providers are shifting from selling standalone robotic units to full-service lifecycle offerings covering deployment, automated cleaning, preventive maintenance, performance monitoring, and retrofitting of existing solar farms.

Bundled services include:

- Robotic fleet + IoT-enabled yield analytics + AMC contracts
- Tracker-aligned cleaning + waterless or minimal water systems + predictive diagnostics

This integrated model simplifies procurement, ensures predictable energy generation, and locks in multi-year recurring revenue streams for providers.

2. Vertical-Specific Customization

Companies are tailoring cleaning and O&M solutions to the operational and asset-specific requirements of key solar segments:

- Utility-Scale Solar Parks – automated row-level cleaning, tracker system integration, remote monitoring dashboards.
- Commercial Rooftops – compact robotic units with minimal footprint, automated scheduling, and water-efficient operations.
- Industrial Solar – hybrid O&M contracts combining robotic cleaning with preventive panel inspection and minor repairs.
- Customization strengthens client relationships and increases qualification for tender-based contracts and sustainability-linked procurement.

3. Technology & Digital Enablement

Digital integration is a competitive baseline, with leading firms deploying:

- IoT sensors for performance monitoring, panel soiling detection, and predictive cleaning scheduling
- AI-driven analytics to optimize cleaning frequency, energy yield, and water usage.
- Mobile and cloud platforms enabling fleet tracking, technician dispatch, and compliance logging
- Digital enablement ensures SLA adherence, operational transparency, and long-term client confidence.

4. Sustainability & ESG Differentiation

ESG compliance is becoming a key procurement criterion, especially for institutional and renewable-focused investors:

- Waterless cleaning systems or ultra-low water usage robotics
- Integration with renewable energy monitoring dashboards to track yield optimization
- Carbon footprint and water-use reporting embedded into AMC contracts
- Firms that demonstrate measurable sustainability impact gain preferential access to large-scale solar portfolios and government-supported renewable projects.

5. Contracting Innovation & Risk-Sharing Models

Providers are increasingly adopting outcome-based contracts:

- Performance-linked O&M contracts guaranteeing panel efficiency and energy yield
- SLA-driven uptime commitments with financial penalties for underperformance
- Hybrid models combining robotic hardware sales with retained O&M management
- These structures de-risk clients while ensuring long-term vendor alignment and recurring revenue.

6. Geographic & Segmental Diversification

To mitigate client concentration and seasonal variability, leaders are:

- Expanding into Tier II/III solar installations and decentralized rooftop deployments
- Targeting emerging applications such as agrivoltaics, EV-linked solar assets, and hybrid renewable microgrids
- Leveraging government and renewable-focused PPP frameworks for institutional solar projects

The Robotic Solar Panel Cleaning & O&M industry is consolidating around technology-enabled, service-integrated, and ESG-compliant delivery models. Companies demonstrating automation expertise, predictive analytics, lifecycle O&M, and sustainability alignment are best positioned to capture long-term, high-value contracts across utility-scale, commercial, and industrial solar segments. Market leadership will favour firms capable of integrating hardware, digital monitoring, AMC, and outcome-based service delivery into unified frameworks that guarantee both efficiency and asset longevity.

10.3 Barriers to Entry

The Robotic Solar Panel Cleaning & O&M industry, while experiencing rapid growth driven by India's renewable energy targets, climate mandates, and utility-scale solar deployment, remains structurally insulated by capital intensity, technological sophistication, regulatory compliance, and trust-based procurement. These barriers collectively protect the competitive position of established robotic OEMs, integrated O&M providers, and ESG-aligned service operators.

1. Capital-Intensive Technology and Deployment Ecosystem

Launching a credible robotic solar cleaning platform demands significant upfront investment in precision robotics, automation hardware, and IoT-enabled O&M infrastructure:

- Robotic design and fabrication facilities, including autonomous navigation modules, sensors, and precision actuators.
- R&D labs for cleaning efficiency, panel-safe materials, and weather-resilient robotics.
- IoT platforms for performance monitoring, predictive diagnostics, and fleet management.
- Fleet of cleaning robots and deployment tools for utility-scale solar farms.
- Regional logistics and service support networks for rapid response and preventive maintenance.

2. Regulatory and Environmental Compliance Complexity

The industry must navigate multi-tiered regulations and sustainability mandates:

- Solar EPC and O&M compliance under MNRE and SECI guidelines.
- ESG-linked requirements for water consumption, energy efficiency, and lifecycle impact.
- Robotics safety certifications, UL or equivalent laboratory validation reports, and electrical compliance norms.
- Panel manufacturer approvals or tie-ups determining which companies can service their modules, honouring warranties, guarantees, and post-sales obligations.

3. Institutional Procurement & Trust-Based Contracts

Utility-scale solar farms, government tenders, and institutional renewable projects demand:

- Proven track record in robotic O&M, fleet management, and multi-site deployment.
- Verified UL or equivalent lab reports demonstrating cleaning efficacy and panel-safe operations

4. Skilled Workforce and Technical Training Barriers

Robotic solar O&M requires a technically proficient workforce:

- Engineers and technicians trained in robotics navigation, solar panel safety, and IoT monitoring.

- Structured training programs for remote troubleshooting and preventive maintenance.
- Deployment-ready personnel across multiple, dispersed solar installations.

5. Geographic Reach and Service Scalability

The industry is geographically dispersed, requiring scalable service networks:
- Regional service hubs and field support for rapid maintenance response.
- Logistics frameworks to move robots, spare parts, and cleaning tools across large solar parks.
- O&M contracts spanning Tier II/III solar projects as well as rooftop and commercial deployments.

6. ESG, Digital Integration, and Global Supply Chain Alignment

Procurement increasingly favors digitalized and ESG-compliant operations:
- Water-efficient, panel-safe robotics that meet ESG and sustainability audits.
- IoT-enabled fleet management, AI-driven predictive cleaning, and cloud-based performance analytics.
- Integration with renewable energy monitoring and investor-mandated carbon reporting frameworks, and manufacturer-mandated warranties.
- Global supply chain dependencies on sensors, navigation modules, and specialized robotic components favor incumbents with established supplier networks.

Beyond capital, regulatory, and technical barriers, entry into the Indian Robotic Solar Panel Cleaning & O&M market requires validated lab reports (e.g., UL), manufacturer approvals, warranty-backed deployment, post-sales support and demonstrated operational reliability. These elements collectively form the life of the market, ensuring that institutional clients prioritize safety, efficiency, and sustainability over low-cost, untested entrants.

10.4 Consolidation Trends in the Industry

India's Robotic Solar Panel Cleaning & O&M industry is entering a structural consolidation phase, driven by the imperatives of scale robotics manufacturing, autonomous technology integration, digital O&M platforms, ESG compliance, and lifecycle service depth. As utility-scale solar deployment accelerates and government renewable energy targets push institutional adoption, established players are pursuing M&A, platform integration, and service bundling strategies to strengthen competitive positioning across utility, commercial, and rooftop solar segments.

Key Consolidation Trends

1. M&A Activity to Expand Technology and Service Reach

Mid-cap robotic OEMs and regional O&M operators are increasingly merging or acquiring niche players to:

•Expand into Tier II/III solar parks and commercial rooftop installations.
• Acquire specialized capabilities in autonomous cleaning, water-efficient systems, or panel-safe robotics.
• Diversify offerings into AI-driven monitoring, predictive maintenance, and IoT-enabled fleet management.
Larger operators absorb smaller vendors to achieve geographic coverage, reduce deployment costs, and deepen access to institutional solar customers.

2. Private Equity & Strategic Platform Roll-Ups

PE firms and global renewable energy majors are investing in robotic O&M providers with strong order books and technology readiness. Consolidation enables:
•Roll-ups aggregating regional service operators under unified platforms.
•Capital infusion into R&D, digital monitoring platforms, and robotic fleet expansion.
•Strengthening governance, ESG alignment, and IPO preparedness for mid-market firms.

This trend is formalizing the sector and enhancing institutional confidence in robotic cleaning and O&M capabilities.

3. **Integrated Solution Bundling — Equipment to O&M Contracts**

   Clients increasingly demand end-to-end solutions covering:
   •Autonomous cleaning robots, water-recycling systems, and solar farm monitoring.
   • Bundled contracts with preventive maintenance, remote diagnostics, and SLA-driven uptime guarantees.
   •Energy optimization and predictive AI cleaning schedules to maximize panel efficiency.
   Fragmented robotics and service providers are consolidating into full-stack solution platforms to meet these expectations.

4. **Compliance-Driven Market Exit of Informal Players**

   Tighter ESG, safety, and MNRE-aligned operational standards are driving informal or unorganized players out:
   •Mandatory CE/ISO certifications for robotic systems.
   •Water usage and wastewater management compliance.
   •Adherence to solar O&M contractual standards for institutional and government tenders.
   Organized incumbents consolidate market share by absorbing vendor networks and long-term contracts.

5. **Digital Platform Integration & Smart Operations Ecosystems**

   Advanced digitalization is becoming a cornerstone of scalable robotic O&M:
   •IoT-enabled fleet monitoring, AI-driven predictive maintenance dashboards.
   •Cloud-based solar farm performance analytics and cleaning optimization.
   •Energy efficiency dashboards, ESG reporting, and SLA tracking for institutional clients.
   Firms with integrated digital platforms gain a procurement advantage with multinational and government clients demanding transparency and compliance.

6. **Global Partnerships & Technology Transfer**

   International renewable energy majors are consolidating or partnering with Indian robotics players:

   •Technology transfer for autonomous navigation, sensors, and water-efficient systems.
   •Joint ventures to localize global robotics solutions at Indian cost structures.
   •Integration with global ESG, digital monitoring, and operational standards.
   These partnerships position Indian robotic O&M providers as hubs for South Asian solar deployment and institutional-grade service delivery.

Consolidation in the Robotic Solar Panel Cleaning & O&M industry is structural and irreversible. Institutional and utility-scale buyers are prioritizing ESG-aligned, digitally integrated, SLA-backed turnkey solutions. Firms that consolidate robotics design, fleet deployment, predictive maintenance, and digital monitoring under one platform — while embedding sustainability and compliance layers — will command premium contracts and emerge as long-term market leaders.

10.5 Company Positioning – Aegeus Technologies Limited

Aegeus Technologies Limited ("Aegeus" or "the Company"), incorporated in Bengaluru, India, is a leading provider of IoT-driven green robotics solutions for solar O&M, specializing in autonomous cleaning, asset management, vegetation control, and security for utility-scale and commercial solar installations. The Company leverages advanced robotics, AI/ML, and IoT-enabled platforms to enhance panel efficiency, reduce operational downtime, and optimize resource utilization, while ensuring environmentally sustainable operations.

In 2017, Aegeus launched its flagship *Unicorn* and *Shreem* robotic platforms, along with complementary solutions including AGV-based vegetation management, Infishield radar intrusion detection, Security AGVs, Power Vantage SaaS, and Asset Guard ML-powered analytics. These offerings transformed Aegeus from a pure robotics hardware provider into a full-system solar O&M solutions company, integrating cleaning, monitoring, vegetation, and security services. Proprietary waterless cleaning technology, predictive analytics, and IoT-enabled fleet management differentiate its solutions in domestic and select international markets.

Key Differentiators:

- Integrated Solar O&M: End-to-end automation covering cleaning, vegetation management, security, and SaaS-based monitoring.
- Efficiency and Reliability: 99.84% cleaning efficiency (UL Labs certified) and computer vision-based anomaly detection.
- Market Access: Installed base exceeding 10 GW, with an established presence in Brazil, UAE, and Saudi Arabia, and business engagement in select European markets.
- ESG and Sustainability: Waterless cleaning, reduced manual labour exposure, energy optimization, and compliance with regulatory and investor ESG mandates.

Core Capabilities:

- Design, manufacturing, and deployment of autonomous robotic cleaning systems and AI-enabled monitoring platforms.
- Integrated O&M solutions combining robotics, software, and service delivery for predictive maintenance and performance optimization.
- Turnkey deployment capabilities, including training, multi-site rollouts, and lifecycle maintenance support.
- Recurring revenue generation through RCaaS and SaaS overlays, enhancing client stickiness.

Competitive Positioning:

The solar O&M robotics market is moderately fragmented, with multinational OEMs (Ecoppia, SolarCleano, Soltec, Langfang Sol-Bright) and regional Indian integrators competing on price, scale, and local adaptation. Aegeus differentiates through proprietary waterless robotic technology, integrated hardware-software ecosystems, ESG compliance, and multi-site operational reliability, delivering predictable yields and reduced operational risk for developers and EPCs.

Growth Strategy:

Aegeus' model is positioned to expand across utility-scale solar parks, commercial and industrial rooftops, and global markets. Growth drivers include capacity expansion, continuous R&D in robotics and AI/ML analytics, global certifications (UL, ISO), integration of ESG-aligned waterless solutions, and strengthening recurring revenue streams through RCaaS and SaaS offerings.

With proprietary robotics, IoT-enabled monitoring, AI-driven analytics, and end-to-end O&M services, Aegeus Technologies Limited is evolving into a comprehensive solar O&M automation solutions provider, consolidating its leadership in India's renewable energy ecosystem and establishing a resilient, scalable platform for global expansion

10.6 SWOT Analysis

Strengths	Weaknesses
• **Automation of Solar O&M:** Proven ability to automate large-scale operations with robotic cleaning, AI/ML-powered inspection, and predictive maintenance platforms. • **Global IP & Patent Base:** Strong patent portfolios across major solar markets, safeguarding proprietary cleaning and navigation technologies. • **High Cleaning Efficiency:** Robotic systems consistently reduce yield losses of up to 30%, ensuring superior operational efficiency versus manual cleaning. • **Comprehensive Offering:** Coverage across ground-mounted utility projects and emerging rooftop solar, complemented by IoT-enabled monitoring and analytics. • **Installed Base & Scale:** More than 10 GW+ of panels cleaned globally, reinforcing reliability and market validation. • **Global Presence:** Operational footprints across Asia, MENA, Europe, and the Americas, positioning players to leverage cross-market growth. • **Diversification Potential:** Capabilities extend beyond solar into broader robotics and renewable O&M solutions. • **Strategic Partnerships**: Collaborations with EPCs, utilities, OEMs, and tech firms strengthen ecosystem integration and market credibility.	• **Cost Competitiveness**: High upfront capital expenditure and working-capital intensity limit adoption, particularly among smaller developers. • **Technology Gaps**: Absence of hybrid wet-cleaning solutions reduces efficacy in sticky soiling conditions (e.g., bird droppings, resin). • **Liquidity Constraints**: Prolonged receivable cycles and project-linked cash flows create stress for mid-tier operators. • **Marketing & Visibility Limitations**: Restricted brand awareness beyond EPC and utility stakeholders, with weak digital and social media outreach.
Opportunities	**Threats**
• **Exponential Market Growth:** Expanding global solar installations, particularly in Asia, Africa, and MENA, underpin structural demand for robotic O&M. • **Global O&M Automation :** Enter and scale within the global O&M segment, leveraging first-mover advantage. • **Rooftop Solar Expansion:** Untapped commercial and residential rooftop markets offer high-margin growth potential. • **Recurring Revenue Models:** Transition from hardware sales to "Cleaning-as-a-Service" and subscription-based predictive maintenance can unlock annuity-style revenues. • **Policy Tailwinds:** Indian initiatives such as PM Har Ghar Surya Yojana and smart-city programs create demand for localized solar O&M solutions. Concurrently, higher GST on	• **Intensifying Competition**: Entry of multinational robotics OEMs and large corporates in O&M compresses pricing and margins. • **Chinese Price Pressure**: Low-cost imports from China threaten profitability and differentiation of established players. • **Technological Substitution**: Emerging alternatives such as self-cleaning coatings, advanced surface treatments, or novel automation methods may challenge conventional robotic O&M solutions. • **Supply Chain & Input Risks**: Volatility in sensors, electronics, and robotics components impacts cost structures. • **Geopolitical Exposure**: Trade disputes, tariffs, and currency risks affect export-driven revenue streams. • **Regulatory Burden**: Compliance with renewable energy mandates, safety standards, and ESG

coal raises conventional power costs, strengthening the economic case for renewable energy adoption and indirectly increasing demand for solar O&M services. • **Digital Monetization:** IoT and SCADA-based predictive insights enhance efficiency while deepening client stickiness. • **ESG Alignment**: Water-efficient, low-carbon robotic solutions support global sustainability mandates, improving access to green financing.	frameworks increases R&D intensity and operating costs.

Aegeus Technologies Limited recorded strong growth in its scale of operations during FY 2024–FY 2026. Revenue from operations increased from ₹1,527.39 lakhs in FY 2024 to ₹2,189.01 lakhs in FY 2025 and further to ₹4,093.69 lakhs in FY 2026. Total income followed a similar trajectory, rising from ₹1,528.38 lakhs in FY 2024 to ₹4,121.50 lakhs in FY 2026.

Profitability improved consistently during the period. EBITDA increased from ₹165.70 lakhs in FY 2024 to ₹312.74 lakhs in FY 2025 and further to ₹647.65 lakhs in FY 2026, with the EBITDA margin expanding from 10.84% to 15.82%. PAT also increased from ₹92.87 lakhs in FY 2024 to ₹139.18 lakhs in FY 2025 and further to ₹401.77 lakhs in FY 2026, while the PAT margin improved from 6.08% to 9.81% over the same period.

The balance sheet strengthened with tangible net worth increasing from ₹163.96 lakhs as at FY 2024 to ₹473.53 lakhs as at FY 2025 and further to ₹302.39 lakhs as at FY 2026. The current ratio remained above 1 throughout the period, standing at 1.31 times in FY 2024, 1.79 times in FY 2025 and 1.25 times in FY 2026, indicating adequate short-term liquidity.

Total debt remained broadly stable at ₹416.07 lakhs in FY 2024 and ₹409.86 lakhs in FY 2025 before increasing to ₹1,192.57 lakhs in FY 2026, reflecting additional borrowings to support business expansion. Consequently, the debt-equity ratio improved from 0.71 in FY 2024 to 0.36 in FY 2025 before increasing to 0.77 in FY 2026.

Return indicators remained healthy and improved overall during the period. Return on Capital Employed increased from 13.92% in FY 2024 to 18.66% in FY 2025 and further to 24.75% in FY 2026. Return on Net Worth stood at 19.20% in FY 2024, moderated to 16.14% in FY 2025, and improved to 29.96% in FY 2026, reflecting stronger profitability and efficient capital utilization.

11. Future Outlook

The outlook for the robotic solar panel cleaning and operations & maintenance (O&M) industry remains favorable, supported by the continued expansion of global solar capacity, increasing emphasis on asset performance optimization, growing water conservation requirements, and the gradual digitalization of solar asset management. As solar installations expand across utility-scale, commercial, industrial, and distributed segments, maintaining generation efficiency and minimizing operational losses are expected to become increasingly important for asset owners and operators.

Technological advancements are expected to remain a key growth driver for the industry. Robotic cleaning systems are increasingly being integrated with SCADA platforms, remote monitoring systems, Internet of Things (IoT) sensors, and data analytics tools, enabling condition-based and predictive maintenance practices. The adoption of artificial intelligence (AI), machine learning, and automated scheduling systems is expected to improve cleaning efficiency, optimize maintenance cycles, reduce operational downtime, and support centralized management of large solar portfolios.

Water scarcity across several high-irradiation solar markets, including parts of India, the Middle East, and Africa, is expected to support the adoption of water-efficient and waterless cleaning technologies. As solar installations continue to expand in arid and semi-arid regions, automated cleaning solutions may increasingly be adopted to reduce water consumption while maintaining module performance and operational efficiency.

The growing participation of infrastructure funds, renewable energy platforms, utilities, and institutional investors in solar assets is also expected to support demand for structured O&M services. Investors are increasingly focused on plant availability, generation performance, lifecycle asset management, and long-term operational reliability,

creating opportunities for technology-enabled maintenance solutions that support consistent asset performance. This trend is expected to encourage greater adoption of long-term service contracts, performance-linked O&M arrangements, and recurring service models.

India is expected to remain one of the key growth markets for solar O&M services. The Government of India's target of achieving 500 GW of non-fossil fuel power capacity by 2030, ongoing renewable energy bidding programs, continued expansion of utility-scale solar projects, growth in rooftop solar installations under PM Surya Ghar: Muft Bijli Yojana, and agricultural solarization under PM-KUSUM are expected to increase the installed solar asset base requiring monitoring, maintenance, and cleaning services. The expansion of domestic solar manufacturing under the Production Linked Incentive (PLI) Scheme for High Efficiency Solar PV Modules may further support solar deployment and associated O&M requirements.

Globally, Asia is expected to remain the largest market for solar deployment, while emerging opportunities are likely to arise across the Middle East and Africa, where solar investments continue to accelerate. Increasing solar penetration, coupled with greater focus on operational efficiency, sustainability, and resource optimization, is expected to support demand for automated cleaning solutions and technology-enabled O&M services.

The robotic solar panel cleaning and O&M industry is expected to benefit from the continued growth of solar energy installations, increasing adoption of digital asset management technologies, evolving maintenance practices, and rising emphasis on operational efficiency. Companies offering integrated, technology-enabled, water-efficient, and performance-oriented solutions are expected to be well positioned to benefit from the growing requirement for professional solar asset management services.

OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You shall read the chapter titled "Forward Looking Statements" beginning on Page No. 20 of this Prospectus, for a discussion of the risks and uncertainties related to those statements and also the section "Risk Factors" for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of year, so all references to a particular fiscal are to the twelve-month period ending March 31 of that year. The financial information used in this section, unless otherwise stated, is derived from our Financial Information, as restated prepared in accordance with Indian GAAP, Companies Act and SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Prospectus, including the information contained in the sections titled "Risk Factors" and "Financial Information" beginning on Page No. 22 and 257 respectively.

COMPANY OVERVIEW

Our Company was incorporated as a Private Limited Company with the name of "Aegeus Technologies Private Limited" under the Companies Act, 2013 vide certificate of incorporation dated April 20, 2017, issued by Registrar of Companies, Central Registration Centre, bearing CIN U74999KA2017PTC102441. Further, our Company was converted into a Public Limited Company in pursuance of a special resolution passed by the members of our Company at the Extra-Ordinary General Meeting held on May 27, 2024 and the name of our Company changed from to "Aegeus Technologies Limited" and a fresh Certificate of Incorporation dated, August 08, 2024, was issued by Registrar of Companies, Central Processing Centre. As on date of this Prospectus, the Corporate Identification Number of our Companyis U74999KA2017PLC102441.

BUSINESS OVERVIEW

Our Company is engaged in the business of designing and developing robotic and intelligent automation solutions for the solar energy sector. We focus on solar panel cleaning and operations & maintenance (O&M) — two vital functions that significantly influence the efficiency, performance, and sustainability of solar power plants. Through our advanced waterless robotic cleaning systems, we effectively address soiling losses, enabling solar asset owners to enhance energy generation, minimize downtime, and optimize operational efficiency.

Headquartered in Bengaluru, Karnataka, we operate two modern manufacturing facilities equipped for the design, assembly, and testing of autonomous and semi-autonomous robotic systems. This integrated setup enables us to maintain strict quality standards, accelerate innovation, and efficiently serve clients across India and international markets.

Driven by a vision to deliver sustainable, intelligent, and scalable solutions for the evolving solar O&M ecosystem, our Company combines Robotics and the Internet of Things (IoT) to develop technologies that improve plant efficiency, minimize resource dependency, and support environmental sustainability. Our mission aligns with India's broader clean energy transition, aiming to enhance operational performance while conserving vital natural resources such as water.

We offer a comprehensive portfolio of robotic solutions designed to automate and optimize solar power plant operations. Our integrated ecosystem spans dry cleaning solutions, collectively aimed at maximizing plant uptime, reducing operational costs, and enhancing overall performance.

In the field of module cleaning, we offer two flagship products — Unicorn and Shreem — fully autonomous robots designed for ground-mounted and rooftop installations, respectively.

All our products and solutions are driven by proprietary technologies spanning robotics, automation, and real-time remote monitoring and control. Collectively, these innovations form a scalable and intelligent technology platform that enables solar developers, EPC contractors, and O&M companies to achieve enhanced reliability, sustainability, and performance across their solar portfolios.

Over the years, our Company has acquired patents in India, Australia, China, the Kingdom of Saudi Arabia (KSA), and the United States of America (USA) that strengthen our technological leadership and protect our intellectual property. These patents cover key innovations in robotic design, motion control, sensor integration, and waterless cleaning mechanisms, which form the foundation of our products and solutions. The proprietary nature of our technology provides a significant competitive advantage, enabling us to differentiate our offerings, build customer confidence, and secure long-term orders from leading solar developers, EPC contractors, and O&M service providers across domestic and international markets.

ABOUT THE PROMOTERS OF THE COMPANY

The promoters of our Company are:

1. Mr. Suraj D Vernekar
2. Mrs. Roopa Vernekar and
3. Mr. Nishith Rameshchandra Shah.

For detailed information please refer to the chapter titled "Our Promoters" and "Our Promoter Group" on page number 244 and 250 respectively of this Prospectus.

SOURCES OF REVENUE

S. No.	Source of Revenue	Description of services
1.	Sale of Products	The Company designs and manufactures a range of autonomous and semi-autonomous robotic systems under its product portfolio, including Unicorn Smart, a fully autonomous dry-cleaning robot for utility-scale solar installations; Unicorn R2R, a semi-autonomous variant designed for discontinuous tables or capex-sensitive deployments; and Shreem, a lightweight and portable robot developed for rooftop solar panel cleaning.
2.	Sale of services	The Company also provides a range of services, including Complete Solar O&M, offering comprehensive operations and maintenance solutions such as preventive and corrective maintenance, performance monitoring, and reporting for solar plants; Annual Maintenance Contracts (AMC), which cover preventive maintenance, spare parts, and technical support for all robotic units; and Module Cleaning as a Service (MCaaS), a service model under which the Company retains ownership of the robots and provides automated panel cleaning on a pay-per-use basis, allowing clients to access advanced robotic cleaning solutions without incurring upfront capital expenditure.

VISION

At Aegeus Technologies, our vision is to lead the future of solar plant O&M through cutting-edge robotics, artificial intelligence, and data-driven automation that is user-friendly, cost-effective, and environmentally responsible.

MISSION

Our mission is to empower solar asset owners by automating Operations & Maintenance through innovative, waterless cleaning solutions and advanced data-driven robotic technologies enabling our customers to optimize performance and significantly reduce O&M costs.

END USERS

Aegeus serves a wide range of stakeholders in the solar ecosystem:

- **Solar Developers** – Focused on improving plant efficiency and maximizing returns. Developers invest in robotic cleaning to sustain higher generation levels. They procure the robots directly from Aegeus or through the EPC contractors at the time of commissioning of project. In existing plants where performance has declined, they directly procure robots from aegeus. By adopting robotic solutions, they ensure consistent cleanliness, higher energy yield, and long-term asset optimization.

- **EPC Contractors** – Integrating automation as part of the Balance of System (BoS) during project commissioning. EPCs purchase and install Aegeus robots at the construction stage, ensuring each plant is equipped with built-in cleaning automation that minimizes future operational costs and enhances project value from day one.

- **O&M Companies** – Responsible for regular cleaning as part of their maintenance scope, O&M providers procure Aegeus robots to automate module cleaning and improve service quality. This allows them to reduce manual labour, increase uptime, and deliver consistent cleaning performance across large-scale solar assets.

- In addition to large-scale industry participants, the Company also caters to individual companies, commercial establishments, and firms that utilize its robotic solutions for cleaning their own solar panel installations. These end users typically operate rooftop or small-scale solar systems and adopt Aegeus robots to ensure efficient, consistent, and cost-effective cleaning, thereby enhancing the performance and longevity of their solar assets

while reducing dependence on manual cleaning methods.

OUR PRODUCTS

We are a manufacturing company and focusing on quality delivery and customer satisfaction. We offer tailor made offerings right from advising clients on the appropriate product for serving their requirement. The Product Portfolio of our business are as follows:

UNICORN SMART

Unicorn Smart is a fully autonomous, water-free solar panel cleaning robot engineered for large-scale utility solar installations. Built with a modular design and IoT/cloud connectivity it optimally schedules its cleaning cycle. Designed for challenging terrains and ground-mount systems with uneven surfaces, Unicorn Smart employs a patented air-wash technology that

removes up to 99% of soiling without using water or harmful chemicals.

The robot is self-powered through solar or hybrid docking stations that allow automatic recharging, enabling continuous, unattended operation with minimal human intervention. Its robust construction and adaptive traction system ensure seamless movement across diverse terrains, while built-in safety mechanisms prevent slippage or collision. By integrating intelligent sensing, automation, and real-time performance analytics, Unicorn Smart enhances energy

generation efficiency, minimizes maintenance costs, and supports sustainable, water-free solar asset management in a cost-effective and eco-friendly manner.

UNICORN R2R

Unicorn R2R is a semi-autonomous solar panel cleaning robot designed for cost-sensitive or discontinuous table configurations in large- and mid-scale solar installations. Building on the proven automation framework of the Unicorn series, Unicorn R2R offers an optimised cleaning solution where full autonomy may not be feasible or cost-effective. Equipped with IoT connectivity and cloud-based performance monitoring, it allows remote scheduling and partial human intervention where needed.

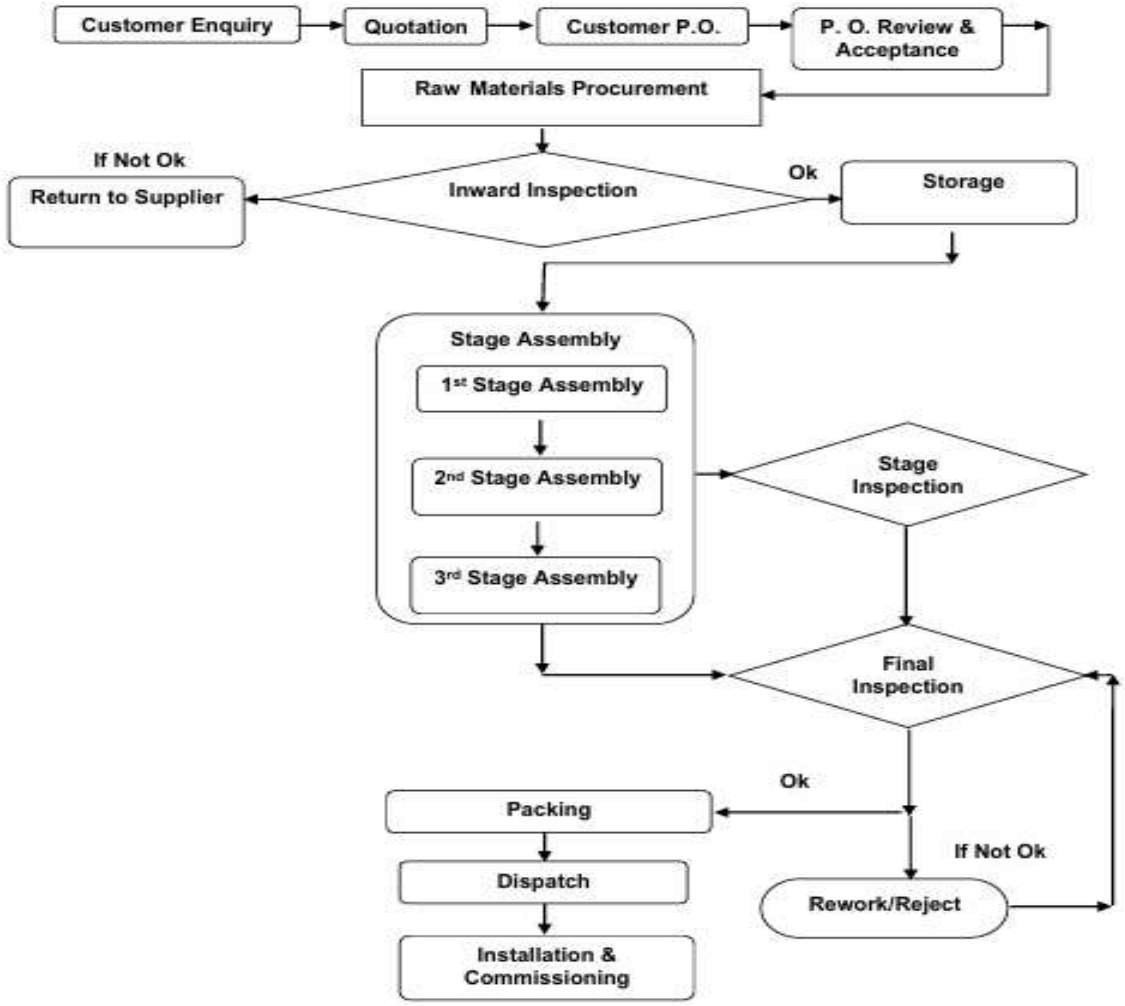
The modular design makes it adaptable for varying panel layouts, including irregular tables, uneven surfaces and smaller capex budgets. It uses the same patented dry-cleaning (air-wash) technology as the fully autonomous variant, eliminating the need for water or chemicals, thereby delivering high cleaning efficiency, improved energy yield and lower maintenance costs. By reducing manual labour and simplifying deployment, Unicorn R2R enables solar asset owners to achieve quicker pay-back and enhanced operational uptime, while still enjoying the benefits of robotic cleaning automation in a more capital-sensitive model.

SHREEM

Shreem is an intelligent, water-less robotic cleaning solution designed specifically for rooftop and small-scale solar installations. Powered by advanced Airwash Technology, it delivers superior cleaning performance without using a single drop of water, making it a truly eco-friendly alternative to conventional cleaning methods.

Compact and portable in design, Shreem seamlessly integrates across diverse rooftop configurations, ensuring effective operation even in constrained spaces. Its autonomous functionality minimises manual intervention while maximising cleaning consistency and panel efficiency, it supports RF remote-based control, providing flexibility and ease of operation.

OUR BUSINESS PROCESS



1. Business Enquiry/Lead Generation:

The business process commences with the receipt of a customer enquiry. Further leads are also generated by our marketing team by identifying and approaching the potential clients through direct sales efforts, referrals, and industry networks. Once interest is established, the Company presents tailored solutions, including product demonstrations and proposals, aligned to client requirements.

2. Quotation Sharing:

The planning and bidding team then prepares detailed proposals or responds to RFQs, supported by technical and commercial evaluations of site conditions and operational needs. Based on which a detailed quotation is prepared and shared.

3. **Purchase Order:**

Following client discussions and negotiations, the business development team secures the purchase order (PO), which is subsequently transferred to the production team.

4. **Raw material procurement:**

Subsequently, raw materials are procured and subjected to inward inspection. Materials not meeting prescribed standards are returned to the supplier, while approved materials are forwarded to production.

5. **Product Manufacturing and inspection:**

The manufacturing process is executed in multiple stages of assembly. Each stage—namely first, second, and third stage assembly—is followed by rigorous inspections to ensure compliance with quality specifications. Non-conformities identified at any stage are either reworked or rejected, and only compliant assemblies are progressed further.

6. **Packing and Dispatch:**

Once the assemblies successfully clear final inspection, the products are securely packed and dispatched.

7. **Delivery and Installation:**

The material is then delivered to the client's site, where the projects team executes installation and commissioning. Post-commissioning, the project is formally handed over to the client and the customer success team assumes responsibility for ongoing support and services.

OUR SERVICES

Our Company provides a comprehensive suite of services to its clients, including:

- **Complete Solar O&M:** End-to-end operations and maintenance services covering preventive and corrective maintenance, performance monitoring, and detailed plant reporting.
- **Annual Maintenance Contracts (AMC):** Preventive maintenance, spare support, and technical assistance for all robotic units to ensure sustained performance and extended equipment life.
- **Module Cleaning as a Service (MCaaS):** A pay-per-use service model under which Aegeus retains ownership of the robots and provides automated cleaning services. This enables clients to access advanced robotic solutions without any upfront capital expenditure.

In addition, the Company offers a strong post-sales support ecosystem through a hub-and-spoke service model designed for rapid and reliable coverage:

- **Regional Hubs:** Centralized facilities equipped with diagnostic tools, testing setups, and core spare inventories, staffed by trained service engineers. Regional hubs are located in Bangalore and Badi Sid, Rajasthan.
- **Spoke Warehouses:** Strategically positioned near major solar clusters to ensure quick availability of spares, consumables, and immediate service response. Spoke warehouses are located in Hubli, Rewa, Bellary, and Surat.
- **Field Service Teams:** Deployed from the nearest hub or spoke to conduct preventive and corrective maintenance, provide training, perform performance checks, and handle on-site robot servicing.

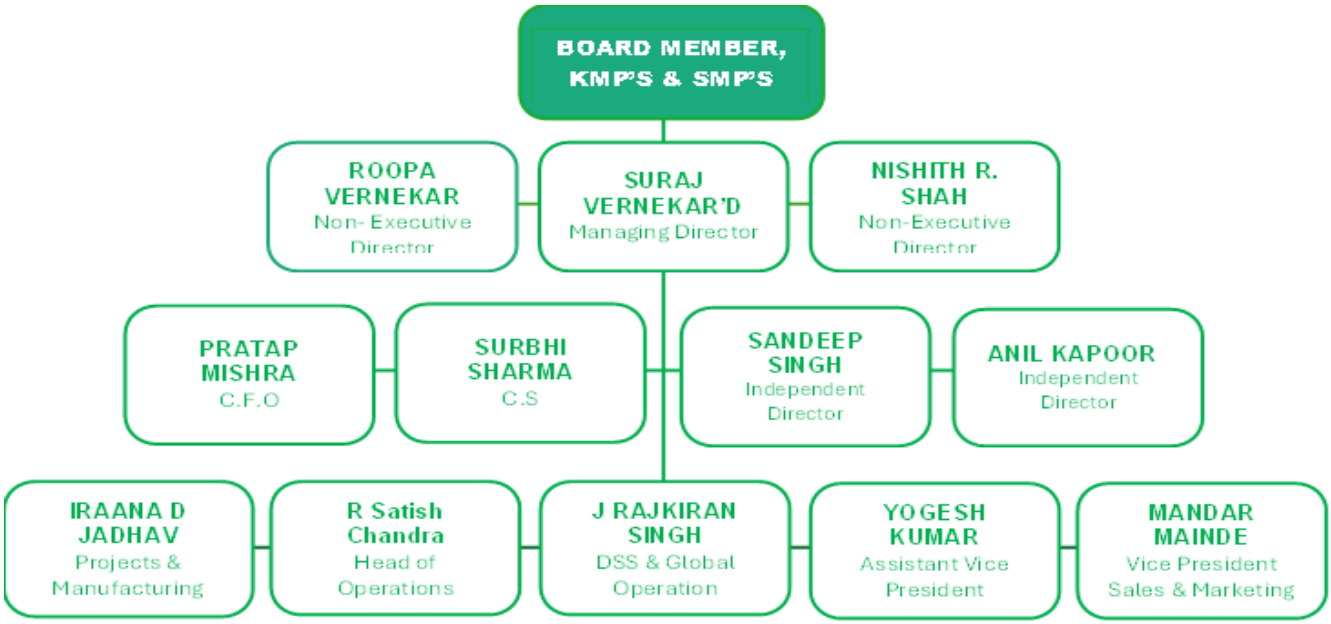
The Company has also developed digital platforms to enhance product performance and service efficiency:

- **Aegeus Connect:** – A centralized platform that provides real-time visibility and control over all Aegeus robotic systems deployed across multiple solar sites. It enables users to monitor performance, track cleaning schedules, view operational analytics, and manage fleet activity remotely. Through a secure web interface, Aegeus Connect ensures seamless coordination between field operations and asset management, improving efficiency and reducing downtime.

- **Field Connect:** A digital platform developed by our Company to streamline the operation and maintenance of robotic systems on solar power plants. It eliminates manual logs and service calls by allowing users to raise service tickets for faulty robots, track dispatch and commissioning, monitor preventive maintenance, and order spare parts — all through a single, integrated application.

Together, these digital platforms—integrated with regional hubs, spoke warehouses, and dedicated field teams—ensure faster response times, predictive maintenance capabilities, and transparent lifecycle management for all deployed systems. This distributed support infrastructure minimizes downtime, enhances service reliability, and ensures seamless operations even in remote solar locations.

ORGANIZATIONAL STRUCTURE



SWOT ANALYSIS

STRENGTH	WEAKNESS
• Capability to automate O&M of Solar Plants • Patents across large global markets • Comprehensive offering- Ground mount, Rooftop • Strong team – Across various functions • Installed base in excess of 10GW+ • Global presence • Capability to diversify into core robotics	• Cost position • No offering for wet cleaning • Limited social media and marketing presence • Cash position • Focused only on Solar vertical

OPPORTUNITES	THREAT
• Huge global market growing exponentially • First mover advantage for O&M automation • Untapped Rooftop global market • Cleaning as a Service to build ARR business • PM Har Ghar Surya yojana • Urban clap for Rooftop Solar	• Cheap Chinese imports • Large corporates building the capabilities • Geopolitical environment

OUR COMPETITIVE STRENGTHS

We believe that the following are our primary competitive strengths:

Patented robotic technology developed in-house enables efficient and effective solar panel cleaning without the use of water. The technology delivers consistent cleaning quality, reduced maintenance requirements, and operational reliability across varying site conditions.

Comprehensive automation and O&M ecosystem integrates robotic hardware, digital tools, and analytics-based monitoring through products such as Unicorn and Shreem. This combination supports improved plant performance and operational visibility.

Strong research and development capabilities support continuous product improvement and technology advancement in robotics, control systems, and data analytics, strengthening the company's technological foundation.

Scalable and flexible business model includes both equipment supply and Module Cleaning as a Service (MCaaS), allowing deployment across diverse plant configurations through partner-led execution.

Experienced management and technical team with domain expertise in robotics, automation, and solar operations oversee product development, manufacturing, and service execution.

Established brand presence supported by a record of reliable performance and product quality across installations in India and multiple international markets.

OUR BUSINESS STRATEGIES

Our strategy is to strengthen our position as a leading provider of advanced robotic and automation solutions for the solar industry by leveraging innovation, operational excellence, and customer-centric execution. We aim to create sustainable value for our stakeholders by combining technological leadership with scalable operations and global expansion.

We intend to achieve this through:

Expanding our product portfolio by developing next-generation, waterless robotic cleaning systems and building an O&M automation ecosystem that enhance performance, efficiency, and environmental sustainability.

Enhancing our geographic reach across key international solar markets through strategic partnerships,

collaborations, and the establishment of localized service and support networks.

Investing in technology and R&D to accelerate automation, build competencies across Robotics, Visual Analytics, Remote monitoring, path planning and enable data-driven insights that optimize solar asset performance.

Improving operational efficiency through continuous process optimization, value engineering initiatives, and expansion of scalable in-house manufacturing capabilities.

Building a strong brand and service network that emphasize reliability, long-term performance, and sustainability as core differentiators in the global solar O&M ecosystem.

RAW MATERIALS PROCUREMENTS

The Company sources all its raw materials and components from domestic dealers through a diversified vendor network. Procurement is carried out on a requirement basis, ensuring flexibility and cost efficiency, while maintaining multiple suppliers for each critical input to mitigate supply chain risk and avoid vendor dependency.

The key raw materials include:

- **Structural and Mechanical Components:** Aluminum and steel chassis rails, cross rails, support wheels, couplings, gearboxes, drive units, and microfibre brush assemblies.
- **Electrical and Electronic Components:** DC motors, brush motors, reduction gearboxes, controller motherboards, sensors, rotary encoders, connectors, and multi-core cables.
- **Energy Systems:** Lithium ferrous phosphate (LFP) battery packs, battery chargers, MPPT charge controllers, and solar panels.
- **Consumables and Others:** Fasteners, washers, cable glands, clamps, packaging material, and ancillary components used in sub-assemblies.

All procured materials undergo inward inspection and quality checks prior to use in production. Materials not meeting prescribed standards are either returned to suppliers or rejected in line with Company policy. This ensures that only compliant inputs move forward into the manufacturing process, thereby maintaining product reliability and operational efficiency.

The Company mitigates risks related to raw material procurement by engaging multiple suppliers for critical items, maintaining buffer inventories for key inputs, and closely monitoring commodity price trends, particularly in aluminum and lithium-based components.

MARKETING STRATEGY

Our company's marketing strategy seamlessly integrates both **online** and **offline** initiatives to maximize reach,

engagement, and brand visibility across the global solar ecosystem. This dual-channel approach allows Aegeus to connect with diverse stakeholders — from developers and EPCs to investors and technology partners — through consistent, targeted communication.

Online Marketing:

Aegeus actively leverages digital platforms to strengthen brand awareness and industry engagement. Regular LinkedIn campaigns, product updates, and thought-leadership posts highlight our innovations in solar robotics, AI, and O&M automation. Through these digital touchpoints, we maintain continuous visibility among key industry professionals, fostering credibility and long-term brand recall.

Offline Marketing:

Our offline presence is anchored by participation in major industry exhibitions, conferences, and seminars across India and international markets. Events and other global clean energy platforms provide opportunities to showcase our products, interact directly with customers, and build strategic partnerships.

By combining digital storytelling with on-ground engagement, Aegeus ensures a strong, consistent brand presence that reflects our leadership in solar automation and innovation.

EVENTS AND NETWORKING

Sponsored Events

Solar Plant Performance in India - Sponsor (2019)

Held in Delhi, the event brought together key stakeholders from the solar industry to share insights on enhancing plant efficiency, reliability, and returns. Sponsoring the event provided excellent networking opportunities, brand visibility, and access to the latest technological advancements in solar O&M and performance optimization.

India Rooftop Solar Congress - Industry Partner (2020)

Held in Delhi, this premier conference focused on the growth, challenges, and innovations in the rooftop solar sector. Partnering in the event enabled strong industry networking, brand recognition, and engagement with key decision-makers driving India’s rooftop solar market.

Exhibited Events

- **Intersolar Bangalore – 2018**

Held at the Bangalore International Exhibition Centre, the event served as a leading platform for the solar industry to showcase innovations, exchange knowledge, and explore business opportunities. Participation provided exposure to global solar technologies, valuable networking with industry leaders, and insights into emerging market trends.

- **Hyderabad Expo – 2021**

Held in Hyderabad, the expo brought together solar industry professionals, technology providers, and investors to discuss advancements and opportunities in renewable energy. Participation offered brand visibility, networking with potential clients, and access to the latest innovations in solar and clean energy solutions.

- **Renewable Energy India (REI) – 2022**

Held in Delhi, REI served as a key platform for showcasing renewable energy technologies and solutions. Participation provided opportunities for networking with industry leaders, exploring new business collaborations, and staying updated on the latest trends and innovations in the renewable energy sector.

- **Renewable Energy India (REI) – 2023**

Held in Greater Noida, REI 2023 brought together global and domestic stakeholders in the renewable energy sector to discuss innovations, policies, and market trends. Participation offered enhanced brand visibility, networking with key industry players, and insights into emerging technologies and investment opportunities in renewable energy.

- **Future Energy Show Riyadh (Saudi Arabia) – 2024**

Held in Riyadh, Saudi Arabia, the event showcased cutting-edge energy technologies and solutions from around the world. Participation provided international exposure, opportunities to network with global industry leaders, and insights into the latest trends and innovations in the energy and renewable sector.

- **L&T Robotics Innovation Day – 2025**

Held at L&T's corporate campus, the event highlighted the latest advancements in robotics and automation technologies. Participation offered opportunities to showcase innovative solutions, network with industry experts, and explore collaborations in the robotics and automation sector.

- **REI 2024**

Held in Greater Noida, Haryana, REI served as a key platform for showcasing renewable energy technologies and solutions. Participation provided opportunities for networking with industry leaders, exploring new business collaborations, and staying updated on the latest trends and innovations in the renewable energy sector.

- **REI 2025**

Held in Greater Noida, Haryana, REI served as a prominent platform for showcasing cutting-edge renewable energy technologies and solutions. The event offered valuable opportunities for networking with industry leaders, exploring potential business collaborations, and gaining insights into the latest trends and innovations in the renewable energy sector.

- **Solar & Storage KSA 2025**

Held in Riyadh, Saudi Arabia, the event served as a premier platform for showcasing the latest advancements in solar energy and energy storage technologies. The event provided valuable opportunities for networking with industry leaders, exploring potential business collaborations, and gaining insights into emerging trends and innovations driving the clean energy transition in the region.

COMPETITION

The robotic solar panel cleaning and O&M industry is characterized by rapid technological evolution, fragmented competition, and increasing consolidation. Players are competing on automation depth, waterless technology efficiency, AI/IoT integration, service delivery models, and export readiness.

Key Factors Shaping Competition:

Technology Differentiation: Use of AI, IoT, and ML for predictive maintenance and performance analytics.

Sustainability Focus: Preference for waterless, ESG-compliant cleaning technologies.

Operational Scale: Ability to handle large utility-scale projects versus modular systems for rooftops.
Cost & Efficiency: Reduction in cleaning time, energy usage, and operational manpower.

Service Model: Transition from capex to service-based models like MCaaS or ROaaS.

INFRASTRUCTURE FACILITIES

Power Facilities

All our manufacturing facilities and the registered office draw electricity from Bangalore Electricity Supply Company Limited. In addition, each location is equipped with adequate power infrastructure to support lighting, computer systems, and other operational requirements. The power supply from the utility is sufficient to meet our needs, and appropriate backup systems are in place to ensure uninterrupted operations in the event of breakdowns or grid failures.

Water Facilities

Water is not required for manufacturing process. However, Water required at premises for human consumption and

sanitation purposes is fully met through private supply.

HUMAN RESOURCES

The success of any business depends upon its employees and customers it is catering to. Since our business is in B2B segment involving Projects & Manufacturing, Marketing, Sales, Customer Support and others, we have a pool of different personnel operating under various departments led by the department head.

None of our employees are represented by a labour union or covered by a collective bargaining agreement. We have not experienced any work stoppages, and we consider our relations with our employees to be good. As on June 30, 2026, we have total of 55 employees on payroll basis and 33 employees on contratual basis, operating under various departments described as below:

KEY REGULATIONS AND POLICIES

The business of our Company requires, at various stages, the sanction of the concerned authorities under the relevant Central, State legislation and local laws. The following description is an overview of certain laws and regulations in India, which are relevant to our Company. Certain information detailed in this chapter has been obtained from publications available in the public domain. The regulations set out below are not exhaustive and are only intended to provide general information to Applicants and is neither designed nor intended to be a substitute for professional legal advice.

The statements below are based on current provisions of Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.

KEY INDUSTRY AND BUSINESS-RELATED REGULATIONS APPLICABLE TO OUR BUSINESS

INDUSTRIAL LAWS

- The Micro, Small and Medium Enterprises Development Act 2006
- The Industries (Development and Regulation) Act 1951
- State specific Shops and Establishment laws
- The Electricity Act 2003

Some of the important industrial legislations are discussed below:

The Micro, Small and Medium Enterprises Development Act 2006 (MSME Act)

The MSME Act is a central law which primarily provides for facilitating the promotion and development and enhancing the competitiveness of micro, small and medium enterprises in India. The enterprises under the MSME Act are categorised as micro, small and medium enterprises depending upon the following criteria (*applicable from 1 July 2020*):
(a) a micro enterprise, where the investment in Plant and Machinery or Equipment does not exceed INR 1,00,00,000 and turnover does not exceed INR 5,00,00,000;
(b) a small enterprise, where the investment in Plant and Machinery or Equipment does not exceed INR 10,00,00,000 and turnover does not exceed INR 50,00,00,000;
(c) a medium enterprise, where the investment in Plant and Machinery or Equipment does not exceed INR 50,00,00,000 and turnover does not exceed INR 250,00,00,000.

In terms of the MSME Act, any buyer who fails to make payment to MSMEs, as per agreed terms or a maximum of 45 days, would be liable to pay monthly compounded interest at three times of the bank rate notified by the Reserve Bank of India (RBI).

The Industries (Development and Regulation) Act 1951 (Industries Regulation Act)

The Industries Regulation Act is an Act to govern the development and regulation of industries in India. The main objectives of the Industries Regulation Act are to empower the Government: (i) to take necessary steps for the

development of industries; (ii) to regulate the pattern and direction of industrial development; (iii) to control the activities, performance and results of industrial undertakings in the public interest. The Industries Regulation Act applies to the Scheduled Industries listed in the First Schedule of the Act. However, small scale industrial undertakings and ancillary units are exempted from the provisions of the Industries Regulation Act.

The Industries Regulation Act is administered by the Department for Promotion of Industry and Internal Trade (DPIIT). The DPIIT is responsible for formulation and implementation of promotional and developmental measures for growth of the industrial sector. It monitors the industrial growth and production, in general, and selected industrial sectors. Certain specified categories of industries require industrial licensing under the Industries Regulation Act.

Shops and Commercial Establishments laws

State specific Shops and Establishments law lay down the conditions of work and employment in all kinds of shops and commercial establishments situated in such state. Commercial establishments need to adhere to the norms and regulations set by the Act for the treatment of their employees. Under the provisions of local shops and establishments legislations applicable in the states in India where Company's establishments are set up and business operations exist, such establishments are required to be registered. Such legislations regulate the working and employment conditions of the workers employed in shops and establishments, including commercial establishments, and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of records, maintenance of shops and establishments and other rights and obligations of the employers and employees. These shops and establishments act, and the relevant rules framed thereunder, also prescribe penalties in the form of monetary fine or imprisonment for violation of provisions, as well as procedures for appeal in relation to such contravention of the provisions.

CORPORATE AND COMMERCIAL LAWS

The Information Technology Act 2000 (IT Act)

The IT Act aims to provide for the legal framework so that legal sanctity is accorded to all electronic records and other activities carried out by electronic means. The IT Act states that unless otherwise agreed, an acceptance of contract may be expressed by electronic means of communication and the same shall have legal validity and enforceability.

The Companies Act 2013 (Companies Act)

The Companies Act deals with incorporation and post incorporation. The conversion of private company into public company and vice versa is also laid down under the Companies Act. The provisions of the Companies Act shall also apply to banking companies, companies engaged in generation or supply of electricity and any other company governed by any special act for the time being in force. A company can be formed by seven or more persons in case of public company and by two or more persons in case of private company. A company can even be formed by one person i.e. One Person Company. The provisions relating to formation and allied procedures are mentioned in the act. The Companies Act repealed the erstwhile Companies Act 1956.

The Competition Act 2002 (Competition Act)

The Competition Act prohibits anti-competitive agreements, abuse of dominant positions by enterprises and regulates combinations in India. The Competition Act also established the Competition Commission of India (CCI) as the authority mandated to implement the Competition Act. The provisions of the Competition Act relating to combinations were notified recently on 4 March 2011, and came into effect on 1 June 2011. Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India are void under the Competition Act. A combination is defined under Section 5 of the Competition Act as an acquisition, merger or amalgamation of enterprise(s) that meets certain asset or turnover thresholds.

There are also different thresholds for those categorized as Individuals and Group. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is likely to have an appreciable adverse effect on competition in India. Effective 1 June 2011, all combinations have to be notified to the CCI within 30 days of the execution of any agreement or other document for any acquisition of assets, shares, voting rights or control of an enterprise under Section 5(a) and (b) of the Competition Act (including any binding document conveying an agreement or decision to acquire control, shares, voting rights or assets of an enterprise), or the board of directors of a company (or an equivalent authority in case of other entities) approving a proposal for a merger or amalgamation under Section 5(c) of the Competition Act. The obligation to notify a combination to the CCI falls upon the acquirer in case of an acquisition, and on all parties to the combination jointly in case of a merger or amalgamation.

The Indian Stamp Act 1899 (Stamp Act)

Stamp duty is payable on all instruments/ documents evidencing a transfer or creation or extinguishment of any right, title or interest in movable and immoveable property. The Stamp Act provides for the imposition of stamp duty at the specified rates on instruments listed in Schedule I of the Stamp Act. However, under the Constitution of India, the states are also empowered to prescribe or alter the stamp duty payable on such documents executed within the state. Instruments chargeable to duty under the Stamp Act but which have not been duly stamped, are incapable of being admitted in as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments by certain specified authorities and bodies and imposition of penalties, for instruments which are not sufficiently stamped or not stamped at all. Instruments which have not been properly stamped can be validated by paying a penalty of up to 10 times of the total duty payable on such instruments.

The Indian Contract Act 1872 (Contract Act)

The Contract Act codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and the breach enforced. It provides a framework of rules and regulations that govern formation and performance of contract. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

Insolvency And Bankruptcy Code 2016

An Act to consolidate and amend the laws relating to reorganisation and insolvency resolution of corporate persons, partnership firms and individuals in a time bound manner for maximisation of value of assets of such persons, to promote entrepreneurship, availability of credit and balance the interests of all the persons.

Negotiable Instruments Act 1881 (NI Act)

In India, the laws governing monetary instruments such as cheques are contained in the NI Act. The NI Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid. Section 138 of the NI Act, creates statutory offence in the matter of dishonour of cheques on the ground of insufficiency of funds in the account maintained by a person with the banker which is punishable with imprisonment for a term which may extend to two year, or with fine which may extend to twice the amount of the cheque, or with both.

The Digital Personal Data Protection Act 2023 (DPDP Act)

The Parliament passed the DPDP Act on 9 August 2023. The DPDP Act, once notified, will replace the existing data protection provision, as contained in Section 43A of the IT Act. The DPDP Act provides for the processing of digital personal data in a manner that recognises both the rights of individuals to protect their personal data and the need to process personal data for lawful purposes and matters incidental thereto. The DPDP Act provides that personal data may be processed only for a lawful purpose after obtaining the consent of the data principal to whom the personal data relates, or for certain legitimate uses. A notice must be given before seeking consent.

Securities and Exchange Board of India Act 1992 (SEBI Act)

The SEBI Act was enacted to regulate and develop the securities market in India and to protect investors' interests. The SEBI Act established the Securities and Exchange Board of India (SEBI) as the primary regulatory authority for overseeing the securities market, stock exchanges, intermediaries, and listed companies. Broadly, functions of SEBI include: (i) protecting the interest of investors investing in the securities market; and (ii) regulating and promoting the development of the securities market, by such measures as it deems appropriate. With respect to depositories, SEBI Act entrusts upon SEBI the power to: (i) register depositories with SEBI; (ii) regulate their business activities; and (iii) bar depositories from buying or selling or dealing in securities except in accordance with the conditions of a certificate of registration obtained from SEBI according to the SEBI (Depositories and Participants) Regulations 2018.

LABOUR AND EMPLOYMENT LAWS

India has extensive labour related legislations. Certain other laws and regulations that may be applicable to the Company in India include the following which is an indicative list of labour laws applicable to the business and operations of Indian companies engaged in manufacturing activities:

- Child Labour (Prohibition and Regulation) Act 1986;
- Apprentices Act 1961;
- Public Liability Insurance Act 1991;
- Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act 2013;
- State specific shops & establishments laws;
- State specific labour welfare fund laws; and
- State specific Industrial Establishments (National and Festival Holidays and Casual and Sick Leave) laws.

In order to rationalize and reform labour laws in India, the Government of India has introduced four labour codes, namely:

The Occupational Safety, Health and Working Conditions Code 2020 was notified by the Government of India

on 21 November 2025, and has consolidated thirteen existing legislations, including the Factories Act 1948, the Contract Labour (Regulation and Abolition) Act 1970, and the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act 1979. This code proposes to provide for, among other things, standards for health, safety and working conditions for employees of establishments. The code aims to safeguard worker rights and working conditions as well as to create a business-friendly regulatory environment to spur economic growth and employment.

The Industrial Relations Code 2020 was notified by the Government of India on 21 November 2025. With the aim of safeguarding the interests of trade unions as well as the workers, the code has consolidated three existing legislations namely, the Industrial Disputes Act 1947, the Trade Unions Act, 1926 and the Industrial Employment (Standing Orders) Act 1946. It simplifies laws relating to trade unions, the conditions of employment in industrial establishments and undertakings, and the investigation and settlement of industrial disputes.

The Code on Wages 2019 was notified by the Government of India on 21 November 2025. It consolidates four separate legislations, namely, the Payment of Wages Act 1936, the Minimum Wages Act 1948, the Payment of Bonus Act 1965, and the Equal Remuneration Act 1976. The objective of this code is to provide governing framework for minimum wages. It provides all the workers of both organized and unorganized sectors with the right to minimum wages. Furthermore, a new provision of national floor wage has been introduced to remove regional disparities in minimum wages.

The Code on Social Security 2020 was notified by the Government of India on 21 November 2025. It proposes to provide for occupational safety, health, and working conditions of the persons in an establishment by consolidating nine legislations including the Employees' Compensation Act 1923, the Employees' State Insurance Act 1948, the Employees' Provident Funds and Miscellaneous Provisions Act 1952, the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959, the Maternity Benefit Act, 1961, and the Payment of Gratuity Act, 1972. The code aims at simplifying compliance for employers and enhancing welfare benefits for the employees. All workers, including workers of the unorganized sector, plantation workers, and platform and gig workers, will get social security measures such as the benefit of free treatment under hospitals and dispensaries of Employees' State Insurance Corporation.

Some of the other important labour legislations are explained below.

Child Labour (Prohibition and Regulation) Act 1986

Under the child labour law in India, adolescents between the age of 14 and 18 are prohibited from working in any hazardous or dangerous occupations and processes. They can only work in certain government declared non-hazardous occupations or in a family business or as an artist.

Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act 2013 (SHWPPR Act)

The SHWPPR Act aims to provide women protection against sexual harassment at the workplace, prevention of sexual harassment at the workplace and redressal of complaints of sexual harassment. The Act defines sexual harassment to include any unwell come sexually determined behavior (whether directly or by implication). Workplace under the SHWPPR Act has been defined widely to include government bodies, private and public sector organisations, non-governmental organisations, organizations carrying on commercial, vocational,

educational, entertainment, industrial, financial activities, hospitals and nursing homes, educational institutes, sports institutions and stadiums used for training individuals. The SHWPPR Act requires an employer to set up an internal complaints committee' at each office or branch, of an organization employing at least 10 employees. The government in turn is required to set up a local complaint committed the district level to investigate complaints regarding sexual harassment from establishments where the internal complaints committee has not been constituted.

Bonded Labour System (Abolition) Act 1976 (BLA)

BLA provides for the abolition of bonded labour system with a view to preventing the economic and physical exploitation of the weaker sections of the people and for matters connected therewith or incidental thereto.

INTELLECTUAL PROPERTY LAWS

Trademarks Act 1999 (TM Act)

A trademark is used in relation to goods so as to indicate a connection in course of trade between the goods and a person having the right as proprietor or user to use the mark. The TM Act governs the registration, acquisition, transfer and infringement of trademarks and remedies available to a registered proprietor or user of a trademark. Registration is valid for a period of 10 years but can be renewed in accordance with the specified procedure. As per the Trademarks (Amendment) Bill 2009, Registrar of Trade Marks is empowered to deal with international applications originating from India as well as those received from the International Bureau and maintain a record of international registrations. It also removes the discretion of the Registrar to extend the time.

Copyrights Act 1957 (Copyright Act)

The Copyrights Act governs copyright protection in India. Under the Copyright Act, copyright may subsist in original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings. Following the issuance of the International Copyright Order 1999, subject to certain exceptions, the provisions of the Copyright Act apply to nationals of all member states of the World Trade Organization.

While copyright registration is not a prerequisite for acquiring or enforcing a copyright, registration creates a presumption favouring ownership of the copyright by the registered owner. Copyright registration may expedite infringement proceedings and reduce delay caused due to evidentiary considerations. Once registered, the copyright protection of a work lasts for the entire lifetime of the author and 60 years thereafter.

The remedies available in the event of infringement of a copyright under the Copyright Act include civil proceedings for damages, account of profits, injunction and the delivery of the infringing copies to the copyright owner. The Copyright Act also provides for criminal remedies, including imprisonment of the accused, imposition of fines and seizure of infringing copies.

Patents Act 1970 (Patent Act)

The purpose of the Patent Act in India is to protect inventions. Patents provide the exclusive rights for the owner of a patent to make, use, exercise, distribute and sell a patented invention. The patent registration confers on the patentee the exclusive right to use, manufacture and sell his invention for the term of the patent. An application for a patent can be made by (a) person claiming to be the true and first inventor of the invention; (b) person being the assignee of the person claiming to be the true and first invention in respect of the right to make such an application;

and (c) legal representative of any deceased person who immediately before his death was entitled to make such an application. Penalty for the contravention of the provisions of the Patents Act include imposition of fines or imprisonment or both.

Design Act 2000

It is an act to consolidate and amend the law relating to the protection of designs. The important purpose of design registration is to see that the creator, originator or artisan of any design is not deprived of his reward for creating that design by others copying it to their goods or products.

PROPERTY RELATED LAWS

Transfer of Property Act 1882 (TPA)

The transfer of property, including immovable property, between living persons, as opposed to the transfer of property by operation of law, is governed by the TPA. The TPA establishes the general principles relating to the transfer of property, including among other things, identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. The TPA recognizes, among others, the following forms in which an interest in an immovable property may be transferred:

- Sale: the transfer of ownership in property for a price paid or promised to be paid.
- Mortgage: the transfer of an interest in property for the purpose of securing the payment of a loan, existing or future debt, or performance of an engagement which gives rise to a pecuniary liability. The TPA recognizes several forms of mortgages over a property.
- Charges: transactions including the creation of security over property for payment of money to another which are not classifiable as a mortgage. Charges can be created either by operation of law, e.g., decree of the attaching to specified immovable property, or by an act of the parties.
- Leases: the transfer of a right to enjoy property for consideration paid or rendered periodically or on specified occasions.

The Registration Act 1908 (Registration Act)

The Registration Act has been enacted with the objective of providing public notice of the execution of documents affecting, inter alia, the transfer of interest in immovable property. The purpose of the Registration Act is the conservation of evidence, assurances, title and publication of documents and prevention of fraud. It details the formalities for registering an instrument. Section 17 of the Registration Act identifies documents for which registration is compulsory and includes, among other things, any non-testamentary instrument which purports or operates to create, declare, assign, limit or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent, in any immovable property of the value of one hundred rupees or more, and a lease of immovable property for any term exceeding one year or reserving a yearly rent. A document will not affect the property comprised in it, nor be treated as evidence of any transaction affecting such property (except as evidence of a contract in a suit for specific performance or as evidence of part performance under the TPA or as collateral), unless it has been registered. Evidence of registration is normally available through an inspection of the relevant land records, which usually contains details of the registered property. Further, registration of a document does not guarantee title of land.

Indian Easements Act 1882 (Easement Act)

An easement is a right which the owner or occupier of land possesses for the beneficial enjoyment of that land and which permits him to do or to prevent something from being done, in or upon, other land not his own. Under the Easements Act, a license is defined as a right to use property without any interest in favour of the licensee. The period and incident may be revoked and grounds for the same may be provided in the license agreement entered in between the licensee and the licensor.

The Real Estate (Regulation and Development) Act 2016

This Act was notified by the Parliament on 26 March 2016 and extends to the whole of India. It establishes the Real Estate Regulatory Authority for regulations and promotions of the real estate sector and to ensure sale of plot, apartment or building, as the case may be, or sale of real estate project, in an efficient and transparent manner and to protect the interest of consumers in the real estate sector and to establish an adjudicating mechanism for speedy dispute redressal and also to establish the Appellate Tribunal to hear appeals from the decisions, directions or orders of the Real Estate Regulatory Authority and the adjudicating officer and for matters connected therewith or incidental thereto. The salient features of the Act are as following:

Under the Act, instead of a regular forum of consumers, the purchasers of real estate units from a developer would have a specialized forum called the "Real Estate Regulatory Authority" which will be set up within one year from the date of coming into force of the Act. In the interim, the appropriate Government (i.e., the Central or State Government) shall designate any other regulatory authority or any officer preferably the Secretary of the department dealing with Housing, as the Regulatory Authority.

The promoter has to register their project (residential as well as commercial) with the Regulatory Authority before booking, selling or offering apartments for sale in such projects. In case a project is to be promoted in phases, then each phase shall be considered as a standalone project, and the promoter shall obtain registration for each phase.

Under the Act, developers can sell units only on carpet area, which means the net usable floor area of an apartment. This excludes the area covered by the external walls, areas under services shafts, exclusive balcony or verandah area and exclusive open terrace area, but includes the area covered by the internal partition walls of the apartment. The Act mandates that a promoter shall deposit 70% of the amount realised from the allottees, from time to time, in a separate account to be maintained in a scheduled bank. This is intended to cover the cost of construction and the land cost and the amount deposited shall be used only for the concerned project.

Stringent penal provisions have been prescribed under the Act against the promoter in case of any contravention or non-compliance of the provisions of the Act or the orders, decisions or directions of the Regulatory Authority or the Appellate Tribunal which are the following: (a) If promoter does not register its project with the Regulatory Authority - the penalty may be up to 10% of the estimated cost of the project as determined by the Regulatory Authority; (b) If promoter does not comply with the aforesaid order of the Regulatory Authority - imprisonment of up to three years and a further penalty of up to 10% of the estimated cost, or both; and (c) In case the promoter provides any false information while making an application to the Regulatory Authority or contravenes any other provision of the Act - the penalty may be up to 5% of the estimated cost of the project or construction.

Limitation Act 1963

The Limitation Act 1963 was enacted for the purpose of consolidating and amending the legal principles relating to limitation of suits and other legal proceedings. The basic concept of limitation is relating to fixing or prescribing of the time period for barring legal actions. According to Section 2 (j) of the Limitation Act 1963, period of limitation 'means the period of limitation prescribed for any suit, appeal or application by the Schedule', and prescribed period 'means the period of limitation computed in accordance with the provisions of the Limitation Act'.

ENVIRONMENT LAWS

The Environment Protection Act 1986 (Environment Protection Act)

The purpose of the Environment Protection Act is to serve as an "umbrella" legislation, designed to provide a framework for Central government to co-ordinate the activities of various central and state authorities established under previous laws. The Environment Protection Act authorizes the central government to protect and improve environmental quality, control and reduce pollution from all sources, and prohibit or restrict the setting and /or operation of any industrial facility on environmental grounds. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed. Where the discharge of any environmental pollutant in excess of the prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to prevent or mitigate the environmental pollution caused as a result of such discharge and should intimate the fact of such occurrence or apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

Air (Prevention of Pollution Control Act) 1981 (Air Act)

Air Act was enacted with an objective to protect the environment from smoke and other toxic effluents released in the atmosphere by industries. With a view to curb air pollution, the Air Act has declared several areas as air pollution control area and also prohibits the use of certain types of fuels and appliances. Prior written consent is required of the board constituted under the Air Act, if a person intends to commence an industrial plant in a pollution control area.

The Water (Prevention and Control of Pollution) Act 1974 (Water Act)

The Water Act was enacted with an objective to protect the rivers and streams from being polluted by domestic and industrial effluents. The Water Act prohibits the discharge of toxic and poisonous matter in the river and streams without treating the pollutants as per the standard laid down by the Pollution control boards constituted under the Water Act. A person intending to commence any new industry, operation or process likely to discharge pollutants must obtain prior consent of the board constituted under the Water Act.

National Environmental Policy 2006 (Policy)

The Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This Policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to the national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental

resource is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resource obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of Policy:

- Conservation of Critical Environmental Resources
- Intra-generational Equity: Livelihood Security for the Poor
- Inter-generational Equity
- Integration of Environmental Concerns in Economic and Social Development
- Efficiency in Environmental Resource Use
- Environmental Governance
- Enhancement of resource for Environmental Conservation

The Noise Pollution (Regulation & Control) Rules 2000 (Noise Regulation Rules)

The Noise Regulation Rules regulate noise levels in industrial, commercial and residential zones. The Noise Regulation Rules also establish zones of silence of not less than 100 meters near schools, courts, hospitals, etc. The rules also assign regulatory authority for these standards to the local district courts. Penalty for non-compliance with the Noise Regulation Rules shall be under the provisions of the Environment (Protection) Act 1986.

The National Green Tribunal Act 2010

An Act to provide for the establishment of a National Green Tribunal for the effective and expeditious disposal of cases relating to environmental protection and conservation of forests and other natural resources including enforcement of any legal right relating to environment and giving relief and compensation for damages to persons and property and for matters connected therewith or incidental thereto.

Hazardous and other wastes (Management and Transboundary Movement) Rules, 2016 (Hazardous Waste Rules)

The Hazardous Waste Rules regulate the management, treatment, storage and disposal of hazardous waste. Under the Hazardous Waste Rules, "hazardous waste" inter alia means any waste which by reason of characteristics such as physical, chemical, biological, reactive, toxic, flammable, explosive or corrosive, causes danger or is likely to cause danger to health or environment, whether alone or in contact with other wastes or substances. Every occupier and operator of a facility generating hazardous waste must obtain authorization from the relevant state pollution control board. Further, the occupier, importer or exporter is liable for damages caused to the environment or third party resulting from the improper handling and management and disposal of hazardous waste and must pay any financial penalty that may be levied by the respective state pollution control board.

TAXATION LAWS

Income Tax Act 1961 (Income Tax Act)

The Government of India imposes an income tax on taxable income of all persons including individuals, Hindu Undivided Families (HUFs), companies, firms, association of persons, and body of individuals, local authority and any other artificial judicial person. Levy of tax is separate on each of the persons. The levy is governed by the Income Tax Act. The Indian Income Tax Department is governed by CBDT and is part of the Department of Revenue under the Ministry of Finance, Govt. of India. Income tax is a key source of funds that the government

uses to fund its activities and serve the public. The quantum of tax determined as per the statutory provisions is payable as: (a) Advance Tax; (b) Self-Assessment Tax; (c) Tax Deducted at Source (TDS); (d) Tax Collected at Source (TCS); and (e) Tax on Regular Assessment.

Goods And Services Tax Act 2017

The Constitution (One Hundred and First Amendment) Act 2016 which received presidential assent on 8 September 2016 paved the way for introduction of goods and services tax (GST) by making provisions with respect to goods and services tax. GST is a single tax on the supply of goods and services, right from the manufacturer to the consumer. Credits of input taxes paid at each stage will be available in the subsequent stage of value addition, which makes GST essentially a tax only on value addition at each stage. The final consumer will thus bear only the GST charged by the last dealer in the supply chain, with set-off benefits at all the previous stages.

Customs Act 1962

The Customs Act 1962 governs the import and export of goods in India, setting out procedures for clearance, levying customs duties, and regulating cross-border trade. It aims to facilitate lawful trade, collect customs revenue, and prevent smuggling, thereby safeguarding the nation's economy. Any company intending to import or export goods is first required to get registered under the Customs Act and obtain an Importer Exporter Code under Foreign Trade (Development and Regulation) Act 1992. Customs duties are administrated by Central Board of Indirect Tax and Customs under the Ministry of Finance, Government of India.

MISCELLANEOUS LEGISLATIONS

Consumer Protection Act 2019 (COPRA)

The COPRA aims at providing better protection to the interests of consumers and for that purpose makes provisions for the establishment of authorities for the settlement of consumer disputes. The COPRA provides a mechanism for the consumer to file a complaint against a trader or service provider in cases of unfair trade practices, restrictive trade practices, defects in goods, deficiency in services, price charged being unlawful and goods being hazardous to life and safety when used. The COPRA provides for a three-tier consumer grievance redressal mechanism at the national, state and district levels. Non- compliance of the orders of these authorities attracts criminal penalties.

Foreign Exchange Management Act 1999 (FEMA)

The Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India. As laid down by the FEMA Regulations no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment (FDI) under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The Government of India, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Non-Debt Instruments) Rules 2019 (NDI Rules) to regulate the foreign investment (i.e., the investment made by persons resident outside India) and provide for the terms and conditions applicable to such foreign investment, including the procedure of investment, general conditions around the investment, the method to be adopted for valuation of

the investment instruments, time frame for completion of the investment procedure, reporting requirement etc. The NDI Rules imposes a general condition on the persons resident outside India to comply with the provisions of the NDI Rules in case it intends to make an investment into Indian entities. Similarly, the entities in India are not allowed to receive investment from a person resident outside India unless such investment complies with the provisions of the NDI Rules.

The Arbitration and Conciliation Act 1996

An Act to consolidate and amend the law relating to domestic arbitration. International commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation and for matters connected therewith or incidental thereto.

Dear Sir(s)/ Madam(s),

Report on the Restated Consolidated Financial Statements

We, A G R A AND CO., Chartered Accountants, have examined the attached Restated Consolidated Financial Statements of "Aegeus Technologies Limited (Formerly Known as Aegeus Technologies Private Limited" (hereinafter referred to as "the Company" or "Holding Company"), comprising, the Restated Statement of Assets and Liabilities as at March 31, 2026, March 31, 2025 and March 31, 2024, the Restated Statements of Profit and Loss and the Restated Cash Flow Statement for the years ended at March 31, 2026, March 31, 2025 and March 31, 2024 the Statement of Significant Accounting Policies, the Notes and Annexures as forming part of these Restated Financial Statements (collectively, the "Restated Financial Statements"), as approved by the Board of Directors of the Company at their meeting for the purpose of inclusion in Draft Red Herring Prospectus ("DRHP")/Red Herring Prospectus/Prospectus prepared by the management of the Company in connection with its proposed SME Initial Public Offer of equity shares ("SME IPO") at SME Platform of Bombay Stock Exchange Limited ("BSE SME").

These restated financials statements have been prepared in terms of the requirements of:

a. Section 26 of Part I of Chapter III of the Companies Act, 2013 (the "Act");
b. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("ICDR Regulations"); and
c. The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India ("ICAI"), as amended from time to time (the "Guidance Note").

The Company's Board of Directors is responsible for the preparation of the Restated Financial Statements for the purpose of inclusion in the Draft Red Herring Prospectus/Red Herring Prospectus/ Prospectus to be filed with Securities and Exchange Board of India, relevant stock exchange and Registrar of Companies, Bangalore in connection with the proposed SME IPO. The Restated Financial Statements has been prepared by the management of the Company on the basis of preparation stated in Basis of Preparation section of the **Annexure 'D' Summary of significant accounting policies and other explanatory information** in the Restated Financial Statements. The Board of Directors responsibility includes designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the Restated Financial Statements. The Board of Directors is also responsible for identifying and ensuring that the Company complies with the Companies Act, (ICDR) Regulations and the Guidance Note.

We have examined such Restated Financial Statements taking into consideration:

a. The terms of reference and terms of our engagement agreed upon with you in accordance with our engagement letter dated 21st January, 2025 in connection with the proposed IPO of the Company;
b. The Guidance Note also requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI;
c. Concepts of test checks and materiality to obtain reasonable assurance based on verification of evidence supporting the Restated Financial Statements; and
d. The requirements of Section 26 of the Act and the ICDR Regulations. Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the ICDR Regulations and the Guidance Note in connection with the IPO.

These Restated Consolidated Financial Information have been compiled by the management from the Audited consolidated financial statements of the Group as of and for the years ended 31 March 2026 and audited standalone financial statements of the Company as of and for the years ended, 31 March 2024 and 31 March 2023 prepared in accordance with the with the Accounting Standards ('AS') notified under Section 133 of the Act read with the Companies (Accounting Standards) Rules, 2021 as amended and other accounting principles generally accepted in India which have been approved by the Board of Directors of the Holding Company at their meetings held on 10 July 2026, 3 September 2025 and 20 July 2024, respectively.

For the purpose of our examination, we have relied on:

a. Auditors' reports issued by us dated 10 July 2026 and 3 September 2025 on the audited consolidated financial statements of the Group as of and for the years ended 31 March 2026 and audited standalone financial statements of the Company as of and for the year ended 31 March 2025, respectively as referred in Paragraph above.

b. Auditors' report issued by the Rakchamps & Co. LLP (the "Predecessor Auditors") 20 July 2024 on the audited financial statements of the Company as of and for the year ended 31 March 2024, as referred in Paragraph above. The audit for the financial year ended 31 March 2024 was conducted by the Company's Predecessor Auditors, and accordingly reliance has been placed on the report issued by them. However, for the reports issued by us in relation to Financial Statements for the year ended March 31, 2025, an Emphasis of Matter paragraph has been included to the effect that for the year ended March 31, 2025, the company needs to strengthen its documentation of Loans and Borrowings and Term Deposits.

In relation to above matters, there were no changes that were required to be made in the financial information included in the Restated Consolidated Financial Statement. Our opinion is not qualified in regards to this matter.

Other Matter

We did not audit the financial statements of the foreign subsidiary, whose financial statements reflect total assets of INR 60.36 Lakhs as at March 31, 2026, net loss of INR 71.70 Lakhs and net cash flows amounting to INR 1.63 Lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements are unaudited and have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the aforesaid subsidiaries, is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the management, these financial statements are not material to the Group.

Based on our examination and according to the information and explanations given to us and also as per the reliance placed on the audit report submitted by the Previous Auditors for the respective year, we report that the Restated Financial Statements have been made after incorporating:

a. Adjustments for the changes in accounting policies, material errors and regrouping/reclassifications retrospectively in the period ended March 31, 2026, March 31, 2025 and March 31, 2024 to reflect the same accounting treatment as per the accounting policies and grouping /classifications followed as at and for the year ended March 31, 2026;
b. Adjustments for prior period and other material amounts in the respective financial years to which they relate.
c. There are no extra-ordinary items that need to be disclosed separately in the accounts and requiring adjustments;
d. There are no audit qualifications, in the Audit Reports issued by the Statutory Auditors for the period ended March 31, 2026, March 31, 2025 and 2024 which would require adjustments in this Restated Financial Statements of the Company.
e. These Profits and Losses have been arrived at after charging all expenses including depreciation and after making such adjustments/restatements and regroupings as in our opinion are appropriate and are to be read in accordance with the Significant Accounting Polices and Notes to Restated Summary Statements as set out in Annexures 'A' through 'M' to this report.
f. There was no change in accounting policies, which needs to be adjusted in the Restated Financial Statements or Restated Summary Financial Statement.
g. The Company has not paid any dividend since its incorporation.
h. Have been prepared in accordance with the Act, the ICDR Regulations and the Guidance Note.

In accordance with the requirements of Part I of Chapter III of Act including rules made therein, ICDR Regulations, Guidance Note and Engagement Letter, we report that:

a. The "Restated Statement of Asset and Liabilities" of the Company as at March 31, 2026, March 31, 2025 and March 31, 2024 examined by us, as set out in Annexure A to this report read with Corporate Information, Basis of Preparation & Summary of Significant Accounting Policies in Annexure D has been arrived at after making such adjustments and regroupings to the audited financial statements of the Company, as in our opinion were appropriate and more fully described in notes to the restated summary statements to this report.

b. The "Restated Statement of Profit and Loss" of the Company for the financial period/year ended as at March 31, 2026, March 31, 2025 and March 31, 2024 examined by us, as set out in Annexure B to this report read with Corporate Information, Basis of Preparation & Summary of Significant Accounting Policies in Annexure D has been arrived at after making such adjustments and regroupings to the audited financial statements of the Company, as in our opinion were appropriate and more fully described in notes to the restated summary statements to this report.

c. The "Restated Statement of Cash Flows" of the Company for the financial period/year ended as at March 31, 2026, March 31, 2025 and March 31, 2024 examined by us, as set out in Annexure C to this report read with Corporate Information, Basis of Preparation & Summary of Significant Accounting Policies in Annexure D has been arrived at after making such adjustments and regroupings to the audited financial statements of the Company, as in our opinion were appropriate and more fully described in notes to restated summary statements to this report.

Annexure – D Summary of significant accounting policies and other explanatory information

1. Corporate information

Aegeus Technologies Limited (formerly known as Aegeus Technologies Private Limited), was registered as a private limited company on 20th day of April 2017 under Companies Act, 2013, having its registered office address at Site No.105, Harapanahalli Village, Jighni Hobli, Anekal Taluk Bangalore-5600105. The Company established to carry on the business of manufacturers, importers, exporters, sellers, buyers and dealers whether as wholesalers or retailers of all kinds of electrical switchgear, control gear, electrical motors, fuse gear, wires & cables, meters, transformers and to carry on the business of manufacturers, importers, exporters, sellers, buyers and dealers in all accessories, articles, apparatus, equipment and goods, which may seem calculated to promote or to be capable of being used in India with the use of above equipments.

Summary of significant accounting policies

2. Basis of preparation

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013 , read with rule 7 of the Companies (Accounts) Rules , 2021 and the relevant provisions of the Companies Act, 2013 . The financial statements have been prepared under the historical cost convention on accrual basis.

The Restated Consolidated statement of assets and liabilities of the Company as at March 31, 2026 and the Restated Standalone statement of assets and liabilities as on March 31, 2025, 2024 and the restated consolidated statement of profits and loss and cash flows for the year/period ended March 31, 2026 and the restated statement of profits and loss and cash flows for the year/period ended March 31, 2025 and 2024 (herein collectively referred to as ("Restated Financial Statements") have been compiled by the management from the audited Financial Statements of the Company for the year ended on March 31, 2026, 2025 and 2024. Restated Financial Statements have been prepared to comply in all material respects with the provisions of Part 1 of Chapter III of the Companies Act, 2013 (the "Act") read with Companies (Prospectus and Allotment of Securities) Rules, 2014, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 (ICDR Regulations") issued by SEBI and Guidance note on Reports in Companies Prospectuses (Revised 2019) ("Guidance Note"). Restated Financial Statements have been prepared specifically for inclusion in the offer document to be filed by the Company with the BSE in connection with its proposed SME IPO. The Company's management has recast the Financial Statements in the form required by Schedule III of the Companies Act, 2013 for the purpose of Restated Financial Statements.

During the Financial year 2025-26, the Company has incorporated a subsidiary with effect from 28th May, 2025. Accordingly, the financial information for the year ended March 26 reflects consolidated figures after incorporating the necessary consolidation adjustments. In contrast, the comparative figures for the years ended March 25 and March 24 are presented on a standalone basis, as no subsidiary existed during those periods.

Principles of Consolidation

The consolidated financial statements relate to Aegeus Technologies Limited ('the Company') and its subsidiary. The consolidated financial statements have been prepared on the following basis: In respect of subsidiary enterprise, the financial statements have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after as far as possible eliminating intra-group balances and intra-group transactions resulting in unrealized profits or losses in accordance with Accounting Standard 21 - Consolidated Financial Statements prescribed by Companies (Accounting Standards) Rules, 2006.

The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements.

The subsidiary considered in the consolidated financial statements:

Name of entity :	Solar Robatics Company
Country of Incorporation :	Saudi Arabia
Date of Incorporation :	28th May 2025
Proportion of Ownership Interest as at 31st March 2026:	100%

2.01 Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

2.02 Property, Plant & Equipment

Property, Plant & Equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of property, plant & equipment is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing property, plant & equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are changed to the statement of profit and loss for the period during which such expenses are incurred.

2.03 Depreciation on tangible fixed assets

Depreciation is provided on the straight-line method over the estimated useful life of each property, plant & equipment as determined by the management which are equal to the useful life prescribed under Schedule II of the Companies Act, 2013. If the management's estimate of the useful life of a property, plant & equipment at the time of acquisition of the asset or of the remaining useful life on a subsequent review is shorter than that envisaged in the aforesaid schedule, depreciation is provided at a higher rate based on the management's estimate of the useful life/remaining useful life. Depreciation on office equipment, computers, Furniture and leasehold improvement has been provided at the following rates:

Asset category	**Useful life**
Computers & Hardware	3 years
Tools and Equipment's	5 years
Furniture & Fixtures	10 years
Leasehold Improvement	5 years
Plant & Machinery	15 Years

Asset Value less than 5,000 written off in the same financial year.

2.04 Impairment of tangible and intangible assets

Assessment is done at each Balance Sheet date as to whether there is any indication that an asset (tangible and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at each balance sheet date as to whether there is any indication that an impairment loss recognized for an asset in prior accounting periods may no longer exists or may have decreased.

2.05 Inventories

Items of inventories are measured at lower of cost and net realizable value after providing for obsolescence, if any. Cost of Inventories comprises of cost of purchase of license and other cost, so incurred in bringing them to their respective present location and condition

2.06 Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

2.07 Revenue Recognition

Revenue from sale of products is recognized when the significant risks and rewards of ownership of the products are transferred to the buyer, recovery of the consideration is reasonably assured and the amount of revenue can be measured reliably.
Revenue from services provided is recognized in accordance with the terms of the contracts entered in to with the customers, as and when the related services are rendered and no significant uncertainty exists regarding the collection of the consideration.
Interest income on fixed deposit and other incomes are recognised on accrual basis.
Interest received on Income tax refunds is recognised on receipt basis.

2.08 Foreign exchange transactions

Initial recognition
Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion
Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange differences
Exchange differences arising on the settlement of monetary items, or on reporting such monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.

2.09 Employee Benefits

Provident Fund:-
Retirement benefit in the form of Provident Fund is a defined contribution plan. Eligible employees receives benefit from a provident fund which is a defined contribution plan. The Company makes contribution under Provident Fund to "Regional Provident Fund Commissioner". Both the employee and the Company make monthly contribution to the above said office equal to specific percentage of covered employee's salary.

Gratuity:-
The Company provides for gratuity, a defined benefit plan (the “Gratuity Plan”) covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee’s salary and the tenure of employment. The liability for gratuity is determined and charged to the statement of profit and loss on the basis of an actuarial valuation done by an actuary. However, such defined benefit plan is not made via a funded plan.

Compensated absences:-
Companies is not providing benefit of en-cashing or carry forwarding the unclaimed leave. Thus, compensated absences is not applicable.

2.10 Taxation

Direct Taxes

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situation where the Company has unabsorbed depreciation or carry forward tax losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that such deferred tax assets can be realised against future taxable profits.

At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

2.11 Segment reporting policies

Business Segment
The Company has only one business segment.

2.12 Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the period.
Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares except where the result would be anti-dilutive.

2.13 Provisions

A provision is recognized when the Company has a present obligation as a result of past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

2.14 Contingent liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

2.15 Cash and cash equivalents

Cash comprises cash in hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.16 Cash Flows
Cash flows are reported using indirect method, whereby profit after tax is adjusted for the effects of transactions of non - cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows from operating, investing and financing activities of the Company are segregated accordingly.

2.17 Operating Cycle
Based on the nature of activities of the Company and the normal time between the acquisition of the assets and their realisation in cash and cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

ANNEXURE K- STATEMENT OF PROVISION FOR GRATUITY AS RESTATED
(All amounts are ₹ in lacs unless otherwise stated)

Gratuity -
The Present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method. This method considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation

Interest cost:
It is the increase in the Plan liability over the accounting period resulting from the operation of the actuarial assumption of the interest rate

Current Service Cost:
It is the discounted present value of the benefits from the Plan's benefit formula attributable to the services rendered by employees during the accounting period.

Actuarial Gain or Loss:
It occurs when the experience of the Plan differs from that anticipated from the actuarial assumptions. It could also occur due to changes made in the actuarial assumptions.

  Revenue from operation increased by 87.01% from Rs. 2,189.01 lakhs in Fiscal 2025 to Rs. 4093.69 lakhs in Fiscal 2026 primarily due to following reasons:

Reason:

During FY'26, the Company recorded product Revenue of Rs. 2,267.43 lakhs and service revenue of Rs. 1,826.26 lakhs, as against product sales of Rs. 1,906.65 lakhs and service revenue of Rs. 282.36 lakhs during FY'25.

The increase in product revenue by 18.72% was primarily attributable to the execution of the Serentica order valued of Rs. 395 Lakhs. Further, the significant increase in service revenue was mainly driven by the Operations & Maintenance (O&M) services rendered to Alfanar, Saudi Arabia, amounting to Rs. 1628 Lakhs. Accordingly, the growth in both product and service revenues reflects the successful execution of key customer contracts during the year.

- **Other Income**

  The other income in Fiscal 2026 is Rs. 27.81 lakh as compared to Rs. 0.97 lakh in Fiscal 2025 which primarily consists of interest income and written off income.

Expenses

- **Total expenses**

Total expenses increased by 77.39% from Rs. 2,000.34 lakhs in Fiscal 2025 to Rs. 3,579.97 lakhs in Fiscal 2026.

Reason: The Expenses increased during FY26 compared to FY25, primarily due to the significant growth in business operations. The Company's revenue increased by 87.01%, from ₹ 2,189.01 lakhs in FY25 to ₹ 4,093.69 crore in FY26, driven by improved order inflows and execution. Consequently, labour expenses increased to support the higher volume of operations, particularly for the execution of Alfanar O&M services rendered in Saudi Arabia.

- **Cost of Material Consumed**

The cost of materials consumed in Fiscal 2026 was Rs. 1,232.35 lakhs as compared to Rs. 958.19 lakhs in Fiscal 2025 depicting an increase of Rs. 274.16 lakhs in Fiscal 2026 due to overall increase in volume and operations of the Company. However, cost of material consumed (incl. change in inventories) as a percentage of revenue is 27.99% in Fiscal 2026 as compared to 41.80% in Fiscal 2025 representing decrease in material cost by 13.81%

During FY'26, the Company recorded product sales of Rs. 2,267.43 lakhs and service revenue of Rs. 1,826.26 lakhs, as compared to product sales of Rs. 1,906.65 lakhs and service revenue of Rs. 282.36 lakhs in FY'25, reflecting significant growth in both business segments, particularly in service revenue.

Material consumption increased from Rs. 958.19 lakhs in FY'25 to Rs. 1,232.35 lakhs in FY'26, in line with the higher volume of product sales during the year.

- **Change in Inventories of Finished Goods**

  The change in inventories of finished goods is Rs. (86.42) lakhs in Fiscal 2026 as compared to Rs. (43.14) lakhs in Fiscal 2025.

  Reason: Change in Inventory due to increase in closing stock of finished goods which stood at 88.03 in FY2025 & 160.54 in FY2026.

- **Employee benefit expense**

  Employee benefits expenses increased by 62.30% from Rs. 336.1 8lakhs in Fiscal 2025 to Rs. 545.62 lakhs in Fiscal 2026

  Reason:
  Employee benefits expenses increased by 62.30% from Rs. 336.18 lakhs in Fiscal 2025 to Rs. 545.62 lakhs in Fiscal 2026, primarily due to the addition of manpower in FY26 considering the growth of the business and the annual salary increments considered during Fiscal 2025 to Fiscal 2026.

- **Finance Cost**

  Finance costs increased by 34.76% from Rs. 99.94 lakhs in Fiscal 2025 to Rs.134.68 lakhs in Fiscal 2026.

  Reason:
  The finance costs increased in Fiscal 2026 primarily due to higher borrowings availed during the year to meet increased working capital requirements arising from the growth in business operations. The additional working

capital facilities were utilized to support higher levels of inventory, trade receivables, and day-to-day operational requirements, which resulted in a corresponding increase in interest and other finance costs**.**

- **Depreciation and Amortization Expenses**

  Depreciation and amortisation expenses increased by 1.78% from Rs.35.24 lakhs in Fiscal 2025 to Rs. 35.86 lakhs in Fiscal 2026.

  Reason

  Depreciation and amortization expenses increased marginally in Fiscal 2026 primarily due to the depreciation charged on additions to property, plant and equipment and other depreciable assets during the year. The increase is in line with the Company's normal business operations and capital expenditure.

- **Other Expenses**

  Other expenses increased from Rs. 613.93 lakhs in Fiscal 2025 to Rs. 1,717.87 lakhs in Fiscal 2026 representing an increase of 179.82% primarily due to increase in operations, other expenses have also increased under following accounts and the reasons for the same stated below.

  The increase in other expenses during FY26 is primarily attributable to the Labour costs incurred for the Operations & Maintenance (O&M) service order executed for Alfanar, Saudi Arabia. The total labour cost recognized for the Alfanar O&M services during FY26 amounted to Rs 1,281.79 lakhs, which constitutes the major component of the increase in other expenses.
  Freight charges have been borne by S&W as per the mutually agreed commercial terms and pricing for this major-margin order. No additional freight cost is to be charged to the customer."

Particulars	Fiscal 2026	Fiscal 2025	Increase
Labour costs	1,281.79	272.81	1,008.98
Freight charges	71.89	-	71.89

- **Restated Profit before Tax**

  Our restated profit before tax increased by 185.56% from Rs. 189.64 lakhs in Fiscal 2025 to Rs. 541.53 lakhs in Fiscal 2026.

- **Tax Expense**

  Total tax expense (current and deferred) stood at Rs. 131.63 lakhs in Fiscal 2026 whereas in Fiscal 2025 it was Rs. 50.46 lakhs primarily due to following.

  - Current tax expense increased from Rs. 55.52 lakhs in Fiscal 2025 to Rs. 140.17 lakhs in Fiscal 2026, primarily due to higher taxable income arising from improved business performance during Fiscal 2026.
    Current tax expense increased significantly by Rs. 84.65 lakhs (approximately 152.46%), from Rs. 55.52 lakhs in Fiscal 2025 to Rs. 140.17 lakhs in Fiscal 2026. The increase was primarily driven by higher profit before tax, resulting in increased taxable income. Consequently, the Company's current tax liability increased

in line with the higher earnings under the applicable income tax provisions.

- Deferred tax expense changed from Rs. (8.54) lakhs in Fiscal 2025 to Rs. (5.82) lakhs in Fiscal 2026.
- Earlier year tax Rs. 8.13 Lakhs in FY 2026

- **Restated Profit after Tax**

Restated Profit for the year increased by 188.66% from Rs. 139.18 lakhs in Fiscal 2025 to Rs. 401.77 lakhs in Fiscal 2026.

Justification for PAT:

Financial Performance Indicators Underlying the Growth in Restated Profit After Tax

Particulars	Fiscal 2026	Fiscal 2025
Revenue from Operation	4,093.69	2,189.01
COGS(including change in inv.)	1,145.93	915.05
COGS % of Revenue	27.99%	41.80%
Employee Benefit Expenses	13.33%	15.36%
PAT	401.77	139.18
PAT Margin	9.81%	6.36%

Description	Fiscal 2026	Fiscal 2025	%age change
Total income	4,121.50	2,189.98	87.01%
Total expenses	3,579.97	2,000.34	78.97%
Tax expense	139.76	50.46	176.98%
Profit after tax	**401.77**	**139.18**	**188.66%**

The Restated Profit After Tax (PAT) increased by 188.66%, from Rs. 139.18 lakhs in Fiscal 2025 to Rs. 401.77 lakhs in Fiscal 2026. This substantial increase was primarily attributable to the Company's improved operational and financial performance during Fiscal 2026, which resulted in a significant increase in total income while maintaining effective cost management.

The growth in revenue was primarily driven by a significant increase in service revenue, mainly on account of Operations & Maintenance (O&M) services rendered to Alfanar, Saudi Arabia, amounting to Rs. 1628 Lakhs during Fiscal 2026. These O&M services generated comparatively higher operating margins of approximately 13%, which favorably impacted the Company's overall profitability. Additionally, the higher contribution of this relatively high-margin service segment improved the Company's earnings profile, thereby resulting in a substantial increase in the Restated Profit After Tax for Fiscal 2026 as compared to Fiscal 2025.

The increase in profitability also reflects the Company's ability to enhance revenue from value-accretive service offerings while leveraging its existing operational capabilities, leading to improved operational efficiency and stronger overall financial performance during the year.

FISCAL YEAR ENDED MARCH 31, 2025, COMPARED WITH THE FISCAL YEAR ENDED MARCH 31, 2024.

- **Total Income**

  Total income increased by 43.29% from Rs. 1528.38 lakhs in Fiscal 2024 to Rs. 2189.98 lakhs in Fiscal 2025 primarily due to increase in both sales of goods by 31.50% and sale of services by 264.63%, which is explained under 'Revenue from operations.

- **Revenue of operations**

  Total income increased by 43.32% from Rs. 1527.39 lakhs in Fiscal 2024 to Rs. 2189.01 lakhs in Fiscal 2025 primarily due to following reasons:

(Amount in Lakhs)

Particulars	FY 25	FY 24
Revenue from operations	2,189.01	1,527.39
% Growth	43.32%	172.18%

Total income increased by 43.32% from Rs. 1,527.39 lakhs in Fiscal 2024 to Rs. 2189.01 lakhs in Fiscal 2025 primarily due to following reasons:

(i) During Fiscal 2025, the Company has got substantial order from one of its new customers which has resulted into additional revenue of Rs. 211 lakhs in Fiscal 2025 as compared to Fiscal 2024.

(ii) Further, in Fiscal 2025, the Company has received substantial higher order volumes from one of its primary existing customers, which has resulted into increase in revenue by Rs. 620 lakhs as compared to Fiscal 2024.

- **Other Income**

  The other income in Fiscal 2025 is Rs.0.97 lakh as compared to Rs. 0.99 lakh in Fiscal 2024 which primarily consists of interest income.

Expenses

- **Total expenses**

  Total expenses increased by 39.26% from Rs. 1,436.43 lakhs in Fiscal 2024 to Rs. 2,000.34 lakhs in Fiscal 2025 due to overall increase in variable as well as fixed cost due to increase in operations and have been discussed below in detail.

- **Cost of Material Consumed**

  The cost of materials consumed in Fiscal 2025 was Rs. 958.19 lakhs as compared to Rs. 805.22 lakhs in Fiscal 2024 depicting an increase of Rs. 152.97 lakhs (19.00%) in Fiscal 2025 due to overall increase in volumes and operations of the Company. However, cost of material consumed (incl. change in inventories) as a percentage of revenue is 41.80% in Fiscal 2025 as compared to 52.38% in Fiscal 2024 representing decrease in material cost by 10.57% due to following reasons:

  a) The average price of one of its major components which is battery has decreased from Rs. 7,600 per unit in

Fiscal 2024 to Rs. 5,400 per unit in Fiscal 2025 representing 28.94% reduction in price due to volume increase and global price reduction.

b) The average price of one of its major components which is drive motor has decreased from Rs. 9,040 per unit in Fiscal 2024 to Rs. 5,800 per unit in Fiscal 2025 representing 35.84% reduction in price due to localization of product.

c) The average price of one of its major components which is electronics has decreased from Rs. 9,800 per unit in Fiscal 2024 to Rs. 7,842 per unit in Fiscal 2025 representing 19.98% reduction in price due to volume increase and design change.

- **Change in Inventories of Finished Goods**

The change in inventories of finished goods is Rs. (43.14) lakhs in Fiscal 2025 as compared to Rs. (5.24) lakhs in Fiscal 2024 due to increase in stock levels on account of growth in operations.

- **Employee benefit expense**

Employee benefits expenses increased by 50.14% from Rs. 223.91 lakhs in Fiscal 2024 to Rs. 336.18 lakhs in Fiscal 2025 primarily due to senior management hires, increase in additional technical manpower and increasing salaries, wages and incentive. This increase in manpower was planned considering future growth.

- **Finance Cost**

Finance costs increased by 112.06% from Rs. 47.13 lakhs in Fiscal 2024 to Rs. 99.94 lakhs in Fiscal 2025 primarily due to increase in interest cost on account of higher utilisation of working capital limits due to increase in operations.

- **Depreciation and Amortization Expenses**

Depreciation and amortisation expenses increased by 12.06% from Rs.31.45 lakhs in Fiscal 2024 to Rs. 35.24 lakhs in Fiscal 2025 primarily due to increase in depreciation on tangible assets from Rs. 9.14 lakhs in Fiscal 2024 to Rs. 12.93 lakhs in Fiscal 2025 on account of new additions to the block of assets.

- **Other Expenses**

Other expenses increased from Rs. 333.96 lakhs in Fiscal 2024 to Rs. 613.93 lakhs in Fiscal 2025 representing an increase of 83.83% primarily due to increase in operations, other expenses have also increased under following accounts.

Particulars	Fiscal 2025	Fiscal 2024	Increase
Marketing expense	56.06	13.61	42.44
Professional charges	71.07	23.04	48.03
Rent	37.10	11.71	25.40
Labour costs	272.81	210.62	62.19
Rates and taxes	23.53	2.22	21.31
Travelling expenses	103.47	41.15	62.31

- **Restated Profit before Tax**

  Our restated profit before tax increased by 106.23% from Rs. 91.95 lakhs in Fiscal 2024 to Rs. 189.64 lakhs in Fiscal 2025 primarily due to increase in gross margins attributable to reduced cost of material consumed, which is primarily on account of reduction in prices of certain key materials in Fiscal 2025 as compared to Fiscal 2024 as explained above.

- **Tax Expense**

  Total tax expense (current and deferred) stood at Rs. 50.46 lakhs in Fiscal 2025 whereas in Fiscal 2024 it was Rs. (0.92) lakhs primarily due to following.

  - Current tax expense increased from Rs. Nil lakhs in Fiscal 2024 to Rs. 55.52 lakhs in Fiscal 2025 primarily due to utilisation of brought forward losses in Fiscal 2024 resulting into Nil current tax expense in Fiscal 2024; however, there were no such brought forward losses available for utilisation in Fiscal 2025 and also there an increase in the total taxable income in Fiscal 2025.

  - Deferred tax expense decreased from Rs. (0.92) lakhs in Fiscal 2024 to Rs. (5.06) lakhs in Fiscal 2025.

- **Restated Profit after Tax**

The increase in profit after tax from Rs. 92.87 lakhs in Fiscal 2024 to Rs. 139.18 lakhs in Fiscal 2025 is attributable to following:

(i) During Fiscal 2025, the sales of the Company have grown by Rs. 662.00 lakhs, which has resulted into generating additional contribution of Rs. 508.00 lakhs as compared to Fiscal 2024, which is primarily due to following:

- The Company has executed additional export sales orders of Rs. 94.00 lakhs in Fiscal 2025 as compared to Fiscal 2024 wherein the average price realization is almost double as compared to domestic sales orders. Further, the Company was able to execute retrofit orders amounting to Rs. 186 lakhs which has higher price realization as compared to other orders.

- The cost of goods sold as a %age of sales has gone down to 43.77% in Fiscal 2025 as compared to 52.72% in Fiscal 2024, which is primarily due to decrease in prices of batteries from Rs. 7,600 in Fiscal 2024 to Rs. 5,400 in Fiscal 2025 (almost 29% reduction) due to higher volumes and global price reductions. The reduction in cost of goods sold has resulted into savings of Rs. 195 lakhs as compared to Fiscal 2024.

(ii) The said increase in contribution is offset by increase in employee cost from Rs. 224.00 lakhs in Fiscal 2024 to Rs. 336.00 lakhs in Fiscal 2025 resulting into reduction in profit by Rs. 112 lakhs. Further, other expenses also increased by Rs. 280 lakhs from Rs. 334 lakhs in Fiscal 2024 to Rs. 614.00 lakhs in Fiscal 2025.

SECTION VI - LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATIONS AND MATERIAL DEVELOPMENTS

Except, as stated in this section and mentioned elsewhere in this Prospectus there are no litigations including, but not limited to suits, criminal proceedings, civil proceedings, actions taken by regulatory or statutory authorities or legal proceedings, including those for economic offences, tax liabilities, show cause notice or legal notices pending against our Company, Directors, Promoters, Group Companies or against anyother company or person/s whose outcomes could have a material adverse effect on the business, operations or financial position of the Company and there are no proceedings initiated for economic, civil or any other offences (including past cases where penalties may or may not have been awarded and irrespective of whether they are specified under paragraph (a) of Part I of Schedule V of the Companies Act, 2013) other than unclaimed liabilities of our Company, and no disciplinary action has been taken by SEBI or any stock exchange against the Company, Directors, Promoters or Group Companies.

Pursuant to the SEBI ICDR Regulations and the Materiality Policy adopted by the Board of Directors dated September 03, 2025, for the purposes of disclosure, any pending litigation involving the Relevant Parties, other than criminal proceedings, actions by regulatory authorities and statutory authorities, including outstanding action, and tax matters, would be considered 'material' where:

(i) two percent of turnover, for the most recent financial year i.e. March 31, 2026, based on the Restated Consolidated Financial Statement is 81.87 lakh; or

(ii) two percent of Net Worth, as at the end of the most recent financial year i.e. March 31, 2026, based on the Restated Consolidated Financial Statement except in case the arithmetic value of the Net Worth is negative is 30.80 Lakh; or

(iii) five percent of the average of absolute value of profit or loss after tax, for the last three financial years based on the Restated Financial Statement is 10.56 Lakh,

whichever is lower.

Accordingly, a materiality threshold of Rs. 10.56 lakh, being equivalent to five percent of the average of the absolute value of profit or loss after tax based on the Restated Financial Information as of March 31, 2026, has been considered for the purposes of disclosure.

Except as stated in this section, there are no outstanding material dues to creditors of the Company. In terms of the Materiality Policy, outstanding dues to any creditor of the Company having monetary value which exceeds ten (10%) of the total consolidated trade payables of the Company as per the latest restated financial statements of the Company shall be considered as 'material'. Further, for outstanding dues to any party which is a micro, small, or a medium enterprise (**MSME**), the disclosure will be based on information available with the Company regarding status of the creditor as defined under Section 2 of the Micro, Small, and Medium Enterprises Development Act 2006, as amended, as has been relied upon by the statutory auditor.

It is clarified that pre-litigation notices (other than those issued by governmental, statutory, or regulatory authorities) received by the Company or the Directors shall not be considered as litigation until such time that any of the Company or the Directors, as the case may be is made a party to proceedings initiated before any court, tribunal, or

Governmental Authority or any judicial authority, or is notified by any Governmental, statutory, or regulatory authority of any such proceedings that may be commenced.

All terms defined in a particular litigation disclosure pertain to that litigation only.
The Chairman and Managing Director of the Company shall have the power to amend any of the provisions of this Materiality Policy, substitute any of the provisions with a new provision or replace this Materiality Policy entirely with a new policy. This Materiality Policy shall be subject to review/changes as may be deemed necessary and in accordance with regulatory amendments from time to time.

There is no outstanding litigation, the outcome of which would have a material impact on the Company except as stated below.

NOTICES ISSUED TO THE COMPANY UNDER THE INCOME TAX ACT

S. No.	Case Pending	Notice No./Reference ID	Date	Facts of the Matter	Status
1.	Order under section 119(2)(b) of the Income Tax Act	ITBA/COM/F/17/2023-24/1061551528(1)	27 February 2024	The Company had filed an application under Section 119(2)(b) of the Income Tax Act before the Principal Commissioner of Income-tax-1 (**Pr. CIT-1**), Bengaluru, on 9 August 2021 seeking condonation of delay in filing its return of income for A.Y. 2020-21 to claim carry forward of business loss amounting to INR 49,46,260. The Company submitted that the delay arose on account of the Covid-19 pandemic, frequent changes in its accounts staff, and related operational difficulties. The assessing officer, however, reported that the reasons cited were generic and did not establish that the delay was due to circumstances beyond the Company's control or that genuine hardship was caused. The Pr. CIT-1 concurred with the assessing officer, noting that the due dates for filing returns for A.Y. 2020-21 had already been extended due to the pandemic. However, an opportunity of being heard was provided to the Company on 23 January 2024 despite which the Company failed to substantiate its claim. Accordingly, vide order dated 15 February 2024, the application for condonation of delay in filing return of income filed by the Company was rejected.	The Company is yet to file an appeal against the rejection order before the concerned authority.
2.	Notice under Section 285BA(4) of the Income Tax Act	ITBA/COM/F/17/2025-26/1079516316(1)	12 August 2025	The Company has received a notice from the Income Tax Department regarding defects in the Statement of Financial Transactions filed for the FY 2023-24. The Income Tax Department has directed the Company to furnish a correction statement rectifying the defects on or before 12 September 2025.	The Company has filed the correction statement.

Direct Tax

Against Mr. Nishith Rameshchandra Shah

The assessee filed an appeal before the National Faceless Appeal Centre (NFAC) challenging the assessment for A.Y. 2012-13, which resulted in additional tax of INR 3,55,120. The NFAC dismissed the appeal, following which the assessee approached the Income Tax Appellate Tribunal (ITAT), Mumbai. On 4 November 2022, the ITAT ruled in favor of the assessee. The Income Tax Department then filed an appeal before the Hon'ble Bombay High Court. Meanwhile, under the Direct Tax Vivad se Vishwas Scheme 2024, the assessee paid a settlement amount of INR 1,25,109 on 5 December 2024. The assessee also received an order dated 31 January 2025 from income tax authority

certifying that the assessee has made full and final payment of the aforesaid tax arrear. The order further confirms that immunity has been granted to the assessee from the institution of any prosecution proceedings for any offence under the Income Tax Act in respect of the said matter. The SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface ("UPI") and consequent reduction in timelines for listing in a phased manner. From January 01, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. ("UPI Phase I"). The UPI Phase-I was effective till June 30, 2019.

Subsequently, for applications by Individual Investors who applies for minimum application size through Designated Intermediaries, the process of physical movement of forms from Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism with existing timeline of T+6 days is applicable for a period of six months or launch of five main board public issues, whichever is later ("UPI Phase II"), with effect from July 1, 2019, by SEBI circular (SEBI/HO/CFD/DIL2/CIR/P/2019/76) dated June 28, 2019, read with circular (SEBI/HO/CFD/DIL2/CIR/P/2019/85) dated July 26, 2019. Further, as per the SEBI circular (SEBI/HO/CFD/DCR2/CIR/P/2019/133) dated November 8, 2019, the UPI Phase II had been extended until March 31, 2020. However, due to the outbreak of COVID-19 pandemic, UPI Phase II has been further extended by SEBI until further notice, by its circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020.Thereafter, the final reduced timeline of T+3 days may be made effective using the UPI Mechanism for applications by Individual Investors who applies for minimum application size ("UPI Phase III"), as may be prescribed by SEBI. Further, SEBI, vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, and circular no.

SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular is effective for initial public offers opening on/or after May 1, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, and the provisions of this circular are deemed to form part of this Prospectus. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual Investors in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹ 500,000 shall use the UPI Mechanism.

Furthermore, SEBI vide press release bearing number 12/2023 has approved the proposal for reducing the time period for listing of shares in public issue from existing 6 working days to 3 working days from the date of the closure of the issue. The revised timeline of T+3 days shall be made applicable in two phases i.e. voluntary for all public issues opening on or after September 1, 2023, and mandatory on or after December 1, 2023. Further, SEBI has vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 reduced the time taken for listing of specified securities after the closure of a public issue to three Working Days. Accordingly, the Issue will be made under UPI Phase III on a mandatory basis, subject to any circulars, clarification or notification issued by the SEBI from time to time.

REDUCTION OF TIMELINE FOR LISTING OF SHARES IN PUBLIC ISSUE FROM EXISTING T+6 DAYS TO T+3 DAYS

The SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 09, 2023, has introduced reduction of timeline for listing of shares in public issue from existing t+6 days to t+3 days. This circular shall be applicable on voluntary basis for public issues opening on or after September 1, 2023 and Mandatory for public issues opening on or after December 1, 2023.

Consequent to extensive consultation with the market participants and considering the public comments received pursuant to consultation paper on the aforesaid subject matter, it has been decided to reduce the time taken for listing of specified securities after the closure of public issue to 3 working days (T+3 days) as against the requirement of 6 working days (T+6 days); 'T' being issue closing date.

The T+3 timeline for listing shall be appropriately disclosed in the Offer Documents of public issues.

Notwithstanding anything contained in Schedule VI of the ICDR Regulations, the provisions of this circular shall be applicable:

- On voluntary basis for public issues opening on or after September 1, 2023, and
- Mandatory for public issues opening on or after December 1, 2023.

The timelines prescribed for public issues as mentioned in SEBI circulars dated November 1, 2018, June 28, 2019, November 8, 2019, March 30, 2020, March 16, 2021, June 2, 2021, and April 20, 2022, shall stand modified to the extent stated in this Circular.

SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021effective to public issues opening on or after from May 01, 2021. However, said circular has been modified pursuant to SEBI Circular no.

SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 in which certain applicable procedure w.r.t. SMS Alerts, Web portal to CUG etc. shall be applicable to Public Issue opening on or after January 1, 2022 and October 1, 2021 respectively and the provisions of this circular , as amended, are deemed to form part of this Prospectus. Additionally, SEBI vide its circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021 has reduced the time period for refund of application monies from 15 days to four days. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders in initial public offerings (opening on or after May 01, 2022) whose application sizes are up to Rs. 5,00,000/- shall use the UPI Mechanism.

PHASED IMPLEMENTATION OF UNIFIED PAYMENTS INTERFACE

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

a. Phase I: This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase,a Individual Investors who applies for minimum application size, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

b. Phase II: This phase commenced on completion of Phase I i.e. with effect from July 1, 2019 and was to be continued for a period of three months or launch of five main board public issues, whichever is later. Further, as per the SEBI circular SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, the UPI Phase II has been extended until March 31, 2020. Further still, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount be continued till further notice. Under this phase, submission of the Application Form by a Individual Investors who applies for minimum application size through intermediaries to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase.

c. Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023, and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The Offer is being made under Phase III of the UPI (on a mandatory basis).

All SCSBs offering the facility of making applications in public issues are required to provide a facility to make applications using the UPI Mechanism. Further, in accordance with the UPI Circulars, our Company has appointed Axis Bank Limited as the Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Individual Investors who applies for minimum application size into the UPI mechanism.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Offer BRLM will be required to compensate the concerned investor.

SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2022/45) dated April 5, 2022, has prescribed that all individual investors applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to Rs. 5,00,000, shall use UPI. Individual investors bidding under the Non-Institutional Portion bidding for more than Rs. 200,000 and up to Rs. 5,00,000, using the UPI Mechanism, shall provide their UPI ID in

the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

SUBMISSION OF BIDS

I. During the Bid/ Offer Period, Bidders may approach any of the Designated Intermediaries to register their Bids.
II. In case of Bidders (excluding NIIs) Bidding at Cut-off Price, the Bidders may instruct the SCSBs to block Bid Amount based on the Cap Price less Discount (if applicable).
III. For Details of the timing on acceptance and upload of Bids in the Stock Exchange Platform Bidders are requested to refer to the Prospectus.

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Bidders other than Individual Investors who applies for minimum application size and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to RHP. No Individual Investors who applies for minimum application size will be Allotted less than 2 Lot subject to availability of shares in Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Issue. However, in case the Issue is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

Flow of Events from the closure of bidding period (T DAY) Till Allotment:

On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details.

RTA identifies cases with mismatch of account number as per bid file / Final Certificate and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.

Third party confirmation of applications to be completed by SCSBs on T+1 day.

RTA prepares the list of final rejections and circulate the rejections list with BRLM(s)/ Company for their review/ comments.

Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).

The Designated Stock Exchange (DSE), post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.

The RTA uploads the drawal numbers in their system and generates the final list of allotees as per process mentioned below:

Process for generating list of allotees: -

Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the draw of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5th application in each of the lot of the category and these applications will be allotted the shares in that category.

In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.

In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.

On the basis of the above, the RTA will work out the allotees, partial allotees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

BASIS OF ALLOTMENT

Allotment will be made in consultation with the BSE. In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

1. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category X number of Shares applied for).

2. The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).

a) For applications where the proportionate allotment works out to less than 1,200 equity shares the allotment will be made as follows:

1. Each successful applicant shall be allotted 1,200 equity shares; and

2. The successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the numberof Shares worked out as per (2) above.

b) If the proportionate allotment to an applicant works out to a number that is not a multiple of 1,200 equity shares, the applicant would be allotted Shares by rounding off to the nearest multiple of 1,200 equity shares subject to a minimum allotment of 1,200 equity shares.

c) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 1,200 equity shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this Prospectus.

d) The above proportionate allotment of shares in an Issue that is oversubscribed shall be subject to the reservation for small individual applicants as described below:

1. As the Individual investor category (who applies for minimum application size) is entitled to more than fifty percent on proportionate basis,the individual investors who applies for minimum application size shall be allocated that higher percentage.

2. The balance net offer of shares to the public shall be made available for allotment to

a) Individual applicants other than Individual investors applying for minimum application size and
b) Other investors, including Corporate Bodies/ Institutions irrespective of number of shares applied for.

3. The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/maybe made available for allocation to applicants in the other category, if so required.

Individual Investors who applies for minimum application size means an investor who applies for a minimum application size of 2 lots or value of more Rs. 2,00,000.Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with BSE.

The Executive Director / Managing Director of BSE – the Designated Stock Exchange in addition to BRLM and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalised in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

INFORMATION FOR BIDDERS

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/Allotted. Such Acknowledgement Slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he /she shall surrender the earlier Acknowledgement Slip and may request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid. In relation to electronic registration of Bids, the permission given by the Stock Exchange to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company, the BRLM are cleared or approved by the Stock Exchange; nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of the Red Herring Prospectus or the Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

OTHER INSTRUCTIONS

Joint Applications in the case of Individuals

Applications may be made in single or joint names (not more than three). In the case of joint Applications, all payments will be made out in favour of the Applicant whose name appears first in the Application Form or Revision Form. All communications will be addressed to the First Applicant and will be dispatched to his or her address as per the Demographic Details received from the Depository.

Multiple Applications

An Applicant should submit only one Application (and not more than one) for the total number of Equity Shares required. Two or more Applications will be deemed to be multiple Applications if the sole or First Applicant is one and the same.

In this regard, the procedures which would be followed by the Registrar to the Issue to detect multiple applications are given below:

(i) All applications are electronically strung on first name, address (1st line) and applicant's status. Further, these applications are electronically matched for common first name and address and if matched, these arechecked manually for age, signature and father/ husband's name to determine if they are multiple applications.

(ii) Applications which do not qualify as multiple applications as per above procedure are further checked for common DP ID/ beneficiary ID. In case of applications with common DP ID/ beneficiary ID, are manually checked to eliminate possibility of data entry error to determine if they are multiple applications.

(iii) Applications which do not qualify as multiple applications as per above procedure are further checked for common PAN. All such matched applications with common PAN are manually checked to eliminate possibility of data capture error to determine if they are multiple applications.

In case of a mutual fund, a separate Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not betreated as multiple Applications provided that the Applications clearly indicate the scheme concerned for which the Application has been made.

In cases where there are more than 20 valid applications having a common address, such shares will be kept in abeyance, post allotment and released on confirmation of know your client' norms by the depositories. The Company reserves the right to reject, in our absolute discretion, all or any multiple Applications in any or all categories.

After submitting an ASBA Application either in physical or electronic mode, an ASBA Applicant cannot apply (either in physical or electronic mode) to either the same or another Designated Branch of the SCSB. Submission of a second Application in such manner will be deemed a multiple Application and would be rejected. More than one ASBA Applicant may apply for Equity Shares using the same ASBA Account, provided that the SCSBs will not accept a total of more than five Application Forms with respect to any single ASBA Account.

Duplicate copies of Application Forms downloaded and printed from the website of the Stock Exchange bearing the same application number shall be treated as multiple applications and are liable to be rejected. The Company, in consultation with the BRLM, reserves the right to reject, in its absolute discretion, all or any multiple applications in any or all categories. In this regard, the procedure which would be followed bythe Registrar to the Issue to detect multiple applications is given below:

1. All Applications will be checked for common PAN. For Applicants other than Mutual Funds and FII subaccounts, Applications bearing the same PAN will be treated as multiple Applications and will be rejected.
2. For Applications from Mutual Funds and FII sub-accounts, submitted under the same PAN, as well as Applications on behalf of the Applicants for whom submission of PAN is not mandatory such as the Central or State Government, an official liquidator or receiver appointed by a court and residents of Sikkim, the Application Forms will be checked for common DP ID and Client ID.

PERMANENT ACCOUNT NUMBER OR PAN

Pursuant to the circular MRD/DoP/Circ 05/2007 dated April 27, 2007, SEBI has mandated Permanent Account Number (PAN) to be the sole identification number for all participants transacting in the securities market, irrespective of the amount of the transaction w.e.f. July 02, 2007. Each of the Applicants should mention his/her PAN allotted under the IT Act. **Bid submitted without this information will be considered incomplete and are liable to be rejected.** It is to be specifically noted that Applicants should not submit the GIR number instead of the PAN, as the Application is liable to be rejected on this ground.

RIGHT TO REJECT APPLICATIONS

In case of QIB Applicants, the Company in consultation with the BRLM may reject Applications provided that the reasons for rejecting the same shall be provided to such Applicant in writing. In case of Non-Institutional Applicants, Individual Investors who applies for minimum application size, the Company has a right to reject Applications based on technical grounds.

GROUNDS FOR REJECTIONS

NAMES OF ENTITIES RESPONSIBLE FOR FINALISING THE BASIS OF ALLOTMENT IN A FAIR AND PROPER MANNER

The authorised employees of the Stock Exchange, along with the BRLM and the Registrar, shall ensure that the Basis of Allotment is finalised in a fair and proper manner in accordance with the procedure specified in SEBI ICDR Regulations.

METHOD OF ALLOTMENT AS MAY BE PRESCRIBED BY SEBI FROM TIME TO TIME

Our Company will not make any allotment in excess of the Equity Shares offered through the offer document except in case of oversubscription for the purpose of rounding off to make allotment, in consultation with the Designated Stock Exchange. The allotment of Equity Shares to applicants other than to the Individual Investors who applies for minimum application size shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum allotment being equal to the minimum application size.

DISPOSAL OF APPLICATION AND APPLICATION MONIES AND INTEREST IN CASE OF DELAY

The company shall ensure the dispatch of allotment advice, instruction to SCSBs and give benefit to the beneficiary account with Depository Participants and submit the documents pertaining to the allotment to the stock exchange within one (1) working day of the date of allotment of equity shares.

The company shall use best efforts that all steps for completion of the necessary formalities for listing and commencement of trading at SME platform of BSE, where the equity shares are proposed to be listed are taken with three (3) working days of the closure of the issue.

MODE OF REFUNDS

a) In case of ASBA Applicants: Within 3 (three) Working Days of the Issue Closing Date, the Registrar to the Issue may give instructions to SCSBs for unblocking the amount in ASBA Account on unsuccessful Application, for any excess amount blocked on Application, for any ASBA application withdrawn, rejected or unsuccessful or in the event of withdrawal or failure of the Offer

b) In the case of Applications from Eligible NRIs and FPIs, refunds, if any, may generally be payable in Indian Rupees only and net of bank charges and/ or commission. If so desired, such payments in Indian Rupees may be converted into U.S. Dollars or any other freely convertible currency as may be permitted by the RBI at the rate of exchange prevailing at the time of remittance and may be dispatched by registered post. The Company may not be responsible for loss, if any, incurred by the applicant on account of conversion of foreign currency.
c) In case of Other Investors: Within Three Working Days of the Issue Closing Date, the Registrar to the Issue may dispatch the refund orders for all amounts payable to unsuccessful Investors. In case of Investors, the Registrar to the Offer may obtain from the depositories, the Applicants' bank account details, including the MICR code, on the basis of the DP ID, Client ID and PAN provided by the Investors in their Investor Application Forms for refunds. Accordingly, Investors are advised to immediately update their details as appearing on the records of their depositories. Failure to do so may result in delays in dispatch of refund orders or refunds through electronic transfer of funds, as applicable, and any such delay may be at the Investors' sole risk and neither the Issuer, the Registrar to the Issue, the Escrow Collection Banks, may be liable to compensate the Investors for any losses caused to them due to any such delay, or liable to pay any interest for such delay.

MODE OF MAKING REFUNDS FOR APPLICANTS OTHER THAN ASBA APPLICANTS

The payment of refund, if any, may be done through various modes as mentioned below:

(i) NECS - Payment of refund may be done through NECS for Applicants having an account at any of the centers specified by the RBI. This mode of payment of refunds may be subject to availability of complete bank account details including the nine-digit MICR code of the applicant as obtained from the Depository;
(ii) NEFT - Payment of refund may be undertaken through NEFT wherever the branch of the Applicants' bank is NEFT enabled and has been assigned the Indian Financial System Code ("IFSC"), which can be linked to the MICR of that particular branch. The IFSC Code may be obtained from the website of RBI as at a date prior to the date of payment of refund, duly mapped with MICR numbers. Wherever the Applicants have registered their nine-digit MICR number and their bank account number while opening and operating the demat account, the same may be duly mapped with the IFSC Code of that particular bank branch and the payment of refund may be made to the Applicants' through this method. In the event NEFT is not operationally feasible, the payment of refunds may be made through any one of the other modes as discussed in this section;

(iii) Direct Credit – Applicants having their bank account with the Refund Banker may be eligible to receive refunds, if any, through direct credit to such bank account;

(iv) RTGS – Applicants having a bank account at any of the centres notified by SEBI where clearing houses are managed by the RBI, may have the option to receive refunds, if any, through RTGS. The IFSC code shall be obtained from the demographic details. Investors should note that on the basis of PAN of the applicant, DP ID and beneficiary account number provided by them in the Application Form, the Registrar to the Issue will obtain from the Depository the demographic details including address, Investors' account details, IFSC code, MICR code and occupation (hereinafter referred to as "Demographic Details"). The bank account details for would be used giving refunds. Hence, Applicants are advised to immediately update their bank account details as appearing on the records of the Depository Participant. Please note that failure to do so could result in delays in dispatch/ credit of refunds to Applicants at their sole risk and neither the BRLM or the Registrar to the Issue or the Escrow Collection Bank nor the Company shall have any responsibility and undertake any liability for the same;

(v) Please note that refunds, on account of our Company not receiving the minimum subscription, shall be credited only to the bank account from which the Bid Amount was remitted to the Escrow Bank. For details of levy of charges, if any, for any of the above methods, Bank charges, if any, for cashing such cheques, pay orders or demand drafts at other centers etc. Investors may refer to Prospectus.

INTEREST IN CASE OF DELAY IN ALLOTMENT OR REFUND

ASBA Applicants are advised to make their independent investigations and to ensure that the ASBA Application Form is correctly filled up, as described in this section.

This section is for the information of investors proposing to subscribe to the Issue through the ASBA process.Our Company and the BRLM are not liable for any amendments, modifications, or changes in applicable laws or regulations, which may occur after the date of this Prospectus. ASBA Applicants are advised to make their independent investigations and to ensure that the ASBA Application Form is correctly filled up, as described in this section.

The lists of banks that have been notified by SEBI to act as SCSB (Self Certified Syndicate Banks) for the ASBA Process are provided on http://www.sebi.gov.in/cms/sebi_data/attachdocs/1480483399603.html. For details on designated branches of SCSB collecting the Application Form, please refer the above mentioned SEBI link.

ASBA PROCESS

A Resident Individual Investors who applies for minimum application size shall submit his Application through an Application Form, either in physical or electronic mode, to the SCSB with whom the bank account of the ASBA Applicant or bank account utilized by the ASBA Applicant (ASBA Account) is maintained. The SCSB shall block an amount equal to the Application Amount in the bank account specified in the ASBA Application Form, physical or electronic, on the basis of an authorization to this effect given by the account holder at the time of submitting the Application. The Application Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment in the Issue and consequent transfer of the Application Amount against the allocated shares to the ASBA Public Issue Account, or until withdrawal/failure of the Issue or until withdrawal/rejection of the ASBA Application, as the case may be.

The ASBA data shall thereafter be uploaded by the SCSB in the electronic IPO system of the Stock Exchange. Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the Controlling Branch of the SCSB for unblocking the relevant bank accounts and for transferring the amount allocable to the successful ASBA Applicants to the ASBA Public Issue Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the LM.

ASBA Applicants are required to submit their Applications, either in physical or electronic mode. In case of application in physical mode, the ASBA Applicant shall submit the ASBA Application Form at the Designated Branch of the SCSB. In case of application in electronic form, the ASBA Applicant shall submit the Application Form either through the internet banking facility available with the SCSB, or such other electronically enabled mechanism for applying and blocking funds in the ASBA account held with SCSB, and accordingly registering such Applications.

Who can apply?

Please note that, in accordance with the SEBI circular no. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors (Except Anchor investors) applying in a public issue shall use only Application Supported by Blocked Amount (ASBA) facility for making payment. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019, Individual Investors who applies for minimum application size applying in public Issue may use either Application Supported by Blocked Amount (ASBA) process or UPI payment mechanism by providing UPI ID in the Application Form which is linked from Bank Account of the investor.

Mode of Payment

Upon submission of an Application Form with the SCSB, whether in physical or electronic mode, each ASBA Applicant shall be deemed to have agreed to block the entire Application Amount and authorized the Designated Branch of the SCSB to block the Application Amount, in the bank account maintained with the SCSB. Application Amount paid in cash, by money order or by postal order or by stock invest, or ASBA Application Form accompanied by cash, money order, postal order or any mode of payment other than blocked amounts in the SCSB bank accounts, shall not be accepted. After verifying that sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Application Amount mentioned in the ASBA Application Form till the Designated Date. On the Designated Date, the SCSBs shall transfer the amounts allocable to the ASBA Applicants from the respective ASBA Account, in terms of the SEBI Regulations, into the Public Issue Account. The balance amount, if any against the said Application in the ASBA Accounts shall then be unblocked by the SCSBs on the basis of the instructions issued in this regard by the Registrar to the Issue. The entire Application Amount, as per the Application Form submitted bythe respective ASBA Applicants, would be required to be blocked in the respective ASBA Accounts until finalization of the Basis of Allotment in the Issue and consequent transfer of the Application Amount against allocated shares to the Public Issue Account, or until withdrawal/failure of the Issue or until rejection of the ASBA Application, as the case may be.

Unblocking of ASBA Account

On the basis of instructions from the Registrar to the Issue, the SCSBs shall transfer the requisite amount against each successful ASBA Applicant to the Public Issue Account as per the provisions of section 40(3) of the Companies Act, 2013 and shall unblock excess amount, if any in the ASBA Account. However, the Application Amount may be unblocked in the ASBA Account prior to receipt of intimation from the Registrar to the Issue by the Controlling Branch of the SCSB regarding finalization of the Basis of Allotment in the Issue, in the event of withdrawal/failure of the Issue or rejection of the ASBA Application, as the case may be.

RESTRICTION ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Foreign investment is allowed up to 100% under the automatic route in our Company.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (DIPP), issued consolidated FDI Policy, which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 27, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares by an Indian resident to a Non-Resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue. The Equity Shares offered in the Issue have not been and will not be registered under the Securities Act and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws.

Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be "qualified institutional investors" (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A under the Securities Act or other applicable exemption under theSecurities Act and (ii) outside the United States in offshore transactions in reliance on Regulations under the Securities Act and the applicable laws of the jurisdictions where such offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.

Increase of Capital by the Company how carried into effect	4	The Company may in General Meeting from time to time by Ordinary Resolution increase its capital by creation of new shares which may be unclassified and may be classified at the time of issue in one or more classes and such amount or amounts as may be deemed expedient. The new shares shall be issued upon such terms and conditions and with such rights and privileges annexed thereto as the resolution shall prescribe and in particular, such shares may be issued with a preferential or qualified right to dividends and in the distribution of assets of the Company and with a right of voting at General Meeting of the Company in conformity with Section 47 of the Companies Act, 2013. Whenever the capital of the Company has been increased under the provisions of this Articles the Directors shall comply with the provisions of Section 64 of the Companies Act, 2013.
New Capital same as existing capital	5	Except so far as otherwise provided by the conditions of issue or by these presents, any capital raised by the creation of new shares shall be considered as part of the existing capital, and shall be subject to the provisions herein contained, with reference to the payment of calls and installments, forfeiture, lien, surrender, transfer and transmission, voting and otherwise.
Non Voting Shares	6	The Board shall have the power to issue a part of authorised capital by way of non-voting Shares at price(s) premium, dividends, eligibility, volume, quantum, proportion and other terms and conditions as they deem fit, in the event it is permitted by law to issue shares without voting rights attached to the subject however to provisions of law, rules, regulations, notifications and enforceable guidelines for the time being in force.
Redeemable Preference Shares	7	Subject to the provisions of Section 55 of the Companies Act, 2013, the Company shall have the power to issue preference shares which are or at the option of the Company, liable to be redeemed and the resolution authorizing such issue shall prescribe the manner, terms and conditions of redemption.
Voting rights of preference shares	8	The holder of Preference Shares shall have a right to vote only on Resolutions, which directly affect the rights attached to his Preference Shares and in circumstances provided under Section 47(2).
Provisions to apply on issue	9	On the issue of redeemable preference shares under the provisions of Article 7 hereof, the following provisions-shall take effect:

of Redeemable Preference Shares		(a) No such Shares shall be redeemed except out of profits of which would otherwise be available for dividend or out of proceeds of a fresh issue of shares made for the purpose of the redemption. (b) No such Shares shall be redeemed unless they are fully paid. (c) The premium, if any payable on redemption shall have been provided for out of the profits of the Company or out of the Company's security premium account, before the Shares are redeemed. (d) Where any such Shares are redeemed otherwise then out of the proceeds of a fresh issue, there shall out of profits which would otherwise have been available for dividend, be transferred to a reserve fund, to be called "the Capital Redemption Reserve Account", a sum equal to the nominal amount of the Shares redeemed, and the provisions of the Act relating to the reduction of the share capital of the Company shall, except as provided in Section 55 of the Companies Act, 2013 apply as if the Capital Redemption Reserve Account were paid-up share capital of the Company. (e) Subject to the provisions of Section 55 of the Companies Act, 2013, the redemption of preference shares hereunder may be affected in accordance with the terms and conditions of their issue and in the absence of any specific terms and conditions in that behalf, in such manner as the Directors may think fit.
Reduction of capital	10	The Company may (subject to the provisions of section 52, 55(1) & (2) of the Companies Act, 2013, and other applicable provisions, if any, of the Act) from time to time by Special Resolution reduce (a) the share capital; (b) any capital redemption reserve account; or (c) any security premium account. In any manner for the time being, authorized by law and in particular capital may be paid off on the footing that it may be called up again or otherwise. This Article is not to derogate from any power the Company would have, if it were omitted.
Purchase of own Shares	11	The Company shall have power, subject to and in accordance with all applicable provisions of the Act, to purchase any of its own fully paid Shares whether or not they are redeemable and may make a payment out of capital in respect of such purchase.
Sub-division consolidation and cancellation of Shares	12	Subject to the provisions of Section 61 of the Companies Act, 2013 and other applicable provisions of the Act, the Company in General Meeting may, from time to time, sub-divide or consolidate its Shares, or any of them and the resolution whereby any Share is sub-divided may determine that, as between the holders of the Shares resulting from such sub-divisions, one or more of such Shares shall have some preference or special advantage as regards dividend, capital or otherwise over or as compared with the other(s). Subject as aforesaid, the Company in General Meeting may also cancel shares which have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the Shares so cancelled.
MODIFICATION OF RIGHTS		
Modification of rights	13	Whenever the capital, by reason of the issue of preference shares or otherwise, is divided into different classes of Shares, all or any of the rights and privileges attached to each class may, subject to the provisions of Sections 48 of the Companies Act, 2013 be modified, commuted, affected, abrogated, dealt with or varied with the consent in writing of the holders of not less than three-fourth of the issued capital of

		that class or with the sanction of a Special Resolution passed at a separate General Meeting of the holders of Shares of that class, and all the provisions hereafter contained as to General Meeting shall mutatis mutandis apply to every such Meeting. This Article is not to derogate from any power the Company would have if this Article was omitted. The rights conferred upon the holders of the Shares (including preference shares, if any) of any class issued with preferred or other rights or privileges shall, unless otherwise expressly provided by the terms of the issue of Shares of that class, be deemed not to be modified, commuted, affected, dealt with orvariedbythecreationorissueoffurtherSharesrankingparipassutherewith.

		Act, 2013 as regards supply of copies of Debenture Trust Deed and inspection thereof. (g) The Company shall comply with the provisions of Section 2(16), 77 to87 (inclusive) of the Companies Act, 2013 as regards registration of charges.
CALLS		
Directors may make calls	43	(a) Subject to the provisions of Section 49 of the Companies Act, 2013 the Board of Directors may from time to time by a resolution passed at a meeting of a Board (and not by a circular resolution) make such calls as it thinks fit upon the Members in respect of all moneys unpaid on the Shares or by way of premium, held by them respectively and not by conditions of allotment thereof made payable at fixed time and each Member shall pay the amount of every call so made on him to person or persons and at the times and places appointed by the Board of Directors. A call may be made payable by installments. A call may be postponed or revoked as the Board may determine. No call shall be made payable within less than one month from the date fixed for the payment of the last preceding call. (b) The joint holders of a Share shall be jointly and severally liable to pay all calls in respect thereof.
Notice of call when to be given	44	Not less than fourteen days notice in writing of any call shall be given by the Company specifying the time and place of payment and the person or persons to whom such call shall be paid.
Call deemed to have been made	45	A call shall be deemed to have been made at the time when the resolution authorizing such call was passed at a meeting of the Board of Directors and may be made payable by the Members of such date or at the discretion of the Directors on such subsequent date as shall be fixed by the Board of Directors.
Directors may extend time	46	The Directors may, from time to time, at their discretion, extend the time fixed for the payment of any call, and may extend such time as to all or any of the members who from residence at a distance or other cause, the Directors may deem fairly entitled to such extension, but no member shall be entitled to such extension, save as a matter of grace and favour.
Amount payable at fixed time or by installments to be treated as calls	47	If by the terms of issue of any Share or otherwise any amount is made payable at any fixed time or by installments at fixed time (whether on account of the amount of the Share or by way of premium) every such amount or installment shall be payable as if it were a call duly made by the Directors and of which due notice has been given and all the provisions herein contained in respect of calls shall apply to such amount or installment accordingly.
When interest on call or installment payable	48	If the sum payable in respect of any call or installment is not paid on or before the day appointed for the payment thereof, the holder for the time being or allottee of the Share in respect of which the call shall have been made or the installment shall be due, shall pay interest on the same at such rate not exceeding ten percent per annum as Directors shall fix from the day appointed for the payment thereof up to the time of actual payment but the Directors may waive payment of such interest wholly or in part.
Evidence in action by Company any	49	On the trial of hearing of any action or suit brought by the Company against any Member or his Legal Representatives for the recovery of any money claimed to be due to the Company in respect of his Shares, it shall be sufficient to prove that the

againstshare holder		name of the Member in respect of whose Shares the money is sought to be recovered is entered on the Register of Members as the holder or as one of the holders at or subsequent to the date at which the money sought to be recovered is alleged to have become due on the Shares in respect of which the money is sought to be recovered, that the resolution making the call is duly recorded in the minute book and the notice of such call was duly given to the Member or his legal representatives sued in pursuance of these Articles and it shall not be necessary to prove the appointment of Directors who made such call, nor that a quorum of Directors was present at the Board meeting at which any call was made nor that the meeting at which any call was made was duly convened or constituted nor any other matter whatsoever but the proof of the matters aforesaid shall be conclusive evidence of the debt.
Payment in anticipation of calls may carry interest	50	The Directors may, if they think fit, subject to the provisions of Section 50 of the Companies Act, 2013, agree to and receive from any Member willing to advance the same whole or any part of the moneys due upon the shares held by him beyond the sums actually called for, and upon the amount so paid or satisfied in advance, or so much thereof as from time to time exceeds the amount of the calls then made upon the shares in respect of which such advance has been made, the Company may pay interest at such rate, as the member paying such sum in advance and the Directors agree upon provided that money paid in advance of calls shall not confer a right to participate in profits or dividend. The Directors may at any time repay the amount so advanced. The Members shall not be entitled to any voting rights in respect of the moneys so paid by him until the same would but for such payment, become presently payable. The provisions of these Articles shall mutatis mutandis apply to the calls on Debentures of the Company.
LIEN		
Partial payment not to preclude forfeiture	51	Neither the receipt by the Company of a portion of any money which shall, from time to time be due from any Member to the Company in respect of his Shares, either by way of principal or interest, or any indulgence granted by the Company in respect of the payment of such money, shall preclude the Company from thereafter proceeding to enforce a forfeiture of such Shares as hereinafter provided.
Company's lien on Shares/ Debentures	52	The Company shall have first and paramount lien upon all Shares/Debentures (other than fully paid up Shares/ Debentures) registered in the name of each Member (whether solely or jointly with others) and upon the proceeds of sale thereof, for all moneys (whether presently payable or not) called or payable at a fixed time in respect of such Shares/ Debentures and no equitable interest in any Share shall be created except upon the footing and condition that this Article will have full effect and such lien shall extend to all dividends and bonuses from time to time declared in respect of such Shares/Debentures; Unless otherwise agreed the registration of a transfer of Shares/ Debentures shall operate as a waiver of the Company's lien if any, on such Shares/Debentures. The Directors may at any time declare any Shares/ Debentures wholly or in part exempt from the provisions of this Article.
As to enforcing lien by sale	53	The Company may sell, in such manner as the Board thinks fit, any Shares on which the Company has lien for the purpose of enforcing the same. PROVIDED THAT no sale shall be made:-

		(a) Unless a sum in respect of which the lien exists is presently payable; or (b) Until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is /presently payable has been given to the registered holder for the time being of the Share or the person entitled thereto by reason of his death or insolvency. For the purpose of such sale the Board may cause to be issued a duplicate certificate in respect of such Shares and may authorize one of their members to execute a transfer there from on behalf of and in the name of such Members. The purchaser shall not be bound to see the application of the purchase money, nor shall his title to the Shares be affected by any irregularity, or invalidity in the proceedings in reference to the sale.
Application of proceeds of sale	54	(a) The net proceeds of any such sale shall be received by the Company and applied in or towards satisfaction of such part of the amount in respect of which the lien exists as is presently payable, and (b) The residue if any, after adjusting costs and expenses if any incurred shall be paid to the person entitled to the Shares at the date of the sale (subject to a like lien for sums not presently payable as existed on the Shares before the sale).
FORFEITURE OF SHARES		
If money payable on Shares not paid notice to be given	55	If any Member fails to pay the whole or any part of any call or any installments of a call on or before the day appointed for the payment of the same or any such extension thereof, the Board of Directors may, at any time thereafter, during such time as the call for installment remains unpaid, give notice to him requiring him to pay the same together with any interest that may have accrued and all expenses that may have been incurred by the Company by reason of such non-payment.
Sum payable on allotment to be deemed a call	56	For the purposes of the provisions of these Articles relating to forfeiture of Shares, the sum payable upon allotment in respect of a share shall be deemed to be a call payable upon such Share on the day of allotment.
Form of notice	57	The notice shall name a day, (not being less than fourteen days from the day of the notice) and a place or places on and at which such call in installment and such interest thereon at such rate not exceeding eighteen percent per annum as the Directors may determine and expenses as aforesaid are to be paid. The notice shall also state that in the event of the non-payment at or before the time and at the place appointed, Shares in respect of which the call was made or installment is payable will be liable to be forfeited.
In default of payment Shares to be forfeited	58	If the requirements of any such notice as aforesaid are not complied with, any Share or Shares in respect of which such notice has been given may at any time thereafter before payment of all calls or installments, interests and expenses due in respect thereof, be forfeited by a resolution of the Board of Directors to that effect. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited Shares and not actually paid before the forfeiture.
Notice of forfeiture to a Member	59	When any Share shall have been so forfeited, notice of the forfeiture shall be given to the Member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof, shall forthwith be made in the Register of

		Members, but no forfeiture shall be in any manner invalidated by any omission or neglect to give such notice or to make any such entry as aforesaid.
Forfeited Shares to be the property of the Company and may be sold etc.	60	Any Share so forfeited, shall be deemed to be the property of the Company and may be sold, re-allotted or otherwise disposed of, either to the original holder or to any other person, upon such terms and in such manner as the Board of Directors shall think fit.
Member still liable for money owning at the time of forfeiture and interest	61	Any Member whose Shares have been forfeited shall notwithstanding the forfeiture, be liable to pay and shall forthwith pay to the Company on demand all calls, installments, interest and expenses owing upon or in respect of such Shares at the time of the forfeiture together with interest thereon from the time of the forfeiture until payment, at such rate not exceeding eighteen percent per annum as the Board of Directors may determine and the Board of Directors may enforce the payment of such moneys or any part thereof, if it thinks fit, but shall not be under any obligation to do so.
Effects of forfeiture	62	The forfeiture of a Share shall involve the extinction at the time of the forfeiture, of all interest in and all claims and demand against the Company in respect of the Share and all other rights incidental to the Share, except only such of those rights as by these Articles are expressly saved.
Power to annul forfeiture	63	The Board of Directors may at any time before any Share so forfeited shall have been sold, re-allotted or otherwise disposed of, annul the forfeiture thereof upon such conditions as it thinks fit.
Declaration of forfeiture	64	(a) A duly verified declaration in writing that the declarant is a Director, the Managing Director or the Manager or the Secretary of the Company, and that Share in the Company has been duly forfeited in accordance with these Articles, on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the Share. (b) The Company may receive the consideration, if any, given for the Share on any sale, re-allotment or other disposal thereof and may execute a transfer of the Share in favour of the person to whom the Share is sold or disposed off. (c) The person to whom such Share is sold, re-allotted or disposed of shall thereupon be registered as the holder of the Share. (d) Any such purchaser or allotee shall not (unless by express agreement) be liable to pay calls, amounts, installments, interests and expenses owing to the Company prior to such purchase or allotment nor shall be entitled (unless by express agreement) to any of the dividends, interests or bonuses accrued or which might have accrued upon the Share before the time of completing such purchase or before such allotment. (e) Such purchaser or allottee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the Share be effected by the irregularity or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment or other disposal of the Shares.
Provisions of these articles	65	The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which by the terms of issue of a Share becomes payable at a fixed time,

as to forfeiture to apply in case of non-payment of any sum		whether on account of the nominal value of Share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.
Cancellation of shares certificates in respect of forfeited Shares	66	Upon sale, re-allotment or other disposal under the provisions of these Articles, the certificate or certificates originally issued in respect of the said Shares shall (unless the same shall on demand by the Company have been previously surrendered to it by the defaulting Member) stand cancelled and become null and void and of no effect and the Directors shall be entitled to issue a new certificate or certificates in respect of the said Shares to the person or persons entitled thereto.
Evidence of forfeiture	67	The declaration as mentioned in Article 64(a) of these Articles shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the Share.
Validity of sale	68	Upon any sale after forfeiture or for enforcing a lien in purported exercise of the powers hereinbefore given, the Board may appoint some person to execute an instrument of transfer of the Shares sold and cause the purchaser's name to be entered in the Register of Members in respect of the Shares sold, and the purchasers shall not be bound to see to the regularity of the proceedings or to the application of the purchase money, and after his name has been entered in the Register of Members in respect of such Shares, the validity of the sale shall not be impeached by any person and the remedy of any person aggrieved by the sale shall be in damages only and against the Company exclusively.
Surrender of Shares	69	The Directors may subject to the provisions of the Act, accept surrender of any share from any Member desirous of surrendering on such terms and conditions as they think fit.

Directors may refuse to register transfer	76	Subject to the provisions of Section 58 & 59 of the Companies Act, 2013, these Articles and other applicable provisions of the Act or any other law for the time being in force, the Board may refuse whether in pursuance of any power of the company under these Articles or otherwise to register the transfer of, or the transmission by operation of law of the right to, any Shares or interest of a Member in or Debentures of the Company. The Company shall within one month from the date on which the instrument of transfer, or the intimation of such transmission, as the case may be, was delivered to Company, send notice of the refusal to the transferee and the transferor or to the person giving intimation of such transmission, as the case may be, giving reasons for such refusal. Provided that the registration of a transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever except where the Company has a lien on Shares.
Death of one or more joint holders of Shares	77	In case of the death of any one or more of the persons named in the Register of Members as the joint holders of any Share, the survivor or survivors shall be the only persons recognized by the Company as having any title or interest in such Share, but nothing herein contained shall be taken to release the estate of a deceased joint holder from any liability on Shares held by him with any other person.
Titles of Shares of deceased Member	78	78.The Executors or Administrators of a deceased Member or holders of a Succession Certificate or the Legal Representatives in respect of the Shares of a deceased Member (not being one of two or more joint holders) shall be the only persons recognized by the Company as having any title to the Shares registered in the name of such Members, and the Company shall not be bound to recognize such Executors or Administrators or holders of Succession Certificate or the Legal Representative unless such Executors or Administrators or Legal Representative shall have first obtained Probate or Letters of Administration or Succession Certificate as the case may be from a duly constituted Court in the Union of India provided that in any case where the Board of Directors in its absolute discretion thinks it, the Board upon such terms as to indemnity or otherwise as the Directors may deem proper dispense with production of Probate or Letters of Administration or Succession Certificate and register Shares standing in the name of a deceased Member, as a Member. However,

		provisions of this Article are subject to Sections 72 and 56 of the Companies Act, 2013.
Notice of application when to be given	79	Where, in case of partly paid Shares, an application for registration is made by the transferor, the Company shall give notice of the application to the transferee in accordance with the provisions of Section 56 of the Companies Act, 2013.
Registration of persons entitled to Shares otherwise than by transfer (Transmission Clause)	80	Subject to the provisions of the Act and Article 77 hereto, any person becoming entitled to Share in consequence of the death, lunacy, bankruptcy or insolvency of any Member or by any lawful means other than by a transfer in accordance with these Articles may, with the consent of the Board (which it shall not be under any obligation to give), upon producing such evidence that he sustains the character in respect of which he proposes to act under this Article or of such title as the Board thinks sufficient, either be registered himself as the holder of the Share or elect to have some person nominated by him and approved by the Board registered as such holder; provided nevertheless, that if such person shall elect to have his nominee registered as a holder, he shall execute an instrument of transfer in accordance with the provisions herein contained, and until he does so, he shall not be freed from any liability in respect of the Shares. This clause is hereinafter referred to as the "Transmission Clause".
Refusal to register nominee	81	Subject to the provisions of the Act and these Articles, the Directors shall have the same right to refuse to register a person entitled by transmission to any Share of his nominee as if he were the transferee named in an ordinary transfer presented for registration.
Person entitled may receive dividend without being registered as a Member	82	A person entitled to a Share by transmission shall subject to the right of the Directors to retain dividends or money as is herein provided, be entitled to receive and may give a discharge for any dividends or other moneys payable in respect of the Share.
No fee on transfer or transmissions	83	No fee shall be charged for registration of transfer, transmission, Probate, Succession Certificate & Letters of Administration, Certificate of Death or Marriage, Power of Attorney or other similar document.
Transfer to be presented with evidence of title	84	Every instrument of transfer shall be presented to the Company duly stamped for registration accompanied by such evidence as the Board may require to prove the title of the transferor, his right to transfer the Shares and generally under and subject to such conditions and regulations as the Board may, from time to time prescribe, and every registered instrument of transfer shall remain in the custody of the Company until destroyed by order of the Board.
Company not liable for disregard of a notice prohibiting registration of transfer	85	The Company shall incur no liability or responsibility whatsoever in consequence of its registering or giving effect to any transfer of Shares made or purporting to be made by any apparent legal owner thereof (as shown or appearing in the Register of Members) to the prejudice of persons having or claiming any equitable right, title or interest to or in the said Shares, notwithstanding that the Company may have had notice of such equitable right, title or interest or notice prohibiting registration of such transfer, and may have entered such notice, or referred thereto, in any book of the

		Company, and the Company shall not be bound to be required to regard or attend to give effect to any notice which may be given to it of any equitable right, title or interest or be under any liability whatsoever for refusing or neglecting to do so, though it may have been entered or referred to in some book of the Company, but the Company shall nevertheless be at liberty to regard and attend to any such notice and give effect thereto if the Board shall so think fit.
CONVERSION OF SHARES INTO STOCK AND RECONVERSION		
Share may be converted into stock	86	The Company may, by Ordinary Resolution convert any fully paid up Share into stock, and reconvert any stock into fully paid-up Shares.
Transfer of stock	87	The several holders of such stock may transfer their respective interest therein or any part thereof in the same manner and subject to the same regulations under which the stock arose might before the conversion, have been transferred, or as near thereto as circumstances admit. PROVIDED THAT the Board may, from time to time, fix the minimum amount of stock transferable, so however that such minimum shall not exceed the nominal amount of the Shares from which stock arose.
Right of stockholders	88	The holders of stock shall, according to the amount of stock held by them, have the same right, privileges and advantages as regards dividends, voting at meeting of the Company, and other matters, as if they held them in Shares from which the stock arose; but no such privilege or advantage (except participation in the dividends and profits of the Company and in the assets on winding up) shall be conferred by an amount of stock which would not, if existing in Shares, have conferred those privileges or advantages.
Regulation applicable to stock and share warrant	89	Such of the regulations of the Company as are applicable to the paid up Shares shall apply to stock and the words "Share" and "Shareholder" in these regulations shall include "stock" and "stock holder" respectively.
BORROWING POWERS		
Power to borrow	90	Subject to the provisions of Sections 73, 74 and 179 of the Companies Act, 2013 and these Articles, the Board of Directors may, from time to time at its discretion by a resolution passed at a meeting of the Board, borrow, accept deposits from Members either in advance of calls or otherwise and generally raise or borrow or secure the payment of any such sum or sums of money for the purposes of the Company from any source. PROVIDED THAT, where the moneys to be borrowed together with the moneys already borrowed (apart from temporary loans obtained from the Company's bankers in the ordinary course of business) exceed the aggregate of the paid up capital of the Company and its free reserves (not being reserves set apart for any specific purpose) the Board of Directors shall not borrow such money without the sanction of the Company in General Meeting. No debts incurred by the Company in excess of the limit imposed by this Article shall be valid or effectual unless the lender proves that he advanced the loan in good faith and without knowledge that the limit imposed by

		this Article had been exceeded.
The payment or repayment of moneys borrowed	91	The payment or repayment of moneys borrowed as aforesaid may be secured in such manner and upon such terms and conditions in all respects as the Board of Directors may think fit, and in particular in pursuance of a resolution passed at a meeting of the Board (and not by circular resolution) by the issue of bonds, debentures or debentures stock of the Company, charged upon all or any part of the property of the Company, (both present and future), including its un-called capital for the time being and the debentures and the debenture stock and other securities may be made assignable free from any equities between the Company and the person to whom the same may be issued.
Bonds, Debentures, etc. to be subject to control of Directors	92	Any bonds, debentures, debenture-stock or other securities issued or to be issued by the Company shall be under the control of the Directors who may issue them upon such terms and conditions and in such manner and for such consideration as they shall consider being for the benefit of the Company.
Terms of issue of Debentures	93	Any Debentures, Debenture-stock or other securities may be issued at a discount, premium or otherwise and may be issued on condition that they shall be convertible into Shares of any denomination, and with any privileges and conditions as to redemption, surrender, drawing, allotment of Shares, attending (but not voting) at the General Meeting, appointment of Directors and otherwise. However, Debentures with the right to conversion into or allotment of Shares shall be issued only with the consent of the Company in the General Meeting by a Special Resolution.
Mortgage of uncalled capital	94	If any uncalled capital of the Company is included in or charged by mortgage or other security, the Directors may, subject to the provisions of the Act and these Articles, make calls on the Members in respect of such uncalled capital in trust for the person in whose favour such mortgage or security has been executed.
Indemnity may be given	95	Subject to the provisions of the Act and these Articles, if the Directors or any of them or any other person shall incur or about to incur any liability as principal or surety for the payment of any sum primarily due from the Company, the Directors may execute or cause to be executed any mortgage, charge or security over or affecting the whole or any part of the assets of the Company by way of indemnity to secure the Directors or person so becoming liable as aforesaid from any loss in respect of such liability.
RELATED PARTY TRANSACTIONS		
Related Party Transactions	96	A. Subject to the provisions of the Act, the Company may enter into contracts with the Related Party which are at arm's length and are in ordinary course of business of the company with approval of the Audit Committee. B. Subject to the provisions of the Act, the Company may enter into contracts with the related parties which are of such nature wherein it requires consent of shareholders in terms of Act or Listing Regulations or any other law for the time being in force, with approval of the shareholders in the general meeting.
MEETING OF MEMBERS		
Annual General Meeting	97	i. An Annual General Meeting of the Company shall be held within six months after the expiry of each financial year, provided that not more than fifteen months shall lapse between the date of one Annual General Meeting and that of next.

		ii. Nothing contained in the foregoing provisions shall be taken as affecting the right conferred upon the Registrar under the provisions of Section 96(1) of the Act to extend the time with which any Annual General Meeting may be held. iii. Every Annual General Meeting shall be called at a time during business hours i.e. 9 a.m. to 6 p.m., on a day that is not a National holiday, and shall be held at the office of the Company or at some other place within the city in which the Registered Office of the Company is situated as the Board may determine and the notices calling the Meeting shall specify it as the Annual General Meeting. iv. The company may in any one Annual General Meeting fix the time for its subsequent Annual General Meeting. v. Every Member of the Company shall be entitled to attend, either in person or by proxy and the Auditors of the Company shall have the right to attend and be heard at any General Meeting which he attends on any part of the business which concerns him as an Auditor. vi. At every Annual General Meeting of the Company, there shall be laid on the table the Director's Report and Audited statement of accounts, the Proxy Register with proxies and the Register of Director's Shareholding, which Registers shall remain open and accessible during the continuance of the Meeting. vii. The Board shall cause to be prepared the annual list of Members, summary of share capital, balance sheet and profit and loss account and forward the same to the Registrar in accordance with Sections 92 and 137 of the Act.
Report statement and registers to be laid before the Annual General Meeting	98	The Company shall in every Annual General Meeting in addition to any other Report or Statement lay on the table the Director's Report and audited statement of accounts, Auditor's Report (if not already incorporated in the audited statement of accounts), the Proxy Register with proxies and the Register of Director's Shareholdings, which Registers shall remain open and accessible during the continuance of the Meeting.
Extra-Ordinary General Meeting	99	All General Meeting other than Annual General Meeting shall be called Extra-Ordinary General Meeting.
Requisitionists' Meeting	100	1) Subject to the provisions of Section 111 of the Companies Act, 2013, the Directors shall on the requisition in writing of such number of Members as is herein after specified:- a. Give to the Members of the Company entitled to receive notice of the next Annual General Meeting, notice of any resolution which may properly be moved and is intended to be moved at that meeting. b. Circulate to the Members entitled to have notice of any General Meeting sent to them, any statement with respect to the matter referred to in any proposed resolution or any business to be dealt with at that Meeting. 2) The number of Members necessary for a requisition under clause (1) hereof shall be such number of Members as represent not less than one- tenth of the total voting power of all the Members having at the date of the resolution a right to vote on the resolution or business to which the requisition relates; or 3) Notice of any such resolution shall be given and any such statement shall be

		circulated, to Members of the Company entitled to have notice of the Meeting sent to them by serving a copy of the resolution or statement to each Member in any manner permitted by the Act for service of notice of the Meeting and notice of any such resolution shall be given to any other Member of the Company by giving notice of the general effect of the resolution in any manner permitted by the Act for giving him notice of meeting of the Company. The copy of the resolution shall be served, or notice of the effect of the resolution shall be given, as the case may be in the same manner, and so far as practicable, at the same time as notice of the Meeting and where it is not practicable for it to be served or given at the time it shall be served or given as soon as practicable thereafter. 4) The Company shall not be bound under this Article to give notice of any resolution or to circulate any statement unless: a. A copy of the requisition signed by the requisitionists (or two or more copies which between them contain the signature of all the requisitionists) is deposited at the Registered Office of the Company. i. In the case of a requisition, requiring notice of resolution, not less than six weeks before the Meeting; ii. In the case of any other requisition, not less than two weeks before the Meeting, and b. There is deposited or tendered with the requisition sum reasonably sufficient to meet the Company's expenses in giving effect thereto. PROVIDED THAT if, after a copy of the requisition requiring notice of a resolution has been deposited at the Registered Office of the Company, an Annual General Meeting is called for a date six weeks or less after such copy has been deposited, the copy although not deposited within the time required by this clause, shall be deemed to have been properly deposited for the purposes thereof. 5) The Company shall also not be bound under this Article to circulate any statement, if on the application either of the Company or of any other person who claims to be aggrieved, the Company Law Board is satisfiedthattherightsconferredbythisArticlearebeingabusedtosecure needless publicity for defamatory matter. 6) Notwithstanding anything in these Articles, the business which may be dealt with at Annual General Meeting shall include any resolution for which notice is given in accordance with this Article, and for the purposes of this clause, notice shall be deemed to have been so given, notwithstanding the accidental omission in giving it to one or more Members.
Extra-Ordinary General Meeting by Board and by requisition When a Director or any two	101	(a) The Directors may, whenever they think fit, convene an Extra-Ordinary General Meeting and they shall on requisition of the Members as herein provided, forthwith proceed to convene Extra-Ordinary General Meeting of the Company. (b) If at any time there are not within India sufficient Directors capable of acting to form a quorum, or if the number of Directors be reduced in number to less than the minimum number of Directors prescribed by these Articles and the continuing Directors fail or neglect to increase the number of Directors to that number or to convene a General Meeting, any Director or any two or more Members of the Company holding not less than one-tenth of the total paid up share capital of the

Members may call an Extra-Ordinary General Meeting		Company may call for an Extra-Ordinary General Meeting in the same manner as nearly as possible as that in which meeting may be called by the Directors.
Contents of requisition, and number of requisitionists required and the conduct of Meeting	102	1) In case of requisition the following provisions shall have effect: (a) The requisition shall set out the matter for the purpose of which the Meeting is to be called and shall be signed by the requisitionists and shall be deposited at the Registered Office of the Company. (b) The requisition may consist of several documents in like form each signed by one or more requisitionists. (c) The number of Members entitled to requisition a Meeting in regard to any matter shall be such number as hold at the date of the deposit of the requisition, not less than one-tenth of such of the paid-up share capital of the Company as that date carried the right of voting in regard to that matter. (d) Where two or more distinct matters are specified in the requisition, the provisions of sub-clause (c) shall apply separately in regard to each such matter and the requisition shall accordingly be valid only in respect of those matters in regard to which the conditions specified in that clause are fulfilled. (e) If the Board does not, within twenty-one days from the date of the deposit of a valid requisition in regard to any matters, proceed duly to call a Meeting for the consideration of those matters on a day not later than forty-five days from the date of the deposit of the requisition, the Meeting may be called: i. by the requisitionists themselves; or ii. by such of the requisitionists as represent either a majority in value of the paid up share capital held by all of them or not less than one tenth of the paid-up share capital of the Company as is referred to in sub clauses (c) of clause (I) whichever is less. PROVIDED THAT for the purpose of this sub-clause, the Board shall, in the case of a Meeting at which a resolution is to be proposed as a Special Resolution, be deemed not to have duly convened the Meeting if they do not give such notice thereof as is required by sub-section (2) of Section 114 of the Companies Act, 2013.
		2) A meeting called under sub-clause (c) of clause (1) by requisitionists or any of them: (a) shall be called in the same manner as, nearly as possible, as that in which meeting is to be called by the Board; but (b) shall not be held after the expiration of three months from the date of deposit of the requisition. PROVIDED THAT nothing in sub-clause (b) shall be deemed to prevent a Meeting duly commenced before the expiry of the period of three months aforesaid, from adjourning to some days after the expiry of that period.
		3) Where two or more Persons hold any Shares in the Company jointly; a requisition or a notice calling a Meeting signed by one or some only of them shall, for the purpose of this Article, have the same force and effect as if it has been signed by all of them.

		4) Any reasonable expenses incurred by the requisitionists by reason of the failure of the Board to duly to call a Meeting shall be repaid to the requisitionists by the Company; and any sum repaid shall be retained by the Company out of any sums due or to become due from the Company by way of fees or other remuneration for their services to such of the Directors as were in default.
Length of notice of Meeting	103	1) A General Meeting of the Company may be called by giving not less than twenty-one days notice inwriting. 2) A General Meeting may be called after giving shorter notice than that specified in clause (1) hereof, if consent is accorded thereto: i. In the case of Annual General Meeting by all the Members entitled to vote thereat; and ii. In the case of any other Meeting, by Members of the Company holding not less than ninety-five percent of such part of the paid up share capital of the Company as gives a right to vote at the Meeting. PROVIDED THAT where any Members of the Company are entitled to vote only on some resolution, or resolutions to be moved at a Meeting and not on the others, those Members shall be taken into account for the purposes of this clause in respect of the former resolutions and not in respect of the later.
Contents and manner of service of notice and persons on whom it is to be served	104	1) Every notice of a Meeting of the Company shall specify the place and the day and hour of the Meeting and shall contain a statement of the business to be transacted thereat. 2) Subject to the provisions of the Act notice of every General Meeting shall be given; (a) to every Member of the Company, in any manner authorized by Section 20 of the Companies Act, 2013 (b) to the persons entitled to a Share in consequence of the death or insolvency of a Member, by sending it through post in a prepaid letter addressed to them by name or by the title of representative of the deceased, or assignees of the insolvent, or by like description, at the address, if any in India supplied for the purpose by the persons claiming to be so entitled or until such an address has been so supplied, by giving the notice in any manner in which it might have been given if the death or insolvency had not occurred; and (c) to the Auditor or Auditors for the time being of the Company 3) Every notice convening a Meeting of the Company shall state with reasonable prominence that a Member entitled to attend and vote at the Meeting is entitled to appoint one or more proxies to attend and vote instead of himself and that a proxy need not be a Member of the Company.
Special and ordinary business and explanatory statement	105	1) (a) In the case of an Annual General Meeting all business to be transacted at the Meeting shall be deemed special, with the exception of business relating to i. the consideration of the accounts, balance sheet, the reports of the Board of Directors and Auditors; ii. the declaration of dividend; iii. the appointment of Directors in the place of those retiring; and iv. the appointment of, and the fixing of the remuneration of the Auditors, and (b) In the case of any other meeting, all business shall be deemed special. 2) Where any items of business to be transacted at the Meeting of the Company are

		deemed to be special as aforesaid, there shall be annexed to the notice of the Meeting a statement setting out all material facts concerning each such item of business, including in particular the nature of the concern or interest, if any, therein of every Director. PROVIDED THAT where any such item of special business at the Meeting of the Company relates to or affects, any other company, the extent of shareholding interest in that other company of every Director of the Company shall also be set out in the statement, if the extent of such shareholding interest is not less than twenty percent of the paid up- share capital of the other company. 3) Where any item of business consists of the according of approval to any document by the Meeting, the time and place where the document can be inspected shall be specified in the statement aforesaid.
Omission to give notice not to invalidate Proceedings	106	The accidental omission to give such notice as aforesaid to or non-receipt thereof by any Member or other person to whom it should be given, shall not invalidate the proceedings of any such Meeting.
MEETING OF MEMBERS		
Notice of business to be given	107	No General Meeting, Annual or Extra-Ordinary shall be competent to enter upon, discuss or transact any business which has not been mentioned in the notice or notices convening the Meeting.
Quorum	108	The quorum for General Meetings shall be as under:- i. five members personally present if the number of members as on the date of meeting is not more than one thousand; ii. fifteen members personally present if the number of members as on the date of meeting is more than one thousand but up to five thousand; iii. thirty members personally present if the number of members as on the date of the meeting exceeds five thousand; No business shall be transacted at the General Meeting unless the quorum requisite is present at the commencement of the Meeting. A body corporate being a Member shall be deemed to be personally present if it is represented in accordance with Section 113 of the Companies Act, 2013. The President of India or the Governor of a State being a Member of the Company shall be deemed to be personally present if it is presented in accordance with Section 113 of the Companies Act,2013.
If quorum not present when Meeting to be dissolved and when to be adjourned	109	If within half an hour from the time appointed for holding a Meeting of the Company, a quorum is not present, the Meeting, if called by or upon the requisition of the Members shall stand dissolved and in any other case the Meeting shall stand, adjourned to the same day in the next week or if that day is a public holiday until the next succeeding day which is not a public holiday, at the same time and place or to such other day and at such other time and place as the Board may determine. If at the adjourned meeting also, a quorum is not present within half an hour from the time appointed for holding the Meeting, the Members present shall be a quorum and may transact the business for which the Meeting was called.

Resolution passed at adjourned Meeting	110	Where a resolution is passed at an adjourned Meeting of the Company, the resolution for all purposes is treated as having been passed on the date on which it was in fact passed and shall not be deemed to have been passed on any earlier date.
Chairman of General Meeting.	111	At every General Meeting the Chair shall be taken by the Chairman of the Board of Directors. If at any Meeting, the Chairman of the Board of Directors is not present within ten minutes after the time appointed for holding the Meeting or though present, is unwilling to act as Chairman, the Vice Chairman of the Board of Directors would act as Chairman of the Meeting and if Vice Chairman of the Board of Directors is not present or, though present, is unwilling to act as Chairman, the Directors present may choose one of themselves to be a Chairman, and in default or their doing so or if no Directors shall be present and willing to take the Chair, then the Members present shall choose one of themselves, being a Member entitled to vote, to be Chairman.
Act for resolution sufficiently done or passed by Ordinary Resolution unless otherwise required	112	Any act or resolution which, under the provisions of these Articles or of the Act, is permitted or required to be done or passed by the Company in General Meeting shall be sufficiently done so or passed if effected by an Ordinary Resolution unless either the Act or the Articles specifically require such act to be done or resolution be passed by a Special Resolution.
Business confined to election of Chairman whilst the Chair is vacant	113	No business shall be discussed at any General Meeting except the election of a Chairman whilst the Chair is vacant.
Chairman may adjourn Meeting	114	(a) The Chairman may with the consent of Meeting at which a quorum is present and shall if so directed by the Meeting adjourn the Meeting from time to time and from place to place. (b) No business shall be transacted at any adjourned Meeting other than the business left unfinished at the Meeting from which the adjournment took place (c) When a Meeting is adjourned for thirty days or more notice of the adjourned Meeting shall be given as in the case of an original Meeting. (d) Save as aforesaid, it shall not be necessary to give any notice of an adjournment of or of the business to be transacted at any adjourned Meeting.
How questions are decided at Meetings	115	Every question submitted to a General Meeting shall be decided in the first instance by a show of hands unless the poll is demanded as provided in these Articles.
Chairman's declaration of result of	116	A declaration by the Chairman of the Meeting that on a show of hands, a resolution has or has not been carried either unanimously or by a particular majority, and an entry to that effect in the book containing the minutes of the proceeding of the

voting on show of hands		Company's General Meeting shall be conclusive evidence of the fact, without proof of the number or proportion of votes cast in favour of or against such resolution.
Demand of poll	117	.Before or on the declaration of the result of the voting on any resolution on a show of hands a poll may be ordered to be taken by the Chairman of the Meeting on his own motion and shall be ordered to be taken by him on a demand made in that behalf by any Member or Members present in person or by proxy and holding Shares in the Company which confer a power to vote on the resolution not being less than one-tenth of the total voting power in respect of the resolution, or on which an aggregate sum of not less than fifty thousand rupees has been paid up. The demand for a poll may be withdrawn at any time by the Person or Persons who made the demand.
Time of taking poll	118	A poll demanded on a question of adjournment or election of a Chairman shall be taken forthwith. A poll demanded on any other question shall be taken at such time not being later than forty-eight hours from the time when thedemandwasmadeandinsuchmannerandplaceastheChairmanoftheMeetingmaydirectandtheresultofthepollshallbedeemedtobethe decision of the Meeting on the resolution on which the poll was taken.
Chairman's casting vote	119	In the case of equality of votes, the Chairman shall both on a show of hands and on a poll (if any) have a casting vote in addition to the vote or votes to which he may be entitled as a Member.
Appointment of scrutinizers	120	Where a poll is to be taken, the Chairman of the Meeting shall appoint two scrutinizers to scrutinise the vote given on the poll and to report thereon to him. One of the scrutinizers so appointed shall always be a Member (not being an officer or employee of the Company) present at the Meeting, provided such a Member is available and willing to be appointed. The Chairman shall have power, at any time before the result of the poll is declared, to remove a scrutineer from office and fill vacancies in the office of the scrutineer arising from such removal or from any other cause.
Demand for poll not to prevent transaction of other business	121	The demand for a poll shall not prevent transaction of other business (except on the question of the election of the Chairman and of an adjournment) other than the question on which the poll has been demanded.
Special notice	122	Where by any provision contained in the Act or in these Articles, special notice is required for any resolution, the notice of the intention to move the resolution shall be given to the Company not less than fourteen days before the Meeting at which it is to be moved, exclusive of the day which the notice is served or deemed to be served on the day of the Meeting. The Company shall immediately after the notice of the intention to move any such resolution has been received by it, give its Members notice of the resolution in the same manner as it gives notice of the Meeting, or if that is not practicable shall give them notice thereof, either by advertisement in a newspaper having an appropriate circulation or in any other mode allowed by these presents not less than seven days before the Meeting.
VOTES OF MEMBERS		
Member paying money in advance not to be	123	A Member paying the whole or a part of the amount remaining unpaid on any Share held by him although no part of that amount has been called up, shall not be entitled to any voting rights in respect of moneys so paid by him until the same would but for such payment become presently payable.

entitled to vote in respect thereof		
Restriction on exercise of voting rights of Members who have not paid calls	124	No Member shall exercise any voting rights in respect of any Shares registered in his name on which any calls or other sums presently payable by him have not been paid or in regard to which the Company has exercised any right of lien.
Number of votes to which Member entitled	125	Subject to the provisions of Article 123, every Member of the Company holding any equity share capital and otherwise entitled to vote shall, on a show of hands when present in person (or being a body corporate present by a representative duly authorized) have one vote and on a poll, when present in person (including a body corporate by a duly authorized representative), or by an agent duly authorized under a Power of Attorney or by proxy, his voting right shall be in proportion to his share of the paid-up equity share capital of the Company. Provided however, if any preference shareholder is present at any meeting of the Company, (save as provided in sub-section (2) of Section 47 of Companies Act, 2013) he shall have a right to vote only on resolutions before the Meeting which directly affect the rights attached to his preference shares. A Member is not prohibited from exercising his voting rights on the ground that he has not held his Shares or interest in the Company for any specified period preceding the date on which the vote is taken.
Votes of Members of unsound mind	126	A Member of unsound mind, or in respect of whom order has been made by any Court having jurisdiction in lunacy, may vote, whether on a show of hands or on a poll, by his committee or other legal guardian and any such committee or guardian may, on a poll, vote by proxy.
Votes of joint Members	127	If there be joint registered holders of any Shares, one of such persons may vote at any Meeting personally or by an agent duly authorized under a Power of Attorney or by proxy in respect of such Shares, as if he were solely entitled there to but the proxy so appointed shall not have any right to speak at the Meeting, and if more than one of such joint holders be present at any Meeting either personally or by agent or by proxy, that one of the said persons so present whose name appears higher on the Register of Members shall alone be entitled to speak and to vote in respect of such Shares, but the other holder(s) shall be entitled to vote in preference to a person present by an agent duly authorized under a Power of Attorney or by proxy although the name of such person present by agent or proxy stands first or higher in the Register of Members in respect of such Shares. Several executors or administrators of a deceased Member in whose name Shares stand shall for the purpose of these Articles be deemed joint holders thereof.
Representation of body corporate	128	(a) A body corporate (whether a company within the meaning of the Act or not) may, if it is a Member or creditor of the Company (including a holder of Debentures) authorize such person as it thinks fit by a resolution of its Board of Directors or other governing body, to act as its representative at any Meeting of the Company

		or any class of shareholders of the Company or at any meeting of the creditors of the Company or Debenture-holders of the Company. A person authorized by resolutions aforesaid shall be entitled to exercise the same rights and powers (including the right to vote by proxy) on behalf of the body corporate which he represents as that body could exercise if it were an individual Member, shareholder, creditor or holder of Debentures of the Company. The production of a copy of the resolution referred to above certified by a Director or the Secretary of such body corporate before the commencement of the Meeting shall be accepted by the Company as sufficient evidence of the validity of the said representatives' appointment and his right to vote thereat. (b) Where the President of India or the Governor of a State is a Member of the Company, the President or as the case may be the Governor may appoint such person as he thinks fit to act as his representative at any Meeting of the Company or at any meeting of any class of shareholders of the Company and such a person shall be entitled to exercise the same rights and powers, including the right to vote by proxy, as the President, or as the case may be, the Governor could exercise as a Member of the Company.

DIVIDENDS AND CAPITALISATION OF RESERVES		
Division of profits	209	(a) Subject to the rights of persons, if any, entitled to Shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the Shares in respect whereof the dividend is paid but if and so long as nothing is paid upon any of Share in the Company, dividends may be declared and paid according to the amounts of the Shares; (b) No amount paid or credited as paid on a Share in advance of calls shall be treated for the purpose of this Article as paid on the Shares.
The Company at General Meeting may declare dividend	210	The Company in General Meeting may declare dividends, to be paid to Members according to their respective rights and interest in the profits and may fix the time for payment and the Company shall comply with the provisions of Section 127 of the Companies Act, 2013 but no dividends shall exceed the amount recommended by the Board of Directors. However, the Company may declare a smaller dividend than that recommended by the Board in General Meeting.
Dividends out of profits only	211	No dividend shall be payable except out of profits of the Company arrived at the manner provided for in Section 123 of the Companies Act, 2013.
Interim Dividend	212	The Board of Directors may from time to time pay to the Members such interim dividends as in their judgment the position of the Company justifies.
Debts may be deducted	213	(a) The Directors may retain any dividends on which the Company has a lien and may apply the same in or towards the satisfaction of the debts, liabilities or engagements in respect of which the lien exists.

		(b) The Board of Directors may retain the dividend payable upon Shares in respect of which any person is, under the Transmission Article, entitled to become a Member or which any person under that Article is entitled to transfer until such person shall become a Member or shall duly transfer the same.
Capital paid-up in advance to carry interest, not the right to earn dividend	214	Where the capital is paid in advance of the calls upon the footing that the same shall carry interest, such capital shall not, whilst carrying interest, confer a right to dividend or to participate in profits.
Dividends in proportion to amounts paid-up	215	All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the Shares during any portion or portions of the period in respect of which the dividend is paid, but if any Share is issued on terms provided that it shall rank for dividends as from a particular date such Share shall rank for dividend accordingly.
No Member to receive dividend while indebted to the Company and the Company's right in respect thereof	216	No Member shall be entitled to receive payment of any interest or dividend or bonus in respect of his Share or Shares, whilst any money may be due or owing from him to the Company in respect of such Share or Shares (or otherwise however either alone or jointly with any other person or persons) and the Board of Directors may deduct from the interest or dividend to any Member all such sums of money so due from him to the Company.
Effect of transfer of Shares	217	A transfer of Shares shall not pass the right to any dividend declared therein before the registration of the transfer.
Dividend to joint holders	218	218.Any one of several persons who are registered as joint holders of any Shares may give effectual receipts for all dividends or bonus and payments on account of dividends in respect of such Shares.
Dividend how remitted	219	The dividend payable in cash may be paid by cheque or warrant sent through post directly to registered address of the shareholder entitled to the payment of the dividend or in case of joint holders to the registered address of that one of the joint holders who is first named on the Register of Members or to such person and to such address as the holder or joint holders may in writing direct. The Company shall not be liable or responsible for any cheque or warrant or pay slip or receipt lost in transit or for any dividend lost, to the Member or person entitled thereto by forged endorsement of any cheque or warrant or forged signature on any pay slip or receipt or the fraudulent recovery of the dividend by any other means.
Notice of dividend	220	Notice of the declaration of any dividend whether interim or otherwise shall be given to the registered holders of Share in the manner herein provided.
Reserves	221	The Directors may, before recommending or declaring any dividend set aside out of the profits of the Company such sums as they think proper as reserve or reserves, which shall, at the discretion of the Directors, be applicable for meeting contingencies or for any other purposes to which the profits of the Company may be properly

		applied and pending such application, may at the like discretion, either be employed in the business of the Company or be invested in such investments (other than Shares of the Company) as the Directors may from time to time think fit.
Dividend to be paid within time required by law.	222	The Company shall pay the dividend, or send the warrant in respect thereof to the shareholders entitled to the payment of dividend, within such time as may be required by law from the date of the declaration unless:-where the dividend could not be paid by reason of the operation on any law; or where a shareholder has given directions regarding the payment of the dividend and those directions cannot be complied with; or where there is dispute regarding the right to receive the dividend; or where the dividend has been lawfully adjusted by the Company against any sum due to it from shareholder; or where for any other reason, the failure to pay the dividend or to post the warrant within the period aforesaid was not due to any default on the part of the Company.
Unpaid or unclaimed dividend	223	Where the Company has declared a dividend but which has not been paid or claimed within 30 days from the date of declaration, to any shareholder entitled to the payment of dividend, the Company shall within seven days from the date of expiry of the said period of thirty days, transfer the total amount of dividend which remains unpaid or unclaimed within the said period of thirty days, to a special account to be opened by the Company in that behalf in any scheduled bank, to be called "Aegeus (year)Unpaid Dividend Account". Any money transferred to the unpaid dividend account of a company which remains unpaid or unclaimed for a period of seven years from the date of such transfer, shall be transferred by the company to the Fund known as Investor Education and Protection Fund established under section 125 of the Companies Act,2013. No unclaimed or unpaid divided shall be forfeited by the Board.
Set-off of calls against dividends	224	Any General Meeting declaring a dividend may on the recommendation of the Directors make a call on the Members of such amount as the Meeting fixes but so that the call on each Member shall not exceed the dividend payable to him, and so that the call be made payable at the same time as the dividend, and the dividend may, if so arranged between the Company and the Members, be set off against the calls.
Dividends in cash	225	No dividends shall be payable except in cash, provided that nothing in this Article shall be deemed to prohibit the capitalisation of the profits or reserves of the Company for the purpose of issuing fully paid up bonus Shares or paying up any amount for the time being unpaid on any Shares held by Members of the Company.
Capitalisation	226	1) The Company in General Meeting may, upon the recommendation of the Board, resolve: (a) That is desirable to capitalise any part of the amount for the time being standing to the credit of the Company's reserve accounts or to the credit of the profit and loss account or otherwise available for distribution, and (b) That such sum be accordingly set free for distribution in the manner specified in clause amongst the Members who would have been entitled thereto, if distributed by way of dividend and in the same proportion. 2) The sum aforesaid shall not be paid in cash but shall be applied, subject to the provisions contained in clause (3) either in or towards; (a) paying up any amount for the time being unpaid on any Shares held by such Members respectively, or (b) paying up in full unissued Shares of the Company to be allocated and

		distributed, credited as fully paid up, to and amongst Members in the proportion aforesaid, or (c) partly in the way specified in sub clause (a) and partly in that specified in sub-clause(b) 3) A security premium account and capital redemption reserve account may, for the purpose of this Article, only be applied in the paying up of un issued Shares to be issued to Members of the Company as fully paid bonus shares.
Board to give effect	227	The Board shall give effect to the resolution passed by the Company in pursuance of above Article.
Fractional certificates	228	1) Whenever such a resolution as aforesaid shall have been passed, the Board shall; a. make all appropriations and applications of the undivided profits resolved to be capitalized thereby and all allotments and issues of fully paid Shares and b. Generally do all acts and things required to give effect thereto. 2) The Board shall have full power: a. to make such provision by the issue of fractional cash certificate or by payment in cash or otherwise as it thinks fit, in the case of Shares becoming distributable in fractions, also b. to authorize any person to enter, on behalf of all the Members entitled thereto, into an agreement with the Company providing for the allotment to them respectively, credited as fully paid up, of any further Shares to which they may be entitled upon such capitalization or (as the case may require) for the payment by the Company on their behalf by the application thereof of the respective proportions of the profits resolved to be capitalized of the amounts remaining unpaid on their existing Shares. 3) Any agreement made under such authority shall be effective and binding on all such Members. 4) That for the purpose of giving effect to any resolution, under the preceding paragraph of this Article, the Directors may give such directions as may be necessary and settle any question or difficulties that mayariseinregardtoanyissueincludingdistributionofnewSharesandfractional certificates as they think fit.
